

## County of San Diego Unified Program CivicData Data Dictionary Definitions

Each Table of data fields is shown a separate worksheet (tab).

### Hazardous Materials Inventory - Chemical Description

Column Header	CODES/CRITERIA	INFORMATION DESCRIPTION	HMD Comments	Title 27 ID
_id		Unique identifier to create data. Changes with each extract		
Record ID		Unique identifier assigned by Business Case Management System	Primary means of gathering facility information	
Permit Status	Permit Renewed = Payment status stored in Renewal Status.  Issued = In the first year of a renewable permit the record will have a status of "Issued"; thereafter, the record status will be "Permit Renewed".  Expired = Permit fees have not been received			
Active Permit	Y = Yes  N = No	Determines if the permit for the record is considered active or not		
Child Record ID		Unique identifier assigned for each chemical by Business Case Management System		
Trade Secret	Y or N	Indicates if information in this section is declared a trade secret. If business is not subject to EPCRA, trade secret information is bound by State requirements, as defined in HSC ?25511. If business is subject to EPCRA, trade secret information is bound by Federal requirements, as defined in 40 CFR and business must submit a "Substantiation to Accompany Claims of Trade Secrecy" form (40 CFR 350.27) to U.S. EPA.		206
Hazardous Material Type (Inventory)	a = pure b = mixture c = waste	Type of hazardous material. If waste material, check only that box. If mixture or waste, complete the individual hazardous components section below.		211

## Hazardous Waste and Inventory

Chemical Name	Narrative	Proper chemical name associated to the Chemical Abstract Service (CAS) number of the hazardous material. This should be the International Union of Pure and Applied Chemistry (IUPAC) name found on the Material Safety Data Sheet (MSDS). NOTE: If the chemical is a mixture, do not complete this field; complete the "common name" field instead.		205
Common Name (Inventory)		Common name or trade name of hazardous material or mixture containing a hazardous material.		207
CAS #	Chemical Abstract Service number	Chemical Abstract Service (CAS) number for the hazardous material. For mixtures, enter the CAS # of the mixture if it has been assigned a number distinct from its components. If the mixture has no CAS #, do not complete this field; report the CAS #s of the individual hazardous components in the appropriate section below.		209
