Please be advised that the County of San Diego Department of Environmental Health Solid Waste Local Enforcement Agency received and has accepted for filing an application package for a modified Solid Waste Facility Permit for SANCO Recycling, a Material Recover Facility (MRF) for commingled and source separated recyclable materials. The LEA is certified by the California Department of Resources Recycling and Recovery, formerly known as the California Integrated Waste Management Board to enforce state laws and regulations at solid waste facilities within the County of San Diego.

Description of Proposed Permit: The operator has submitted an application package to modify the Solid Waste Facility Permit (SWFP). The proposed SWFP application include updates to correct the total square footage of the transfer station building from 49,205 ft² to 44,840 ft². As a result of this correction, the tipping floor capacity was recalculated resulting in an updated capacity for the amount of material storage on the tipping floor from 630 tons to 467 tons. The modification will also update LEA finding and amend the Transfer Processing Report. The permit modification will not result in an increase to operating hours or permitted daily tonnage.

This facility will continue to be limited to receiving only commingled source separated recyclable materials.

LEA Findings per §21660.3: The LEA has reviewed and considered the information, including the environmental effects of issuing this Solid Waste Facility Permit, for the existing materials recovery facility for commingled and source separated recyclables. The LEA filed a Notice of Exemption on March 15, 2010 for the continued operation of this facility and finds that there are no significant environmental effects arising out of the issuance of this Solid Waste Facility Permit. A Notice of Exemption will be filed with the State Clearinghouse.

Where can a copy of the permit application can be reviewed?

A copy of the permit application is available for review by appointment at the Department of Environmental Health office located at 5500 Overland Drive, Suite 110, San Diego, CA 92123.
