NOTICE OF TRAINING WORKSHOP

FOR DISCUSSION OF IMPLEMENTATION OF NESHAP ZZZZ: STATIONARY RECIPROCATING INTERNAL COMBUSTION ENGINES (RICE NESHAP)

The California Air Resources Board (ARB) and the San Diego County Air Pollution Control District (District) will hold a training workshop to discuss requirements and local implementation of the National Emission Standards for Hazardous Air Pollutants (NESHAP) Subpart ZZZZ at Major Sources, applicable to stationary reciprocating internal combustion engines (RICE).

DATE: **January 30, 2013**

TIME: **Major Source Workshop and ARB Course 304.2 – 1:30pm-5:00pm**

PLACE: **San Diego County Operations Center**
5500 Overland Avenue, Room 121
San Diego, CA 92123

If you plan to attend the workshop, please register via the ARB Compliance Training Website:
https://ssl.arb.ca.gov/training/ctscalendar.php

The applicable requirements of this NESHAP depend on whether the RICE is located at an Area Source or a Major Source. A Major Source is any facility that emits or has the potential to emit at least 10 tons per year of an individual hazardous air pollutant (HAP) or 25 tons per year of combined HAPs. An Area Source is any facility that is not a Major Source. Most facilities are Area Sources. An additional training workshop for Area Sources is scheduled for January 30, 2013 from 8:30am-12:00pm.

Outreach materials for NESHAP ZZZZ, including implementation information, training materials, and other informational documents, can be found at the following link: http://www.epa.gov/ttn/atw/rice/ricepg.html

Regulation text can be found in the Code of Federal Regulations, Title 40, Part 63, Subpart ZZZZ (beginning at 40 CFR 63.6580): http://www.ecfr.gov
