* % is proportion of births where mother received early prenatal care out of the total births where prenatal care start time was known, by region or subregional area (or county for total). Births with unknown start of care are not included.
**Harbison Crest/El Cajon is an aggregation of the Harbison Crest and El Cajon SRAs. Due to geographic limitations, the Harbison Crest SRA is not shown alone. See the Data Guide for more information.
† Early prenatal care is defined here as care beginning during 1st trimester of pregnancy. This does not account for frequency of care.
Δ Beginning in 2007, "Date of first prenatal visit" was collected in addition to the "Month prenatal care began" on birth certificates. This affects comparability of statistics before and after 2007.
‡Source: NVSS - Natality, CDC, NCHS. Online database accessed 06/01/2013: http://wonder.cdc.gov.
§Percentages not calculated for fewer than 5 events.

* % is proportion of births where mother received early prenatal care out of the total births where prenatal care start time was known, by region or subregional area (or county for total). Births with unknown start of care are not included.

**Harbison Crest/El Cajon is an aggregation of the Harbison Crest and El Cajon SRAs. Due to geographic limitations, the Harbison Crest SRA is not shown alone. See the Data Guide for more information.

†Early prenatal care is defined here as care beginning during 1st trimester of pregnancy. This does not account for frequency of care.

Δ Beginning in 2007, "Date of first prenatal visit" was collected in addition to the "Month prenatal care began" on birth certificates. This affects comparability of statistics before and after 2007.

***Numbers may not add up to totals due to unknown or missing details.

‡API includes Asian, Pacific Islander, Native Hawaiian. Other includes 2 or more races, Native American/Alaska Native, American Indian, or other.

§Percentages not calculated for fewer than 5 events.
