Subject: RE: PDS2012-3910-120005, Soitec Solar Development Draft PEIR -- Extension of Public Review Period to March 3, 2014

This project is unique in that it received certification under the Jobs and Economic Improvement Act of 2011 (AB 900) and has been determined by the Governor, with concurrence from the Joint Legislative Budget Committee, to meet the criteria set forth in Public Resources Code § 21178 et seq. As part of this certification (pursuant to Public Resources Code § 21186(a) and (b)) the County as Lead Agency has made the administrative record available to the public with the Draft PEIR. As of February 10, 2014, the administrative record includes approximately 1,300 links to project documents.

Moreover, the Draft PEIR includes analysis of four separate solar projects and is being circulated along with a draft General Plan Amendment. This, when combined with the availability of the administrative record, is a large volume of information for the public to review. PDS would like to ensure that the public has a reasonable amount of time to review the documents and provide effective comments. The applicant agrees with this approach.

FYI – below is an email sent out to interested parties notifying them that the public review period for Soitec has been extended by a couple of weeks. We also notified the State Clearinghouse and we are mailing out notices tomorrow to the people and agencies on our distribution list for this project.
