Hi Rob,

The edits look fine. However, the section still refers to the "Draft Guidelines" in other places and states that they are not yet approved. All instances of this text should be changed to be consistent.

Thanks,  
-Poonam

Poonam,

I've reviewed the Air and GHG chapters and have only minor revisions. However, I've attached the GHG chapter so you can see an edit I am proposing in light of the recently approved Climate Change significance guidelines. Please see page 3.1.3-18 and let me know if you would change anything.

Thanks,  
Rob
