Other	<5		
Unknown	<5	-	-

Notes:
- Rates are number of births to girls aged 15 through 19 per 1,000 population of girls the same age.
- Starting in year 2000, birth certificates allowed reporting of up to three races. Race groups tabulated with a "Two or More Races" category are not comparable to those tabulated without a "Two or More Races" category.

*Numbers are censored and rates are not calculated when the number of events is fewer than 5 (indicated by "<5"). Interpret with caution rates calculated for fewer than 20 events since they are considered statistically unreliable.
