Ashley,  
I have Melody's address. We'll notice her when the DPEIR is released.  
Thanks,  
Rob

Melody,

I believe this email is in reference to the Soitec projects currently being proposed in the Boulevard area.

In regards to glare, the Department has requested the applicant to provide technical analysis to address the concern of glare. The analysis is to include discussions on how the project would address the issue of glare so as to not adversely affect surrounding residents and drivers using surrounding roadways.

If you would like to provide me with your mailing address, I can ensure that you are added to our public notification list so that you are notified when all of the project documents (including an analysis of glare) are available for public review.

Thank you,

Ashley

Really?? There still going to put these in a valley where the glare will blind everyone who use's the only road in or out?

I am so disgussed with San Diego Planning. I can only pray that the people who are making our lives hell out here will pay with bad Karma the rest of there lives!
