F1. The project will assist with funding replacement vehicles for the Police Department.

F2. The impact was determined through applying the percent of casino bus trips to the El Cajon Transit Center, and the percent casino traffic on Washington Avenue in El Cajon to the number of Calls for Service (CFS), as a percent of total CFS at the El Cajon Transit Center and the adjacent trolley station, Washington Ave, and Granite Hills Drive between Jamacha and Washington, (which is considered to be a alternate route for Washington Ave traffic out to Dehesa Rd and the casino). Vehicles used to respond to CFS accumulate mileage while responding to CFS throughout the City and ultimately must be replaced. This methodology estimated the impact of casino-related traffic through the corridor between Sycuan casino and the El Cajon Transit Center, and applied that ratio to police calls for service, where an officer or police services officer was sent to that area to provide police services.

F3. Funding of the El Cajon Police Department Vehicle Replacement project by the FY2013-14 Indian Gaming Local Community Benefit Committee Grant will help the City of El Cajon to offset the cost of replacing vehicles proportionately, based on the impact of the Sycuan casino as reflected by in CFS to the corridor through El Cajon used by patrons of the that casino.
