FOR YOUR INFORMATION

The Following Notice was Published by the District

NOTICE OF PROPOSED CHANGE TO TABLE II, RULE 1200 AND TABLE II, RULE 1210, REGULATION XII SAN DIEGO COUNTY AIR POLLUTION CONTROL DISTRICT RULES AND REGULATIONS

The San Diego County Air Pollution Control District is proposing to revise Table II, Toxic Air Contaminants for which Potential Chronic Noncancer Impacts Must Be Calculated of Rule 1200 Toxic Air Contaminants - New Source Review and Table II, Toxic Air Contaminants with Potential Chronic Noncancer Impacts of Rule 1210 Toxic Air Contaminant Public Health Risks Public Notification and Risk Reduction. These revisions mean that the chronic health effects of Diethanolamine and Isophorone, previously not included in these tables, will be considered in reviews of new and modified sources emitting toxic air contaminants, as defined by Rule 1200. In addition, these compounds will also be evaluated when determining public notification and risk reduction requirements pursuant to Rule 1210. Calculation of health effects for these contaminants will be based on health standards recommended by the California Office of Environmental Health Hazard Assessment (OEHHA). These revisions also will include changes to ten chronic reference exposure values, as approved by OEHHA, for chemicals already listed in the Tables.

Written comments concerning these tables may be submitted for a period of 30 days, commencing January 14, 2002, and ending on February 12, 2002. Information concerning the District's proposed action may be obtained by writing to the Air Pollution Control District, 9150 Chesapeake Drive, San Diego California 92123. Questions or comments regarding this notice may be directed to the District's Air Toxics Section at (858) 650-4620.
