COUNTY OF SAN DIEGO
AIR POLLUTION CONTROL DISTRICT

NOTICE OF PUBLIC HEARING

NOTICE, pursuant to State of California Health and Safety Code Section 40725, is hereby given of a public hearing on June 24, 2015, at 9:00 a.m., before the Air Pollution Control Board of the County of San Diego, in Room 310, County Administration Center, 1600 Pacific Highway, San Diego, California, for the purpose of receiving public comments on and considering adoption of new Rule 67.0.1 (Architectural Coatings) and repeal of existing Rule 67.0 (Architectural Coatings). Rule 67.0.1 will reduce the amount of volatile organic compounds (VOC) emitted from the application of coatings to stationary structures. These coatings include a variety of residential, commercial and industrial paints, primers, sealers and other products. Since the adoption of existing Rule 67.0 in 2001, coating manufacturers have developed new architectural coatings that contain less VOC while meeting appearance, durability, and other performance needs. In 2007, the California Air Resources Board (ARB) adopted a Suggested Control Measure (SCM) for Architectural Coatings to further reduce VOC emissions and encourage consistency on how architectural coatings are regulated across the state. Several air districts throughout California have already adopted the SCM and as a result compliant coatings are now readily available.

Due to the extent of the necessary revisions to existing Rule 67.0, the District proposes to repeal existing Rule 67.0 and adopt proposed new Rule 67.0.1 that is fully consistent with the SCM. Proposed new Rule 67.0.1 requires any person who manufactures, supplies, sells, offers for sale, applies or solicits for application any architectural coating within San Diego County to comply with all applicable provisions of the rule, including VOC content limits, labeling and reporting requirements. On January 1, 2016, proposed new Rule 67.0.1 will go into effect and existing Rule 67.0 will be automatically repealed. Coatings manufactured before January 1, 2016, may be sold for up to three years and applied at any time. This sell-through period allows time for affected businesses and consumers to sell or use their inventories of non-compliant coatings and transition to the new coating standards. Implementation of proposed new Rule 67.0.1 will result in VOC emission reductions of approximately 2.3 tons per day.

The Board may consider modifications to the proposal, which may be deemed appropriate. Written comments are also invited. Comments should be addressed to:

Angela Ortega, Rule Development Supervisor
San Diego County Air Pollution Control District
10124 Old Grove Road
San Diego, CA 92131

Proposed new Rule 67.0.1 may be examined or obtained at the Air Pollution Control District Headquarters, 10124 Old Grove Road, San Diego, California, 92131, or by visiting the District's website at http://www.sdapcd.org/homepage/public_part/public_participate.html. Specific information with respect to this matter may also be obtained by calling Angela Ortega, Rule Development Supervisor, at (858) 586-2753.

DAVID C. HALL
Clerk of the Air Pollution Control Board
