Cities with Fire Protection Districts Population Calculation

As part of the SHS Grant Allocation Formula

Sub Committee Recommended Formula

Population of a City's Fire Protection District

=

The Number of Taxable Parcels within a City's Fire Protection District

X

3.15 (Average Number of People per Parcel in San Diego).

Number of Taxable Parcels

The number of taxable parcels utilized the following two data layers:

- 1. SanGIS – Fire Agencies
- 2. SanGIS – Parcels All

GIS analysis was conducted to determine the number of taxable parcels within a fire protection district. The “Parcels All” layer has a field called “Taxable”. If this field contains the letter "T" then this parcel was counted.

Number of APNs	CPA	Fire District	Acres
133	Hidden Meadows	RINCON DEL DIABLO MWD	462.27
4181	North County Metro	RINCON DEL DIABLO MWD	5881.05
3634	North County Metro	SAN MARCOS FIRE PROTECTION DISTRICT	9353.65
263	San Dieguito	SAN MARCOS FIRE PROTECTION DISTRICT	683.79
633	Twin Oaks	SAN MARCOS FIRE PROTECTION DISTRICT	2759.64
2234	Bonsall	VISTA FIRE PROTECTION DISTRICT	5355.34
3717	North County Metro	VISTA FIRE PROTECTION DISTRICT	8919.09
634	Twin Oaks	VISTA FIRE PROTECTION DISTRICT	1455.79

Number of APNs	CPA	Fire District	Acres
505	COUNTY ISLANDS	NATIONAL CITY - LINCOLN ACRES	179.98
1446	Lakeside	SANTEE - CSA 115	4729.83

People per Parcel

- The number of people per parcel was determined by using the state population estimate for San Diego as of 1/1/2012 (most current) divided by SANGIS parcel data.
- This is the same population data used to determine UDC and HIRT dues.

Sub Committee Recommended Formula

Population of a City's Fire Protection District

=

The Number of Taxable Parcels within a City's Fire Protection District

X

3.15 (Average Number of People per Parcel in San Diego).
