

FOR YOUR INFORMATION

The Following Notice was Published by the District

**NOTICE OF PRELIMINARY DECISION
TO APPROVE AN APPLICATION FOR EMISSION REDUCTION CREDITS
BY THE SAN DIEGO COUNTY AIR POLLUTION CONTROL DISTRICT**

The San Diego Air Pollution Control District (District) hereby gives notice that in accordance with Rules 26.0 and 26.1 of the District's Rules and Regulations, the Air Pollution Control Officer has made a preliminary decision to approve an application for emission reduction credits submitted by Gas Recovery Systems San Marcos, to bank emission reductions for the shutdown and replacement of equipment. This application is for the shutdown of two landfill gas fired turbines located at 1615 San Elijo Road, San Marcos, CA 92069. This shutdown and replacement creates 6.6 tons/year of actual emissions reductions for oxides of nitrogen (NOx).

The District has determined that these reductions are real, surplus, enforceable, quantifiable and permanent when all conditions imposed by the District are followed, and therefore the credits will be classified as "class A emission reduction credits". These emission reduction credits are usable in whole or part, in accordance with the stipulations of District Rule 26.1 – Standards for Granting Emission Reduction Credits.

The evaluation of this application is available for review at the Air Pollution Control District, 10124 Old Grove Road, San Diego, CA 92131. Please refer to ERC No. APCD2008-ERC-987492 on all correspondence regarding this project. Written comments concerning the District's proposed action may be submitted for a period of 30 days, commencing March 12, 2014, and ending on April 11, 2014. Questions regarding this notice may be directed to Melissa Adams at (858) 586-2704 or via e-mail to Melissa.Adams@sdcounty.ca.gov.
