SANDY PARKS

ASSISTANT DIRECTOR

Dear Valued Customer:

This is a courtesy reminder that it may be time for your annual registration. A registration application has been enclosed for your convenience.

To determine accuracy and ensure a fair and equitable marketplace, registration, testing and sealing of weighing and measuring devices used for commercial purposes, including odometers used to determine charges for rent or hire by the mile, is required annually before being used or placed into service. Registration fees offset the costs of inspection and testing.

On September 7, 2012, legislation was enacted into law which allows County Sealers in California to register rental truck business location facilities owned and operated by the rental company. The law exempts rental trucks temporarily parked at agent locations.

REGISTRATION REQUIRED:

- Make any necessary changes on the enclosed Annual Registration Application.
- Return the bottom portion of the application.
- Keep the top portion for your records; expiration date is on the top of the application. Your registration is valid once your application is received; permits or certificates will no longer be mailed.

ADDITIONAL INFORMATION:

- Effective January 1, 2012, registrations are now distributed throughout the year. Check your enclosed form for your twelve month registration period and expiration date.
- A separate registration application is required for each business location with one or more commercial devices.
- Registrations are not transferable from one person to another or from one location to another.
- Annual registration is the responsibility of the person who owns or uses these devices.

RESOURCES:
