**SUBJECT: NOTICED PUBLIC HEARING:
2012 AIR TOXICS "HOT SPOTS" PROGRAM REPORT FOR
SAN DIEGO COUNTY (DISTRICTS: ALL)**

OVERVIEW:

The California Air Toxics "Hot Spots" Information and Assessment Act was enacted in 1987 to address public concern over the release of toxic air contaminants into the environment. State law requires facilities emitting toxic substances to provide local air pollution control districts with information to identify sources of toxic air contaminants, assess air toxic problems, locate resulting "hot spots," notify persons that may be exposed to significant risks, and develop effective strategies to reduce potential risks to the public.

State law requires the Air Pollution Control District to publish an annual report of the Air Toxics "Hot Spots" Program efforts and results. This 2012 Annual Report fulfills that requirement by providing information about emission inventories, approved health risk assessments, public notification procedures, and steps undertaken to reduce public health risks. If approved, the report will be disseminated to city councils, local health officials, and other stakeholders.

An estimated 63.8 million pounds of toxic air contaminants are emitted annually in San Diego County. Of the total pounds, automobiles and other mobile sources emit approximately 41.7%, area sources such as consumer products emit approximately 42.4%, and natural sources such as wildfires emit 13.5%. The remaining 2.4% are released from approximately 200 large industrial facilities and 2,930 smaller businesses. Industrial toxic air contaminant emissions have been reduced by approximately 89.2% (11.2 million pounds) since 1989, the first year for which air toxic emissions inventories were conducted under this program. This reduction contributes to a 73.4% decrease in the incremental cancer risk from air toxics that have been calculated at the Chula Vista and El Cajon air monitoring stations since 1989.

FISCAL IMPACT:

Approval of the 2012 report will have no fiscal impact on the Air Pollution Control District.
