WRITTEN COMMENT FORM

Planning and
Development Services

I strongly oppose all four of the solar projects as describes in the Soitec Solar PIER, I oppose these projects because the significant impacts to the Natural Environment, Sensitive biological and Cultural resources, and negative impact they will have on adjacent resident Quality of life, Property values, wells. I am also concerned about the placement of large scale solar farms in a wild fire prone area that has limited firefighting capabilities. These huge projects do not fit our rural landscape.

(Attach additional pages as needed)

For those reasons I support the No Project alternative listed in the Soitec PIER
