LOG NO. 3910 12-02-003 (ER)

The Project, Lilac Hills Ranch, violates the County General Plan which was redone recently at a great cost. The General Plan is suppose to ensure proper planning so that all residents and future residents can enjoy a good quality of life.

The Project will put a high density development in a rural area with no infrastructure. The impacts include ruining the character of the area forever, clogging inadequate roads, eminent domain taking some surrounding properties & homes, etc.

Please deny the requests by Accretive Investments, Inc and uphold our County General Plan to protect all county residents' quality of life.

Thank you!

Sincerely,
Pamela Stahl
