To whom it may concern.

I am a long time resident in the Sonata town home complex and I and my neighbors [whom I have discussed this with] have been seriously affected by the eye gnat infestation that began shortly after the farming began in the valley bellow our complex. I as well as my neighbors wish to voice our support for the Negative Declaration and initial study which will allow the county to bring pressure to bear on the farming operation to deal with the eye gnat problem. Thank you for your actions on our behalf.

**Subject:** eye gnat issues

Chris,

I appreciate you keep us informed on the measure. I have read the recent distribution and can only report, there is no change thus far to the issues of the eye gnat on warm days in South Escondido. I still can not enjoy my yard on warm days at any hour due the the gnats swarming me within moments of entering my yard.

I find the politics of this measure disheartening as it appears nothing will be done to fix this unbearable nuisance issue any time soon.

At some point, residence will give up on the county and will have to take measures in their own hands. Thus, I stress that the county please do everything possible to move on this problem before we are in the middle of summer again with no relief.

Thank you,

Paul Robbins

Officials of DEH,

As a 10 year home owner in the Sunset Hills area of the San Pasqual Valley, I have experienced the worsening of the eye gnat problem over the years, especially over the last 7 years.

Therefore, I approve of the Negative Declaration and proposed Eye Gnat Program and Ordinance, and I strongly encourage you to vote approval for this initiative.

Respectfully,

Gary R. Carradine

As a resident of south Escondido I strong approve of the Negative Declaration and proposed Eye Gnat Program and Ordinance. It is impossible to work in your yard or simply enjoy outside due to the constant annoyance of the eye gnats. We like to entertain at our home, and that's difficult because of these gnats. Any work that needs to be done outside by hired help complain it's too hard to work with the gnats getting in their face the entire time. PLEASE approve this!

To San Diego County,

Thank you for the efforts spent to rectify the problem with the eye gnats in Escondido. This has been an ongoing issue and has made life miserable in our neighborhoods.

However, I am pleased with the progress made, and appreciate all the work and energy that the county board of supervisors have done to help us.

I STRONGLY APPROVE of the Negative Declaration and Proposed Eye Gnat Program & Ordinance.

I look forward, as we all do, to a more peaceful outdoor environment!!!

Sincerely & with Respect,

**Sent:** Friday, May 25, 2012 8:03 AM  
**To:** LUEG, DEH-Eyegnat  
**Subject:** Negative Declaration Approval

To Whom It May Concern:

I am writing to give my approval of the Negative Declaration and proposed Eye Gnat Program and Ordinance.

These eye gnats have been a menace for too long in our lives and we are fed up. We really believe that the County wants to alleviate our suffering and we fully support the County's efforts. We wish no ill will to the farmers and their livelihoods, and our only wish is to have the eye gnats depleted, not the farms.

From what we hear so far from the farms' spokespeople, we feel that they do not have a reciprocating sentiment towards the residents plight; therefore, we support the County's efforts to adopt a Negative Declaration in accordance with the California Environmental Quality Act for an ordinance amending Title 6 of the San Diego County Code of Regulatory Ordinances relating to Vector Control to establish a county-wide (incorporated cities and unincorporated area) Eye Gnat Program; ER#12-00-001.

Sincerely,

Ray DeCoux  
Sonata Resident

**Subject:** Eye Gnats -- Adopt Negative Declaration

I support adoption of the Negative Declaration regarding eye gnats.

The idea of organic gardening is working *with* nature, not against it. Organic means using the natural resources we have to control pests. Over time, it has the added bonus of preventing negative impact on the environment.

The two farmers causing the huge infestation of eye gnats in San Diego County are not following this basic premise of organic farming--they are following only their own PROFIT motives. They are not being good to the land, nor are they being good neighbors.

I am in receipt of your letter of May 24, 2012 regarding our horrific eye gnat problem in San Pasqual Valley. Although this is a step in the right direction, I feel this declaration is too lenient towards the organic farms. With the five pesticides in use only, if they fail it sounds like there is no other recourse. Also it sounds like it is a guarantee to the farmer that his crops, size of farm and habits will be protected. I think we need to tighten this declaration up in order for you to protect us, the tax payers who are dealing with this problem and incorporate a "whatever is necessary policy" to handle this situation. This farmer has hired one of the most costly and powerful public relations firm to distribute propaganda to our neighbors and has succeeded in some cases. He has a lot of money and will do whatever it takes to protect his assets and his income. It has been several years now of dealing with this problem, we continue to pay for this protection in our tax bill which I have been told is a fixed line item even though we don't see anyone helping us to end this situation. I am discusted with the pointing of fingers at each other and whose problem it is, all the stupid eye gnat counting and dumb pie charts. If you have a container of millions of eye gnats, and thousands of people complaining at several meetings over the years, then THERE IS A PROBLEM. Fix it.

**To:** LUEG, DEH-Eyegnat  
**Subject:** Eye Gnat Ordinance Program

To Whom It May Concern:

I am the store manager for Nordstrom North County and I would like to express my support for the Negative Declaration and proposed Eye Gnat Program and Ordinance. Our store conducts business in southern Escondido and has been negatively impacted by the eye gnats that make it miserable to anyone considering sitting outside in our outdoor dining area. Additionally, we have an outdoor coffee bar that is hindered by the gnats. We have taken some action, such as installing fans, but this does not abate the problem.

I could speak extensively to the challenges that the eye gnats create for us and our customers but I know that many in our nearby communities have expressed the impact that the gnats have had on the quality of life. I will just add that the problem has only gotten worse by inaction so the proposed ordinance is a critical step in the right direction.

Thank you for your consideration of our input. I look forward to seeing the improvements in the future.

Sincerely,

Eda Baldauf

**Subject:** Regarding the Negative Declaration and proposed Eye Gnat Program and Ordinance.

To: The Lomas Serenas Homeowners Association Board of Directors  
From: Nicholas G. Tsoulos, M.D.  
321 Pico de la Loma  
Escondido, CA 92029  
Lot # 64, Lomas Serenas

Regarding support for the Negative Declaration and proposed Eye Gnat Program and Ordinance.

To the Board:

Because of 'organic' farming, developed in the San Pasqual Valley east of I-15, north of Lake Hodges, a serious and significant Eye Gnat problem has arisen, causing potential health problems, and certainly significant irritating insect infestation of the communities north of Lake Hodges, and in other areas of the county. These gnats can seriously erode the quality of life and thus the economic value of our homes in these lovely areas.

'Organic' farming in the San Pasqual Valley precludes use of methods which can control the Eye Gnat. These have become significant problems in the Sonata and Stonepoint neighborhoods, as well as others.

The Department of Environmental Health (DEH) has proposed a Negative Declaration for an ordinance amending San Diego County Code of Regulatory Ordinances related to Vector Control. This would establish a county-wide Eye Gnat Program.

This would not close organic farms, but would implement a progressive strategy for intervention when commercial organic farms cause an eye gnat nuisance.

I strongly encourage the Board to send or email a letter supporting, or a positive comment about the Negative Declaration in accordance with the California Environmental Quality Act.

We have until June 12 to comment to the County Department of Environmental Health.

For more complete information, please see

[http://www.sdcounty.ca.gov/deh/pests/eyegnats/eyegnats\\_home.html](http://www.sdcounty.ca.gov/deh/pests/eyegnats/eyegnats_home.html)

(Please remember to cut and past the URL, or remember to put an "under-score", i.e. an "\_" between *eyegnats* and *home*.)

Also, you can send a comment by emailing to [eyegnat@sdcounty.ca.gov](mailto:eyegnat@sdcounty.ca.gov) and use "Eye Gnat Ordinance and Program" in the subject line.

I would encourage each adult in every house in Lomas Serenas to send in a separate comment.

Sincerely,

**Subject:** Eye Gnat Ordinance and Program

Dear Sirs,

I am a resident of south Escondido, and would like to comment that any measure you can pass that would help eradicate the gnat problem on our end of town would be wonderful. It is very difficult to do much outdoors – even simple things like walking to the mailbox and bringing in our trash cans invoke gnat attacks. Any activity that involves being outside for very long is just miserable, and that is not how life should be lived here in southern California!

I am in support of organic farming, but the farmer at Be Wise Ranch seems very unsympathetic to the plight of his neighbors and has done very little to show that he would also like to eradicate this problem. He keeps fighting it and pretending there is not an issue, whereas I would hope that he would be doing all he can, going the extra mile, to demonstrate that organic farming is a sustainable practice and can be done well.

Thank you for all your time on this issue and for taking public comments.

**Subject:** DEH - Eye Gnat Program

DEH –

My entire family of four [4] **approve the Negative Declaration and proposed Eye Gnat Ordinance.** The affected homeowners, such as me, were in the area long before the organic farmer. I believe organic farming is good, BUT it should be placed in rural areas away from adjacent residential homes.

The eye gnat problem must be solved soon in order to avoid a very divisive and expensive class action lawsuit against the farmer[s], landlords and others involved.

Thank you.

My husband and I live in Sonata, one of the areas severely affected by eye gnats. We approve of the Negative Declaration and look forward to the day when we have our outdoor areas back...they have been held hostage for the past several years by these pesty eyegnats. Maybe one day soon my grandchildren will be able to play outside without being forced back indoors due to their constant annoyance.

Thank you for your continued hard work on our behalf.

Sincerely,

To whom it may concern,

I strongly APPROVE the Negative Declaration and proposed Eye Gnat Program and Ordinance. We just purchased a home in the Sonata Development in Escondido. We love our new home however the eye gnats make it hard to enjoy working in the yard, having a BBQ outside, washing the car or going for walks in our neighborhood. Anything outside on most days.

Anything you can do to address this issue would be greatly appreciated.

Sincerely,

Camille Woodbury

**Subject:** from a concerned resident

Dear Sir or Madam,

I want to lend my support to the proposed Negative Declaration allowing the DEH authority to take whatever actions are necessary to control the eye gnat problem we have lived with for several years now. I am a long term resident located just above the organic farming operation in the river valley and I can say that before the farm operation started we had no eye gnat problem whatsoever. Now we cannot use our backyards or pool area in the summer season. This is a serious problem affected all the residents in the area. All of my neighbors feel the same way about this problem and we want to see something concrete done about it. Thank you for your efforts on our behalf. I remain,

Mark Cowper-Smith

**Sent:** Saturday, June 02, 2012 12:31 PM  
**To:** LUEG, DEH-Eyegnat  
**Subject:** Attention: Eye Gnat Ordinance and Program

As residents of the Sonata community in South Escondido, we STRONGLY SUPPORT the proposed Eye Gnat Program and Ordinance, as described in the recent Notice of Intent to Adopt a Negative Declaration. We are very pleased that the County is moving ahead with sorely needed action to alleviate the misery caused by the huge eye gnat infestation. Please see below a copy of the letter we composed and sent to the Supervisors earlier this year:

**To:** The Supervisors  
**From:** Frank and Jeanette Yamaguchi  
3823 Violet Glen  
Escondido, CA 92025  
**Subject:** Eye Gnat Infestation in South Escondido

As you prepare to make decisions about the proposed eye gnat ordinance, we as your constituents ask you to consider the following central question concerning this very serious problem in South Escondido: Should a business be permitted to create a massive pest infestation, and to allow it to increase exponentially as time goes by?

It is our understanding that the owner of the Be Wise organic farm which is the source of this infestation has hired lawyers and public relations professionals in an attempt to sway the outcome of the ordinance process. Would he not be acting in a more constructive manner and in better faith if he spent that money on effective organic controls for the insects in an attempt to deal with the issue at its root? He is playing politics instead of working on the problem. Please bear in mind that, regardless of how many supporters he is able to assemble for hearings, a far larger number of people are suffering from this situation.

To recap the impact on the South Escondido community from the perspective of the residents, for the last six years or so we have been plagued, and we do mean PLAGUED, by swarms of gnats in our garden areas. These pests are constantly trying to fly up your nose, into your ears, or into your eyes whenever you are outdoors. Gardening, which used to be a pleasure and is in fact a necessity to keep up the appearance of the neighborhood, has become torture. We are now compelled to wear the tightest-fitting glasses we own when outdoors, as well as face masks, earplugs and headbands which cover the ears. We have completely lost the use of our front and back yards. It is impossible to sit outside and relax at all. It is highly uncomfortable to walk our neighborhood for pleasure or exercise. The insects are also pestering people as they use the San Dieguito River Park, Kit Carson Park, the Vineyard golf course and the Orfila winery. Our property values have been reduced by the need to include a clause describing the infestation in real estate sales contracts. There is economic loss to the City of Escondido from these factors.

Please review the contents of the ordinance, which we believe to be fair, moderate to all parties, and definitely in the public interest. Then vote

to pass it.

Thank you

Frank and Jeanette Yamaguchi

**Subject:** Att'n: Eye Gnats Ordinance and Program

Here is my in-put on the (bleeping) gnats. No one should have to endure these pests! So far they haven't seemed to be a problem because the weather has been so pleasantly cool, but after it really warms up, then . . . ? However, I hadn't noticed any activity on the fields below us until just these past few days. I was hoping that maybe the farmers would give it a year's rest just to see if they were really the cause of the pests.

I know I speak for everyone – well, almost everyone, in saying thank you so much for your efforts in getting this problem resolved.

Sincerely,  
Dorothy Wormser

**Subject:** Please approve the Negative Declaration and Proposed Ordinance to reduce Eyegnats

Dear Department of Environmental Health,

Please help to stop the insect invasion. Please support the Negative Declaration and Proposed Ordinance to help monitor and minimize the eyegnat problem. I live in the San Pasqual area and find the eyegnat problem to be more than a nuisance, but a growing health problem.

My granddaughter was born April 2011 with heart problem and the cardiologist and surgeon advised us to keep the baby out of the public until she had had surgery and was fully recovered. Last year and this spring was horrible. Every time we would try to sit outside to get some fresh air or try to walk the baby stroller around the neighborhood, we were attacked by the eye gnats. Within seconds of trying to take her outside, the eyegnats would cover her mouth, eyes and area around her nose. It was alarming to see her covered with insects.

Eyegnats have been a problem for us for a couple of years. Every year they seem to be getting worse than the previous one. Several years ago my husband bought a mosquito net to cover him and his favorite patio chair as he loves to read outside in the shade. He also purchased a mosquito net hat for me when I weed the garden. We never complained about the problem, but now things are totally out of hand.

We are concerned about our safety and the safety of our granddaughter.

Please help!!!!

Thank You  
Wanda Smith

**To:** LUEG, DEH-Eyegnat  
**Subject:** Eye Gnat Ordnance

Dear Sirs,

I am a resident of south Escondido. I would like to comment that any measure you can pass that would help eradicate the gnat problem on our end of town would be greatly appreciated. It is very difficult to do much outdoors – even simple things like walking to the mailbox and bringing in our trash cans invoke gnat attacks. Any activity that involves being outside for very long is just miserable, and that is not how life should be lived here in southern California!

I am in support of organic farming, but the farmer at Be Wise Ranch seems very unsympathetic to the plight of his neighbors and has done very little to show that he would also like to eradicate this problem. He keeps fighting it and pretending there is not an issue, whereas I would hope that he would be doing all he can, going the extra mile, to demonstrate that organic farming is a sustainable practice and can be done well.

Thank you for all your time on this issue and for taking public comments.

Sincerely,  
Allen Priest

**Subject:** Eye gnats in the neighborhood

I definitely want to APPROVE the Negative Declaration and Proposal Ordinance to DEH so that we can reclaim our yards, parks, and outdoor life styles!! Soon, please!

We already are being impacted by these dreadful eye gnats this year. As early as Easter, in April 2012, we and visiting family, had to deal with these pests. We all know that this is only the beginning, and the gnats will increase as the summer continues.

How can the nearby organic farms really believe that continuing their irresponsible method of farming is more important than this large area of residents being able to enjoy our own property and the outdoor lifestyles that we once did. They MUST make changes to eliminate these eye gnats.

Sandra Matalavage

I, as a homeowner in Sonata Condos in Escondido, ask that this ordinance be passed. These eye gnats have changed our lives in swimming, walking, golfing, and general use of our patios for the last several years. I'm asking that this be passed and continued work on getting rid of this problem to our community.

Thank you.

**Subject:** Eye Gnat Ordinance and Program

Thank you for your efforts to control the eye gnat infestation in south Escondido. The large turnout at the Green Elementary School in April is reason enough to say that many residents, children, schools, ect. are impacted by the problem. We support organic farms and buy the products they produce but we do not have to live with the vector infestation that is the eye gnat problem in south Escondido, and north Rancho Bernardo.

I support the Negative Declaration and proposed Eye Gnat Program and Ordinance.

Thank you,

Johnny Watson

**Subject:** Response to CEQA

Sir,

I'm in complete agreement with the findings for a negative declaration under CEQA in support of the proposed ordinance as it is proposed. I do have one concern and that is, the recommend height of the silt fence should be at a minimum 6 feet tall. Research is telling us that any fence that is 42 inches or less is marginally effective if at all. However, at last we may get some relief from these terrible gnats.

Thank you

**Subject:** Eye Gnat Ordinance and Program

Dear County of San Diego:

Please, please, **PLEASE** pass the Negative Declaration and Proposed Ordinance at once. The eye gnats make any use of our yard virtually impossible. I know there are many organic farms around the county that do not cause this problem, so organic farms are not the issue. It is the way THIS organic farm is run that is making the use of our outdoor spaces intolerable. It is imperative for the entomologists and Vector Control people to enforce procedures to end this menace.

Thank You,

Thomas Carey

**To:** LUEG, DEH-Eyegnat  
**Subject:** Eye Gnat Ordinance and Program

Dear County of San Diego,

I'm writing in support of passing the Negative Declaration and Proposed Ordinance as soon as possible. The infestation of eye gnats over the last few years has made it virtually impossible for Escondido residents to enjoy any outdoor activities during the warmer months; you can't go outside without being attacked by swarms of eye gnats. They not only make our lives miserable, they actually decrease the value of our homes. It is imperative that the entomologists and Vector Control are able to gain access to the organic farm that is producing the eye gnats so they can monitor what's going on and get the eye gnat situation under control. The residents of Escondido have suffered long enough.

Thank you,

Karen Levin

**Subject:** The Vineyards at Escondido

6-6-12

To Whom it May Concern:

I am a homeowner at 1011 Calle de Lepanto in the Vineyards housing development in Escondido. I am writing on behalf of my family to offer our support for the adoption of the Negative Declaration and Initial Study in San Pasqual Valley regarding the Eye Gnat Program. We are recipients of the disastrous repercussions of the eye gnats in the San Pasqual Valley and have been since we took ownership of our home in August, 2008.

At the time of our home purchase, we were unaware, nor was it disclosed, that there was an immense eye gnat problem in this area. We had not spent enough time on the property during escrow to realize what was going on. As we moved in, we noticed the gnats but figured that they were just there for a short time. After 4 years of this extreme nuisance, we are furious that the quality of our living situation has been compromised by practices of Be Wise Organic Farming.

The eye gnats have a tremendous impact on the way that we live our lives. We are not able to enjoy our outdoor backyard at all once the temperature reaches as low as 72 degrees or higher. At that point, the gnats are swarming in our faces, making yardwork, leisure activities and having our dog outside impossible. We have postponed the construction of a backyard pool due to the gnats and will not continue to reside in the area unless some relief is provided.

It is with the strongest urgency that our family supports ANY and all measures that may be taken to control this problem. Not only is our property value in jeopardy, but our lifestyle has been altered due to the selfishness and thoughtlessness of this farming company. It is unfair that this organic farmer be allowed to continue working under the same conditions while these farming practices create a situation that negatively impacts so many lives within the vicinity of the farm.

I am grateful for those who have taken notice of our dire situation and for the time and energy invested in trying to alleviate the problem. Thank you for your consideration of any measures that would better this dreadful situation for our family and those in our community.

Kindly,

**Subject:** attention to "Eye Gnat Ordinance and Program".

To whom it may concern:

I have been interested in the issue of eye gnats as a problem from a specific organic farm in Escondido for some time. I understand that there is some sort of action by the county that might finally address this issue. I visited the [web site about this](#). The language on this site was obviously written by lawyers with no concern about whether it would be understandable by the public. If this agency really wants feedback from the community on this issue, this website is not in any way useful for that goal.

That said, it seems ridiculous to me that this situation has been allowed to continue. People's property values and quality of life have been compromised in a way that would never in a thousand years be allowed if the issue came from a farm that is not "Organic." There are many ways that this farm's negative effects on the surrounding community could be managed. Why your proposed solution does not include crop rotation, non-planting windows, or other "Organic" solutions to pest control is interesting to me. Has the farm involved not proposed any "organic" solution to the problem? If not, then I support your plan (although I wonder if you might find some newer pesticide options for that list).

Sincerely,  
Steven Savage, Ph.D.

Attention to "Eye Gnat Ordinance and Program

Gentlemen & Ladies:

I am very pleased that the County of San Diego is constructively addressing the eye gnat problem in So. Escondido!

Organic farming can be a desirable activity with a positive impact on our community. However, it ceases to be constructive and positive when allows the breeding of a public nuisance that destroys the enjoyment of life for thousands of people and adversely affects their property values -- which is exactly what the eye gnats are doing in my area!!

I support your efforts to solve the eye gnat problem.

Robert F. Gray  
4015 Wind Pl.

Hi

The e-mail addresses did not work for some reason -- hell I'm an old man and do well with standup desks and quill pens, but not so well with the damn computers.

So I thought I'd try snail mail.

Either way, I believe controlling, or better yet, eliminating eye gnats in So. Escondido would be a plus.

Organic farming is nice, but it is not a God given right! Please keep working on the problem.

Bob Gray

**Subject:** Eye Gnat Ordinance & Program

To Whom It May Concern:

I live in the Sonata development in Southern Escondido and have been plagued by these annoying eye gnats for years. We are unable to be out of doors for any length of time when it's sunny and warm. Therefore we are forced to stay inside due to these tiny little beasts. They have caused numerous problems not only for the residents but also those taking advantage of Kit Carson Park, the local golf course and driving range and the nearby schools.

I am writing to indicate my support IN FAVOR of the Intent To Adopt A Negative Declaration. We have suffered way too long and something must be done. We now have to include a Disclosure Statement about these gnats when selling our homes . These gnats have had a VERY negative impact not only in our quality of life but in our pocketbook.

Thank you for the opportunity to voice my opinion.

Sincerely frustrated,

Hello,

I am the Assistant Community Manager for the Lomas Serenas Homeowners Association. The following are the messages from emails I received from the Homeowners. If you have any questions please feel free to contact me.

- Linda Oberski [linda.o@cox.net] B1.110  
We are very interested in having a solution to this problem and support the ordinance. We own property in Sonata and have had our own bad experience with the gnats there and here at Lomas Serenas. Linda and Mike Oberski

- Rob Steenblik [rsteenblik@hotmail.com] B1.111  
I am completely in favor of the ordinance and I wish it provided even more authority.

Best,  
Rob

- Dick Flanagan [dickflanagan@cox.net] B1.112  
We live on the rim of the lake and gnats have become an increasing problem. Accordingly, we are supportive of any (and all) efforts to control them. Support of the Negative Declaration and Ordinance modification appears to be a good start.

Richard & Rebecca Flanagan  
417 San Placido Court  
Lomas Serenas

- Pat [patnunez@cox.net] B1.113  
My husband and I live at 3624 Lago Sereno Drive and purchased this home in November 2011. We are troubled by the excessive numbers of gnats at the home and cannot walk through the grass or go outside at night with a light because of them. This has restricted the enjoyment of our new home. We fully support the implementation of the changes proposed by the County in the literature related to Eye Gnats. Patricia Nunez
- WendyJo [wendy.meier@cox.net] B1.114  
It looks like one needs a legal degree to figure out what exactly it is they want to do, or not do, so in light of that all we can comment is that we view with skepticism anything the county wants to implement. It's likely to be another program that will ensure job security for government workers, so who knows what they're really up to...
- Truit Trowbridge [truit@cox.net] B1.115  
Our family lives in the Lomas Serenas Community, on the north side of Lake Hodges, and I'd like to take a moment to let you know what a nuisance we find these bugs to be in this area. Re: Notice to Adopt a Negative Declaration

Thank you for addressing the serious nuisance issue in San Diego County especially in the southeastern area of Escondido and Rancho Bernardo.

The eye gnats have disrupted community, business, and residential property utilization and enjoyment the past summers. The farming operation responsible for the proliferation of eye gnats has been given more than ample time to initiate and follow corrective organic farming practices. The resistance of the farmer to be a part of the larger community has been selfish and is unfair to the many persons affected by the eye gnats. Control practices would have cost the farmer money but that is the cost of doing business. This abuse is especially offensive when the nuisance eye gnats have prospered on San Diego city owned land leased to the farming operation.

In Kit Carson Park the eye gnats have caused distress at ballgames, picnics, theatre productions, skate park events, playgrounds, nature walks, bird watching, hikes, and more. At the Vineyard golf games have been abandoned at times due to the gnats. Residents who live in the areas have been precluded from enjoying their own yards and patios.

We are grateful that the DEH has listened to our concerns and is addressing the problem. Please continue with your efforts to protect the community and its residents so that thousands of people may utilize two wonderful facilities, Kit Carson Park and the Vineyard golf course, as well as enjoy their homes and the area in general.

Thank you for your consideration.

James and Elizabeth Roberts

Hello,  
Please help us with this problem. The eye gnats make us a prisoner in our homes until the sun goes down and they disappear for the day. My sister's home in Encinitas is Gnat free- we can sit out on the patio all afternoon.

I'm all for organic farming but this affects our activities of daily living every day!

Thank you for your consideration of this matter.

Hello,

I live in Escondido next close to the farm. The eye gnat issue is beginning to become it's usual summer problem. As the weather conditions have been changing to warmer weather the eye gnats have begun to really be a problem afternoon until dusk. They attack my eyes and my dogs eyes. I have to drive my dogs over to another neighborhood to be able to walk them in the evenings. I was having my house painted recently and the painters were trying to work around the peak gnat times because they were bothering them so much.

Please approve this program and help us take control of this situation.

Very respectfully,

To Whom it May Concern:

**Re: Eye Gnat Ordinance & Program**

Living near the increased agricultural areas near our home we are very concerned with the problem of not being able to utilize our yard for BBQs and dining due to the terrible nuisance these eye gnats pose. There are obviously ways that they should be able to control these pests. I in no way invade on their properties in any way and only ask that they reciprocate without invading mine in any way.

**I support the Ordinance and Program to try and control this problem.**

Thank you,

Dennis Birch  
613 Gardenia Glen

As we all know, today is the deadline. This is my second response, but it is more complete than the first.

I feel we must approve an ordinance even if it is not perfect because without something being passed, there will be nothing done.

We face a guy who has been totally noncompliant from the start and now allows Bethke on his land but only with the stipulation that he not reveal anything that is occurring there and to this day has not allowed Vector Control on his property.

We face a very powerful city as the leaseholder that is not our city and is actively antagonistic to our concerns.

Our opponent has hired one of the most expensive and well connected PR firms that is around to rally all of his customers and the farm community to his side.

He has hired an extremely well connected attorney who is married to a newspaper publisher and former city councilman to fight for him. And very recently, he exchanged that attorney for another very expensive attorney from a huge firm that specializes in CEQA, in an attempt to thwart any attempts to bring forth an ordinance.

If nothing is enacted soon, who knows what will happen politically as the makeup of the Board of Supervisors changes, and we could very possibly lose support because of the retirement of Pam Slater-Price.

At this point, I feel we need some type of ordinance, so that the county gains access because at this point they can not even publicize what is going on at the farm. My taking walks around one short part of the perimeter of the farm is not the same as monitoring a farming operation.

I agree completely with concerns that the Eye Gnat Abatement Board should be an advisory board with final decisions made by the Jack Miller in his role as Director of DEH.

Thank you for all of the work and time on our behalf.

Respectfully,  
Cindy Morriss

TO ALL CONCERNED,

WHERE I LIVE, EVERY DAYLIGHT OUTDOOR ACTIVITY IS TEMPERED BY THE PRESENCE OF EYE GNATS. TEMPERED, IN THAT GARDENING, EXERCISING, MAINTAINING MY HOUSE, SOCIALIZING WITH FAMILY AND FRIENDS, COOKING AND EATING, ALL ACTIVITY IS DEPENDENT ON NOT JUST THE EXISTENCE OF THE GNAT, BUT HOW MANY ARE PRESENT.

FREQUENTLY, THERE ARE SO MANY EYE GNATS, THAT LITERALLY ALL OUT DOOR ACTIVITY IS DIFFICULT, ANNOYING AND I BELIEVE UNHEALTHY. IT CAN BE OVERWHELMING!

I APPROVE THE 'NEGATIVE DECLARATION' AND PROPOSED EYE GNAT ORDINANCE AND PROGRAM.

SINCERELY,

To whom it may concern,

As residents of the Sonata community we have enjoyed the location and natural environment here in South Escondido. Living here for almost twelve years has shown us the importance of nature and environmental balance in our lives. We have the opportunity of watching wildlife in abundance with a beautiful lake and sunset backdrop within our view. We have also enjoyed watching the organic fields ebb and flow with the seasons and have learned a bit about farming naturally and crop rotation, also learning and experiencing the results of less desirable and harmful farming practices.

The results of these practices have made our lives difficult in this community. We have not been able to go outside and enjoy what we have here because of the eye gnat attacks that occur when we leave our home to enjoy the outside. I am an avid gardener and can not enjoy any part of being outside trying to garden and swat at the same time, therefore my garden suffers. I have also seen less outdoor activity in the last few years that Eye Gnats has been a problem in our neighborhood and community. My only relief, when I must be outside and work, is to wear a mask. They still bother my eyes and ears but I can get by for a short while when working outdoors.

When the neighbors across the street bring their twin babies out to visit, our time is limited by the gnats attacking the babies eyes. Since the babies can not swat at the gnats, our visits are usually shortened as they have to get the babies inside to keep the gnats out of their eyes. These folks are in a rental, actively looking to purchase a home and commented they would not purchase a home in Sonata at this time because of the eye gnats. This infestation is harmful to the homeowners, visitors, children, elderly, pets and real estate market in our community.

I would encourage the County officials to continue to monitor the farming practices of Be Wise Ranch and want to let you know that I approve the Negative Declaration and proposed Eye Gnat Program and Ordinance. We all appreciate the effort put forward to research the impact to the community from the farming practices of Be Wise Ranch and implement proper and environmentally responsible farming practices that would be beneficial for both.

Thank you,  
Barbara Johnston

I'm writing this note to voice my approval of the negative declaration and proposed eye gnat program and ordinance.

I am a resident in the "Sonata" neighborhood in South Escondido where the eye gnats have contributed to a deterioration of quality of life for the past few years. Too often, I'm unable to enjoy my own back yard, and more often than not, can't bring my own grandchildren into our garden. Furthermore, as a Realtor in the area, I am required to disclose to any buyer the nuisance that is the eye gnat problem. Consequently, the eye gnat directly and adversely affects the value of home prices in the area and discourages buyers.

Yours truly,

Irv Erdos

I am in support of the ordinance requiring any Escondido farmer to take measures to control/prevent the eye gnat problem plaguing my neighborhood (Sonata – off of Valley Parkway across from the North County Mall).

I am unable to walk my dogs in my own neighborhood at peak times during the summer months because these gnats attack me and my dogs. It is ludicrous that I have to wait until the sun has gone down or drive to a different neighborhood in order to walk them. No one should be plagued by this nuisance, but it is even more aggravating to me and my husband because we have easily invested over fifty thousand dollars in our home. To think that we might be pushed to sell our home over this matter is ridiculous yet possible.

Thank you,  
Stephanie Fields

**Date:** Wednesday, June 20, 2012 2:00:50 PM

---

Dear County Board of Supervisors,  
I would first like to thank you for keeping this item of the Eye Gnat nuisance on the agenda. For those of us living in South Escondido, as the temperature rises, we find ourselves with an increase of gnats. If the level stayed constant, we would be fine, but as we all know the numbers grown and grown during the summer until being out in our yards is unbearable.

Kurt and I approve of the Negative Declaration and Proposed Ordinance to the DEH. Please continue to move forward on behalf of your constituents, in North County.  
Sincerely,  
Kurt and Kathy Marler

To Whom it may concern:

I would like to voice my support of the proposed eye gnat ordinance. As a person who buys organic produce and lives overlooking the farm I believe it is necessary to give the DEH the authority to be able to intervene when the farmer creates a nuisance. My support of the organic farming ends when it infringes on my ability to use my property.

To whom it may concern, I am writing to voice my concern over the eye gnats. Our home directly overlooks the valley, with farm fields immediately down hill from us. I have a garden that I sometimes need to neglect due to the gnats. It also affects our other outdoor activities: grilling out, playing, simply enjoying the view. Please note our concerns in carefully handling this delicate issue.

Thank you,  
Emily Watson

**To:** LUEG, DEH-Eyegnat  
**Subject:** Eye Gnats: Approval of the Negative Declaration and Proposed Ordinance

Dear DEH (Dept. Environmental Health):

I would like to declare my Approval of the Negative Declaration and Proposed Ordinance. I live in South Escondido, and my children, grand children (babies), dogs and I are constantly assaulted by eye gnats. We wipe them from our eyes, or the eyes of our children & animals who cannot, and we're very frustrated that we constantly have to retreat indoors to escape them. I support the ordinance so that it provides monitoring of the organic farm which is sourcing these pests, and support the use of pesticides when all other recourse has been exhausted.

Thank you,

Michael Lawrence

To: Miller, Jack  
Subject: Information that may be new

Jack,

I do not know if you are aware of the signs that are posted along the trail that borders the agricultural preserve and Mr. Brammer's farm and whether they have any significance. They state that the "trail is subject to temporary closure due to pesticide applications, please observe posted signs. Water used for farming operations is not potable. Do not use."

I have also included copies of some of the paperwork that was sent to me a while ago with the response to my request for information from Dave Marten. In this paperwork, the response from Jeffery Pasek who is with the Water Department assumes that the county will spray pesticides and he does not think it will do further harm to the water supply.

A while back Danielle told me that she believes both farms were violating CEQA regulations. Did she also tell this to you?

Regards,  
Cindy

RCVD JIL 9 12

Welcome! This trail passes through an

# AGRICULTURAL PRESERVE

YOUR COOPERATION IS APPRECIATED TO ENSURE CONTINUED ACCESS.

PLEASE:

- USE DESIGNATED TRAILS ONLY
- DO NOT INTERFERE WITH AGRICULTURAL OPERATIONS
- WATCH FOR FARM EQUIPMENT

THEFT OF AGRICULTURAL PRODUCTS IS A SERIOUS CRIME-VIOLATORS WILL BE PROSECUTED

TRAIL IS SUBJECT TO TEMPORARY CLOSURE DUE TO PESTICIDE APPLICATIONS. PLEASE OBSERVE POSTED SIGNS

WATER USED FOR FARMING OPERATIONS IS NOT POTABLE - DO NOT USE.

THANK YOU - San Dieguito River Park

**From:** Kely Midili [midili@cox.net]  
**Sent:** Monday, August 20, 2012 3:40 PM  
**To:** DEH, Vector  
**Subject:** Need to classify gnats as a vector.

Dear sirs,

Okay, I have had enough! Enough of these pesky eye gnats ruining my quality of life. I live in Sonata and spend a great deal of time outdoors. Wrong, I used to spend a great deal of time outdoors. Now, thanks to Bill Brammer and his so called Be Wise Ranch, few of us can enjoy our outdoor space.

I protest the Be Wise Ranch organic farming approach. For the sake of a few tons of organic produce, thousands of us nearby residents are made to pay the price. Trust me, Whole Foods and Trader Joes can find organic produce from many sources, not just from Be Wise!

I would like to ask the City of San Diego why they leased land to a farmer with practices that are known to produce these eye gnats?! Why I ask was this even allowed to happen?! And Mr. Brammer claims he is worried about the City land being sold for development in the future if gnats are listed as a vector! How, how can that happen when the entire area is a known flood plain....the City cannot allow development in such an area. No, Mr. Brammer via his PR firm is trying to intimidate local residents.

I would appreciate your doing your jobs and put a stop to these gnats and this type of farming so near to a major concentration of homes.

Jack:

There are 804 signatures on these sheets. All of these people agreed that we need an ordinance to guarantee that anyone who is farming on the land that is currently leased to Be Wise Ranch will have an incentive to protect his business by doing whatever it takes to control the eye gnats which can emerge from an organic farm on that land and in so doing create such a problem for us.

Those who signed the petitions were from a number of sources. Some were neighbors. Some were people who regularly use Kit Carson Park for recreation (such as parents of children who participate in organized sports, or enjoy family picnics, or walk their pets, or play tennis or play disc golf). This park is a public treasure for Escondido and of course is surrounded by three schools. Some came from those who frequent the golf course or driving range whose managers fear for the viability of their businesses.

We can of course, continue to get signatures and have plans to do so. If you need more to counteract the media blitz and responses from farm supporters, please let us know.

Thank you again for your continuing efforts on our behalf. It is greatly appreciated.

Regards,

Hi Jack.

Enclosed are the signed  
petitions we have so far.  
I believe the count is

803.

Regards—  
Cindy

# Organic Farms - YES • GNATS - NO!!

## TO OUR ELECTED REPRESENTATIVES

We, the residents of Escondido and surrounding communities, ask for your support to approve an ordinance that will declare the eye gnat a public nuisance and a vector. We want to reclaim our rights to use and enjoy our homes and to use and enjoy Kit Carson Park for family and youth sports teams.
