

San Diego County – Public Health Data

California Health Interview Survey Estimates: Adults

LIVE WELL
SAN DIEGO

California Health Interview Survey (CHIS)*

County of San Diego By HHS Region

REGIONS:
North Coastal
North Central
Central
South
East
North Inland

*CHIS is conducted by the UCLA Center for Health Policy Research in collaboration with the California Department of Public Health, and the Department of Health Care Services.

Important Information for Data Users

Please Review This Section Before Using the Following Public Health Data

The California Health Interview Survey (CHIS) is an important source of information on health and access to health care services. CHIS is a telephone survey of adults, adolescents, and children from all parts of the state. The survey is conducted every two years. CHIS is the largest state health survey and one of the largest health surveys in the United States. The survey provides state and county level information for health planning and comparison. Region level information is available for many variables for the 2005, 2007, 2009, and 2011-2012 surveys. A list of CHIS questionnaire topics is included. To see the actual survey questions, go to <http://healthpolicy.ucla.edu/chis/design/Pages/survey-topics.aspx>. Data can also be accessed from the [askCHIS website](#).

In this document, information from CHIS is presented and used to estimate the number of residents represented in each variable. Both County level and Health and Human Services Agency (HHSA) Region level information are provided. For more information on CHIS, go to <http://chis.ucla.edu/what-chis.html>.

California Health Interview Survey Topics

For list of topics for data included in this document, see the **CHIS Data Topic Page Index** of the Community Profiles.

More data is available via askCHIS. For list of all available topics, see below.
Excerpted from [CHIS website](#):

CHIS covers hundreds of health topics:

CHIS is conducted every two years with many core questions repeated in each survey in order to measure significant shifts over time. New questions are also added each survey year to address emerging concerns that are important for planning and policy development.

Click on any of the following links to see what CHIS topics have changed - and remained the same - over time.

- [2011-2012 Survey Topics](#) (PDF 153k)
- [2009 Survey Topics](#) (PDF 646k)
- [2007 Survey Topics](#) (PDF 190k)
- [2005 Survey Topics](#) (PDF 254k)
- [2003 Survey Topics](#) (PDF 303k)
- [2001 Survey Topics](#) (PDF 76k)

Note:

2001, 2003 surveys provide County wide data.

2005, 2007, 2009 surveys provide data for HHSAs Regions when statistically possible.
