TABLE OF CONTENTS

FOREWORD

BOARD LETTER - 7/25/95

APPENDIX A

CALIFORNIA AIRBORNE TOXIC CONTROL MEASURES (ATCM)

- §93101 - BENZENE ATCM FOR RETAIL SERVICE STATIONS
- §93101.5 - ATCM TO REDUCE EMISSION OF HEXAVALENT CHROMIUM AND NICKEL THERMAL SPRAYING
- §93102 - HEXAVALENT CHROMIUM ATCM FOR CHROME PLATING & CHROMIC ACID ANODIZING OPERATIONS
- §93105 - ASBESTOS ATCM FOR CONSTRUCTION, GRADING, QUARRYING, AND SURFACE MINING OPERATIONS
- §93106 - ASBESTOS ATCM FOR SURFACING APPLICATIONS
- §93107 - ATCM FOR EMISSIONS OF TOXIC METALS FROM NON-FERROUS METAL MELTING
- §93108.5 - PART 2: COMMERCIAL STERILIZERS AND AERATORS USING 2,000 POUNDS OR MORE OF ETHYLENE OXIDE PER 12 CONSECUTIVE MONTHS
- §93109 - ATCM FOR EMISSIONS OF PERCHLOROETHYLENE FROM DRY CLEANING OPERATIONS
- §93111 - ATCM FOR EMISSIONS OF CHLORINATED TOXIC AIR CONTAMINANTS FROM AUTOMOTIVE MAINTENANCE AND REPAIR ACTIVITIES
- §93112 - ATCM FOR EMISSIONS OF HEXAVALENT CHROMIUM AND CADMIUM FROM MOTOR VEHICLE AND MOBILE EQUIPMENT COATINGS
- §93113 - ATCM TO REDUCE EMISSIONS OF TOXIC AIR CONTAMINANTS FROM OUTDOOR RESIDENTIAL WASTE BURNING
- §93115 - ATCM FOR STATIONARY COMPRESSION IGNITION ENGINES
- §93116 - ATCM FOR PORTABLE DIESEL-FUELED ENGINES

TABLE OF CONTENTS - continued

APPENDIX B

NATIONAL EMISSION STANDARDS FOR HAZARDOUS AIR POLLUTANTS (NESHAP) FOR SOURCE CATEGORIES

SUBPART A -	GENERAL PROVISIONS
SUBPART R -	GASOLINE DISTRIBUTION
SUBPART T -	HALOGENATED SOLVENT CLEANING
SUBPART DD -	OFF-SITE WASTE AND RECOVERY OPERATIONS
SUBPART GG -	AEROSPACE MANUFACTURING AND REWORK FACILITIES
SUBPART II -	SHIPBUILDING AND SHIP REPAIR (SURFACE COATING)
SUBPART JJ -	WOOD FURNITURE MANUFACTURING OPERATIONS
SUBPART AAAA -	MUNICIPAL SOLID WASTE LANDFILLS
SUBPART ZZZZ -	STATIONARY RECIPROCATING INTERNAL COMBUSTION ENGINES
SUBPART - HHHHHH	PAINT STRIPPING AND MISCELLANEOUS SURFACE COATING OPERATIONS
SUBPART - OOOOOO	FLEXIBLE POLYURETHANE FOAM PRODUCTION AND FABRICATION
SUBPART - WWWWWW	PLATING AND POLISHING OPERATIONS

APPENDIX C

NEW SOURCE PERFORMANCE STANDARDS (NSPS)

SUBPART D -	STANDARDS OF PERFORMANCE FOR FOSSIL-FUEL-FIRED STEAM GENERATORS FOR WHICH CONSTRUCTION IS COMMENCED AFTER AUGUST 17, 1971
SUBPART Da -	STANDARDS OF PERFORMANCE FOR ELECTRIC UTILITY STEAM GENERATING UNITS FOR WHICH CONSTRUCTION IS COMMENCED AFTER SEPTEMBER 18, 1978
SUBPART Db -	STANDARDS OF PERFORMANCE FOR INDUSTRIAL-COMMERCIAL- INSTITUTIONAL STEAM GENERATING UNITS
SUBPART Dc -	STANDARDS OF PERFORMANCE FOR SMALL INDUSTRIAL- COMMERCIAL-INSTITUTIONAL STEAM GENERATING UNITS

TABLE OF CONTENTS - continued

- SUBPART Eb - STANDARDS OF PERFORMANCE FOR LARGE MUNICIPAL WASTE COMBUSTORS FOR WHICH CONSTRUCTION IS COMMENCED AFTER SEPTEMBER 20, 1994, OR FOR WHICH MODIFICATION OR RECONSTRUCTION COMMENCED AFTER JUNE 19, 1996
- SUBPART Ec - STANDARDS OF PERFORMANCE FOR HOSPITAL/MEDICAL/INFECTIOUS WASTE INCINERATORS FOR WHICH CONSTRUCTION IS COMMENCED AFTER JUNE 20, 1996
- SUBPART K - STANDARDS OF PERFORMANCE FOR STORAGE VESSELS FOR PETROLEUM LIQUIDS FOR WHICH CONSTRUCTION, RECONSTRUCTION, OR MODIFICATION COMMENCED AFTER JUNE 11, 1973, AND PRIOR TO MAY 19, 1978
- SUBPART Ka - STANDARDS OF PERFORMANCE FOR STORAGE VESSELS FOR PETROLEUM LIQUIDS FOR WHICH CONSTRUCTION, RECONSTRUCTION, OR MODIFICATION COMMENCED AFTER MAY 18, 1978, AND PRIOR TO JULY 23, 1984
- SUBPART Kb - STANDARDS FOR PERFORMANCE FOR VOLATILE ORGANIC LIQUID STORAGE VESSELS (INCLUDING PETROLEUM LIQUID STORAGE VESSELS) FOR WHICH CONSTRUCTION, RECONSTRUCTION, OR MODIFICATION COMMENCED AFTER JULY 23, 1984
- SUBPART GG - STANDARDS OF PERFORMANCE FOR STATIONARY GAS TURBINES
- SUBPART AAA - STANDARDS OF PERFORMANCE FOR NEW RESIDENTIAL WOOD HEATERS
- SUBPART OOO - STANDARDS OF PERFORMANCE FOR NON-METALLIC MINERAL PROCESSING PLANTS
- SUBPART UUU - STANDARDS OF PERFORMANCE FOR CALCINERS AND DRYERS IN MINERAL INDUSTRIES
- SUBPART VVV - STANDARDS OF PERFORMANCE FOR POLYMERIC COATING OF SUPPORTING SUBSTRATES
- SUBPART WW- STANDARDS OF PERFORMANCE FOR MUNICIPAL SOLID WASTE LANDFILLS
- SUBPART AAAA- STANDARDS OF PERFORMANCE FOR SMALL MUNICIPAL WASTE COMBUSTION UNITS FOR WHICH CONSTRUCTION IS COMMENCED AFTER AUGUST 30, 1999, OR FOR WHICH MODIFICATION OR RECONSTRUCTION IS COMMENCED AFTER JUNE 6, 2001

TABLE OF CONTENTS - continued

SUBPART CCCC- STANDARDS OF PERFORMANCE FOR COMMERCIAL AND INDUSTRIAL SOLID WASTE INCINERATION UNITS FOR WHICH CONSTRUCTION IS COMMENCED AFTER NOVEMBER 30, 1999, OR FOR WHICH MODIFICATION OR RECONSTRUCTION IS COMMENCED ON OR AFTER JUNE 2, 2001

SUBPART EEEE- STANDARDS OF PERFORMANCE FOR OTHER SOLID WASTE INCINERATION UNITS FOR WHICH CONSTRUCTION IS COMMENCED AFTER DECEMBER 9, 2004, OR FOR WHICH MODIFICATION OR RECONSTRUCTION IS COMMENCED ON OR AFTER JUNE 16, 2006

SUBPART KKKK- STANDARDS OF PERFORMANCE FOR STATIONARY COMBUSTION TURBINES

RULES AND REGULATIONS APPENDICES

FOREWORD

Appendix A and B to the San Diego County Air Pollution Control District (District) Rules and Regulations contains California Airborne Toxic Control Measures (ATCM) and National Emission Standards for Hazardous Air Pollutants (NESHAP) applicable to facilities operating in San Diego County which emit or have the potential to emit hazardous (toxic) air pollutants. These regulations are in effect in San Diego County and are implemented and enforced by the District.

ATCMs are adopted by the California Air Resources Board (ARB). The District is required to implement and enforce the ATCMs or adopt regulations which are at least as stringent. NESHAPs are promulgated by the U.S. Environmental Protection Agency (EPA) and apply throughout the country.

In the past, state ATCMs were adopted by the District as new rules contained in Regulation XII of the Rules and Regulations. Federal NESHAP regulations were adopted as new Subparts of Regulation XI, with a subsequent EPA delegation of authority for implementation and enforcement of each subpart.

On July 25, 1995, in order to reduce operating costs and as part of rule development streamlining, the Air Pollution Control Board approved a new procedure for the District to directly implement and enforce state ATCM and federal NESHAP regulations without adopting such regulations either by reference or as new District rules. The Board also directed that a new rule deviating from a specific ATCM or NESHAP regulation can be adopted if the District, business or the public has a compelling interest to do so. The Board Letter of July 25, 1995 is included in this Appendix.

The District will add to these appendices any new or amended ATCM and/or NESHAP regulation applicable to local sources in San Diego County after such regulation is promulgated or accepted by the California ARB. The District will also hold a workshop before the first ATCM or NESHAP substantial implementation date to inform affected businesses and other interested parties of the regulation's requirements.

For purposes of determining compliance, granting or denying permits, or petitioning for and issuing Hearing Board variances, the state ATCM and federal NESHAP regulations contained in this Appendix shall be considered rules of the District.

It should be noted that facilities in San Diego County are subject to all applicable federal NESHAPs (unless the District has received a separate delegation from EPA to implement and enforce a locally adopted rule which deviates from a specific federal regulation) whether or not a specific NESHAP has been included in this Appendix.

Air Pollution Control Board

Bill Horn District 5

Air Pollution Control Officer
R. J. Sommerville

DATE: July 25, 1995
TO: Air Pollution Control Board
SUBJECT: Change in the Adoption Procedure for California Air Toxic Control Measures
 and National Emissions Standards for Hazardous Air Pollutants.

SUMMARY:

The state Health and Safety Code requires the California Air Resources Board (ARB) to identify toxic (hazardous) air pollutants and adopt Air Toxic Control Measures (ATCM's) to reduce them. Local air districts are then required to implement ATCM's or adopt and implement local regulations at least as stringent.

National Emissions Standards for Hazardous Air Pollutants (NESHAP's) are promulgated by the Environmental Protection Agency (EPA) and apply throughout the country. The EPA Section 105 Grant requires the District to adopt any new or amended NESHAP's regulation or take other action to enable implementing the NESHAP within 12 months of EPA promulgation.

In order to maintain a consistent and comprehensive public review process, the Board currently adopts ATCM's as local rules in Regulation XII and NESHAP's as separate Subparts in Regulation XI of the District Rules and Regulations, after the established notice and workshop process. Following adoption of a NESHAP, the District requests EPA delegation of authority.

Due to the mandates of the 1990 Clean Air Act Amendments, over the next few years the District estimates at least 16 (likely substantially more) new and modified NESHAP's will have to be implemented. Because the state Health and Safety Code specifies any NESHAP adopted by EPA is automatically a state ATCM unless the ARB adopts an alternative, air districts must directly implement all new ATCM's or NESHAP's, or formally adopt and implement them as separate local rules. Restructuring an ATCM or NESHAP into a District rule format is a lengthy and resource intensive process. As part of the continuous improvement effort to reduce cycle time and avoid or reduce costs, including additional staff requirements, the District is proposing to directly implement new and amended ATCM's and NESHAP's without adopting them as local requirements. This concept is approved by ARB and EPA and is used by some air districts in California. It will avoid the need to hire four new Associate Engineers (\$239,416 annually).

While these changes will decrease cycle times and avoid cost, there will be minimal impact on the current public review process. The process will be maintained with two minor modifications.

SUBJECT: Change in the Adoption Procedure for California Air Toxic Control Measures and National Emissions Standards for Hazardous Air Pollutants

- The ATCM's and NESHAP's would not be restructured into a local rule or Subpart. Instead, the published state ATCM or federal NESHAP will be used in the review process.
- The Board will not adopt (or adopt by reference) a local rule or Subpart unless the District, businesses or the public has a compelling interest to do so.

As a result, District requirements will become slightly more complex in that new and amended ATCM's and NESHAP's will no longer appear in Regulations XI and XII respectively. Instead, they will be included in an Appendix to District Rules and Regulations.

Also as part of the District's continuous improvement process, the District is separately proposing to revise procedures to implement federal Standards of Performance for New Stationary Sources (NSPS). The current procedure requiring Board adoption of the full regulation as a local Subpart would be replaced by one allowing the Board to adopt a new or amended NSPS by reference. Adoption of NSPS by reference is necessary because there is no authority in state law, as there is for ATCM's and NESHAP's, to implement NSPS directly.

Issue

Should the Board authorize implementing state Air Toxic Control Measures (ATCM's) and federal National Emissions Standards for Hazardous Air Pollutants (NESHAP's) without formal adoption, as authorized by the state Health and Safety Code.

Recommendation

AIR POLLUTION CONTROL OFFICER:

Direct the Air Pollution Control Officer to implement new and modified ATCM's and NESHAP's without formally adopting them, as authorized by the state Health and Safety Code.

Advisory Statement

The Air Pollution Control Advisory Committee recommended approving the new procedure for implementing ATCM's and NESHAP's at its May 25, 1995 meeting.

Fiscal Impact

Changing the procedure for adopting state ATCM's and federal NESHAP's will avoid future costs (4 Associate Engineers, \$239,416 annually) associated with developing local rules to implement new or modified ATCM's and NESHAP's.

Alternatives

Not adopt the recommendation. This would require the District to continue the current process of developing and adopting state ATCM's and federal NESHAP's. An annual cost avoidance of four staff years (\$239,416) will not be realized and four staff years would have to be added

SUBJECT: Change in the Adoption Procedure for California Air Toxic Control Measures and National Emissions Standards for Hazardous Air Pollutants

to adopt ATCM's and NESHAP's using the current process or risk missing EPA Grant deadlines and possibly losing part of the annual 105 Grant which is contingent upon timely adoption of new and amended NESHAP's Subparts.

BACKGROUND:

The state Health and Safety Code requires the ARB to identify toxic (hazardous) air pollutants and adopt Air Toxic Control Measures (ATCM's) to reduce emissions. Within 120 days after adopting or implementing an ATCM by ARB, local districts must either implement the ATCM directly or propose a regulation at least as stringent as the ATCM. Currently, the District adopted its own version of the ATCM's as local rules in Regulation XII of the District Rules and Regulations.

Section 112 of the Federal Clean Air Act requires EPA to promulgate National Emissions Standards for Hazardous Air Pollutants (NESHAP's) that apply throughout the country. EPA (Section 105 Grant) requires the District to adopt or take action to otherwise implement any new or amended NESHAP's within 12 months of promulgation by EPA. Local districts can request delegation of authority to implement applicable NESHAP's from EPA. To receive delegation, a local Subpart must be adopted incorporating the NESHAP's requirements or implementation of the federal NESHAP's must be authorized in some other manner acceptable to EPA.

To avoid the necessity, related expense and cycle time for local businesses to obtain an NESHAP permit from EPA, the District accepted EPA delegation and assumed responsibility for the NESHAP program in November, 1976.

The federal Act identified 189 Hazardous Air Pollutants and required EPA to develop NESHAP's reflecting Maximum Achievable Control Technology to reduce their emissions. EPA must publish over 150 new NESHAP's by the year 2001. The state Health and Safety Code specifies that any NESHAP regulation adopted by EPA under Section 112 of the Federal Clean Air Act is also an ATCM unless the ARB adopts an alternative ATCM. All ATCM's, including applicable NESHAP's adopted by EPA, must be locally adopted and implemented or implemented directly by local air districts.

In order to maintain a consistent and comprehensive public review process, the Board currently adopts a District regulation reflecting new and modified NESHAP and ATCM requirements into Regulation XI and XII, respectively, of the District's Rules and Regulations after the established notice and workshop process. Currently, Regulation XI has six Subparts.

The proposed change will maintain the District's current participative review process with two minor modifications:

- The ATCM's and NESHAP's would not be restructured into a local rule or Subpart. Instead, the published state ATCM or federal NESHAP will be used in the review process.
- The Board will not adopt (or adopt by reference) a local rule or Subpart unless the District, businesses or the public has a compelling interest to do so. In such case, the District will propose adoption of a local regulation using the current rule adoption process.

While these changes will decrease cycle times and avoid cost, there will be minimal impact on the public review process. Interested parties will still be fully informed of specific changes in a workshop notice, a workshop will be held and a workshop report prepared and distributed to

SUBJECT: Change in the Adoption Procedure for California Air Toxic Control Measures and National Emissions Standards for Hazardous Air Pollutants

participants. All newly promulgated or amended state ATCM's and federal NESHAP's for hazardous air pollutants including those currently in Regulations XI and XII will be included in an Appendix to the District Rules and Regulations. Copies will also be provided to affected sources on request and be available for review in the District library.

A public workshop discussing the proposed changes to the ATCM and NESHAP adoption process was held on March 30, 1995. The workshop report is attached.

Concurrence:

Respectfully submitted,

DAVID E. JANSSEN
Chief Administrative Officer

R. J. SOMMERVILLE
Air Pollution Control Officer
