Subject: RE: Soitec Solar PEIR hearing?
Date: Thursday, December 05, 2013 10:34:49 AM

Hi Donna,

We will plan to attend the January 2, 2014 Boulevard Community Planning Group meeting, assuming that we get the DPEIR out for public review on 12/19, 12/26, or even 1/2/14. If public review ends up beginning 1/9/14 or after that date then we would plan on attending the February 6, 2014 CPG meeting. As far as conducting another tour of the sites, I would propose that we do that later in January if we attend the January 2 CPG meeting, or on February 6, if we attend the CPG meeting on that date.

Soitec is in the process of satisfying conditions of approval for their Desert Green project in Borrego. They hope to break ground the first quarter of 2014.

Finally, Pat Brown just informed me that Newberry 1 became commercially operational last week.

Please let me know if you have any other questions.

Thanks,

Robert Hingtgen, Planner III

Subject: Soitec Solar PEIR hearing?

Hello Ashley and Robert,

With the more recent Soitec Solar PEIR release date of Dec 19th or 26th, are you still planning to participate in the regular January 2nd Boulevard Planning Group meeting?

If not, do you have another date in mind?

I would like to be able to make that information available at our December 5th Planning Group meeting.

Also, can you tell me if Soitec's Desert Green project in Borrego has broken ground yet, or when they expect to break ground?

It is my understanding that Soitec's Newberry Solar 1 project is still have mechanical and grid interface problems after announcing the project operational back in July. These really are experimental projects.

Regards,

Donna Tisdale, Chair
