  - Financial Donations Management Plan
  - In-Kind Donations Management Plan
  - Terrorism Incident Recovery Annex

National Disaster Recovery Framework

- Recovery companion to the National Response Framework
- Provides overarching inter-agency coordination structure for recovery
- Creates the Federal Disaster Recovery Coordinator (FDRC)
- Outlines coordination of the FDRC with the State or Tribal Disaster recovery Coordinator (SDRC or TDRC)
- Recommends the development of a Local Disaster Recovery Manager (LDRM)
- Establishes the Recovery Support Functions

Sandy Recovery Improvement Act

- Debris Management Pilot Program
  - Sliding Scale 0-30 days:85%, 31-90 days:80% 91-180 days: 75%
  - Recycled debris income doesn't offset grant amount
  - Reimbursement of base and overtime wages for eligible staff performing eligible work.
  - Incentvises having an approved debris management plan and pre-qualified contractors.
- Tribes now able to declare disaster to FEMA, before had to request through Governor.

California Disaster Recovery Framework -Draft-

- Develops State RSFs – Primary and Supporting Agencies
- Outlines coordination between State and Federal and Tribal Government
- Outline coordination between State and local Government
- Concept of Operations for State Recovery Response.
- Lays out process for local proclamations and requesting of State/Federal recovery assistance

Southern CA Regional Workshop: Thursday, April 28, 1:00 pm– 4:00 pm at the County of Riverside Emergency Management Department. 4210 Riverwalk Parkway, Riverside, CA 92505

OA Recovery Support Functions (RSFs)

- RSF Annexes to OA Recovery Plan
- Mirror Federal and (draft) State RSFs
  - Community Planning and Capacity Building
  - Economic
  - Health and Social Services
  - Housing
  - Infrastructure
  - Natural and Cultural Resources
- Focus on outreach and coordination <u>outside</u> of government
- <u>Contain Job Aid/Checklist actions and recovery considerations</u>
- Adaptable for cities and county
- Designed for individual and collective RSF use.
- Useable for local emergencies up to Presidential Major Disaster Declarations.

Recovery Operations Center Guide and Checklists

- Designed for large scale disasters, but parts can be scaled for smaller events
- Used when EOC's are deactivating, but Recovery coordination and field support is still needed beyond routine government operations.
- Modeled around 2003 and 2007 Recovery, but scalable.
- Supports Intermediate Recovery
  - Debris management operations
  - Damage Assessment
  - Local Assistance Centers
  - Volunteer Management
  - Intermediate and Long Term Housing
- Contains example organizational structure and position checklist/ job aids for key Recovery Functions from National Disaster Recovery Framework and

OA EOC Tribal Liaison Resource Book and Position Checklist

- Contains informational resources for a local government, tribal government, or NGO partner to familiarize them with applicable plans, policies, procedures governing emergency management at the OA.
- Meant to facilitate information sharing and communications between impacted tribes and local government.
- Contains demographic, geographic, and contact information on the 18 tribes within San Diego County
- Position Checklist with specific steps, actions and planning considerations.
- Scalable for a liaison from every impacted tribe, or just a county employee serving as a dedicated point of contact in the EOC.
- Includes recovery as well as response coordination.
