Smith reminds new members that training must be completed before they are eligible to vote. He makes the same reminder to existing members. On-line training is not presently available. Smith reports that county counsel says meeting materials in hardcopy need not be available to the public prior to a meeting. With this new information, Smith apologizes to Glavinic for pulling the Tribal Liaison SC Final Environmental Evaluation (FEE) item for Harrah's Rincon Casino from the agenda at the previous meeting because materials to be considered were not available to public in advance. He cites the requirement to not distribute proposed motions prior to the meeting at which the item is to be discussed and voted. Rudolf suggests continuing present practice without motion. Hutchison suggests reinstating discussion materials folder at library. Glavinic asks about need to post material at Community Hall. Smith says that posting of agenda and meeting notice at community hall is necessary.

Smith notes postponement of item E2 at last minute [subject is the 'placement of low-cost housing' presentation by County]. Glavinic asks about areas excluded from low-cost housing. Smith says Bob Citrano, County Department of Planning & Development Services, will be presenting an effort to obtain Caltrans Transportation Planning Grants at a subsequent meeting.

Michael Long, County Department of Public Works, has a drainage project on VC grade and wanted a vote on a recommendation for this project. The item didn't make it on agenda. Smith advises he can act in advance of ratification, which could take place at the subsequent meeting.

Michael Long makes a statement. He indicates a citizen's complaint about water on the Valley Center Road grade caused her car to hydroplane. The County investigated and identified two additional places on the Valley Center Road grade that water was crossing the road creating a hydroplaning hazard. The County proposes to install drains of various styles to alleviate the problem areas. The County hopes to begin construction as early as June or July 2013. Glavinic asks about impairment of the road surface. Long says that the surface will not be impaired. Long also showed proposed changes to intersections at Mactan Road and Valley Center Road and Sunset Road and Valley Center Road.

E	Action Items [VCCPG advisory vote may be taken on the following items]:	
E1	Discussion and vote on PDS2012- ZA-02-005-WI, a modification to a cell site located at 9124 Old Castle Road in Valley Center, Applicant is Sprint; phone 858-320-3191; Project manager is Mark Berlin at mark.berlin@sawcw.com or 858-922-0237. Application is for Minor Use Permit and modification of the cell site in 6 relatively minor ways. (Franck).	
<p>Discussion: Franck presents. He notes that the Valley Center Design Review Board [DRB] has reviewed the project. The DRB made a few minor plant suggestions. Franck unsuccessfully queried a neighbor for input. He says the proposed changes are minor, accommodating taller cabinets and additional equipment. Mark Berlin, Sprint, says there will be no changes to the antenna and the cabinets will be painted in earth tones. Franck says the site is off of Old Castle Rd. He noted one concern. The installation could be impacted if the County decides to widen the road adjacent to it.</p>		
<p>Motion: Move approve applicant's request</p>		
<p>Maker/Second: Franck/Glavinic</p>		<p>Carries/Fails: [Y-N-A] 14-0-0 Voice</p>
E2	Report and possible vote on VCCPG's comments on the DPDS's report to the Board of Supervisors concerning approaches for addressing the use of digital bulletin boards in the County of San Diego. (Quinley)	
<p>Discussion: Quinley presents the background of the proposed changes to the billboard ordinance. She explains her printed report. She says the County wants to take advantage of new technology. She describes the six options being explored by County staff:</p> <ol style="list-style-type: none"> 1. Create a conversion/removal ratio in which one traditional billboard can be converted to a digital billboard if the owner also removes three traditional billboards. 2. Create a conversion/square footage ratio in which a traditional billboard may be converted to a digital billboard if an equivalent square footage of traditional billboards is removed. 3. Allow conversion of Billboards when an existing billboard is removed to a preferable location when it is converted to digital. (Can be combined with 1 and 2). 4. Allow relocation of billboards to county-owned properties. Billboard operators could relocate their billboards to county land and conversion to digital would be allowed. 5. Allow conversion only of those billboards that are currently in compliance with the existing zoning ordinances. 6. Permit only billboards located on specific properties to convert to digital billboards. This option would require billboard operators to work with County staff and the community planning groups prior to obtaining permission to convert.]. <p>She says not much attention was paid to the Dark Sky Ordinance or the Valley Center Design Guidelines, both of which prohibit internally lighted signs. She reads her motion. Jackson asks to amend the motion to limit lighted signage to public information. Smith explains that billboards under consideration are commercial off-site billboards and he suggests the motion be limited to consider the class of billboards under consideration. David Ross, media, asks if the Lexus digital billboard next to I-15 in Escondido would qualify as a digital billboard. Yes.</p> <p>Smith suggests that new billboards may qualify to be digital without replacement or reduction of existing billboards within the County. He asks how County could say no to such new billboards? Smith says such billboards may be used for public emergency announcements at times when appropriate. Tom Bumgardner, audience says the County owns land along the Rights-Of-Way of roads. Smith says such billboards could not be closer than about 50 feet to the roadway. Smith says all cities are looking at allowing such billboards in order to raise additional revenue. Smith discusses the logistics of present billboards. Davis asks for amendment to Para. 3. Bret Davis asks about the placement of billboards allowed in Valley Center presently. Smith says</p>		

billboards are not presently allowed and says Valley Center needs to have reasoned arguments for not allowing such billboards to have an impact at the County. Bob Davis clarifies the need to have Valley Center review of such billboard authorization. Rudolf asks about the County staff commitment to honor Valley Center's Guidelines and Community Plan and wonders if Smith agrees. Smith says BOS can put billboards anywhere with 3 votes. Rudolf counters with need to amend the County General Plan, Valley Center's Community Plan and Valley Center's Design Guidelines before that could happen. Smith suggests deleting paragraph 3 except for the amended first sentence. Quinley defends her motion as originally presented, but relents and agrees to deletion of most of paragraph 3; Hutchison agrees to the amendment. Glavinic suggests citing billboards along Hwy. 395 and I-15. Discussion continues in several directions at once, but with no further amendments advanced.

Motion: Valley Center is located in an area covered by the Dark Skies Ordinance and has provisions in its Design Guidelines and Community Plans that prohibit internal illumination of signs and that presume that "billboards" are not permitted. The Valley Center Community Planning Group asks that the Board of Supervisors uphold these ordinances and policies, which are already in place.

It is not acceptable to allow digital billboards as alternatives to traditional billboards as long as there are fewer billboards in the end, as stated in Options 1 and 2. Nor do we support conversion to a digital billboard when a billboard is moved to a preferable location or a location specifically designated by the County as stated in Options 3 and 5.

Digital LED Billboards should not be permitted in Valley Center.

Discussion and vote on allowing additional candidates for the 1-15 Design Review Board [DRB] to declare their candidacy with the VCCPG voting to recommend one candidate for the position at the February meeting. (Britsch)

Discussion: Rudolf presents the logic of extending the application period, e.g. permitting potential candidates to apply after assessing the field of applicants. The objective is to assure that an informed, responsible, and qualified nominee will represent Valley Center. Smith adds that with new members on VCCPG, it would be useful to include new members in consideration of applicants. Franck objects to an extension on the basis of fairness to present applicants. Vick says volunteers are important and he appreciates their willingness to serve. However, given the importance of the position on the I-15 corridor DRB and the lack of qualifications of the present applicants, the application period should remain open to accommodate more qualified applicants. He says he has encouraged Mike Mahon to apply, and he cites Mahon's professional qualifications. Smith says the position has been open since August 2012. Norwood-Johnson asks about where Mahon lives. Vick replies, off Cole Grade Road. Glavinic appreciates volunteers. He says folks placed on such boards must be accountable. He thinks the public should be able to evaluate their results. Quinley doesn't think this is the issue at hand. Rudolf agrees with Glavinic. He says previous members sent to the board did not report on issues that affected Valley Center. He says nominee needs to be accountable to VCCPG. With that considered,

Rudolf wants to extend application period. Laventure asks when the two present applicants applied [August and November]. Norwood-Johnson asks about the number on the board [uncertainty]. Hutchison asks about the current calendar for presentations to the I-15 DRB. Vick says there is not much happening presently before board. Bob Davis objects to an extension of the application period. Bret Davis asks when present applicants addressed VCCPG [December 2012]. Vick responds to Bob Davis. He says it is important to have representation that is familiar with the DRB guidelines. Lewis acknowledges logic of Bob Davis but says our job is to get good candidates. Bret Davis questions other new VCCPG members about the need to vote tonight. Rudolf notes that the agenda doesn't allow a vote tonight. He says VCCPG can, however, vote on extending the application period. Smith is frustrated about inability to vote on candidates tonight.

Motion: Move to extend the period of application to allow additional candidates.

Mobility SC: Bob Davis says he has not heard from member Geinzer regarding interest in retaining seat, and Malcolm Smith has resigned. Glavinic says Geinzer is in hospital. Davis acknowledges that her health has been dodgy for some months. Rudolf says Geinzer should not be seated based on her inability to attend meetings regularly. Smith is willing to nominate her despite Rudolf's objection. However, it is Davis' desire not to have her on the SC based on need to have active members on the SC who routinely can attend meetings being more beneficial on the SC than members, who cannot, for whatever reason, routinely attend meetings. Vick adds her attendance at meetings is lacking and would offer an opportunity to get a more available member. Smith elaborates on role of Mobility SC. Davis names four continuing Mobility SC members: Vick, Glavinic, Hutchison, & Lewis.		
MOTION: Approve Bob Davis as chair and Vick, Glavinic, Hutchison, & Lewis as members of the Mobility SC. MAKER/SECOND: Davis/Smith. CARRIES/ FAILS [Y-N-A] 14-0-0 Voice.

MAKER/SECOND: Hutchison/Quinley. **CARRIES/ FAILS [Y-N-A] 14-0-0** Voice.

Tribal Liaison SC: Laventure and Evans volunteer to be members of Tribal Liaison SC. Smith wants to have tribal representatives of SC to recuse themselves when project to be voted is specific to their tribe. Rudolf objects to allowing paid representatives to represent tribes on SC. Glavinic says we must remember the role of the SC to make recommendations to VCCPG and the importance of getting input from the various tribes. Smith cites 'specialness' of Tribal Liaison SC and notes that the paid representatives are unique to Tribal Liaison SC. Smith says the rationale is to promote discussions of topics of common interest so as to best provide the County with reasoned and practical recommendations supported by the community and local sovereign nations. In recognition of local tribes being individual sovereign nations, it is at the discretion of the each tribe as to who is chosen to represent them.

MOTION: Move to change the charter of the Tribal Subcommittee to allow local sovereign nations to provide a representative of their own choosing to sit on the subcommittee, subject to the same rules of conflict of interest as any other member of the subcommittee or planning group. **MAKER/SECOND:** Smith/Glavinic.
