Trey,

We are receiving a number of studies including the programmatic EIR for all the Soitec projects today. We will be commenting on all outstanding groundwater issues in our review of the EIR and associated studies including how to address imported water sources.

Thanks,

Jim Bennett, P.G. #7707, CHG#854

Subject: Off-site groundwater supply

Jim,

Can we get something in writing from the County that I can present to water purveyors indicating that a groundwater resource investigation is required under CEQA in order the supply water to particular projects as Jacumba currently thinks that they are in the clear.

Cheers,
Trey
