## Is your child graduating in June?

Graduation is an exciting time of year for both the child and the parents. As a parent, you may wonder how this will affect your child support? A child support order issued in California continues until the child reaches 18, unless he or she is still a full-time high school student. Support for students over 18 ends when they complete the 12th grade or turn 19, whichever comes first. This June, make sure to keep your case manager informed of your child's graduation status.

## Planning a trip this summer?

If you have missed a child support payment, your driver's license may have been suspended by the DMV. Any month you miss or are short on a payment, the DMV receives a request for license suspension. As summer approaches, make sure your license remains valid by paying your child support on time.

## Does your court order need to be changed?

Has your income changed? Has there been an addition to your family? To help you adjust your order, DCSS holds an EZ Modification workshop every Tuesday at 9:00 am, located on the 6th floor of the San Diego Superior Courthouse. Staff will provide customers direction with completing forms, complete preliminary calculations, and assist with filing the paperwork to get a hearing to change the support.
