AUDITOR AND CONTROLLER  
1600 PACIFIC HIGHWAY, SAN DIEGO, CALIFORNIA 92101-2478

October 8, 1999

The Honorable Board of Supervisors  
County of San Diego  
San Diego County Administration Center  
San Diego, California 92101

The annual financial report of the County of San Diego for the fiscal year ended June 30, 1999, has been prepared by the Chief Financial Officer/Auditor and Controller and is submitted in compliance with Section 25253 of the Government Code of the State of California. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with County staff. The report has been prepared in accordance with generally accepted accounting principles and is organized into three major sections. The introductory section consists of this letter and the organizational structure of the County. The financial section provides the financial statements for the fund types and account groups of the County. Within this section, the general purpose statements and notes thereto for all fund types and account groups are presented first, followed by statements and schedules for individual fund types and account groups. The statistical section is the final section of the report and consists of various tables and schedules depicting trends and miscellaneous relevant data concerning County finances and demographics.

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the County for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 1998. In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to program standards. Such a report must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one-year only. We believe our current report continues to conform to the Certificate of Achievement program requirements, and we are submitting it to GFOA.

The general purpose financial statements include the activities of the various fund types and account groups of the County and certain other entities for which the Board of Supervisors are financially accountable as defined by the Governmental Accounting Standards Board. Accordingly, all fund types and account groups of the County are reported herein as well as the operations of the following entities:

- County Service Areas
- Flood Control Districts
- Lighting Maintenance Districts
- Air Pollution Control District
- County of San Diego Housing Authority
- Sanitation Districts
- San Diego County Redevelopment Agency
- San Diego County Capital Asset Leasing Corporation (SANCAL)
- San Diego County Employees' Retirement Association (SDCERA)

### **GOVERNMENTAL STRUCTURE, LOCAL ECONOMIC CONDITION AND OUTLOOK**

The County was incorporated on February 18, 1850, and functions under a Charter adopted in 1933, as subsequently amended. A five-member Board of Supervisors elected to four-year terms in district nonpartisan elections governs the County. There are 18 incorporated cities in the County and a large number of unincorporated communities. The County provides a full range of public services including public assistance, judicial, police protection, detention and correction, health and sanitation, recreation and others.

The San Diego Economic Research Bureau indicates that the regional economy is expected to grow at a projected growth rate of 3.7% in Gross Regional Product (GRP), net of inflation, through December 1999 as compared to a 4.5% change in 1998. Although the rate of growth for GRP has slowed from the previous year, economic expansion has continued for a sixth straight year. The forecasted GRP growth rate for 1999 will also be more than the 2.6% growth rate projected for the nation's Gross Domestic Product. The gains in GRP have been the result of increases in industries relating to high tech, entertainment, foreign trade, tourism and professional services. San Diego County has emerged as one of the nation's leading telecommunications technology centers due primarily to locally headquartered Qualcomm, which recently joined the ranks of the Standard & Poor's index of the 500 most commonly held stocks. Other growth areas include computers and software, biotechnology and medical instruments. Additionally, San Diego still maintains a strong military presence and is currently the Navy's principal location for West Coast operations. Defense spending accounts for approximately 10.7% of GRP. New housing construction is expected to increase to approximately 13,500 units, as compared to 12,434 units in 1998. This projected increase will accommodate approximately one-half the demand needed for current population growth with the result that housing prices for existing homes have increased. Housing prices are projected to increase 8.2% in 1999, after adjusting for inflation, compared to 6.0% in 1998. The population is expected to increase by 3.3% or 58,000 persons in 1999. This compares with previous gains of 65,731 in 1997 and an estimated 60,000 in 1998. Employment for 1999 is expected to rise 1.6% compared to a 1.7% increase in 1998. The unemployment rate at the end of fiscal year 1998/99 was 3.4% as compared to 3.6% the previous fiscal year. Per the County Assessor, property tax assessed valuation in fiscal year 1998/99 increased 7.4% from fiscal year 1997/98 and is more than the previous year's increase of 2.9%.

## **MAJOR INITIATIVES**

County operations in the last fiscal year were driven by the related financial tenets of (1) structurally balanced revenues and expenditures and (2) the use of one-time resources for one-time expenditures. Over the last few years, these guidelines, under the umbrella of the General Management System, have been utilized throughout the County planning process and resulted in the first-time adoption of a Five-Year Strategic Plan and a Two-Year Operational Plan.

In FY 1998/99, as a result of countywide cost control, resource management, and the healthy local economy, the County General Fund revenues exceeded operating expenditures. Consequently, financial reserves increased and plans initiated to use them for one-time requirements, such as office automation and technology upgrades, deferred major maintenance, and new and ongoing capital projects. One use of these reserves is the restoration of the County Administration Center, a nationally registered historical building, to include new stucco and interior modernization. Also, this year the County developed a comprehensive Capital Improvement Plan (CIP), a two-year plan to improve existing infrastructure and provide seed money for new projects. Plans for new libraries and for a new Central Animal Shelter have been included in the CIP, along with substantial improvements to Sheriff Department facilities.

The major non-financial initiative of this fiscal year has been the improvement of services to the residents and taxpayers of San Diego County. All business and support functions were charged by the Board of Supervisors to improve services with no increases in net costs. In support of this effort, the Health and Human Services Agency underwent a massive reorganization to deliver fully integrated health and social services in a regional structure. Other examples of improved service levels include the County Library System, which is staying open nearly 7,000 additional hours annually, and the Registrar of Voters that was staffed on weekends prior to elections. Additionally, service delivery improvement has occurred as a result of the automation of various County functions, such as the use of the Internet for Property Tax payments and recorded document requests.

Competition and reengineering of County functions were also a focus of the County's Agency/Groups. Departments were reorganized to reallocate resources from line to staff functions and to cut overhead in general. For example, the Probation Department cut management and overhead costs in order to hire 55 new probation officers. Also, General Services Fleet staff successfully competed against private companies to retain the vehicle repair and maintenance functions in-house.

In addition to the initiative for CIP, future initiatives include outsourcing the County's Information Technology (IT) functions such as telecommunications, IT hardware components, systems maintenance, and financial systems. The County expects to finalize a comprehensive IT contract by the end of 1999.

## **FINANCIAL INFORMATION**

### Accounting System and Budgetary Control

The County of San Diego maintains its principal fund accounting records using a modified accrual basis of accounting, as explained in the Notes to Financial Statements, and follows the accounting practices for governmental units which have been recommended by the Governmental Accounting Standards Board.

Using the County's automated accounting system, the Chief Financial Officer/Auditor and Controller restricts each department's expenditures at the object level to the amount of that department's budgeted appropriations for the year. Changes in appropriations must be approved by the Board of Supervisors as a transfer from contingency reserve, transfer from another budgeted unit, or as an appropriation of unanticipated or overrealized revenue identified to a specific source. No budget unit is permitted to spend more than its available appropriations. Any appropriations remaining at the end of the fiscal year, which have not been specifically committed, automatically lapse to the unreserved fund balance. The fund balance along with projected revenues become available for appropriation the following year.

### Internal Accounting Controls

The Chief Financial Officer/Auditor and Controller is charged with maintaining adequate systems of internal control sufficient to ensure reliability and validity of financial reporting in accordance with generally accepted accounting principles and general law. This is accomplished through the application of a series of automated accounting controls and administrative procedures designed to ensure the integrity of County transactions and to safeguard County assets. This internal control structure is subject to periodic evaluation by the internal audit staff of the County. Accordingly, the Chief Financial Officer/Auditor and Controller represents that the current systems of internal control adequately safeguard County assets and provide reasonable assurance over the fairness of presentation of this report.

### General Government Functions

The following schedules present a summary of revenues and other financing sources and a summary of expenditures and other financing uses for the County's General, Special Revenue, Debt Service, and Capital Projects funds. Amounts are stated in millions of dollars.

Revenue for general County functions remained approximately the same as the prior year although there were variances between categories of revenues. Property taxes increased \$32 million from the previous year due primarily to increases in assessed valuation and increased resales of existing homes. Use of Money and Property decreased \$8 million due to a one-time lease payment for the East Mesa Detention Facility received in the prior year and lower interest revenue earned on smaller Tax and Revenue Anticipation Notes' cash balances. Federal Aid decreased \$96 million from the previous year primarily reflecting reductions in food stamps and decreased welfare case loads in assistance programs relating to Federal welfare reform. Other governmental aid revenue increased \$22 million primarily reflecting revenues relating to juvenile dependency received from independent trial courts. Other revenue increased \$12 million from the previous year. The major part of this increase was due to the employee personal computer loan program revenue and the contributions from trial courts resulting from the enactment of the Trial Court Funding Act of 1997. Operating transfers in and residual equity transfers in declined significantly from the previous fiscal year due to prior year completion of capital projects, e.g., central detention facility, and one time transfers relating to the sale of the Solid Waste System in fiscal year 1997/98. The major sources of funding to the County continued to be the State and Federal governments, collectively providing 64.9% of all revenue as compared to 68.5% in the previous year. Long-term debt proceeds are explained under "Debt Administration."

Expenditures and encumbrances for FY 1998/99 showed a slight decrease from the previous year. Public protection expenditures increased \$31 million primarily because of salary increases and increased staffing and other costs required to staff the new detention facility, a new communications center and increased child support enforcement activities. Public ways and facility expenditures increased \$14 million from the previous year due to increased road construction and maintenance. Health and Sanitation expenditures increased \$25 million due primarily to a \$3 million increase in inmate medical costs, a \$6 million increase for mental health programs and a \$16 million cost shift to the health services function as a result of the merger of the Department of Social Services with the Department of Health Services. Public Assistance decreased \$113 million from the previous year which reflects the elimination of federal food stamp pass through funds, decreased public assistance spending resulting from State and Federal welfare reform

measures and a shift in program-related costs to the health services function as previously described. Capital project expenditures decreased \$44 million due to completion of construction improvements to County regional centers in the prior year.

General Fund unreserved fund balance amounted to approximately \$210 million at June 30, 1999, an increase of \$54 million from the previous year. This increase was primarily attributable to an increase in discretionary revenues, e.g. property taxes, which offset revenue losses in Federal assistance, coupled with a reduction in public assistance related costs.

#### Results Of Operations - Enterprise Funds

During fiscal year 1998/99, these funds received total revenue and net operating transfers of \$41 million and incurred expenses of \$38 million resulting in a net gain of \$3 million. At June 30, 1999, these funds had a \$82 million balance in retained earnings. The major share of this balance included \$70 million in six sanitation districts and \$12 million in the Airport Enterprise Fund.

#### Results Of Operations - Pension Trust Fund

Contributions to the SDCERA for fiscal year 1998/99 totaled \$44 million, while income from investment was \$396 million, making total additions of \$440 million. After payments of retirement benefits and investment expenses of \$136 million, net assets were increased by \$304 million over that of the previous fiscal year. The total net assets held in trust for pension benefits as of June 30, 1999 was \$3,810 million.

#### Debt Administration

The County has no outstanding general obligation or revenue bonds, although in accordance with generally accepted accounting principles, in particular Governmental Accounting Standards Board Statement No. 14, the County "reporting entity" as reflected in this financial report has the following outstanding bonded debt:

Proprietary Fund Revenue Bonds	\$ 65,000
Pension Obligation Bonds	373,220,000
Redevelopment Agency Revenue Bonds	4,960,000
Certificates of Participation (COPs)	<u>473,818,000</u>
Total	\$ <u>852,063,000</u>

Proprietary fund revenue bonds are legal obligations of various sanitation districts. The Pension Obligation Bonds represent obligations of the County to fund the prior years' unfunded actuarial accrued liability of the SDCERA pension trust fund. The Redevelopment Agency revenue bonds are obligations of the Agency used to finance the Agency's capital improvements, while the COPs are legal obligations of a non-profit corporation formed for the sole purpose of financing the acquisition or construction of County facilities. Interest expense to maturity on bonded debt is projected at \$346 million. Short-term financings consisted of Tax and Revenue Anticipation Notes (TRANS) for \$175 million and an outstanding balance of \$56 million in short-term Teeter Obligation Commercial Paper Notes. The Teeter Obligation notes are secured by future collections of delinquent property taxes and were used to provide various taxing agencies the amount of their property taxes without regard to such delinquencies. Credit ratings for the County's long-term COPs and Pension Obligation Bonds remained unchanged during fiscal year 1998/99.

However, these ratings were upgraded in the subsequent fiscal year to A1 and Aa3, respectively, from Moody's and to A+ and AA-, respectively from Standard & Poor's. Short-term Tax and Revenue Anticipation Notes continued to receive the highest ratings from both Moody's and Standard & Poor's Corporation.

On January 1, 1999, SANCAL issued \$73 million in COPs with an average interest rate of 4.6% to advance refund \$72 million of lease revenue bonds issued by the San Diego Regional Building Authority in July 1993. The lease revenue bonds of the Authority were secured by capital leases between the County and the Authority. The refunding resulted in a debt payment reduction of \$2 million over the next 24 years.

Certain buildings and equipment are being acquired under various long-term capital leases (lease-purchases). Excluding those leases represented by the COPs noted above, the outstanding obligation for these leases at June 30, 1999, totaled \$86 million. Assuming all such capital leases are held to full term, the total projected interest expense would be an additional \$48 million.

#### Cash Management

Under a pooled-money concept, the County invests all idle cash in various securities with maturities planned to coincide with projected needs while attempting to maximize yield. The portfolio during the year was as follows: Government Securities, 30%; Repurchase Agreements, 12%; Negotiable Certificates of Deposit, 31%; Commercial Paper, 14%; Medium Term Notes, 8%; Bank Notes, 3%; Mutual Funds, 2%. Time deposits in various depositories were fully collateralized in accordance with State statutes which require depositories having public funds on deposit to maintain a pool of securities with the agent of the depository having a market value of at least 10% in excess of the total amount of all public funds on deposit.

The average yield rate on pooled cash investments was 4.25%.

#### Risk Management

The County is self-insured for premises liability at medical facilities, medical malpractice, errors and omissions, false arrest, forgery, general liability and workers' compensation. The County purchases insurance for property damage, certain casualty claims, and loss of money up to \$10,000 per selected site locations. The County's uninsured risk management activities are accounted for in an Internal Service Fund (ISF). During FY 1998/99, fund equity increased \$19 million in the Public Liability Insurance ISF while fund equity for the Workers' Compensation Fund increased \$12 million. The liability for unpaid claims decreased by \$11 million in the Public Liability ISF and by \$8 million in the Workers' Compensation ISF. These amounts included estimates for claims incurred but not yet reported and are based on actuarial reviews conducted in 1999. Funding these liabilities must remain a priority if the County is to be truly self-insured. In addition, there is a potential gross liability of \$67 million to \$123 million which could result if unfavorable adjudication were rendered for pending legal actions. At June 30, 1999, there are 39 litigation cases representing the probable and potential public liabilities discussed above. The range of litigation cases is from \$100 thousand to \$100 million.

## Independent Auditors' Report

The Honorable Board of Supervisors of the  
County of San Diego:

We have audited the accompanying general purpose financial statements of the County of San Diego, California (the County) as of and for the year ended June 30, 1999, listed in the accompanying table of contents. These general purpose financial statements are the responsibility of the management of the County. Our responsibility is to express an opinion on these general purpose financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the general purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the general purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the general purpose financial statements referred to above present fairly, in all material respects, the financial position of the County of San Diego, California at June 30, 1999, and the results of its operations and the cash flows of its proprietary fund types, and the changes in net assets of its pension trust fund and investment trust fund, for the year then ended in conformity with generally accepted accounting principles.

During 1999, the County of San Diego, California, adopted the provisions of Governmental Accounting Standards Board Statement No. 32, "Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans."

In accordance with Government Auditing Standards, we have also issued our report dated October 8, 1999 on our consideration of the County's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants.

The Year 2000 supplementary information in Schedule 4 is not a required part of the general purpose financial statements, but is supplementary information required by the Governmental Accounting Standards Board, and we did not audit and do not express an opinion on such information. Further, we were unable to apply to the information certain procedures prescribed by professional standards because of the nature of the subject matter underlying the disclosure requirements and because sufficiently specific criteria regarding the matters to be disclosed have not been established. In addition, we do not provide assurance that the County is or will become Year 2000 compliant, that the County's Year 2000 remediation efforts will be successful in whole or in part, or that parties with which the County does business are or will become Year 2000 compliant.

Our audit was conducted for the purpose of forming an opinion on the general purpose financial statements taken as a whole. The combining and individual fund and account group financial statements and schedules listed in the accompanying table of contents, which are also the responsibility of the management of the County, are presented for purposes of additional analysis and are not a required part of the general purpose financial statements of the County. Such additional information has been subjected to the auditing procedures applied in our audit of the general purpose financial statements and, in our opinion, is fairly presented in all material respects when considered in relation to the general purpose financial statements taken as a whole.

The introductory and statistical sections are presented for purposes of additional analysis and are not a required part of the general purpose financial statements of the County. Such additional information has not been subjected to the auditing procedures applied in the audit of the general purpose financial statements, and, accordingly, we express no opinion on it.

# FINANCIAL REPORT OF SAN DIEGO COUNTY

---

## NOTES TO COMBINED FINANCIAL STATEMENTS YEAR ENDED JUNE 30, 1999

### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the County of San Diego (the "County") conform to generally accepted accounting principles (GAAP) applicable to governmental units. The following is a summary of the more significant of such policies.

#### A. THE FINANCIAL REPORTING ENTITY

The County of San Diego is a political subdivision of the State of California (the "State") charged with general governmental powers and governed by an elected five-member Board of Supervisors (the "Board"). As required by generally accepted accounting principles, these financial statements present the County of San Diego (the primary government) and its component units. The component units, discussed in Note 1B are included in the County's reporting entity because of the significance of their operational or financial relationships with the County.

#### B. INDIVIDUAL COMPONENT UNIT DISCLOSURES

Blended component units are listed below. The first seven component units are legally separate entities which are governed by the San Diego County Board of Supervisors and are reported as if they were part of the primary government because they benefit the County exclusively. The San Diego County Capital Asset Leasing Corporation (SANCAL) is a non-profit corporation governed by a five-member Board of Directors which is appointed by the County Board of Supervisors. SANCAL is reported as if it was part of the primary government because its sole purpose is to finance the acquisition of County buildings and equipment. The San Diego County Employees Retirement Association (SDCERA) is governed by a nine-person Board of Directors of which four members are appointed by the County Board of Supervisors. SDCERA is a legally separate entity reported as if it were part of the primary government, because it exclusively benefits the County by providing pensions for retired County employees. Separate financial statements for the individual component units described above may be obtained from the County Chief Financial Officer/Auditor and Controller.

The first five entities listed below are included as special revenue funds, the sanitation districts as enterprise funds, and the Redevelopment Agency as a capital project fund and debt service fund. SANCAL is included as a special revenue fund, capital project fund and debt service fund. SDCERA is included as a pension trust fund.

- County Service Areas
- Flood Control Districts
- Lighting Maintenance Districts
- Air Pollution Control District
- County of San Diego Housing Authority
- Sanitation Districts
- San Diego County Redevelopment Agency
- San Diego County Capital Asset Leasing Corporation
- San Diego County Employees' Retirement Association

C. BASIS OF PRESENTATION

The financial transactions of the County are recorded in individual funds and account groups. The various funds and account groups are reported by type in the financial statements. Amounts in the "Totals-Memorandum Only" columns in the financial statements represent a summation of the combined financial statement line-items of the fund types and account groups and are presented only for analytical purposes. The summation includes fund types and account groups that use different bases of accounting, both restricted and unrestricted amounts, and the caption "amount to be provided," which is not an asset in the usual sense. Consequently, amounts shown in the "Totals-Memorandum Only" columns are not comparable to a consolidation and do not represent the total resources available or total revenues and expenditures/expenses of the County.

The County uses the following fund categories, fund types, and account groups:

Governmental Fund Types

General Fund - To account for all financial resources except those required to be accounted for in another fund. The general fund is the County's operating fund.

Special Revenue Funds - To account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. Included in these funds are the general funds of various component entities as described in Note 1B.

Debt Service Fund - To account for the accumulation of resources for the payment of principal and interest on general long-term debt.

Capital Project Funds - To account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary fund types).

Proprietary Fund Types

Enterprise Funds - To account for operations (a) that are financed and operated in a manner similar to private business enterprises, where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

Internal Service Funds - To account for the financing of goods or services provided by one department to other departments of the County, or to other governments, on a cost-reimbursement basis.

Fiduciary Fund Types

Trust and Agency Funds – To account for assets held by the County as a trustee or as an agent for individuals, private organizations, other governments and/or other funds. These include the pension trust fund (San Diego County Employees' Retirement Association), investment trust fund and agency funds.

Account Groups

General Fixed Assets Account Group - To account for all fixed assets of the County, except those accounted for in the proprietary-fund types.

General Long-Term Debt Account Group - To account for all long-term obligations of the County, except those accounted for in the proprietary-fund types.

D. BASIS OF ACCOUNTING

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets. Agency funds are custodial in nature and do not involve measurement of results of operations.

All proprietary funds, the pension trust fund and the investment trust fund are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the balance sheet. Fund equity for the proprietary funds (i.e., net total assets) is segregated into contributed capital and retained earnings components. Proprietary fund-type operating statements present increases (e.g., revenues) and decreases (e.g., expenses) in net total assets. Financial Accounting Standards Board Statements issued after November 30, 1989, are not applied in reporting proprietary fund operations.

Governmental and Agency fund types are accounted for on the modified accrual basis of accounting. Revenues are recognized when susceptible to accrual, (i.e., both measurable and available). Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. In applying the susceptible to accrual concept to intergovernmental revenues, the legal and contractual requirements of the individual programs are used as guidance. Revenues which are accrued include property taxes, sales tax, interest, and state and federal grants and subventions.

Expenditures are generally recognized when the related fund liability is incurred. Exceptions to this general rule include: (1) principal and interest on long-term debt which is recognized when due; (2) prepaid expenses which are reported as current period expenditures, rather than allocated; and (3) accumulated unpaid vacation, sick leave, and other employee benefits which are reported in the period due and payable rather than in the period earned by employees.

Proprietary fund types, the pension trust fund and the investment trust fund are accounted for on the accrual basis of accounting. Their revenues are recognized in the period earned and expenses are recognized in the period incurred. There are no unbilled utility service receivables for the proprietary fund types.

E. PROPERTY TAXES

Real property taxes are levied on October 15 against owners of record at January 1. The taxes are due in two installments on November 1 and February 1 and become delinquent after December 10 and April 10, respectively. At January 1 all property is subject to lien for unpaid taxes. Secured (real) property taxes which are delinquent and unpaid as of June 30 are declared to be tax defaulted and are subject to redemption penalties, costs and interest when paid. If the delinquent taxes are not paid at the end of five (5) years, the property may be sold at public auction. Delinquent secured property taxes of all taxing jurisdictions and the subsequent collections of these delinquent taxes are held in an agency fund.

F. ASSETS, LIABILITIES, AND FUND EQUITY

Cash and Investments

Investments in County funds are stated at fair value. Securities which are traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Short-term investments in the Pension Trust Fund are reported at cost, which approximates fair value. The fair value of Pension Trust Fund real estate investments is based on independent appraisals. Investments of the Pension Trust Fund that do not have an established market are reported at estimated fair value.

For purposes of reporting cash flows, all amounts reported as "Equity in Pooled Cash and Investments," "Collections in Transit," and "Imprest Cash" are considered cash equivalents. Pooled cash and investment carrying amounts represent monies deposited in the County Treasurer's cash management pool and are similar in nature to demand deposits, (i.e., funds may be deposited and withdrawn at any time without prior notice or penalty). Allocations of assets and liabilities to individual funds related to reverse repurchase agreements are not considered cash equivalents for purposes of cash flow reporting.

Inventories

Inventories, which consist of expendable supplies, are stated at average cost. They are accounted for as expenditures at the time of purchase and reported in the balance sheet of the General Fund and the Special Revenue Funds of the County Library and Special Districts as an asset with an offsetting reserve. Inventory held by the Road Fund, a special revenue fund, and the proprietary fund types is carried at average cost and is expended when consumed.

Fixed Assets

General fixed assets are recorded as expenditures in the governmental fund types at time of purchase. These assets are capitalized at cost in the General Fixed Assets Account Group (GFAAG). The County has elected not to capitalize interest costs during the construction phase for assets capitalized in the GFAAG but does capitalize such interest, net of interest earned on invested proceeds over the same period, for assets capitalized in proprietary funds. In the case of

## FINANCIAL REPORT OF SAN DIEGO COUNTY

---

acquisitions through gifts or contributions, such assets are recorded at fair market value at the time received. No depreciation has been provided on general fixed assets. Fixed assets consisting of certain improvements other than buildings, including roads, bridges, curbs and gutters, streets and sidewalks, and drainage systems have not been capitalized. Such assets normally are immovable and of value only to the County; therefore, the purposes of stewardship and cumulative accountability for capital expenditures are satisfied without recording these assets. Proprietary fund type fixed assets are reported in those funds at cost or estimated fair market value at time of donation.

Depreciation is charged to operations of proprietary funds over the fixed assets' estimated useful lives using the straight-line method for structures and improvements, and the hours/miles-of-service method for equipment. The estimated useful lives are as follows:

Structure and Improvements	5-50 years
Equipment	4-20 years

### Long-Term Liabilities

Long-term liabilities expected to be financed with resources from governmental fund types are accounted for in the General Long-Term Debt Account Group. Long-term liabilities of all proprietary fund types are accounted for in the respective funds.

Amounts recorded as accumulated leave benefits include an amount representing salary-related payments such as the employer's share of social security and medicare taxes associated with payments made for such compensated absences. Accumulated leave benefits including vacation, sick leave, and compensatory time worked in the amount of approximately \$65.2 million for the governmental fund types as of June 30, 1999, is recorded in the General Long-Term Debt Account Group. These amounts would not be expected to be liquidated from expendable available financial resources but would be expected to be liquidated in future years as employees elect to use these benefits as prescribed by Civil Service rules and regulations.

### Reservation/Designation of Fund Equity

Reserves represent those portions of fund equity not appropriable for expenditure or legally segregated for a specific future use. Designated fund balances represent tentative plans for future use of financial resources.

### Comparative Data/Totals-Memorandum Only

Comparative data for the prior year has been presented in certain of the accompanying financial statements in order to provide an understanding of changes in the County's financial position and operations. Also, certain of the prior year amounts have been reclassified to conform with the current year financial statement presentations.

2. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. BUDGETARY INFORMATION

General Budget Policies

An operating budget is adopted each fiscal year for the governmental funds. Annual budgets are not required to be adopted for SANCAL, a non-profit corporation. Accordingly, Special Revenue, Debt Service, and Capital Projects Funds for this entity are not included in the accompanying Combined Statement of Revenues, Expenditures and Changes in Fund Balances - (Budget and Actual) NonGAAP Budgetary Basis. Unencumbered appropriations for the governmental funds lapse at fiscal year-end. Encumbered appropriations are carried forward to the subsequent fiscal year. Budgets for the governmental funds are adopted on a basis of accounting which is different from generally accepted accounting principles.

The major areas of differences are as follows:

Encumbrance accounting is employed in governmental funds. Encumbrances (e.g., purchase orders, contracts) are reported as budgeted expenditures in the year the commitment to purchase is incurred. For GAAP purposes, encumbrances outstanding at fiscal year-end are reported as reservations of fund balances and do not constitute expenditures and liabilities, because the appropriations for these commitments will be carried forward and the commitments honored in the subsequent fiscal year.

Long-term capital lease obligations are not budgeted as an expenditure and source of funds in the year the asset is acquired. Under a GAAP basis, such obligations are included as an expenditure and source of funds in the year the asset is acquired.

Loans and deposits to other agencies, if any, and their subsequent repayments are budgeted as expenditures and revenues, respectively. Under a GAAP basis, these items are not recognized as expenditures and revenues.

On a budgetary basis, unrealized gains and losses on the fair value of investments are not recognized. For GAAP purposes, such gains or losses are recognized.

Expenditures may not legally exceed budgeted appropriations at the expenditure object level within each department. Departmental intrafund expenditure transfers do not have the budgetary status of legal appropriations. Therefore, variances between estimated transfers and actual transfers are not displayed in the general purpose financial statements, but are displayed as a general fund schedule within the Comprehensive Annual Financial Report. All amendments to the adopted budget require Board approval and, as such, reported budget figures are as originally adopted or subsequently amended by the Board. Supplemental appropriations during the year ended June 30, 1999, amounted to \$114.1 million in the general fund.

3. DETAIL NOTES ON ALL FUNDS AND ACCOUNT GROUPS

A. EQUITY IN POOLED CASH AND INVESTMENTS, CASH, INVESTMENTS, AND OBLIGATIONS UNDER REVERSE REPURCHASE AGREEMENTS

The County maintains a cash and investment pool that is available for use by all funds of the County as well as the funds of other agencies for which the County Treasury is the depository. The San Diego County Treasurer issues a separate annual financial report on the County Investment Pool. This report may be obtained by writing to the San Diego County Treasurer, Room 112, County Administration Center, 1600 Pacific Highway, San Diego, California, 92101 or by calling (619) 531-5211.

Each fund type's portion of this pool is displayed on the combined balance sheet as "Equity in Pooled Cash and Investments." Interest earned on the pooled funds is accrued in a pooled interest apportionment fund and is allocated based on the average daily cash balances of the participating funds. State law requires that interest income related to certain funds be considered income of the general fund of the County. Such interest has been recorded as revenue in the general fund.

"Cash with Fiscal Agents," represents amounts on deposit with trustees for the SANCAL, San Diego County Housing Authority, SDCERA, County revolving funds, and for repayment of General Fund Tax and Revenue Anticipation Notes.

"Investments," represents the Inactive Waste Site Management Fund investments, the Pension Trust Fund investments and bonds held for other agencies.

Deposits: At year-end the carrying amount of the County's deposits was \$653,123,000 and the balance per various financial institutions was \$653,027,000. Of the balance in financial institutions, \$888,000 was covered by federal deposit insurance and \$652,139,000 was collateralized according to State statutes which require depositories having public funds on deposit to maintain a pool of securities with the agent of the depository having a market value of at least 10% in excess of the total amount of all public funds on deposit. Of this amount \$392,273,000 was held by the County or its agent in the County's name and \$259,866,000 was held by the depository's trust department or agent in the County's name.

Investments: State statutes authorize the County to invest in obligations of the U.S. Treasury, agencies and instrumentalities, commercial paper rated A-1 by Standard & Poor's Corporation or P-1 by Moody's Commercial Paper Record, bankers acceptances, repurchase and reverse repurchase agreements, and negotiable certificates of deposit issued by national and state licensed or chartered banks or federal or state savings and loan associations. Pension Trust Fund investments are authorized by the County Employees' Retirement Law of 1937. Statutes authorize "Prudent Expert" guidelines as to the form and types of investments which may be purchased. The County's investments are categorized below to give an indication of the level of risk assumed by the entity at year end. (In Thousands) Category 1 includes investments that are insured or registered or for which the securities are held by the County or its agent in the County's name. Category 2 includes uninsured and unregistered investments for which the

securities are held by counterparty's trust department or agent in the County's name. There were no investments with a risk Category 2 at June 30, 1999. Category 3 includes uninsured and unregistered investments for which the securities are held by the counterparty, or by its trust department or agent but not in the County's name.

Fair values and estimates of fair values are provided monthly by an independent pricing agency and such values are not supported by any guarantees on the part of the pool sponsor or the pricing agency. The County and certain school districts are involuntary pool participants in the County Treasurer's investment pool and represent 92.3 percent of the total pooled cash and investments on hand at June 30, 1999.

Reverse Repurchase Agreements: State statutes permit the County to enter into reverse repurchase agreements, that is, a sale of securities with a simultaneous agreement to repurchase them in the future at the same price plus a contract rate of interest. The County had no reverse repurchase agreements outstanding at June 30, 1999. Due to significantly higher cash flows and market conditions at certain times during the year, the County's investments in repurchase agreements increased significantly and were substantially higher at those times.

**FINANCIAL REPORT OF SAN DIEGO COUNTY**

Securities Lending Transactions: Under the provisions of State statutes, the County Treasurer lends U.S. government obligations and SDCERA lends U.S. government obligations, domestic and international bonds and equities to broker-dealers and other entities (borrowers) for collateral that will be returned for the same securities in the future. The County's custodial bank manages the securities lending programs for the County Treasurer and receives cash and securities as collateral pledged at 102 percent of the market value of securities lent. Fiscal agents for SDCERA manage the securities lending programs and receive cash securities pledged at 102 percent of fair value for domestic securities lent and 105 percent of the fair value of international securities lent. Additional collateral has to be provided the next business day if its value falls to 100 percent or less of the market value of the securities lent. The collateral securities can not be pledged or sold by the County Treasurer or SDCERA unless the borrower defaults. No more than 20 percent of the Treasurer's pooled investment portfolio may be lent at one time. There is no restriction on the amount of SDCERA securities that may be lent at one time. Securities on loan at year-end are presented as unclassified in the preceding schedule of custodial credit risk and represent transactions of the SDCERA pension trust fund. At year-end, the pension trust fund has no credit risk exposure to borrowers because the amounts SDCERA owes the borrowers exceeds the amounts the borrowers owe SDCERA. The term to maturity of securities loans is generally matched with the term to maturity of the cash collateral. Such matching existed at fiscal year end.

**B. RESTRICTED ASSETS-INVESTMENTS**

Certain investments have been restricted by operation of law to fund post closure landfill costs over a 30-year period. These investments are recorded in the Inactive Waste Site Special Revenue Fund.

**C. GENERAL FIXED ASSETS**

## FINANCIAL REPORT OF SAN DIEGO COUNTY

---

Total rental expense for all real property operating leases for the year ended June 30, 1999, was approximately \$15.7 million.

In addition to real property leases, the County has also entered into long-term operating leases for personal property, a large portion of which represents data processing and duplicating equipment. Many of these leases are subject to annual adjustment based upon negotiations. Management expects that in the normal course of business, leases that expire will be renewed or replaced by other leases. Total rental expense for these operating leases for the year ended June 30, 1999, was approximately \$11.8 million.

Certain buildings and equipment are being leased under capital leases as defined in FASB Statement 13. The present value of the minimum lease obligation has been capitalized in the General Fixed Asset Account Group and is reflected as a liability in the General Long-Term Debt Account Group. The County assumes responsibility for all maintenance, repair, and structural modifications under the terms of the lease agreements.

### Prior Year Defeasance of Debt

In prior years, the County defeased certain lease revenue bonds/certificates of participation (COPs) by placing the proceeds of the original issue plus additional County contributions in an irrevocable trust to provide for all future debt service payments on the old obligations. Accordingly, the trust account assets and the liability for the defeased obligations are not included in the County's financial statements. At June 30, 1999, \$101 million of bonds/COPs outstanding are considered defeased.

### Advance Refunding of Long-Term Debt

#### San Diego County Capital Asset Leasing Corporation (SANCAL)

On January 1, 1999, SANCAL issued \$73.1 million in Certificates of Participation (COPs) with an average interest rate of 4.6 percent to advance refund \$71.6 million in lease revenue bonds issued by the San Diego Regional Building Authority (the "Authority"). Lease revenue bonds issued by the Authority in July 1993 were secured by a long-term capital lease between the County and the Authority with an average interest rate of 5.3 percent. Net proceeds of \$71.7 million (after payment of \$1.4 million in bond discount, underwriting fees, insurance, and other issuance costs) plus \$5.5 million held in trustee debt service reserve funds were used to purchase U.S. government securities and to fund required COPs reserves. The securities were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments on the 1993 lease revenue bonds of the Authority. As a result, the 1993 lease revenue bonds of the Authority, secured by a long-term capital lease between the Authority and the County, are considered defeased. The liability for the long-term capital lease has been removed from the general long-term debt account group. SANCAL advance refunded the 1993 lease revenue bonds to reduce the total debt service payments over the next 24 years by \$2,138,137, obtain an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$889,865 and eliminate certain restrictive covenants applicable to the lease revenue bonds.

## FINANCIAL REPORT OF SAN DIEGO COUNTY

### Inactive Landfill Closure Costs

The County maintains 17 waste disposal sites that were closed prior to 1985. Consistent with State and Federal regulations pertaining to closed landfills, post closure costs for these landfills, to include facilities maintenance and groundwater monitoring over a 30 year period, are estimated at \$101 million in current year costs. This amount has been recorded in the general long-term debt account group. Actual costs may be higher due to inflation, changes in technology or changes in regulations. The County has funded this liability from cash reserves realized in prior years.

### G. PROPRIETARY FUND TYPES LONG-TERM DEBT

Proprietary fund types long-term debt consists of revenue bonds, loans payable, contracts payable, capital leases, long-term claims payable and unpaid accumulated employee leave benefits. The revenue bonds are general obligations of the issuing district and as such, the district is empowered and obligated to levy ad valorem taxes upon all taxable property within the district without limit as to rate or amount for the purpose of paying the principal and interest. The bonds are also payable from restricted sewer service revenues of the issuing districts. A schedule of Proprietary Fund Types Long-Term Debt is as follows (In Thousands):

4. OTHER NOTE DISCLOSURES

A. COMMITMENTS AND CONTINGENCIES

(1) Litigation

In addition to the accrued liability for litigation and Workers Compensation claims described in Note 4C, the County has a potential liability of \$67 million to \$123 million that could result if unfavorable final decisions were rendered in numerous lawsuits to which the County is a named defendant. Appropriations are budgeted annually for those portions of obligations coming due that fiscal year. Estimates of potential liabilities described above include estimates of claims incurred but not reported at June 30, 1999.

Included in the above is the potential liability related to three petitions for writ of mandate filed against SDCERA (and the County of San Diego as real party in interest) seeking recalculation of retirement benefits. More specifically, the cases seek to expand and apply retroactively the California Supreme Court's decision in Ventura County Deputy Sheriffs' Assn. v. County of Ventura (1997) 16 Cal.4<sup>th</sup> 483 ("Ventura"). Petitioners in the lawsuits seek both prospective and retroactive relief. Some petitioners request relief retroactive to October 1, 1994; others seek relief retroactive to the date of retirement, regardless of retirement date. Petitioners seek a recalculation of "final compensation" (as defined in Government Code section 31462.1) and "compensation earnable" (as defined in Government Code section 31461), which will increase retirement benefits for retired and active members. Similar cases have been filed in several 1937 Act Counties, and have been coordinated before the Superior Court in the County of San Francisco. Petitioners in the San Diego (and most other cases) have been granted class action status. County Counsel expects that it will be at least one year before the Superior Court rules on the merits of the case.

The likelihood that petitioners will prevail on some of their requests to add items to the calculation of final compensation and compensation earnable is high. County management and SDCERA estimate that it is reasonably possible that the County's share of the unfunded liability will be in the range of \$50-100 million.

(2) Unrecorded Leave Benefits

County employees have unrecorded accumulated benefits of approximately \$93.5 million in sick leave. These benefits are not payable to employees upon termination and are normally liquidated in future years as employees elect to use their benefits as prescribed by Civil Service rules and regulations. Accumulated vacation, sick leave, and compensatory time-off for which employees are eligible for payment upon separation has been recorded as current or long-term liabilities in the appropriate funds or General Long-Term Debt Account Group as described in Note 1F.

(3) Tax and Revenue Anticipation Notes

At June 30, 1999 \$175 million of Tax and Revenue Anticipation Notes issued during fiscal year 1998/99 were still outstanding. Monies for complete redemption of these notes were fully segregated with an independent trustee at June 30, 1999, and subsequently used to redeem the notes on September 30, 1999. On July 1, 1999, the County issued \$130 million of Tax and Revenue Anticipation notes to finance fiscal year 1999/00 General Fund cash flow requirements. The issues will be redeemed on September 30, 2000.

(4) Teeter Obligation Commercial Paper Notes

From November 1995 through June 1999, the County issued \$51.0 million in taxable and \$152.9 million in tax-exempt commercial paper notes (CP) to provide ongoing financing for tax apportionments to taxing jurisdictions within the County in the amount of delinquent secured property taxes due these districts. The notes are secured by delinquent secured property tax collections. No CP can be issued for a period longer than 270 days. At June 30, 1999, the outstanding balances of CP were \$8.8 and \$47.1 million for taxable and tax-exempt notes, respectively.

(5) Third Party Debt

Mortgage Revenue Bonds

Multi-family Housing Revenue Bonds are issued to provide construction and permanent financing to developers of multi-family residential rental projects located in the County to be partially occupied by persons of low or moderate income. Between December 1985 and December 1996, the County issued \$43.5 million of Mortgage Revenue Bonds of which \$37.9 million were still outstanding as of June 30, 1999.

Certificates of Participation

Beginning in April 1998, \$112 million in Certificates of Participation have been issued to provide funding for construction of capital improvements and refunding of prior obligations for a hospital and medical center located within the County. Also, in December 1998, the County entered into a lease agreement with the San Diego Natural History Museum to issue \$15 million of COPs to finance certain museum improvements. As of June 30, 1999, \$127 million of such COPs are still outstanding.

#### Industrial Development Revenue Bonds

Industrial Development Revenue Bonds have been issued to provide financial assistance for the acquisition, construction, and installation of facilities for industrial, commercial, or business purposes to mutually benefit the citizens of the County. The County issued \$3.5 million of Industrial Development Revenue Bonds in October 1987 of which \$2.4 million were still outstanding as of June 30, 1999.

Mortgage Revenue Bonds, Certificates of Participation and Industrial Development Revenue Bonds as described above, together with interest thereon, are limited obligations of the County payable solely from bond proceeds, revenues and other amounts derived solely from home mortgage and health institutions, developer loans secured by first deeds of trust, irrevocable letters of credit, and irrevocable surety bonds. In the opinion of County officials, these bonds are not payable from any revenues or assets of the County, and neither the full faith and credit nor the taxing authority of the County, the State or any political subdivision thereof is obligated to the payment of the principal or interest on the bonds. Accordingly, no liability for these bonds have been recorded in the General Long-Term Debt Account Group.

#### (6) Federal Programs

The County participates in a number of federal financial assistance programs. Although these programs have been audited through June 30, 1998, in accordance with the provisions of the Single Audit Act of 1996, the resolution of previously identified questioned costs has not occurred. The amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time, although the County expects such amounts, if any, to be immaterial.

#### (7) SDCERA

SDCERA is party to managed future contracts, financial instruments with off-balance sheet risk, to generate earnings and to hedge the investments in fixed income securities and common stocks, thereby reducing its own exposure to fluctuations in market conditions. These contracts include, but are not limited to contracts for delayed delivery of securities, commodities or currencies in which the seller agrees to make delivery at a specified future date of a specified instrument at a specified price or yield. Risks arise from the possible inability of counterparties to meet the terms of their contract. The risk of accounting loss from this off-balance sheet financial instrument includes credit risk and the possibility that future changes in market prices may make such a financial instrument less valuable (market risk).

Not reflected in the pension trust fund financial statements are commitments to acquire real estate totaling \$54.9 million.

(8) Deposits for Other Agencies

The Treasurer is a named paying agent for various bonds issued by other agencies, e.g., school districts, pursuant to the bond resolutions. The proceeds from these issues are deposited with financial institutions as guaranteed investment contracts in accordance with the provisions of the bond resolution and contractual relationships between the Treasurer and these financial institutions. The amounts deposited belong to the specific agency which issued the bonds and are not assets of the County reporting entity and are not held in the County's external investment pool. The County has no liability with respect to these issues.

B. RISK MANAGEMENT

The County operates a Risk Management Program, whereby it is self-insured for premises liability at medical facilities, medical malpractice, errors and omissions, false arrest, forgery, general liability, and workers' compensation. The County purchases insurance for property damage, certain casualty claims, and loss of money up to \$10,000 per selected site locations. The amount and coverage remains the same as in the prior year. Settlements in the areas covered have not exceeded insurance coverage for each of the past three fiscal years. During fiscal year 1994/95, the County established an Internal Service Fund (ISF) to report all of its uninsured risk management activities. Risk management liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. An actuarial evaluation was used to determine the outstanding liabilities at June 30, 1999. The actuarial estimate was based partially on the experience of similar governmental entities and included the effects of specific incremental claim adjustment expenses, salvage and subrogation if such factors could be estimated. This estimate may be modified in future years to reflect the historical accumulation of the County's actual claims experience. At June 30, 1999, the amount of these liabilities, including an estimate for claims incurred but not reported, was estimated at \$65.2 million, including \$17.7 million in public liability and \$47.5 million in workers' compensation. The County began allocating the cost of providing claims service to all its operating funds as a "premium" charge expressed as a percentage of payroll beginning fiscal year 1996/97. Changes in the balances of claim liabilities for fiscal year 1997/98 and 1998/99 were as follows (In Thousands):

	<u>Beginning-of- Fiscal-Year Liability</u>	<u>Current-Year Claims and Changes in Estimates</u>	<u>Claim Payments</u>	<u>Balance at Fiscal Year-End</u>
1997/98	\$76,410	\$21,809	\$(13,962)	\$84,257
1998/99	84,257	(3,902)	(15,134)	65,221

C. JOINT VENTURE

The County is a participant with 16 incorporated cities in a joint venture to operate an emergency services organization for the purpose of providing regional planning and mutual assistance in the event of an emergency or disaster in the region including accidents involving hazardous waste. The organization is governed by the Unified Disaster Council composed of one voting member from each represented jurisdiction. A contractual agreement requires that the cities provide one half of the total required funding each year. The County, by agreement, also provides one half of the required yearly funding. Any participant may terminate participation in the agreement by giving 120 days notice prior to the beginning of the next fiscal year. Total participant contributions for the 1998/99 fiscal year were \$396,332. The organization had a cumulative surplus of \$32,005 at June 30, 1999. Separate financial statements for the joint venture may be obtained from the County Chief Financial Officer/Auditor and Controller.

D. JOINTLY GOVERNED ORGANIZATIONS

The County Board of Supervisors jointly governs two service authorities, the Service Authority for Abandoned Vehicles and the Service Authority for Freeway Emergencies. These Authorities are governed by two seven-member boards, consisting of representatives from the city councils of the incorporated cities within the County and two members of the County Board of Supervisors. The purpose of the authorities is to provide for the removal of abandoned vehicles on streets and highways and to provide for freeway emergency call boxes on major freeways within the County, respectively. Funding for the authorities is derived from vehicle license fee surcharges, which are collected by the State and deposited into the County Treasury. The County provides minimal administrative staff support for these authorities.

The County Board of Supervisors and the San Diego City Council jointly govern the San Diego Workforce Partnership (the "Partnership"). The Partnership's Board of Directors consists of two members of the County Board of Supervisors, two members from the San Diego City Council and one member of a charitable organization. The purpose of the Partnership is to provide employment training to area residents. Funding for such training is provided by State and Federal grants.

The County also jointly governs the San Dieguito River Valley Authority, the Serra Cooperative Library System, Southern California Regional Training and Development Center, and the Van Horn Regional Treatment Facility. The governing boards of these entities consists of representatives from the County and/or other regional governments and other counties. The County does not appoint a voting majority to the above boards. Services provided by these entities include park land acquisition, coordination of library services, regional governmental training, and treatment of emotionally disturbed youth.

E. SAN DIEGO COUNTY EMPLOYEES' RETIREMENT SYSTEM

(1) Plan Description

The SDCERA administers a single-employer defined benefit pension plan which provides retirement, disability, and death benefits for plan members and beneficiaries pursuant to the County Retirement Law of 1937 enacted and amended by the State legislature. The plan is integrated with the Federal Social Security System. Cost-of-living adjustments are provided to members and beneficiaries at the discretion of the SDCERA Board of Retirement. SDCERA issues a publicly available financial report that includes financial statements and required supplementary information for the pension plan. The financial report may be obtained by writing to the San Diego County Employees Retirement Association, 1495 Pacific Highway, Suite 400, San Diego, California 92101 or by calling (619) 515-6800.

(2) Basis of Accounting and Fair Value of Investments (See Notes 1D and 1F, respectively).

(3) Funding Policy

State statutes require member contributions to be actuarially determined to provide a specific statutory level of benefit. Member contribution rates, as a percentage of salary, vary according to age at entry, benefit tier level, and certain negotiated contracts which provide for the County to pay a portion of the employees' contribution. Member contribution rates (weighted average) expressed as a percentage of salary are 5.33% for general members and 7.97% for safety members. The County is also required by State statutes to contribute at an actuarially determined rate; the 1998/99 rates, expressed as a percentage of covered payroll, are -.60% for general members and 2.28% for safety members.

(4) Annual Pension Cost

For Fiscal Year 1998/99, there was no annual pension cost for the SDCERA pension plan due to amortization of negative unfunded actuarial accrued liabilities. The County made no contributions to the SDCERA pension plan since none were required. The zero required contribution was determined as part of the June 30, 1997, actuarial evaluation using the entry age actuarial cost method. The actuarial assumptions included (a) 8.2% investment rate of return; (b) projected salary increases of 4.5%. Both (a) and (b) included an inflation component of 4.0%. The actuarial value of assets was determined using techniques that smooth the effects of short term volatility in the market value of investments over a five year period. Any unfunded actuarially accrued liability would be funded as a level percentage of projected payroll over a closed five year period.

6/30/98	24,320	100%	0
6/30/99	0	100%	0

(7) Postretirement Health Care Benefits:

Depending on the availability of fund earnings, SDCERA provides postretirement health care benefits on a pay as you go basis for retirees who have had at least ten years employment with the County. SDCERA contributes health insurance premiums for five sponsored health maintenance organizations of \$210 per month for each retiree under the age of 65 with 20 or more years of service and \$110 per month for each retiree over the age of 65 with 10 or more years of service plus a cost of living adjustment based on years since retirement. Premium amounts in excess of these amounts are paid by the retiree. SDCERA also reimburses a fixed amount of \$43 per month for a Medicare supplement for each retiree over age 65. State statutes governing County retirement systems provide authority for SDCERA, with the consent of the SDCERA Board of Directors, to make such payments from interest earnings in excess of interest required to be credited to specific statutory reserves. SDCERA is not obligated to provide such benefits in future years and retired employees have no vested rights to receive such benefits. Accordingly, these postretirement health care benefits are not defined benefits as are pension plan benefits.

Approximately 8,200 retirees or surviving spouses are eligible to receive these benefits. SDCERA recognizes the cost of providing those benefits by expending annual insurance premiums, which approximated \$8.2 million for fiscal year 1998/99. A reserve established by the SDCERA Board of Directors for the payment of postretirement health care benefits was approximately \$132 million at June 30, 1999, a \$1 million decrease from the previous fiscal year.

(8) Equity and Bond Swaps and Futures Contracts:

SDCERA utilizes various financial instruments such as equity and bond interest rate swap agreements and stock and bond futures contracts in order to synthetically create exposure to the equity and bond markets. These financial instruments are intended to be equivalent to the asset they are designed to emulate and SDCERA management believes such investments offer significant advantages over the direct investment in securities including lower transaction fees and custody costs. The SDCERA governing board of directors has adopted a policy whereby specified amounts of cash and certain securities equal the exposures resulting from these agreements.

The use of swap agreements does expose the pension trust fund to the risk of dealing with financial counterparties and their ability to meet the terms of the contracts. Forward contracts for the purchase of certain commodities are reported at fair value in the financial statements. Obligations to purchase the commodities are not recognized until the commodities are delivered.

F. NEW GOVERNMENTAL ACCOUNTING STANDARDS

The Governmental Accounting Standards Board has issued Statement No. 32, "Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans," which establishes accounting and reporting standards for deferred compensations plans established in accordance with section 457 of the Internal Revenue Code. The County has adopted the new standards for the current year and has determined that the County does not perform the duties of a fiduciary with respect to the deferred compensation plan assets held by third parties for employees of the County. Accordingly, such assets are no longer considered assets of the County and reported within an agency fund of the County. The adoption of this standard has resulted in a restatement of prior year financial statement amounts resulting in a reduction of agency fund assets and related liabilities of \$275.4 million for the prior year.

The Government Accounting Standards Board issued Statement No. 33, "Accounting and Financial Reporting for Nonexchange Transactions," and Statement No. 34, "Basic Financial Statements-and Management's Discussion and Analysis-for State and Local Governments," in December 1998 and June 1999, respectively. Statement 33 establishes accounting and financial reporting standards to guide state and local governments decisions about when to report the results of nonexchange transactions involving cash and other financial and capital resources. Statement 34 establishes new financial reporting requirements for state and local governments. The County has not adopted the new standards for the current year but must adopt these standards for the fiscal year beginning July 1, 2001. The County has not determined the effect on the financial statements in the year of adoption.

## **GENERAL FUND**

THE GENERAL FUND FINANCES THE LEGALLY AUTHORIZED ACTIVITIES OF THE COUNTY OF SAN DIEGO NOT PROVIDED FOR IN OTHER RESTRICTED FUNDS. GENERAL FUND REVENUES ARE DERIVED FROM SUCH SOURCES AS TAXES, LICENSES AND PERMITS, FINES, FORFEITURES AND PENALTIES, USE OF MONEY AND PROPERTY, AID FROM OTHER GOVERNMENTAL AGENCIES, CHARGES FOR CURRENT SERVICES, AND OTHER REVENUE. GENERAL FUND EXPENDITURES AND ENCUMBRANCES ARE CLASSIFIED BY THE FUNCTIONS OF GENERAL GOVERNMENTAL, PUBLIC PROTECTION, PUBLIC WAYS AND FACILITIES, HEALTH AND SANITATION, PUBLIC ASSISTANCE, EDUCATION, RECREATIONAL AND CULTURAL SERVICES, CAPITAL OUTLAY, AND DEBT SERVICE. APPROPRIATIONS ARE MADE FROM THE FUND ANNUALLY. THE FUND WILL CONTINUE TO EXIST INDEFINITELY.

## **DEBT SERVICE FUNDS**

### **PENSION OBLIGATION BONDS FUND**

THIS FUND RECEIVES PAYMENTS FROM THE COUNTY AND OTHER AGENCIES FOR PAYMENT OF PRINCIPAL AND INTEREST DUE ON 1994 TAXABLE PENSION OBLIGATION BONDS. THE DEBT ISSUE WAS USED TO SATISFY THE COUNTY'S REQUIREMENT TO AMORTIZE THE UNFUNDED ACTUARIAL ACCRUED LIABILITY WITH RESPECT TO RETIREMENT BENEFITS ACCRUING TO MEMBERS OF THE ASSOCIATION. THE OBLIGATION OF THE COUNTY TO MAKE PAYMENTS WITH RESPECT TO THE BONDS IS AN ABSOLUTE AND UNCONDITIONAL PRIORITY OBLIGATION OF THE COUNTY IMPOSED BY LAW AND PAYMENT OF PRINCIPAL AND INTEREST ON THE BONDS IS NOT LIMITED TO ANY SPECIAL SOURCE OF FUNDS.

### **NONPROFIT CORPORATION FUND**

THIS FUND RECEIVES RENTAL PAYMENTS BASED ON LEASE PURCHASE AGREEMENTS FROM THE CAPITAL OUTLAY FUND AND THE GENERAL FUND FOR PAYMENT OF PRINCIPAL AND INTEREST DUE ON LEASEHOLD REVENUE BONDS/CERTIFICATES OF PARTICIPATION. THESE DEBT ISSUANCES ARE LEGAL OBLIGATIONS OF A NONPROFIT CORPORATION AND WERE ISSUED TO FINANCE THE PURCHASING OF NECESSARY EQUIPMENT AND THE ACQUISITION AND CONSTRUCTION OF PERMANENT BUILDINGS BY THE COUNTY. DEBT IS SECURED BY THE LEASE-PURCHASE PAYMENTS FROM THE COUNTY.

### **REDEVELOPMENT AGENCY FUND**

THIS FUND RECEIVES PROCEEDS OF REDEVELOPMENT AREA INCREMENTAL TAXES AND INTEREST REVENUES BASED ON A TRUST AGREEMENT BETWEEN THE AGENCY AND A TRUSTEE BANK FOR PAYMENT OF PRINCIPAL AND INTEREST DUE ON REVENUE BONDS. PLEDGED INSTALLMENTS FROM THE COUNTY AIRPORT SYSTEM ARE DEPOSITED WITH A TRUSTEE AND ARE AVAILABLE IF TAXES AND INTEREST ARE INSUFFICIENT TO PAY DEBT SERVICE PAYMENTS. IN ADDITION TO THE PLEDGED AMOUNTS, A BOND RESERVE WAS FUNDED WITH BOND PROCEEDS.

## **CAPITAL PROJECTS FUNDS**

### **CAPITAL OUTLAY FUND**

THE CAPITAL OUTLAY FUND IS USED EXCLUSIVELY TO FINANCE THE ACQUISITION, CONSTRUCTION AND COMPLETION OF PERMANENT PUBLIC IMPROVEMENTS INCLUDING PUBLIC BUILDINGS AND FOR THE COSTS OF ACQUIRING LAND AND PERMANENT IMPROVEMENTS. THE FUND MAY ALSO BE USED TO MAKE ANNUAL PAYMENTS ON BOND INDEBTEDNESS FOR THE CONSTRUCTION OF PUBLIC FACILITIES AND TO ACQUIRE PUBLIC FACILITIES THROUGH LEASE PURCHASES. REVENUES ARE OBTAINED FROM THE SALE OF FIXED ASSETS, FROM LEASE OR RENTAL OF COUNTY-OWNED FACILITIES, AND FROM OTHER FUNDS SUCH AS GRANTS AND CONTRIBUTIONS WHEN ALLOCATED BY THE BOARD OF SUPERVISORS TO THE FUND.

### **EDGEMOOR DEVELOPMENT FUND**

THE EDGEMOOR DEVELOPMENT FUND IS USED EXCLUSIVELY FOR ASSISTING IN THE DEVELOPMENT OF THE EDGEMOOR PROPERTY. THE EDGEMOOR PROPERTY REPRESENTS APPROXIMATELY 375 ACRES OF COUNTY OWNED LAND AND 50 ACRES OWNED BY THE GROSSMONT UNION HIGH SCHOOL DISTRICT IN THE SANTEE AREA. FUTURE DEVELOPMENT MAY INCLUDE PARKS, A LIBRARY, HOUSING, A FIRE STATION, POST OFFICE AND OTHERS. REVENUES ARE DERIVED FROM THE SALE OR LEASE OF LAND WITHIN THE EDGEMOOR PROPERTY.

### **NONPROFIT CORPORATION FUND**

THIS FUND IS USED TO ACCOUNT FOR THE EXPENDITURE OF THE PROCEEDS FROM THE SALE OF NONPROFIT CORPORATION LEASEHOLD REVENUE BONDS/CERTIFICATES OF PARTICIPATION FOR THE PURCHASE OF VARIOUS TYPES OF EQUIPMENT AND THE ACQUISITION AND CONSTRUCTION OF PERMANENT BUILDINGS BY THE COUNTY.

### **REDEVELOPMENT AGENCY FUNDS**

THESE FUNDS ARE USED TO ACCOUNT FOR THE PROCEEDS OF REDEVELOPMENT AREA INCREMENTAL TAXES, INTEREST REVENUES AND TEMPORARY LOANS. REDEVELOPMENT PROJECT EXPENDITURES, IN ACCORDANCE WITH CALIFORNIA COMMUNITY REDEVELOPMENT LAW, INCLUDE REDEVELOPMENT PLANNING, DESIGN, IMPROVEMENT COSTS, PROFESSIONAL SERVICES AND ADMINISTRATIVE COSTS.

## ENTERPRISE FUNDS

ENTERPRISE FUNDS ARE USED TO ACCOUNT FOR OPERATIONS THAT ARE FINANCED AND OPERATED IN A MANNER SIMILAR TO PRIVATE BUSINESS ENTERPRISES--WHERE THE INTENT OF THE GOVERNING BODY IS THAT THE COSTS OF PROVIDING GOODS OR SERVICES TO THE GENERAL PUBLIC ON A CONTINUING BASIS BE FINANCED OR RECOVERED PRIMARILY THROUGH USER CHARGES; OR WHERE THE GOVERNING BODY HAS DECIDED THAT PERIODIC DETERMINATION OF NET INCOME IS APPROPRIATE FOR ACCOUNTABILITY PURPOSES.

### **AIRPORT FUND**

THIS FUND IS USED TO ACCOUNT FOR THE MAINTENANCE, OPERATIONS AND DEVELOPMENT OF COUNTY AIRPORTS. A MAJOR OBJECTIVE OF THE AIRPORT PROGRAM IS TO PURCHASE AND DEVELOP AIRPORT PROPERTY IN ORDER TO CREATE TAX REVENUES AND CREATE JOBS IN THE PRIVATE SECTOR.

### **LIQUID WASTE FUND**

THIS FUND IS USED TO ACCOUNT FOR OPERATIONAL SERVICES AND SUPPORT PROVIDED TO SANITATION DISTRICTS GOVERNED BY THE COUNTY BOARD OF SUPERVISORS.

### **TRANSIT FUND**

THIS FUND IS USED TO ACCOUNT FOR THE OPERATIONS, MAINTENANCE AND DEVELOPMENT OF A RURAL TRANSIT SYSTEM AND TRANSIT RELATED PROJECTS.

### **SANITATION DISTRICTS FUNDS**

THESE FUNDS ARE USED TO ACCOUNT FOR THE ACTIVITIES OF ALL INDIVIDUAL SANITATION DISTRICTS GOVERNED BY THE COUNTY BOARD OF SUPERVISORS.

SCHEDULE 4

The County of San Diego has completed the awareness and assessment stages of Y2K work. Remediation and validation/testing still in progress at June 30, 1999, is as follows: Mainframe systems remediation and testing began in 1996 and all systems were completed by 4/30/99. Custom departmental applications remediation and testing began in 9/98 and 90% were completed by 6/30/99. A few non-mission-critical departmental systems remain to be completed, with the estimated completion date of 9/30/99. One system in the Health and Human Services area (Automated Eligibility and Intake System) has a planned completion date of 11/29/99. Mechanical and embedded chip systems have also been included as tasks in the overall County Y2K project. These systems have been reviewed and are in the process of being tested and replaced where necessary. All mission-critical mechanical and embedded chip systems were tested and either repaired or replaced by 6/30/99.

No problems are anticipated with links to outside agencies. The County's electricity provider and telephone communications providers have indicated that they anticipate the ability to provide service as usual both during and after the Y2K rollover.

Contingency and business continuity plans have been completed for each County department, including identifying staffing required to be on-site or on-call over the Y2K weekend. The County will activate its Emergency Operations Center over the Y2K weekend.

The cost of Y2K remediation from 1996 to date, County-wide, is \$17.8 million.

(1) Includes General, Special Revenue, Debt Service and Capital Projects funds.

The debt service expenditures for Lease Revenue Bonds and Certificates of Participation of various Joint Powers Authorities and the San Diego County Capital Asset Leasing Corporation are incorporated into the County's Comprehensive Annual Financial Report in accordance with criteria adopted by the Governmental Accounting Standards Board. These debt instruments function as general obligation debt of the County. The general revenues of the County, including taxes, are the source of payment for the debt service expenditures made by these agencies. Prior to fiscal year 1993-94, the County had no general obligation bonded debt. During 1993-94, the County issued \$430.4 million in taxable pension obligation bonds which are secured by the general revenues of the County including property taxes.
