**Attachments:** 3614\_001.pdf

Hi Sandra,

The attached map shows the location of your property in relation to the proposed project sites (in red), the proposed Tierra del Sol transmission line (underground portion in blue and overhead portion in red), and the Los Robles alternative project site (in orange). Your property is located adjacent to the southeast corner of the eastern portion of the Los Robles site. As I stated on the phone, we do not know where solar trackers would be located on the Los Robles site if that alternate location is ultimately approved. If that location were approved, Soitec would have to apply for the necessary permits and a site specific review would be done.

To answer your questions regarding what the proposed solar trackers would look like, please refer to Figure 1-9 in the EIR ([http://www.sdcounty.ca.gov/pds/ceqa/Soitec-Documents/EIR-FILES/1.0\\_ProjectDescription.pdf](http://www.sdcounty.ca.gov/pds/ceqa/Soitec-Documents/EIR-FILES/1.0_ProjectDescription.pdf)), Figures 2.1-4 and 2.1-5 in the EIR ([http://www.sdcounty.ca.gov/pds/ceqa/Soitec-Documents/EIR-FILES/2.1\\_Aesthetics.pdf](http://www.sdcounty.ca.gov/pds/ceqa/Soitec-Documents/EIR-FILES/2.1_Aesthetics.pdf)), and Figure 2 in the Glare Analysis ([http://www.sdcounty.ca.gov/pds/ceqa/Soitec-Documents/EIR-FILES/Appendix\\_2.1-3\\_BoulevardGlareStudy-Part1.pdf](http://www.sdcounty.ca.gov/pds/ceqa/Soitec-Documents/EIR-FILES/Appendix_2.1-3_BoulevardGlareStudy-Part1.pdf)).

Chapter 4.4 of the EIR ([http://www.sdcounty.ca.gov/pds/ceqa/Soitec-Documents/EIR-FILES/4.0\\_ProjectAlternatives.pdf](http://www.sdcounty.ca.gov/pds/ceqa/Soitec-Documents/EIR-FILES/4.0_ProjectAlternatives.pdf)) describes how project impacts might be reduced by moving one or more of the proposed project locations to the Los Robles alternative location.

Please let me know if you have any additional questions.

Thanks,
