

# Apiary Information 2017 San Diego County Crop Report Questionnaire

Dear Beekeeper,

We would like to know how your production was in 2017. Was honey production up or down? How about other products such as wax and pollen? Did your income from pollination services increase? How about the income from selling bees and queens? The Agriculture, Weights and Measures department conducts an annual Crop Report Questionnaire to accurately determine the overall value of agriculture in San Diego County. This questionnaire is the sole source of information for some commodities.

**Your support in completing the 2017 San Diego County Crop Questionnaire is critical to its success.** Please keep in mind, the more producers that return a completed questionnaire - the more accurately we can determine the apiary production for our county. It is very important that you list a total value for each commodity you produce.

Record all your information on the back of this sheet. The information shared is protected as we only ask that your zip code be provided. The Crop Report Questionnaire is kept confidential and will be used solely for the purpose of compiling the relevant statistics to establish the 2017 values for apiary products, and will be unavailable to any other agency.

**The Crop Report Questionnaire responses are due by February 28, 2018, and can be submitted by using the enclosed envelope, FAX to (858) 467-9697 or Email to [Jennifer.Alipio@sdcounty.ca.gov](mailto:Jennifer.Alipio@sdcounty.ca.gov).**

Thank you for taking a few moments to complete the 2017 Crop Report Questionnaire and being a part of making San Diego's agriculture count! For more information, please visit our website at [www.sdcawm.org](http://www.sdcawm.org), follow us on Facebook at [www.facebook.com/sdcawm](https://www.facebook.com/sdcawm), or contact our office and we will be happy to assist you.
