Subject: RE: Soitec_MUP Findings

Hi Mindy and Ashley,

I've just uploaded the most recent Air Quality memo to the ftp site. The memo provides a supplemental analysis that accounts for tracker removal to incorporate M-AE-PP-1 (landscape screens) at TDS and Rugged and PDF-AE-1 (pull back grading at the topographical saddle) other project refinements at Rugged. The memo also incorporates anticipated increases in water demand for the Proposed Project as discussed in common response WR1 in Chapter 9.0 of the Final Program Environmental Impact Report (FPEIR).

Thanks,

Josh

Hi Mindy and Ashley,

The revised Chapter 4.0, Project Alternatives, has been uploaded to the ftp site. As noted in the document, additional analysis concerning biological resources for Alternative 2A will be included in the full FPEIR submittal.

Thanks,

Josh

Hi Mindy and Ashley,

The MUP Findings for Rugged and TDS have been uploaded to the ftp site. Please let me know if you are unable to access and download the documents.

Thanks!

Josh Saunders, AICP
