Hi Mike and Patrick,

In talking to you both it sounds like this Friday might work for the field visit to walk the segment of ROW. Patrick says he can meet at the Golden Acorn at 10am, and the site visit will not take long. Does this sound good?

Subject: TDS Public ROW Graphic

Hello Mike,

Please see the attached graphic depicting where in the ROW our trench could be located as well as what stretch of the road. From our meeting the following steps need to be completed:

1. Discuss with DPW Director (In Progress)
2. Soitec provide graphic depicting location and dimensions (Completed)
3. Soitec and County field visit to walk the 1300 foot stretch of ROW (Needs to be Scheduled)
4. Hammer out commercial terms with County and Soitec (Needs to happen)
5. Legal team finalize agreement (Last)

From this list it looks like the field visit is next. Would you like to schedule something where you and I could go out there next week and look at the conditions of the ROW? I am available any day next week except Wednesday. Please let me know how you want to proceed.

pb
