WRITTEN COMMENT FORM

I strongly oppose all four of the Solar projec as described in the Soitec Solar PIER. I oppose these proje because of the significant impacts to the natural environment, sensitive biological and cultural resources, a negative impact they will have on adjacent residenti Quality of life, Property values, wells. I am also concern about the placement of large scale solar farms in a wild Prone area that has limited fire fighting capabilities. These huge projects do not fit our rural landscapes.

(Attach additional pages as needed)

For these reasons, I support the No Project alternative listed in Soitec PIER
