TO: EMS Community Participants

FROM: Bruce E. Haynes, M.D., EMS Medical Director  
Emergency Medical Services

## **NEW/REVISED 2015 EMERGENCY MEDICAL SERVICES TREATMENT PROTOCOL/ POLICIES**

Thank you to all of the EMS providers for their help in updating the policies and protocols contained within the County of San Diego Emergency Medical Services Policy and Procedure Manual. We are pleased to present this year's updated policies and procedures.

Please replace earlier copies of your EMS Policy Manual with the updated documents. The County protocols and policies will be posted online July 1, 2015 and can be found on our County website at [www.SanDiegoCountyEMS.com](http://www.SanDiegoCountyEMS.com) under the EMS Prehospital system section.

For questions related to documents in the EMS System Policy and Procedure Manual, please contact Susan Smith, R.N., or Diane Ameng, RN., at 619-285-6429.

Thank you again for all your help.

Sincerely,

A handwritten signature in blue ink, appearing to read "Bruce E. Haynes".

**COUNTY OF SAN DIEGO EMERGENCY MEDICAL SERVICES  
POLICY/PROCEDURE/PROTOCOL**

No. S-001  
Page: 1 of 1

**SUBJECT: EMERGENCY MEDICAL SERVICES SYSTEM COMPLIANCE  
WITH STATE STATUTES AND REGULATIONS**

Date: 12/01/2012

Health and Safety Code, Division 2.5, Section 1797.220.

- II. To assure compliance for the emergency medical services (EMS) system with applicable State Statutes and Regulations.
- III. **Policy:** The County of San Diego's EMS system and all its components shall comply with all State of California Statutes and Regulations regarding emergency medical services.

Document revised 12/01/2012  
Approved:

*M*

*metz*

*Barry Myers*

Medical Director

**SUBJECT: INFANT SAFE SURRENDER**

**Date: 7/01/2015**

- I. **Authority:** California Health and Safety Code, Sections 1255.7 and 1798, California Penal Code 271.5.
- II. **Purpose:** To describe guidelines for steps to be followed when an individual surrenders an infant appearing to be <72 hours old, under the California Safely Surrendered Baby Law of 2001, to EMS staff at a San Diego County Fire Station that is staffed 24 hours/day.
- III. **Guidelines:**

EMS Personnel will accept infants brought to them with the intent of surrendering the child. The infant should be accepted for surrender even if the child's age is suspected to exceed 72 hours.

  - A. EMS personnel should follow their own departmental policies when an infant is surrendered to their care.
  - B. A "Newborn Safe Surrender Kit" shall be used, and a confidential infant ID bracelet shall be placed on the newborn's ankle, and the number code from the bracelet recorded on the infant's Prehospital Patient Report (PPR).
  - C. EMS personnel will perform a rapid assessment of the infant to identify immediate medical needs, and this assessment will be documented on the infant's PPR. If there is any suspicion of child abuse, law enforcement should be contacted immediately.
  - D. EMS personnel shall offer care to the mother if she is the caretaker surrendering the infant. Documentation of the mother's assessment/care should be on a separate PPR if provided.

**Approved:**

Administrator

  
\_\_\_\_\_  
Medical Director

**SUBJECT: INFANT SAFE SURRENDER**

**Date: 7/01/2015**

- E. The caregiver surrendering the infant should be encouraged to immediately complete the "Newborn Family Medical History Questionnaire". If necessary, EMS personnel should assist the caregiver in completing the document. The caregiver may also fill out the questionnaire at a later time and return via mail.
- F. The infant should then be transferred to the most appropriate Emergency Department as directed by the base hospital. A copy of the infant's PPR should be provided to hospital staff.
- G. EMS personnel must notify County of San Diego Health and Human Services, Child Welfare Services by phone, advising them of a surrendered infant incident, and must complete a Child Protective Services (CPS) report, submitted according to agency protocol.

**SUBJECT: PROGRAM RECORDKEEPING: TRAINING AND CERTIFICATION**

**Date: 10/01/2011**

- I. **Authority:** Health and Safety Code, Division 2.5, Sections 1797.204 and 1797.208.
- II. **Purpose:** To identify specific records to be maintained by the County of San Diego, Emergency Medical Services Branch (EMS) regarding Emergency Medical Technician (EMT) certification, Paramedic accreditation, Mobile Intensive Care Nurse (MICN) authorization, and EMS approved continuing education (CE) providers and training programs.
- III. **Policy:**
  - A. EMS shall maintain on its premises for a minimum of five (5) years, the following records:
    1. Approved EMS training program documentation including:
      - a. Application form and accompanying materials.
      - b. Copy of written approval from EMS.
    2. A list of current EMS Training Program medical directors, course directors, clinical coordinators and principal instructors.
    3. A list of all prehospital personnel currently certified/accredited/authorized by the County of San Diego EMS Medical Director.
    4. A list of all EMTs whose certificates have been denied, suspended or revoked.
    5. A list of approved CE providers, including approval dates.
  - B. EMS shall submit annually, in January, to the State Emergency Medical Services Authority (EMSA), the following:
    1. The names, addresses, and course directors of each approved EMS Training Program.
    2. The number of currently certified EMTs,, accredited Paramedics, and authorized MICNs in San Diego County.
  - C. EMSA shall be notified in writing of any changes in the list of approved training programs as they occur.

POLICY/PROCEDURE/PROTOCOL  
SUBJECT: EMS SYSTEM QUALITY IMPROVEMENT**

**No. S-004  
Page: Page 1 of 2  
Date: 01/01/2005**

**Authority:** Health and Safety Code, Division 2.5, Sections 1797.204, 1797.220, 1798, 1798.100 and 1798.102.

**II. Purpose:** To identify primary responsibilities of all participants in the County of San Diego's EMS system for achievement of optimal quality of prehospital care for patients who access the system.

**III. Definition(s):**

**Emergency Medical Services System Quality Improvement Program (EMS QI)**

Methods of evaluation that are composed of structure, process, and outcome evaluations that focus on improvement efforts to:

1. Identify root causes of problems
2. Intervene to reduce or eliminate these causes
3. Take steps to correct the problems.
4. Recognize excellence in performance and delivery of care.

**IV. Policy:**

**A. The Health and Human Services Agency, Division of Emergency Medical Services (EMS) shall:**

1. Develop and implement, in cooperation with other EMS system participants, a system-wide, written EMS QI plan.
2. Review the system EMS QI program annually for appropriateness to the system and revise as needed
3. Develop, in cooperation with appropriate personnel/agencies, a performance improvement action plan when the EMS QI program identifies a need for improvement.
4. Provide the EMS Authority with an annual update of QI program activities.

**B. EMS Service Providers shall:**

1. Develop and implement, in cooperation with other EMS System participants, a provider-specific, written EMS QI plan.
2. Review the provider specific EMS QI program annually for appropriateness to the operation of the of the EMS provider and revise as needed.
3. Participate in the local EMS agency's EMS QI Program that includes making available mutually agreed upon, relevant records for program monitoring and evaluation.
4. Develop in cooperation with appropriate personnel/agencies, a performance improvement action plan when the EMS QI Program identifies a need for improvement.

**C. Paramedic Base Hospitals shall**

1. Develop and implement, in cooperation with other EMS System participants, a hospital-specific, written EMS QI program.
2. Review the provider specific EMS QI program annually for appropriateness to the operation of the of the base hospital and revise as needed.

3. Participate in the local EMS agency's EMS QI Program that includes making available mutually agreed upon, relevant records for program monitoring and evaluation.
4. Develop in cooperation with appropriate personnel/agencies, a performance improvement action plan when the EMS QI Program identifies a need for improvement.

**D. Agreements:**

1. The County of San Diego, Division of EMS shall maintain agreements with Base Hospitals and EMS service providers requiring, but not limited to,
  - a. compliance with all the provisions listed in the California Code of Regulations, Title XXII, Division 9
  - b. compliance with all County of San Diego, Division of EMS system policies, procedures and protocols.
  - c. Reporting of significant issues in medical management to the EMS Medical Director.
    1. Incidents in which medications or treatments are provided which are outside approved treatment protocols, shall be reported to the EMS QI Program through the Base Hospitals or Provider Agencies in a timely manner. These incidents will also be reported at the Prehospital Audit Committee.
    2. Actions outside of the scope of prehospital personnel and actions or errors resulting in untoward patient effects, such as errors in the administration of medications, invasive procedures, defibrillation/cardioversion, or other patient treatments, shall be reported to the EMS Medical Director, within 48 hours.
2. These agreements shall provide the authority for the EMS Division to:
  - a. Perform announced and unannounced site surveys of Base Hospitals and EMS provider agencies.
  - b. Review patient care records necessary to investigate medical QI issues
3. Additionally the Division of EMS shall:
  - a. Support regional QI committees (not limited to Prehospital Audit Committee, Medical Audit Committee).
  - b. Attend Base Hospital/Agency Meetings.
  - c. Periodically monitor prehospital continuing education offerings
  - d. Perform random audits of prehospital patient records.
  - e. Develop and implement internal mechanisms to monitor, identify, report and correct, quality issues.
4. Reporting of significant issues in medical management to the EMS Medical Director:
  - a. Incidents in which medications or treatments are provided which are outside approved treatment protocols shall be reported to the regional QIP system shall be reported by the Base hospital or Agency personnel in a timely manner, through the Prehospital Audit Committee.
  - b. Actions that are outside of the scope of practice of prehospital personnel, and actions or errors resulting in actual or potential untoward patient outcomes, shall be reported to the EMS Medical Director within 48 hours.

COUNTY OF SAN DIEGO EMERGENCY MEDICAL SERVICES  
POLICY/PROCEDURE/PROTOCOL

No. S-005  
Page: 1 of 2

SUBJECT: EMS MEDICAL DIRECTOR'S ADVISORY COMMITTEE  
(Base Station Paramedics' Committee)

Date: 07/01/07

- I. **Authority:** Health and Safety Code, Division 2.5, Section 1798.
- II. **Purpose:** To designate an advisory committee to provide consultation, medical protocol review, and recommendations regarding prehospital medical care issues to the Medical Director of the County of San Diego Emergency Medical Services (EMS).
- III. **Policy:** The County of San Diego EMS Medical Director may consult with the EMS Medical Director's Advisory Committee on issues concerning prehospital treatment protocols and prehospital medical care delivery in the EMS system.
- A. **Membership:** The County of San Diego EMS Medical Director's Advisory Committee will have the following members:
- a. All Base Hospital Medical Directors
  - b. One member representing Children's Hospital Emergency Department physician staff
  - c. One member representing approved paramedic training programs
  - d. One member representing County Paramedic Agencies Committee (CPAC)
  - e. One member representing the Base Hospital Nurse Coordinators Committee
  - f. One member representing the San Diego County Paramedics' Association
  - g. All prehospital agency physician Medical Directors
  - h. County of San Diego EMS Medical Director or designee (*ex officio*)
  - i. County of San Diego EMS Prehospital Coordinator (*ex officio*)
- B. The responsibilities of the San Diego County EMS Medical Director's Advisory Committee are:
1. To meet as an Advisory Committee on a monthly basis.

Approved:

  
Administration

  
EMS Medical Director

COUNTY OF SAN DIEGO EMERGENCY MEDICAL SERVICES  
POLICY/PROCEDURE/PROTOCOL

No. S-005  
Page: 2 of 2

SUBJECT: EMS MEDICAL DIRECTOR'S ADVISORY COMMITTEE  
(Base Station Physicians' Committee)

Date: 07/01/07

2. To develop an agenda in conjunction with the San Diego County EMS Medical Director.
  3. To consult on prehospital medical issues.
  4. To convene small task forces of Advisory Committee members and others to work with the San Diego County EMS Medical Director or designee on specific medical management issues.
  5. To consult with other medical specialties, or other advisory bodies in the County, as necessary.
  6. To evaluate written statement(s) from Base Hospital Medical Director(s) questioning the medical effect of an EMS policy.
- C. Election of Officers:
- Committee officer shall consist of one chairperson which is a physician. Elections will take place during the last meeting of each calendar year and appointee shall assume office at the first meeting of the new calendar year. Officers elected shall serve a one year term, and may be re-elected for an additional term.
- D. Due to the "advisory" nature of the committee, many issues require consensus rather than a vote process. Vote process issues will be identified as such by the Chairperson. When voting is required, a "simple" majority of the voting members of the committee need to be present to constitute a quorum.

No. S-006  
Page: 1 of 5

SUBJECT: PREHOSPITAL AUDIT COMMITTEE

Date: 7/01/2010

- I. **Authority:** Division 2.5, Health and Safety Code, Sections 1797.204 and 1798; evidence Code, Sections 1040 and 1157.7.
- II. **Purpose:**
- A. To establish an advisory committee to the local Emergency Medical Services (EMS) Agency to monitor, evaluate and report on the quality of prehospital medical care.
  - B. To promote Countywide standardization of the quality improvement process with emphasis on the educational aspect.
  - C. To review issues and matters of a system wide nature. It shall not be the function of this committee to become directly involved in the disciplinary action of any specific individual. The authority for actual disciplinary action rests with the County EMS Medical Director and/or the State EMS Authority in accordance with Health and Safety Code, Division 2.5, Section 1798.200.
- III. **Policy:**
- A. **Scope of Review:**
- The scope of review to be conducted by the committee may include any patient encountered in the prehospital system in the County of San Diego. The review will include, but not be limited to:
- 1. Issues reported to the County (refer to P-409 of County San Diego Emergency Medical Services Policy and Protocol Manual).
  - 2. Variations from Protocols.
  - 3. Deviations from Scope of Practice.
  - 4. Medication errors.
  - 5. Intubation complications.

SUBJECT: PREHOSPITAL AUDIT COMMITTEE

Date: 7/01/2010

6. Variations from standards of care.
7. Unusual cases or cases with education potential.

**B. Membership:**

Members will be designated according to the following format and changes in elected/appointed members will take place at the end of the odd calendar year.

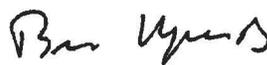

Voting members:

1. The Base Hospital Medical Director of each of the County's Base Hospitals.
2. The Base Hospital Nurse Coordinator of each of the County's Base Hospitals.
3. The Medical Director of the Emergency Department at Rady Children's Hospital and Health Center.
4. The prehospital nurse liaison of the Emergency Department at Rady Children's Hospital and Health Center.
5. The Medical Director of each of the County's approved advanced life support (ALS) agencies.
6. One medical EMS liaison military representative.
7. One current paramedic provider agency representative appointed by County Prehospital Agencies Committee (CPAC).
8. One San Diego County Fire Chiefs' Association, EMS Section representative.
9. Two paramedics (one public and one private provider) appointed by San Diego County Paramedic Association.
10. One EMT appointed by San Diego County Ambulance Association.
11. One first responder representative.
12. County staff (*ex officio*).

Approved:

Administration

EMS Medical Director

SUBJECT: PREHOSPITAL AUDIT COMMITTEE

Date: 7/01/2010

13. One Trauma Hospital Medical Director representing the Medical Audit Committee (MAC) on Trauma.

Associate members (non-voting):

1. One designated representative responsible for QI/QA/Education from each ALS transporting agency. The ALS transporting agency will send a letter of notification to County of San Diego Emergency Medical Services designating their representative, updating as needed.
2. The Program Director of each of the County's approved EMT-Paramedic training programs.
3. One emergency medicine resident or fellow from each training program.

C. Attendance:

1. Members will notify the Chairperson of the committee in advance of any scheduled meeting they will be unable to attend.
2. Resignation from the committee may be submitted, in writing, to the EMS Medical Director, and is effective upon receipt, unless otherwise specified.
3. At the discretion of the PAC Chairperson and/or County EMS, other invitees may participate in the medical audit review of cases where their expertise is essential to make appropriate determinations. These invitees may include, but are not limited to the following:
  - Paramedic agencies representatives
  - Law enforcement
  - EMT provider
  - Paramedics

Page: 4 of 5

SUBJECT: PREHOSPITAL AUDIT COMMITTEE

Date: 7/01/2010

- MICNs
- Physicians
- Communication/dispatch representatives

D. Election of Officers:

Committee officers shall consist of two co-chairpersons, one of which is a physician. Elections will take place during the last meeting of each calendar year and appointees shall assume office at the first meeting of the new calendar year. Officers elected shall serve a one year term, and may be re-elected for one additional term.

E. Voting:

Due to the "advisory" nature of the committee, many issues will require input rather than a vote process. Vote process issues will be identified as such by the Chairperson. When voting is required, a "simple" majority of the voting members of the committee need to be present to constitute a quorum.

F. Meetings:

The committee shall meet on a monthly basis or at a frequency as determined to be appropriate by the Chairperson, but never less frequently than bimonthly.

G. Minutes:

Minutes will be kept by the EMS Secretary or designee and made available to the members of the committee. Due to the confidentiality of the committee, any distributed confidential documents will be collected by the EMS staff at the close of each meeting and no copies may be made or processed by members of the committee.

H. Confidentiality:

SUBJECT: PREHOSPITAL AUDIT COMMITTEE

Date: 7/01/2010

1. All proceedings, documents and discussions of the Prehospital Audit Committee are confidential and pursuant to Sections 1040, 1157.5 and 1157.7 of the Evidence Code of the State of California. The prohibition relating to the discovery of testimony provided to the committee shall be applicable to all proceedings and records of this committee, which is one established by a local government agency as a professional standards review organization which is organized in a manner which makes available professional competence to monitor, evaluate and report on the necessity, quality and level of specialty health services, including but not limited to prehospital care services. Guests may be invited to discuss specific cases and issues in order to assist the committee in making final case or issue determinations. Guests may only be present for the portions of the meeting about which they have been requested to review or testify.
2. All members shall sign a confidentiality agreement not to divulge or discuss information that would have been obtained solely through Prehospital Audit Committee membership. Prior to the invited guests participating in the meeting, the Chairperson is responsible for explaining, and obtaining, a signed confidentiality agreement for invited guest(s).

SUBJECT: TRANSFER AGREEMENTS

Date: 07/01/07

**Authority:** California Health & Safety Code Section 1798.172.

**Purpose:** To ensure that all interfacility transfers of patients are accomplished with due consideration for the patients' health and safety.

III. **Policy:**

- A. All acute care hospitals in San Diego County with basic or comprehensive emergency departments shall comply with all applicable statutes and regulations regarding the medical screening, examination, evaluation, and transfer of patients that present to that hospital's emergency department.
- B. All acute care hospitals shall comply with all applicable statutes and regulations regarding implementation of agreements to ensure that patients with an emergency medical condition who present at that facility, and that facility is unable to accommodate that patient's specific condition, are transferred to a facility with capabilities specific to that patient's need.
  1. Hospitals shall develop the mechanisms or agreements necessary to ensure that patients requiring specialty services are appropriately transferred when that hospital is unable to provide that specialty service.
  2. Hospitals shall ensure the appropriateness and safety of patients during transfers by implementing policies and protocols which address the following:
    - a. Type of patient.

SUBJECT: INTERFACILITY TRANSFERS LEVEL OF CARE

Date: 7/01/2010

- I. **Authority:** California Health & Safety Code 1798.172.
- II. **Purpose:** To provide guidelines for ambulance transport of patients between acute care hospitals.
- III. **Policy:**
  - A. A patient shall not be transferred from a hospital which is capable of providing the required care.
  - B. Unstable patients shall be transferred only when the reason for the transfer is to medically facilitate the patient's care. The transport of unstable patients must have the concurrence of both the transferring and receiving physicians that the transfer is appropriate.
  - C. It is the responsibility of the transferring physician, in consultation with the receiving physician, to determine the appropriate mode of transportation and the appropriate medical personnel (EMT, Paramedic, RN, Physician, etc.) to provide care during transport.
  - D. Medical personnel providing interfacility transport shall have the capabilities and skills reasonably necessary to provide for the specific needs of the patient during the transport.
  - E. Prehospital personnel involved in the interfacility transportation of patients shall adhere to pertinent County and State policies, procedures and protocols pertaining to the scope of practice of prehospital personnel.
  - F. Hospitals with basic or comprehensive emergency departments shall comply with

Document revised 7/1/2010  
Approved:

Administration

EMS Medical Director

all applicable statutes and regulations regarding the medical screening examination, evaluation, and transfer of patients that present to that hospital's emergency department.

G. The levels of ambulance services available for the interfacility transport of patients include:

1. Basic Life Support Ambulance

- a. The ambulance is staffed with at least two EMTs.
- b. The patient is anticipated to require no more than basic life support skills during the transport.
- c. Patient care may not exceed the EMT Scope of Practice.
- d. The patient must be considered "stable" prior to the transport.
- e. If the patient's condition deteriorates during the transport, the ambulance shall immediately proceed to the closest facility with a licensed emergency department.

2. Critical Care Transport - (including air medical ambulances)

- a. The ambulance is staffed with clinical personnel (R.N., Respiratory Therapist, Physician, etc.) appropriate to the requirements of the patient as determined by the transferring physician in consultation with the receiving physician.
- b. Unstable patients and those requiring clinical skills beyond those of EMTs shall be transported via critical care transport.

Document revised 7/1/2010  
Approved:

  
Administration

  
EMS Medical Director

- c. When nursing personnel are utilized during the transport, written orders from the transferring physician or other responsible physician covering medical and nursing activities shall accompany the patient.

3 Paramedic and/or AEMT Ambulance

- a. Paramedic/AEMT/9-1-1 system personnel may be used to transport patients ONLY as a last resort when alternative forms of transportation are unavailable, or when the delay in obtaining alternative transport would pose an imminent threat to the patient's health and safety.
- b. Hospital personnel accessing the emergency medical services (EMS) system for such transports shall note that, by accessing the EMS system, they may deplete the EMS resources of their local community.
- c. In such situations, Paramedic/AEMT/9-1-1 system personnel shall be given as thorough and complete a patient report as is possible by sending hospital staff, and will transport the patient IMMEDIATELY.
- d. Paramedic/AEMT/9-1-1 system personnel should NOT wait at the sending hospital for the completion of medical procedures or the copying of medical records, x-rays, etc. Paramedic/AEMTs will not be expected to wait longer than 10 minutes while a patient is being prepared for transport by the sending facility. After 10 minutes, they may notify their dispatcher and may return to service.
- e. Interfacility transfers utilizing Paramedic/AEMT personnel shall remain

Document revised 7/1/2010  
Approved:

Administration

EMS Medical Director

SUBJECT: INTERFACILITY TRANSFERS LEVEL OF CARE

Date: 7/01/2010

under Base Hospital (not sending hospital) medical direction and control. Additional hospital resources (e.g., Physicians, nurses, etc) may be requested, when in the judgment of the Base Hospital, additional resources are needed. Paramedics/AEMTs will operate within their scope of practice and in accordance with all other County policies and procedures during interfacility transfers.

- f The Prehospital Audit Committee (PAC) will review significant events and/or trends when Paramedic/AEMT/9-1-1 system personnel have been utilized for interfacility transfers to ensure that 9-1-1 system personnel are being utilized appropriately. Issues identified by PAC will be referred to the EMS Branch for further action.

AMBULANCE DIVERSION

Date: 07/01/07

- I. **Authority:** California Health and Safety Code, Division 2.5, Section 1797.220, 1798 and California Code of Regulations, Title 13, Section 1105c: "In the absence of decisive factors to the contrary, ambulance drivers shall transport emergency patients to the most accessible emergency facility equipped, staffed, and prepared to administer care appropriate to the needs of the patient."
- II. **Purpose:**
- A. To transport emergency patients to the most accessible medical facility which is staffed, equipped, and prepared to administer emergency care appropriate to the needs and requests of the patient.
  - B. To provide a mechanism for a receiving hospital to request diversion of patients from its emergency department when it has been determined that the hospital is not staffed, equipped, and/or prepared to care for additional patients. It is the expectation that all basic emergency receiving hospitals shall make every effort to minimize the duration and occasions of closure and diversion requests, and make every effort to re-open as soon as possible.
  - C. To assure prehospital providers units are not unreasonably removed from their area of primary response when transporting patients to a hospital.

SUBJECT: GUIDELINES FOR HOSPITALS REQUESTING  
AMBULANCE DIVERSION

Date: 07/01/07

It shall be the responsibility of the satellite hospitals to keep their Base Hospital(s) informed of their status. Satellite hospitals may request diversion; however, the final destination decision shall be made by the Base Hospital MICN/BHMD after consideration of all pertinent factors (i.e. status of area hospitals, ETA's, patient acuity and condition). A hospital may request diversion for the following reasons:

1. Emergency Department Saturation – Hospital's emergency department resources are fully committed and are not available for additional incoming ambulance patients.
  2. Neuro/CT Scan Unavailability - Hospital is unable to provide appropriate care due to non-functioning CT-Scan and/or unavailability of a neurosurgeon. (Only for patients exhibiting possible neurological problems.)
  3. Internal Disaster – Hospital cannot receive any patients because of a physical plant breakdown (e.g. fire, bomb threat, power outage, etc.)
- B. In the event of anticipated prolonged diversion, notification shall be made to the County of San Diego, Health and Human Services Agency (HHS) Emergency Medical Services Branch.
- C. Units dispatched as BLS and/or downgraded to BLS will contact the anticipated patient destination. If that destination is unable to accept patients

DISCIPLINARY PROCESS

Date: 7/1/2010

I. **Authority:** Health and Safety Code, Division 2.5, Sections 1797.61, 1797.62, 1797.107, 1797.118, 1797.176, 1797.184, 1797.202, 1797.210, 1797.216, 1798.201, & 1798.202 -

II. **Purpose:** To establish the requirements for "Disciplinary Cause" which refers to an act that is substantially related to the qualifications, functions, and duties of an EMT and/or AEMT and to define an equitable process for discipline that allows the County of San Diego EMS to protect the public health and safety while ensuring the due process rights of the holder or applicant for an EMT and/or AEMT certification.

III. **Policy-EMT/AEMT:**

A. The classification of prehospital emergency medical services personnel certified under provisions of the California Code of Regulations, Title 22, Division 9, Chapter 6 include:

1. Emergency Medical Technician (EMT).
2. Emergency Medical Technician-II (EMT-II).
3. Advanced Emergency Medical Technician (AEMT).

B. The County of San Diego EMS Medical Director may take appropriate action according to these policies and procedures, against the certificate of any prehospital emergency care personnel certified, pursuant to Division 2.5 of the Health and Safety Code, for which any of the following conditions is true:

1. The certificate was issued by the local EMS Medical Director; or
2. The certificate holder utilizes or has utilized the certificate or the skills authorized by the certificate within the County of San Diego.

DISCIPLINARY PROCESS

Date: 7/1/2010

- C. The County of San Diego EMS, upon receiving any complaint against an EMT or AEMT shall forward the original complaint and any supporting documentation to the relevant employer for investigation. A relevant employer is defined as an ambulance service permitted by the California Highway Patrol, or a public safety agency, a fire department, law enforcement agency, or other public safety agency that employs EMT's.
- D. The responsibilities of the relevant employer include:
1. Develop agency policy regarding disciplinary action and notification processes for EMT and/or AEMT staff.
  2. Within three (3) days of validated allegation(s), the relevant employer shall notify the LEMSA that has jurisdiction in the county in which the alleged violation occurred, as well as the certifying entity.
  3. Relevant Employers will have first right of refusal to conduct investigations of an allegation of misconduct.
  4. Relevant Employers who conduct investigations shall create a disciplinary action plan that is consistent with the State of California Recommended Guidelines for Disciplinary Orders and Conditions of Probation for EMT and Advanced EMT. The disciplinary action plan shall be submitted to the County of San Diego EMS within three (3) working days of adoption of the disciplinary plan. If the certification was issued outside the County of San Diego, the disciplinary plan shall be submitted to the issuing LEMSA. If the certification was issued by a non-LEMSA certifying entity, the disciplinary plan shall be

submitted to the LEMSA that has jurisdiction where the headquarters of the certifying entity is located.

5. The relevant employer is to notify, within three (3) days, both the certifying entity and the local EMS agency that has jurisdiction where the alleged action occurred of any of the following:
    - a. The EMT or AEMT is terminated or suspended for disciplinary cause
    - b. The EMT or AEMT retires or resigns following the notification of impending investigation based on evidence that would indicate the existence of disciplinary cause, or
    - c. The EMT or AEMT is removed from EMT or AEMT related duties for disciplinary cause after the completion of the employer's investigation.
  6. The relevant employer is to refer investigations that may lead to certification action to the local EMS agency in the event the relevant employer does not wish to conduct the investigation.
  7. County of San Diego EMS shall consult with the relevant employer regarding issuing a temporary suspension order prior to initiation.
- E. An evaluation and determination by the Relevant Employer and/or County of San Diego EMS that any of the following actions have occurred constitutes evidence of a threat to the public health and safety and is cause for initiating a formal investigation and possible disciplinary action:
1. Fraud in the procurement of any certification issued under Part 1 of Division 2.5 of the Health and Safety Code.

9. Rehabilitation evidence
10. In case of a criminal conviction, compliance with terms of the sentence and/or court-ordered probation
11. Overall criminal record
12. Time elapsed since the act(s) or offense(s) occurred
13. If applicable, evidence of expungement proceedings pursuant to Penal Code 1203.4
14. In determining appropriate certification disciplinary action, the County of San Diego medical director may give credit for prior disciplinary action imposed by the respondent's employer.

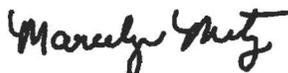

The County of San Diego Medical Director has the final determination as to the certification action and/or disciplinary action to be imposed.

H. Certification Actions:

Actions taken shall be in accordance with Model Disciplinary Orders (MDOs) established by the State of California EMS Authority.

1. Probation

Document revised 7/1/2010  
Approved:

  
Administration

  
Medical Director

SUBJECT: EMT / ADVANCED EMT / PARAMEDIC  
DISCIPLINARY PROCESS

Date: 7/1/2010

The County of San Diego EMS Medical Director may place an EMT or AEMT certificate holder on probation any time an infraction or performance deficiency occurs which indicates a need to monitor the certificate holder's conduct in the EMS system, in order to protect the public health and safety.

2. Suspension

The County of San Diego EMS Medical Director may suspend an EMT or AEMT certificate for a specified period of time for disciplinary cause in order to protect the public health and safety.

- a. Upon the expiration of the term of suspension, the individual's certificate shall be reinstated only when all conditions for reinstatement have been met. The medical director shall continue the suspension until conditions for reinstatement have been met.
- b. If the suspension period will run past the expiration date of the certificate the EMT or AEMT shall meet the recertification requirements for certificate renewal prior to the expiration date of the certificate.

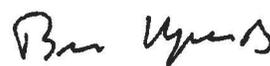

3. Denial and/or Revocation

The Medical Director shall deny or revoke an EMT or AEMT certificate if any of the following apply to an applicant or certificate holder:

- a. Has committed any sexually related offense specified under Section 290 of the Penal Code.
- b. Has been convicted of murder, attempted murder, or murder for hire.
- c. Has been convicted of two (2) or more felonies.

**SUBJECT: EMT / ADVANCED EMT / PARAMEDIC  
DISCIPLINARY PROCESS**

Date 7/1/2010

shall jointly investigate the allegation in order for the County of San Diego EMS Medical Director to make a determination of the continuation of the temporary suspension.

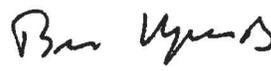

- 1) All investigatory information, not otherwise protected by the law, held by the County of San Diego EMS Medical Director and the relevant employer shall be shared between the parties via facsimile transmission or overnight mail relative to the decision to temporarily suspend.
- 2) If the certificate holder files a Notice of Defense, an administrative hearing shall be held within thirty (30) calendar days of the County of San Diego EMS Medical Director's receipt of the Notice of Defense.

I. Appeals Process:

If the County of San Diego EMS Medical Director makes a decision to place a certificate holder on probation or deny, suspend or revoke a certificate, the applicant for, or holder of a certificate may request an appeal in writing, within thirty (30) calendar days of the date that written notification of the decision to take disciplinary action is received via registered mail or personal service.

- J. Certification action by the County of San Diego Medical Director shall be valid statewide and honored by all certifying entities for a period of at least twelve (12) months from the effective date of the certification action. An EMT or AEMT whose application was denied or revoked by the County of San Diego Medical Director shall not be eligible for re-application by any other certifying entity in the State of

California for a period of at least twelve (12) months from the effective date of the certification action.

K. The County of San Diego EMS medical director shall notify the applicant/certificate holder and his/her relevant employer(s) of the certification action within ten (10) working days after making the final determination. The notification of final decision shall be served by registered mail or personal service and shall include the following:

1. The specific allegations or evidence which resulted in the certification action(s)
2. The certification action to be taken and the effective date of the certification action, including the duration of the action.
3. Which certificate(s) the certification action applies to in cases of holders of multiple certificates.
4. A statement that the certificate holder must report the certification action within ten (10) working days to any other LEMSA and relevant employer in whose jurisdiction he/she uses the certificate.

L. Investigations involving EMTs and AEMTs who are employed by a public safety agency as a firefighter shall be conducted in accordance with Chapter 9.6 of the Government Code, Section 3250 et. seq. The rights and protections described in chapter 9.6 of the Government Code shall only apply to a firefighter during events and circumstances involving the performance of his/her official duties.

M. The information shared among EMT and AEMT employers, County of San Diego EMS Medical Director, the EMS Authority and certifying entities other than the

County of San Diego EMS, shall be deemed to be investigative communication that is exempt from public disclosure as a public record pursuant to subdivision (f) of Section 6254 of the Government Code.

**IV Policy-Paramedic:**

- A. When information comes to the attention of the County of San Diego EMS Medical Director than a Paramedic license-holder has committed any act or omission that appears to constitute grounds for disciplinary action under above noted EMSA Health & Safety Codes, the Medical Director may evaluate the information to determine if there is reason to believe that disciplinary action may be necessary.
- B. If the Medical Director sends a recommendation to the EMS Authority for further investigation or discipline of the license-holder, the recommendation shall include all documentary evidence collected by the medical director in evaluating whether or not to make that recommendation. The recommendation and accompanying evidence shall be deemed in the nature of an investigative communication and be protected by Section 6254 of the Government Code. In deciding what level of disciplinary action is appropriate in the case, the EMS Authority shall consult with the County of San Diego EMS Medical Director
- C. The director of the EMS Authority or the County of San Diego EMS Medical Director, after consultation with the relevant employer, may temporarily suspend, prior to hearing, any Paramedic license upon a determination that:
  1. The licensee has engaged in acts or omissions that constitute grounds for revocation of the Paramedic license; and

**SUBJECT: GUIDELINES FOR VERIFICATION OF ORGAN DONOR STATUS**

Date: 07/01/05

- I. **Authority:** Health & Safety Code, Section 7152.5(b).
- II. **Purpose:** To establish guidelines for emergency medical services (EMS) field personnel to search for verification of organ donor status on adult patients for whom death appears imminent.

**III. Definitions:**

- A. **Reasonable Search:** A brief attempt by EMS field personnel to locate an organ donor document of gift, or other information that may identify a patient as a potential organ donor or one who has refused to make an anatomical gift.
- B. **Imminent Death:** A condition wherein illness or injuries are of such severity that, in the opinion of EMS personnel, death is likely to occur before the patient arrives at the receiving hospital. For purposes of this policy, this definition does not include any conscious patient regardless of the severity of illness or injury.

**IV. Policy:**

- A. When EMS field personnel encounter an unconscious adult patient for whom it appears death is imminent they shall attempt a "reasonable search" of the patient's belongings to determine if the individual carries an organ donor document of gift or other information indicating the patient's status as an organ donor.
- Treatment and transport of the patient remains the highest priority for field personnel. This search shall not interfere with patient care or transport.
- Field personnel shall notify the receiving hospital personnel if organ donor document of gift or other information is discovered. Advanced life support units shall notify the base hospital in addition to the receiving hospital personnel.

**SUBJECT: GUIDELINES FOR VERIFICATION OF ORGAN DONOR STATUS**

Date: 07/01/05

- D. Any organ donor document of gift or other information that is discovered shall be transported to the receiving hospital with the patient, unless an investigating law enforcement officer requests it. In the event that no transport is made, any organ document of gift or other information shall remain with the patient.
- E. Field personnel shall briefly note the results of the search on the EMS Prehospital Patient Record.
- F. No search is to be made by EMS personnel after the patient has expired.
- G. If a member of the patient's immediate family objects to the search for an organ donor document of gift or other information at the scene, their response to a question about the patient's organ donation wishes shall satisfy the requirement.

- I. **Authority:** Division 2.5, Health and Safety Code, Sections 1797.204 and 1798; and Evidence Code, Sections 1040 and 1157.7.
- II. **Purpose:** To establish the scope, membership and functions of an advisory committee to the local Emergency Medical Services (EMS) agency. This committee shall meet to monitor and evaluate the medical care of identified patients with traumatic injury.

III.

The scope of the committee shall include, but not be limited to:

1. Review of trauma deaths in the County
2. Evaluation of trauma care
3. Provision of input to the local EMS agency in the development, implementation and evaluation of medical audit criteria
4. Design and monitoring of corrective action plans for trauma medical care
5. Assistance and participation in research projects
6. Provision of medical care consultation at the request of the County of San Diego Division of EMS (County EMS), including on-site facilities evaluation by committee members
7. Establishment of subcommittees of outside consultants at the request of County EMS
8. Recommendation of process improvement strategies related to trauma care

B **Membership:**

The committee shall be comprised of the following:

1. Members:
  - a. Trauma Center Medical Directors from all designated centers

- b. Trauma Nurse Coordinators from all designated Trauma Centers
  - c. County EMS Trauma System Coordinator/Trauma Quality Assurance Specialist
  - d. County Trauma System Surgical Consultant
  - e. Base Hospital Physician representing the Prehospital Audit Committee (PAC)
  - f. Neurosurgeon appointed by the Academy of Neurosurgeons
  - g. Anesthesiologist appointed by the Anesthesia Association
  - h. Orthopedic Surgeon
  - i. Emergency Physician not affiliated with a trauma center, appointed by San Diego Emergency Physicians Society
  - j. County EMS Medical Director
- 2 Ad Hoc Members that may participate:
- a. Trauma Base Hospital Medical Directors
  - b. Medical Director Air Medical Services
  - c. Designated Assistant Trauma Medical Directors or Trauma Surgeon staff of trauma centers
  - d. Approved physicians enrolled in Trauma fellowships
  - e. Trauma Center Intensivists
  - f. Assistant Trauma Coordinators
  - g. Physicians from non-trauma facilities who are presenting cases
  - h. President of the Medical Society

General surgeon appointed by the Society of General

Surgeons

- j. County EMS Administrator/appropriate Division staff
- k. Managed care physician representative appointed by County EMS.

C. Attendance:

1. Members should notify County EMS staff (285-6429) in advance of any scheduled meeting they would be unable to attend. Attendance at these meetings for the Trauma Medical Directors and Trauma Nurse Coordinators or their designees is mandatory. The Trauma Medical Directors and the Trauma Nurse Coordinators should use their best efforts to attend 90% of the scheduled MAC meetings annually. After three (3) consecutive absences in a calendar year, an appointed member may be replaced on the Committee.
2. Resignations from the committee shall be submitted, in writing to County EMS.
3. Invitees may participate in the medical review of specified cases where their expertise is requested. All requests for invitees must be approved by County EMS in advance of the scheduled meeting.
4. Invitees not participating in the medical review of specified cases must be approved by County EMS and all Trauma Medical Directors.

D. Voting:

Due to the "advisory" nature of the committee, many issues require consensus rather than a vote process. Vote process issues will be identified

as such by the Chairperson. When voting is required, the majority of the voting members of the committee need to be present. Voting members may include Trauma Medical Directors, Trauma Nurse Coordinators and the appropriate physician specialist. Members may not participate in voting when a conflict of interest exists.

E. Meetings:

The committee shall meet at least six (6) times per year at times arranged by County EMS/MAC.

F. Committee Documentation:

Minutes will be kept by County EMS staff and distributed to the members at each meeting. Due to the confidentiality of the committee, confidential committee documents will be collected by County EMS staff at the close of each meeting and no copies may be made or possessed by members of the Committee. All official correspondence and communication generated by the Medical Audit Committee will be approved by County EMS staff and sent on San Diego County letterhead.

SUBJECT: DESIGNATION OF A CARDIOVASCULAR  
"STEMI" RECEIVING CENTER (SRC)

Date: 8/1/2011

- I. **Authority:** Division 2.5 Health and Safety Code, Section 1797.67, 1798 and 1798.170.
- II. **Purpose:** To define the process and procedure for designating a Cardiovascular "STEMI" Receiving Center.

**Policy:**

The Board of Supervisors or designee shall approve recommendations for Cardiovascular "STEMI" Receiving Center designations.

1. The designation SRC will be a non-competitive process based on past performance of the acute care hospital's emergency department, cardiac catheterization laboratory, staff and on-call interventionalists and on its ability to provide required services and willingness to participate in the performance improvement process.
2. The designation of an SRC for purposes of the County of San Diego Emergency Medical Services (EMS) confers upon the facility, the recognition that it has the commitment, personnel and resources necessary to provide optimum medical care for the patient with a acute myocardial infarction, to include, but not limited to the ability to provide prompt percutaneous coronary interventions and to meet outcome benchmarks.
3. The designation as a SRC is specific to the cardiac catheterization laboratory's location and is not transferable.

COUNTY OF SAN DIEGO EMERGENCY MEDICAL SERVICES  
POLICY/PROCEDURE/PROTOCOL

No. S-020  
Page: 2 of 2

SUBJECT: DESIGNATION OF A CARDIOVASCULAR  
"STEMI" RECEIVING CENTER (SRC)

Date: 8/1/2011

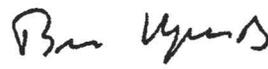

4. Each designated SRC shall meet the criteria set forth in their agreement and demonstrate a continuous ability and commitment to comply with policies, protocols and procedures developed by the County of San Diego EMS.
5. Each designated SRC's shall undergo an annual performance evaluation based upon their agreement. Results of the evaluation shall be made available to the designated facility.
6. All designated SRC's shall participate in the quality improvement process as outlined in the *Cardiovascular Performance Improvement Manual and Data Dictionary*.

**IV. Procedure:**

- A. The County of San Diego EMS develops and distributes an Application for Designation as a Cardiovascular "STEMI Receiving Center (SRC).
- B. The County of San Diego EMS evaluates applications, including an independent review process and on-site evaluation and makes recommendations to the Board of Supervisors.

COUNTY OF SAN DIEGO EMERGENCY MEDICAL SERVICES  
POLICY/PROCEDURE/PROTOCOL

No. S-021  
Page: 1 of 2

SUBJECT: DE-DESIGNATION OF A CARDIOVASCULAR  
"STEMI" RECEIVING CENTER

Date: 8/1/2011

- I. **Authority:** Division 2.5, Health and Safety Code, Section 1797.67, 1798 and 1798.170.
- II. **Purpose:** To establish a policy and procedure for de-designation of a "STEMI" receiving center (SRC).
- III. **Policy**
  - A. Termination for Cause:
    1. The County of San Diego may immediately terminate its Cardiovascular "STEMI" Receiving Center (SRC) Memorandum of Agreement (MOA), if a receiving center's license to operate as a general acute care hospital is revoked or suspended.
    2. The County of San Diego may immediately terminate its SRC MOA, if the hospital no longer operates as a receiving center with a "Basic or Comprehensive" Emergency Department.
    3. The County of San Diego may immediately suspend its MOA upon written notice if a SRC is in gross default of material obligation under its MOA which default could adversely affect patient care provided by Contractor.
    4. For any other material breach of its MOA, The County of San Diego may terminate a receiving center MOA for cause, per the language of the Agreement. Such cause shall include, but not be limited to:
      - a) Failure to comply with material terms and conditions of the SRC MOA, after notice of the failure has been given.

Page: 2 of 2

**SUBJECT: DE-DESIGNATION OF A CARDIOVASCULAR  
"STEMI" RECEIVING CENTER**

Date: 8/1/2011

- b) Failure to make available sufficient, qualified personnel and hospital resources to provide immediate care for acute myocardial infarction patients as required by the MOA.
- c) Failure to provide timely cardiac interventionalist coverage for acute myocardial infarction patients as required by the MOA.
- d) Failure to provide physicians, surgeons, and other medical, nursing and ancillary staff who possess that degree of skill and learning ordinarily possessed by reputable medical personnel in like or similar localities and under similar circumstances for the provision of medical services for acute myocardial infarction patient requiring percutaneous coronary interventions.
- e) Gross misrepresentation or fraud.
- f) Substantial failure to cooperate with the County of San Diego EMS monitoring of SRC services.
- g) Substantial failure or refusal to cooperate with quality assurance and audit findings and recommendations within a reasonable time.

**B. Termination for Convenience:**

Either the County of San Diego or the SRC may terminate the SRC MOA, as a termination for convenience per the language of the Agreement.

- C. Upon the de-designation of a receiving center, the County of San Diego | EMS shall be responsible for system redesign decisions.

Document revised 8/1/2011

EMS Medical Director

**SUBJECT: INFANT SAFE SURRENDER**

Date: 7/01/2015

- I. **Authority:** California Health and Safety Code, Sections 1255.7 and 1798, California Penal Code 271.5.
- II. **Purpose:** To describe guidelines for steps to be followed when an individual surrenders an infant appearing to be <72 hours old, under the California Safely Surrendered Baby Law of 2001, to EMS staff at a San Diego County Fire Station that is staffed 24 hours/day.
- III. **Guidelines:**

EMS Personnel will accept infants brought to them with the intent of surrendering the child. The infant should be accepted for surrender even if the child's age is suspected to exceed 72 hours.

  - A. EMS personnel should follow their own departmental policies when an infant is surrendered to their care.
  - B. A "Newborn Safe Surrender Kit" shall be used, and a confidential infant ID bracelet shall be placed on the newborn's ankle, and the number code from the bracelet recorded on the infant's Prehospital Patient Report (PPR).
  - C. EMS personnel will perform a rapid assessment of the infant to identify immediate medical needs, and this assessment will be documented on the infant's PPR. If there is any suspicion of child abuse, law enforcement should be contacted immediately.
  - D. EMS personnel shall offer care to the mother if she is the caretaker surrendering the infant. Documentation of the mother's assessment/care should be on a separate PPR if provided.

**Approved:**

  
\_\_\_\_\_  
Administrator

  
\_\_\_\_\_  
Medical Director

**SUBJECT: INFANT SAFE SURRENDER**

**Date: 7/01/2015**

- E. The caregiver surrendering the infant should be encouraged to immediately complete the "Newborn Family Medical History Questionnaire". If necessary, EMS personnel should assist the caregiver in completing the document. The caregiver may also fill out the questionnaire at a later time and return via mail.
- F. The infant should then be transferred to the most appropriate Emergency Department as directed by the base hospital. A copy of the infant's PPR should be provided to hospital staff.
- G. EMS personnel must notify County of San Diego Health and Human Services, Child Welfare Services by phone, advising them of a surrendered infant incident, and must complete a Child Protective Services (CPS) report, submitted according to agency protocol.

**Approved:**

  
Administrator

  
Medical Director

COUNTY OF SAN DIEGO EMERGENCY MEDICAL SERVICES  
POLICY/PROCEDURE/PROTOCOL

No. S-029

SUBJECT: STROKE ADVISORY COMMITTEE (SAC)

Date: 07/01/2014

- I. **Authority:** Health and Safety Code, Division 2.5, Section 1798; and Evidence Code, Sections 1157.7.
- II. **Purpose:** To designate an advisory committee to provide consultation, medical protocol review, and recommendations on issues concerning prehospital treatment protocols and emergency medical care delivery for patients with acute stroke syndromes to the Medical Director of the County of San Diego Emergency Medical Services (EMS).
- III. **Policy:** The County of San Diego EMS Medical Director may consult with the Stroke Advisory Committee on issues concerning prehospital treatment protocols and emergency medical care delivery for patients with acute stroke syndromes in San Diego County.
- A. **The Scope:** may include but not limited to:
1. Provision of input to County of San Diego EMS in the development, implementation and evaluation of medical audit criteria.
  2. Designing and monitoring corrective action plans on stroke care.
  3. Provision of medical care consultation at the request of the County of San Diego EMS.
  4. Recommendation of performance improvement strategies related to care of patients with acute stroke syndromes.
- B. **Membership :** County of San Diego EMS Medical Director's Stroke Advisory Committee will have the following members:
1. One Stroke Program Medical Director or designee from each designated Stroke Receiving Center.

Approved: 7/1/2014

*Marilyn Metz*

*Ben Lyons*  
EMS Medical Director

SUBJECT: STROKE ADVISORY COMMITTEE (SAC)

Date: 07/01/2014

2. One Stroke Receiving Center Program Manager or designee from each designated Stroke Receiving Center.
3. San Diego County EMS Stroke Program Coordinator (QA Specialist).
4. One Neurointerventionalist or designee from each designated Stroke Receiving Center
5. One neurology representative, from a non-certified center, from the San Diego County Medical Society or as appointed by EMS.
6. One emergency physician representing the County of San Diego's Base Station Physician's Committee (BSPC).
7. One emergency physician representing the San Diego County Medical Society EMS Oversight Committee (EMOC) from a non-designated Stroke Receiving Center.
8. San Diego County EMS Medical Director.

**C. Ad Hoc Member participation:**

1. One representative from County Paramedic Agencies Committee (CPAC).
2. One RN representing the Base Hospital Nurse Coordinator's Committee.
3. Paramedic Training agency representative.
4. County EMS Administrator/appropriate EMS staff.
5. Other providers with a neurological focus (NP, PA, fellow, intensivist, pediatric, and drug/device representatives) as invited by the SAC.

**D. Responsibilities**

1. To meet as an advisory committee on a quarterly basis.

Approved: 7/1/2014

*Marilyn Metz*

*Ben Myers*  
EMS Medical Director

**SUBJECT: STROKE ADVISORY COMMITTEE (SAC)**

**Date: 07/01/2014**

2. To develop an agenda in conjunction with the County of San Diego EMS Medical Director or designee.
3. To consult on prehospital and hospital acute stroke syndrome issues.
4. To convene small task forces/subcommittees of advisory committee members and others to work with the County of San Diego EMS Medical Director or designee on specific medical management issues.
5. To consult with other medical specialties, or other advisory bodies in the County, as necessary.

**E. Attendance**

1. Participation by the appointed Stroke Receiving Center Medical Director and Program Manager in the County of San Diego Stroke Advisory Committee (SAC) performance improvement process is mandatory. Attendance at 75% of quarterly meetings is encouraged.
2. Invitees may participate in the medical review of specified cases where their expertise is requested. All requests for invitees must be approved by County of San Diego EMS Stroke Program Coordinator, QA Specialist, in advance of the scheduled meeting.
3. County of San Diego EMS and all Stroke Receiving Center Medical Directors present must approve the invitees observing case reviews in which the invitees are not participating.

**F. Quorum (Voting Process)**

1. The SAC will elect a chairperson who must be a Stroke Receiving Center Medical Director or Stroke Receiving Center Program Manager annually.

Approved: 7/1/2014

*Manely Metz*

*Ben Myers*  
EMS Medical Director

SUBJECT: STROKE ADVISORY COMMITTEE (SAC)

Date: 07/01/2014

2. Due to the advisory nature of the committee, many issues require a consensus rather than a vote process. Vote process issues will be identified as such by the chairperson. Issues that the advisory committee wishes to bring forward to the EMS Medical Director, or designee, for action requires a consensus approval. Consensus approval requires a simple majority of the Stroke Receiving Centers in attendance.
3. Members may not participate in advisory issues when a conflict of interest exists.
4. There will be one vote from each SRC that may be registered by either the SRC Medical Director or the SRC Program Manager/designee.

**G. Confidentiality**

All proceedings, documents and discussions of the Stroke Advisory Committee are confidential and are covered under Section 1157.7 of the Evidence Code of the State of California. The prohibition relating to discovery of testimony provided to the Committee shall be applicable to all proceedings and records of this Committee, which is one established by a local government agency to monitor, evaluate and report on the necessity, quality and level of specialty health services, including, but not limited to, stroke services. Issues, which require prehospital medical/system input, may be sent to the confidential Prehospital Audit Committee.

Approved: 7/1/2014

  
Administration

  
EMS Medical Director

INTRODUCTION

These Protocols define the basic and advanced life support treatment and disposition standards for San Diego County.

1. These treatments are listed in sequential order for each condition.  
Adherence is recommended.  
All skills follow the criteria in the Skills List (P-104)
2. All treatments may be performed by the EMT (BLS treatments), AEMT and/or paramedic without an order EXCEPT for those stating "Base Hospital Order (BHO)" or "Base Hospital Physician Order (BHPO)".  
All treatments requiring an order are at the discretion of the Base Hospital providing medical direction. Standing orders may be implemented at the discretion of the field EMT/A-EMT/paramedic and may be continued following the initial notification.  
Once a complete patient report is initiated:
  - All BH orders supersede any standing orders except defibrillation and intubation.
  - ALL subsequent medication orders **MUST** be from that Base (S-415).
3. BHPO (Base Hospital Physician Order): BHPOs may be relayed by the MICN.  
Physician must be in direct voice contact for communication with another physician on scene.
4. Abbreviations and definition of terms are attached.
5. All medications ordered are to be administered as described UNLESS there is a contraindication, allergy or change in condition.
6. Cardioversion when listed in the protocols is always synchronized.
7. Personal protective equipment must be used on all patient contacts per provider agency policy (S-009).
8. PEDIATRIC SPECIAL CONSIDERATIONS:
  - a. A pediatric patient is defined as appearing to be <15 yo.
  - b. Pediatric cardioversion is CONTRAINDICATED whenever the defibrillator unit is unable to deliver <5 joules/kg or equivalent biphasic.
  - c. Medications are determined by use of length based resuscitation tape; refer to the pediatric drug chart, P-117. Children  $\geq 37$  kg. use adult medication dosages regardless of age or height. Neonates involve the base physician.

## GLOSSARY OF TERMS

**Apparent Life Threatening Event (ALTE):** an episode involving an infant less than 12 months of age which is frightening to the observer and is characterized by one or more of the following:

- 1) Apnea (central or obstructive)
- 2) Color change (cyanosis, pallor, erythema)
- 3) Marked change in muscle tone
- 4) Unexplained choking or gagging

**Definitive therapy:** Immediate or anticipated immediate need for administration of a fluid bolus or medications.

**End Tidal CO<sub>2</sub> (EtCO<sub>2</sub>) – Quantitative Capnography:**

Quantitative capnometer to continuously monitor end tidal CO<sub>2</sub> is mandatory for use in the intubated patient.

**Esophageal Tracheal Airway Device (ETAD):** The "Combitube" is the only such airway approved for prehospital use in San Diego County. See also PAA.

**IV/IO:** Intravenous/Intraosseous.

**Laryngeal/Tracheal (LT) Airway:** The "King Airway" is the only such airway approved for prehospital use in San Diego County. See also PAA.

**LEADSD:** Acronym for the steps to be performed in the assessment and documentation of endotracheal intubation attempts:

Lung Sounds, End Tidal CO<sub>2</sub> Detection Device, Absence of Abdominal Sounds. Depth, Size, (Doctor) Hospital Verification.

**Minor:** A person under the age of 18 and who is not emancipated.

**Opioid:** Any derivative, natural or synthetic, of opium or morphine or any substance that has their effects on opioid receptors (e.g. analgesia, somnolence, respiratory depression).

**Opioid Dependent Pain Management Patient:** An individual who is taking prescribed opioids for chronic pain management, particularly those with opioid infusion devices.

**Opioid Overdose, Symptomatic:** Decreased level of consciousness and respiratory depression (e.g. respiratory rate of less than 12).

**Nebulizer:** O<sub>2</sub> powered delivery system for administration of Normal Saline or medications.

---

Document revised 7/1/2015

Approved:

EMS Medical Director

**Pediatric Patient:** Children appearing to be <15 years  
Pediatric Trauma patient is determined by age, regardless of weight. Neonate: up to 30 days.  
Infant: one month to one year of age.

**Perilaryngeal airway adjunct (PAA):**

**Esophageal Tracheal Airway Device (ETAD):** The "Combitube" is the only such airway approved for prehospital use in San Diego County.

OR

**Laryngeal/Tracheal (LT) Airway:** The "King Airway" is the only such airway approved for prehospital use in San Diego County.

**"Shock"** is defined by the following criteria:

**Patient's age:**

1.  $\geq 15$  years:  
Systolic BP <80 mmHg OR  
Systolic BP <90 mmHg AND exhibiting any of the following signs of inadequate perfusion:
  - a. altered mental status (decreased LOC, confusion, agitation)
  - b. tachycardia
  - c. pallor
  - d. diaphoresis
  
2. <15 years:  
Exhibiting any of the following signs of inadequate perfusion:
  - a. altered mental status (decreased LOC, confusion, agitation)
  - b. tachycardia (<5yrs  $\geq 180$ bpm;  $\geq 5$ yrs  $\geq 160$ bpm)
  - c. pallor, mottling or cyanosis
  - d. diaphoresis
  - e. comparison (difference) of peripheral vs. central pulses.
  - f. delayed capillary refill
  - g. systolic BP < [70 + (2 x age)]

**Unstable (adult):** Systolic BP <90 and chest pain, dyspnea or altered LOC.

SUBJECT: BLS / ALS AMBULANCE INVENTORY

Date: 7/1/2015

I. **Authority:** Health and Safety Code, Division 2.5, Section 1797.204.

II. **Purpose:** Identify a minimum standardized inventory on all Basic Life Support and Advanced Life Support Transport Units.

III. **Policy:** Essential equipment and supplies are required by California Code of Regulations, Title 13, Section 1103.2(a) 1-2 (for vehicle requirements refer to Policy # B 833). Each Basic Life Support or Advanced Life Support Transporting Unit in San Diego County shall carry as a minimum, the following:

**Basic Life Support Requirements:**

	<u>Minimum</u>
Ambulance cot and collapsible stretcher	1 each
Straps to secure the patient to the cot or stretcher	1 set
Ankle and Wrist Restraints	1 set
Linens (Sheets, pillow, pillow case, blanket, towels)	2 sets
Personal Protective Equipment (masks, gloves, gowns, shields)	2 sets
Oropharyngeal Airways	
Adult	2
<i>Pediatric</i>	2
<i>Infant</i>	1
<i>Neonate</i>	1
Pneumatic or rigid splints	4
Bag-valve-mask w/reservoir and clear resuscitation mask	
Adult	1
<i>Pediatric</i>	1
<i>Infant</i>	1
<i>Neonate Mask</i>	1
Oxygen Cylinder w/wall outlet (H or M)	1
Oxygen tubing	1
Oxygen Cylinder - portable (D or E)	2
Oxygen administration mask	
Adult	4
<i>Pediatric</i>	2
<i>Infant</i>	1
Nasal cannulas (Adult)	4
Nasal airways (assorted sizes)	1 set
Nebulizer for use w/sterile H <sub>2</sub> O or saline	2
Glucose Paste/Tablets	1 15g tube or 3 tabs
Bandaging supplies	
4" sterile bandage compresses	12
3x3 gauze pads	4
2", 3", 4" or 6" roller bandages	6
1", 2" or 3" adhesive tape rolls	2
Bandage shears	1

**SUBJECT: BLS / ALS AMBULANCE INVENTORY**

Date: 7/1/2015

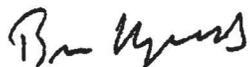

---

Ondansetron (Zofran) PO/ODT	4mg	4
Sodium Bicarbonate	50 mEq/50 ml	3
<u>IV Solutions:</u>		
Normal Saline	1000 ml bag	4
Normal Saline	250 ml bag	2

H. Optional Items:

Amiodarone 150mg/3ml

Armboard: Long

Armboard: Short

Aspiration based endotracheal tube placement verification devices

Bougie

Capnography cannula

Carboxyhemoglobin monitor

Cardiac compression device

Chest Seals

*Colorimetric carbon dioxide detector (if capnography not equipped to read EtCO<sub>2</sub> in patients weighing <15kgs).*

Curved laryngoscope blades, size 0, 1

Dopamine (Premixed) 400 mg in 250 ml D5W

Hemostatic Gauze

IO Power Drive needle 45 mm (40kg and greater with excessive tissue)

IV Extension Tubing

Lidocaine 2% Jelly - 5 ml tube

Morphine Sulfate (Oral Immediate Release) 10 mg/5 ml

Mesh hood, (spit sock or similar). Light color only (beige/white)

Saline Lock

Three-Way Stopcock with extension tubing

Valium Autoinjector (MMST only)

Video Laryngoscope

**Note:** *Pediatric required supplies denoted by italics.*

\* One splint may be used for both adult & pediatric e.g. Sager Splint

SKILL	INDICATION	ALS STANDING ORDER	CONTRAINDICATION	COMMENTS
Bougie	Assist with intubation	Yes	Unable to visualize the cords	No blind intubations. May use bougie if agency approved and trained annually Optional inventory
Carboxyhemoglobin monitor	Suspected or known carbon monoxide exposure	Yes	None	Consider transport to facility with hyperbaric chamber for suspected carbon monoxide poisoning in the unconscious or pregnant patient.
Cardioversion: synchronized	Unstable VT Unconscious SVT	Yes	Pediatric: If defibrillator unable to deliver <5 J or biphasic equivalent	In addition to NTG patches, remove chest transdermal medication patches prior to cardioversion.
	Unconscious Atrial fibrillation/flutter and HR >180	After x3 BHO		
	Unstable, conscious SVT (BHO) Unstable, conscious Atrial Fibrillation/Flutter HR >180(BHPO)	No		
Chest seal	Occlusive dressing designed for treating open chest wound	Yes	None	
CPAP	Age ≥ 15 years Respiratory Distress: CHF, COPD, asthma, pneumonia or drowning. Moderate to severe respiratory distress. Retractions/accessory muscle use AND <ul style="list-style-type: none"> <li>• RR ≥25/min</li> <li>OR</li> <li>• SpO<sub>2</sub> &lt;94%</li> </ul>	Yes	Unconscious CPR BP <90 mmHg Vomiting Age <15 Possible pneumothorax Facial trauma Unable to maintain airway	CPAP may be used only in patients alert enough to follow direction and cooperate with the assistance. Non-verbal patients with poor head/neck tone may be too obtunded for CPAP. BVM assisted ventilation is the appropriate alternative.  CPAP should be used cautiously for patients with Suspected COPD or pulmonary fibrosis, start low and titrate pressure.
Defibrillation	VT (pulseless) VF	Yes	None	In addition to NTG patches, remove chest transdermal medication patches prior to defibrillation.

SUBJECT: LATEX-SAFE EQUIPMENT LIST

Date: 7/1/2011

- I. Health and Safety Code, Division 2.5, Section 1797.204.
- II. Identify essential equipment that must be available for use with patients identified as latex-sensitive.
- III. **Policy:** Prehospital personnel shall be prepared to manage patients that are identified as latex-sensitive in a manner that is as latex-safe as possible. Prehospital provider agencies shall attempt, when possible, to use patient equipment that minimizes exposure to latex containing products, and shall, at a minimum, maintain the items indicated below for use with patients identified as latex-sensitive. Provider agencies shall maintain documentation demonstrating the latex-safety of the equipment listed below. ALS ambulances shall maintain the complete listing below. BLS ambulance requirements are designated "+."

<b>A</b>	<b><u>Airway Adjuncts:</u></b>	Minimum
	Bag-valve-mask device with reservoir, adult and pediatric	1 each
	Endotracheal Tubes: Sizes: 6, 6.5, 7, 7.5, 8, 8.5, 9	each
	Nasal Airways +, Assorted Sizes	package
	O <sub>2</sub> Cannula +	each
	Positive Pressure Breathing Valve + - Mask must be latex-safe	each
	Styler	each
	Suction Catheters (12, 14, 18 fr.)	each
	Suction Catheters, Tonsil Tip + (Yankauer)	each
<b>B</b>	<b><u>Vascular Access/Monitoring Equipment</u></b>	Minimum
	Armboard: Long (barrier protection acceptable)	1 each
	Armboard: Short (barrier protection acceptable)	1 each
	Blood Pressure Cuff + (barrier protection acceptable)	1 each
	I.V. Administration Sets: (barrier protection acceptable)	
	Macro drip	1 each
	Micro drip	1 each
	IV Tourniquets	1 each
	Needles: I.V. Cannula - 14 Gauge	1 each
	I.V. Cannula - 16 Gauge	1 each
	I.V. Cannula - 18 Gauge	1 each
	I.V. Cannula - 20 Gauge	1 each
	Three-Way Stopcock with extension tubing	2 each
	Syringes: 1 ml, 3 ml, 5 ml, 10 ml, 20 ml	1 each
	Stethoscope + (barrier protection acceptable)	1 each
<b>C</b>	<b><u>Monitoring</u></b>	Minimum
	Defibrillator pads +	1 pkg
	Electrodes +	1 box

SUBJECT: LATEX-SAFE EQUIPMENT LIST

Date: 7/1/2011

D. <u>Splinting Devices:</u>	<u>Minimum</u>
Extrication Collars +, Rigid, Adult	1 each
Traction Splint + (barrier protection acceptable)	1 each
E. <u>Packs</u>	<u>Minimum</u>
*Personal Protective Equipment + (masks, gloves, gowns, shields)	2 sets
F. <u>Other Equipment</u>	<u>Minimum</u>
Cold Packs + (barrier protection acceptable)	1 each
Hot packs + (barrier protection acceptable)	1 each
Nasogastric Intubation Set-Up (12 or 14, 18 fr. 48")	1 each
G. <u>**Replaceable Medications:</u>	<u>Minimum</u>
Tool to remove latex caps from multi-dose vials with latex plugs	
<u>IV Solutions:</u>	
Normal Saline (barrier protection acceptable) 1000ml bag	1
Normal Saline (barrier protection acceptable) 250 ml bag	1
H. <u>OB/Pediatric supplies</u>	
Bulb Syringe +	1

\* Prehospital staff should minimize their own exposure to latex products at all times

\*\* Staff shall be knowledgeable in procedures to use latex-containing products in a latex-safe manner.

Such methods include:

- Barrier protective measures (for stethoscope, for example). If barrier protection is used, materials should be easily available to implement the barrier.
- Procedures to remove or cover latex-containing parts (such as the caps on multi-dose medication vials).

Note: See EMS Treatment Protocol S-122: Allergic Reaction/Anaphylaxis for additional information.

Questions regarding the management of latex-sensitive patients should be referred to the Base Hospital.

## ADULT SKILLS

### Cardioversion-Synchronized (after x3 BHPO)

Unconscious SVT

Unstable VT

Unconscious Atrial Fibrillation/Atrial Flutter with HR  $\geq$ 180

### Chest Seal

Occlusive dressing designed for treating open chest wound

### Continuous Positive Airway Pressure

Age  $\geq$  15 years

Respiratory distress: CHF, COPD, asthma, pneumonia or drowning.

Moderate to severe respiratory distress. Retractions/accessory muscle use AND

RR  $\geq$ 25/min OR SpO<sub>2</sub>  $<$ 94%

### Defibrillation

VT (pulseless)/ VF

Repeat pm

### External cardiac pacemaker

Unstable narrow complex bradycardia with pulse, refractory to Atropine

Wide complex bradycardia

### Glucose Monitoring

Hypoglycemia (suspected)

Hyperglycemia (suspected)

### Hemostatic Gauze

Life-threatening hemorrhage in the trauma patient when tourniquet cannot be used or to supplement tourniquet.

### Indwelling Devices

Use pre-existing external indwelling vascular access devices as primary vascular access if needed for definitive therapy.

**Intraosseous Infusion:** Fluid/medication administration in **acute status** patient when needed for definitive therapy and unable to establish venous access.

### Intubate (ET/Stoma/ETAD/Perilaryngeal)

Apnea or ineffective respirations for unconscious adult patient or decreasing LOC.

### Magill Forceps with direct Laryngoscopy

Airway obstruction from foreign body with decreasing LOC or unconscious.

### Nasogastric/Orogastric Tube Insertion

Gastric distention interfering with ventilation.

---

Document revised 7/1/2015

Approved:

EMS Medical Director

**Needle Thoracostomy**

Severe respiratory distress with unilateral, diminished breath sounds and systolic BP <90

**Re-alignment of Fracture**

Grossly angulated long bone fracture with gentle unidirectional traction if necessary for splinting.

**Tourniquet**

Apply tourniquet in severely injured extremity when direct pressure or pressure dressing fails to control life-threatening hemorrhage. (attempt to control life-threatening hemorrhage with direct pressure or pressure dressing not required prior to tourniquet application in a mass casualty.)

**Valsalva Maneuver**

SVT.

EMS Medical Director

**MEDICATIONS**

MEDICATION	DOSAGE / ROUTE/ INDICATION
Albuterol	Burns (respiratory distress with bronchospasm). Respiratory distress ?non-cardiac. Allergic reaction in presence of respiratory distress. Suspected hyperkalemia in the symptomatic patient (widened QRS complex and peaked T-waves).
Adenosine	SVT with no history of bronchospasm or COPD.
Amiodarone	Stable Ventricular Tachycardia (VT). Reported/witness > x2 AICD
ASA	Discomfort/Pain of suspected cardiac origin or discomfort/pain relieved with NTG SL (prior to arrival or EMS administered):
Atropine	Unstable Bradycardia. Organophosphate poisoning.
Atrovent	Respiratory distress ?non-cardiac Allergic reaction in presence of respiratory distress.
Benadryl	Extrapyramidal reactions Allergic reaction/anaphylaxis
CaCl <sub>2</sub>	Symptomatic patient with suspected hyperkalemia (widened QRS complex or peaked T-waves).
Charcoal	Oral ingestion of poison or overdose if ingestion within one hour for uncomplicated ingestion of drug on the following list: Acetaminophen, colchicine, beta blockers, calcium channel blockers, salicylates, valproate, oral anticoagulants (including anticoag rodenticides), paraquat, amanita mushrooms (if not vomiting).
D <sub>50</sub>	Hypoglycemia: Symptomatic patient with Altered LOC unresponsive to oral glucose agents.
Epinephrine 1:10,000	Cardiac arrest.
Epinephrine 1:1,000	Allergic reaction: Acute (facial/oral angioedema, bronchospasm or wheezing) Anaphylaxis (shock or cyanosis) ?Respiratory Distress (?non-cardiac), consider if severe or inadequate response to Albuterol/Atrovent and if no known cardiac history, history of hypertension, or BP <150 or <40 yrs and history of asthma.
Glucagon	Symptomatic patient with altered LOC with blood glucose of <60, unresponsive to oral glucose agents, if no IV.
Lidocaine	Stable VT Reported/witnessed ≥ x2 AICD if pulse ≥60
Morphine	For treatment of pain as needed with systolic BP ≥ 100 Discomfort/pain of suspected cardiac origin where systolic BP ≥ 100

Document revised 7/1/2015

Approved:

EMS Medical Director

MEDICATION	DOSAGE / ROUTE/ INDICATION
Narcan	Symptomatic ?opioid OD with respiratory rate <12 (use caution in opioid dependent pain management patients) to drive the respiratory rate.
NTG	Pain or discomfort of cardiac origin if BP $\geq$ 100. Respiratory distress ? CHF/cardiac origin. Fluid overload in hemodial sis atient.
Normal Saline	Definitive therapy Crush injury with extended compression $\geq$ 2 hours of extremity or torso. CVA: 250ml fluid bolus IV/IO with clear lungs to maintain BP >120 Symptomatic ? Stimulant Intoxication ?aortic aneurysm Shock: hypovolemia Shock: anaphylaxis, neurogenic Shock: ?cardiac etiology, septic Trauma Discomfort/pain of ?cardiac origin with associated shock with clear lung sounds Dysrhythmias with clear lung sounds: Burns > 20% artial thickness or > 5% full thickness and >15 o
Ondansetron Zofran	Nausea or vomiting
Sodium Bicarbonate NaHCO <sub>3</sub>	Symptomatic patient with suspected hyperkalemia (widened QRS complex or peaked T-waves). ?Tric clic OD with cardiac effects h otension, heart block or widened QRS .
Versed	Generalized seizure lasting $\geq$ 5" Recurrent tonic-clonic seizure without lucid interval. Eclamptic seizure. Pre-cardioversion for conscious VT. Excited Delirium Combative patient Discomfort associated with pacing. Conscious VT rior to s nchronized cardioversion.

Note: Maintain previously established, labeled IV solutions, medication delivery systems, and/or other treatment modalities at preset rates.

EMS Medical Director

**PEDIATRIC SKILLS**

**Defibrillation**

VF/VT (pulseless)

**Glucose Monitoring**

Hypoglycemia (suspected)

**Hemostatic Gauze**

Life-threatening hemorrhage in the trauma patient when tourniquet cannot be used or to supplement tourniquet.

**Indwelling Devices**

Use pre-existing external indwelling vascular access devices as primary vascular access.

**Intraosseous Infusion:** *Acute status patient when other venous access unsuccessful.*

Fluid/medication administration in **acute status** patient when needed for definitive therapy and unable to establish venous access.

**Intubate (ET/Stomal/ETAD)**

When unable to adequately ventilate via BVM the unconscious apneic patient, or patient with ineffective respirations.

Newborn delivery when HR remains <60 bpm after 30 seconds of ventilation with 100% O<sub>2</sub>.

**Magill Forceps with Direct Laryngoscopy**

Airway obstruction from foreign body with decreasing LOC or unconscious

**Nasogastric/Orogastric Tube Insertion**

Gastric distension interfering with ventilation

**Needle Thoracotomy**

Severe respiratory distress with unilateral, diminished breath sounds and BP < [70+ (2x age)]

**Re-alignment of Fracture**

Grossly angulated long bone fracture with gentle unidirectional traction if necessary for splinting.

**Removal of impaled objects**

From face/cheek or neck if there is total airway obstruction.

**Tourniquet**

Severely injured extremity when direct pressure or pressure dressing fails to control life-threatening hemorrhage.

Direct pressure failure not required prior to tourniquet application in mass casualty.

All medications are per pediatric drug chart unless otherwise noted

MEDICATION	DOSAGE / ROUTE
Albuterol	Respiratory distress with bronchospasm. Allergic reaction in presence of respiratory distress. Bums (respiratory distress with bronchospasm).
Atropine	Symptomatic Organophosphate Poisoning. Unstable bradycardia.
Atrovent	Respiratory distress with bronchospasm. Via nebulizer added to first dose of Albuterol.
Benadryl	Allergic reaction. Anaphylaxis. Extrapyramidal reaction.
D <sub>10</sub>	Hypoglycemia Symptomatic patient unresponsive to oral glucose agents.
Epinephrine 1:10,000	Cardiac arrest. Unstable bradycardia after 30 seconds of ventilation. Newborn delivery with HR <60 after 30 seconds of CPR.
Epinephrine 1:1000	?Allergic Reaction: acute (facial/cervical angioedema, bronchospasm or wheezing). Anaphylaxis (shock or cyanosis) Severe respiratory distress with bronchospasm or inadequate response to Albuterol. Respiratory distress with stridor at rest.
Glucagon	Symptomatic patient unresponsive to oral glucose agents: <b>If no IV</b>
Morphine	For treatment of pain as needed with systolic BP $\geq$ [70 +(2x age in years)];
Narcan	Symptomatic ?opioid OD.
Normal Saline	Definitive therapy.
Versed	Seizure
Zofran	> 6months of age for nausea or vomiting. If suspected head injury BHPO.

Note: Maintain previously established, labeled IV solutions, medication delivery systems,  
and/or other treatment modalities at preset rates.

SUBJECT: MOBILE INTENSIVE CARE UNIT INVENTORY - PEDIATRIC

Date: 7/1/2011

- I. **Authority:** Health and Safety Code, Division 2.5, Section 1797.204.
- II. **Purpose:** Identify a minimum standardized inventory on all Mobile Intensive Care Units.
- III. **Policy:** Essential equipment and supplies to be carried on each Mobile Intensive Care Unit (MICU) in San Diego County shall include all items found in the adult inventory as well as the following:

A. Essential equipment and supplies required by California Code of regulations, Title 13, Section 1103.2(a) 1-20.

B. Pediatric Items:	<u>Minimum</u>
<b>1. Airway:</b>	
Bag-valve-mask device with reservoir 250ml, 500ml, 1000ml and the following interchangeable masks:	1 each
premature size	1
neonate size	1
child size	1
End Tidal CO <sub>2</sub> detection Device (15kg, ≥ 15 kg)	2 each
ET Tubes uncuffed 2.5, 3.0, 3.5, 4.0, 4.5, 5.0	each
ET Tube size 5.5 cuffed if available, or uncuffed	
Feeding tube (8 Fr.)	
Laryngoscope – Blades curved and straight sizes 0, 1, and 2	
Magill Forcep – small	1
Oral Airways 0-5	1 each
O <sub>2</sub> Mask (non-rebreather), Pediatric	1
Pedicap End Tidal CO <sub>2</sub> Detection Device	2
Stylet (6F and 14F)	1 each
Suction Catheters (5,6,8,10 Fr.)	1 each
<b>2. Birth:</b>	
Bulb syringe	1
Head covering for newborn (or from OB pack)	1
Identification bands for mother/baby (or from OB pack)	1
Sterile Scissors (or scalpel from OB pack)	1
Umbilical Tape (or use clamp from OB pack)	1
Warm packs not to exceed 110 degrees F, or warming device with blanket	1
<b>3. Immobilization:</b>	
Extraction Collars, Rigid, Child (small, medium, large)	2 each
Traction Splint – Pediatric (or equivalent)	1
<b>4. Vascular Access/Monitoring Devices:</b>	
Defibrillation paddles (4.5 cm, 8.0 cm)	1 pair each
Gauze	1 package
IV cannula 22, 24	4 each
IO – Jamshidi-type needle – 18 Gauge	2
IO – Jamshidi-type needle – 15 Gauge	2
Three-Way Stopcock and extension tubing	2
Broselow Tape	1
Blood Pressure Cuff:	
Infant size	1
Child size	1
Pediatric Drug Chart	1

Note: Base Hospital Contact and Transport (Per S-415) will be made to UCSD Base Hospital for patients meeting burn center criteria.

**BURN CENTER CRITERIA**

Patients with burns involving:

- ≥ 20% partial thickness or ≥ 5% full thickness of BSA
- Suspected respiratory involvement or significant smoke inhalation in a confined space
- Injury of the face, hands, feet or perineum or circumferential
- Electrical injury due to high voltage (greater than 120 volts)

**Disposition:**

Consider Hyperbaric chamber for suspected CO poisoning in unconscious or pregnant patients.

---	--

Notes: - For patients with an EtCO<sub>2</sub> reading of less than 10mm/Hg or patients in nonperfusing rhythms after resuscitative effort, consider early Base Hospital contact for disposition/pronouncement at scene.

- Flush IV/IO line with Normal Saline after medication administration. Medication should be administered as soon as possible after rhythm checks. The timing of drug delivery is less important than is the need to minimize interruptions in chest compressions.
- CPR ratio 30:2 compressions to ventilations (compression rate of 110/minute) until patient has been intubated, then the ratio becomes 10:1.
- CPR should be performed during charging of the defibrillator.
- Start metronome Rate 110 in CPR

Reference Policy S-415 for Disposition of Diving Victims

Diving Victims: Any victim who has breathed sources of compressed air below the water's surface and presents with the following:

Minor presentation: minimal localized joint pain, mottling of the skin surface, localized swelling with pain; none of which are progressive.

Major presentation: symptoms listed above that are severe and/or rapidly progressing, vertigo, altered LOC, progressive paresthesia, paralysis, severe SOB, blurred vision, crepitus, hematemesis, hemoptysis, pneumothorax, trunk pain, or girdle or band-like burning discomfort.

Disposition of Diving Victims:

**Major presentation:**

All patients with a "major" presentation should be transported to UCSD-Hillcrest  
Trauma issues are secondary in the presence of a "Major" presentation  
If the airway is unmanageable, divert to the closest BEF

**Minor presentation:**

*Major trauma candidate*: catchment trauma center

*Non-military patients*: routine

*Active Duty Military Personnel*: transport to the Military Duty Recompression Chamber if possible. The Base Hospital will contact the Duty Recompression Chamber at (619) 556-7130 to determine chamber location. Paramedics/Base Hospital shall transfer care to Diving Medical Officer (or designee) upon arrival to chamber. Hyperbaric treatment may begin in accordance with military medical protocols.

Naval Hyperbaric chamber locations:

Naval Station 32<sup>nd</sup> Street and Harbor Drive

Note: If possible, obtain dive computer or records.

Hyperbaric chamber must be capable of recompression to 165 ft.

SUBJECT: TREATMENT PROTOCOL –  
PRE-EXISTING MEDICAL INTERVENTIONS

Date: 7/1/2015

**BLS**

Proceed with transport when person responsible for operating the device (the individual or another person) is able to continue to provide this function during transport. Bring back up equipment/batteries as appropriate.

**Previously established electrolyte and/or glucose containing peripheral IV lines:**

- Maintain at preset rates
- Turn off when indicated

**Previously applied dermal medication delivery systems:**

- Remove chest transdermal medication patches when indicated (CPR, shock) SQ

**Previously established IV medication delivery systems and/or other preexisting treatment modalities with preset rates:**

If the person responsible for operating the device is unable to continue to provide this function during transport, contact the BH for direction.

**BH may ONLY direct BLS personnel to**

1. Leave device as found OR turn the device off;  
THEN,
2. Transport patient OR wait for ALS arrival.

**Transports to another facility or to home:**

- No wait period is required after medication administration.
- If there is a central line, the tip of which lies in the central circulation, the catheter **MUST** be capped with a device which occludes the end.
- IV solutions with added medications OR other ALS treatment/monitoring modalities require ALS personnel (or RN/MD) in attendance during transport.

Note: Consider early base hospital contact.

**ALS**

**Maintain previously established electrolyte and/or glucose containing IV solutions:**

- Adjust rate or d/c BHO

**Maintain previously applied topical medication delivery systems:**

- Remove dermal medications when indicated (CPR, shock) SQ

**Pre-existing external vascular access (considered to be IV TKO):**

- To be used for definitive therapy **ONLY**

**Maintain previously established and labeled IV medication delivery systems with preset rates and/or other preexisting treatment modalities:**

- d/c BHO

**If no medication label or clear identification of infusing substance:**

- d/c BHO

Document revised: 7/1/2015

Approved:

EMS Medical Director

SUBJECT: TREATMENT PROTOCOL – RESPIRATORY DISTRESS

Date: 7/1/2015

## BLS

- Ensure patent airway
- Reassurance
- O<sub>2</sub> Saturation prn
- O<sub>2</sub> and/or ventilate prn
  
- May assist patient to self medicate own prescribed MDI **ONE TIME ONLY**. Base Hospital contact required prior to any repeat dose.

### Hyperventilation:

- Coaching/reassurance
- Remove patient from causative environment.
- Consider underlying medical problem.

### Toxic Inhalation (CO exposure, smoke gas, etc.):

- Move patient to safe environment
- 100% O<sub>2</sub> via mask
- Consider transport to facility with hyperbaric chamber for suspected carbon monoxide poisoning for unconscious or pregnant patient

### Respiratory Distress with croup-like cough:

- Aerosolized saline or water 5ml via oxygen powered nebulizer/mask. MR prn

## ALS

- Monitor EKG
- Capnography monitoring SO prn
- IV/IO SO, adjust prn
- Intubate SO prn
- NG/OG prn per SO

### Respiratory Distress Suspected CHF/cardiac origin:

- **NTG SL:**  
If systolic BP  $\geq$  100 but  $<$  150:  
NTG 0.4mg SL SO. MR q3-5" SO
- If systolic BP  $\geq$  150:
  - NTG 0.8mg SL SO. MR q3-5" SO
- If systolic BP  $\geq$  100
  - NTG Ointment 1" SO
- If systolic BP  $<$  100:
  - NTG 0.4mg SL per BHO MR BHPO
  
- CPAP at 5-10cm H<sub>2</sub>O SO

### Respiratory Distress Suspected Non-Cardiac

- Albuterol 6ml 0.083% via nebulizer SO. MR SO
- Atrovent 2.5ml 0.02% via nebulizer added to first dose of Albuterol SO
  
- CPAP at 5-10cm H<sub>2</sub>O SO

### If severe respiratory distress/failure or inadequate response to Albuterol/Atrovent consider:

- Epinephrine 0.3mg 1:1000 IM SO. MR x2 q10" SO
  
- If no definite history of asthma: Epinephrine 0.3mg 1:1000 IM BHPO MR x2 q10" BHPO

Note: -If any patient has taken an erectile dysfunction medication such as Viagra, Cialis, and Levitra within 48 hours, NTG is contraindicated.

--May encounter patients taking similar medication for pulmonary hypertension, usually Sildenafil (trade name: Revatio, Flolan, Veletri). NTG is contraindicated in these patients as well.

--Use caution with CPAP if ?COPD, start low and titrate pressure.

--Epinephrine IM: use caution if known cardiac history or history of hypertension or BP  $>$ 150 or age  $>$ 40

Document revised 7/1/2015

Approved:

EMS Medical Director

---

## BLS / ALS

- Ensure patent airway
- O<sub>2</sub> and/or ventilate pm
- Advise patient not to bathe or change clothes
- Consult with law enforcement on scene for evidence collection

If the patient requires a medical evaluation:

- Transport to the closest, most appropriate facility.
- Law enforcement will authorize and arrange an evidentiary exam after the patient is stabilized.

If only evidentiary exam is needed:

- Should release to law enforcement for transport to a SART facility.

EMS Medical Director

SUBJECT: TREATMENT PROTOCOL -- TRAUMA

Date: 7/1/2015

## BLS

- Ensure patent airway, protecting C-spine
- Control obvious bleeding
- Spinal stabilization prm. (Except in penetrating trauma without neurological deficits.)
- O<sub>2</sub> Saturation prm
- O<sub>2</sub> and/or ventilate prm
- Keep warm
- Hemostatic gauze

### Abdominal Trauma:

- Cover eviscerated bowel with saline pads

### Chest Trauma:

- Cover open chest wound with three-sided occlusive dressing; release dressing if tension pneumothorax develops.
- Use of Chest seal

### Extremity Trauma:

- Splint neurologically stable fractures as they lie. Use traction splint as indicated.
- Grossly angulated long bone fractures with neurovascular compromise may be reduced with gentle unidirectional traction for splinting per BHO
- Apply tourniquet in severely injured extremity when direct pressure or pressure dressing fails to control life-threatening hemorrhage.
- In Mass Casualty direct pressure not required prior to tourniquet application

### Impaled Objects:

- Immobilize & leave impaled objects in place. Remove BHPO
- **Exception:** may remove impaled object in face/cheek or from neck if there is total airway obstruction.

### Neurological Trauma (head and spine injuries):

- Ensure adequate oxygenation without hyperventilating patient. Goal: 6-8 ventilations/minute

### Pregnancy of greater than or equal to 6 months:

- Where spinal stabilization precaution is indicated, tilt on spine board 30 degrees.

**Blunt Traumatic Arrest:** Consider pronouncement at scene  
BHPO

## ALS

- Monitor EKG
- IV/IO SO
- If MTV IV/IO en route SO
- 500ml fluid bolus IV/IO to maintain BP at 80
- Capnography SO prm
- Treat pain as per Pain Management Protocol (S-141)

Crush injury with extended compression > 2 hours of extremity or torso:

**Just prior to extremity being released:**

- 500ml fluid bolus IV/IO, then TKO SO
- CaCl<sub>2</sub> 500mg IV/IO over 30 seconds BHO
- NaHCO<sub>3</sub> 1mEq/kg IV/IO BHO

### Grossly angulated long bone fractures

- Reduce with gentle unidirectional traction for splinting SO

**Severe Respiratory Distress with unilateral diminished breath sounds and systolic BP < 90**

- Needle thoracostomy SO

### Blunt Traumatic Arrest:

- Consider pronouncement at scene\*

### Penetrating Traumatic Arrest:

- Rapid transport off scene

\*Reference Policy S-402 Prehospital Determination of Death

Document revised 7/1/2015

Approved:

EMS Medical Director

**TRANSPORT GUIDELINES:**

Routine Disposition-Pediatric patients who meet criteria outlined in T-460 "Identification of the Pediatric Trauma Center Candidate" should be delivered to the Designated Pediatric Trauma Center, EXCEPT in the following situations:

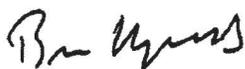

**1. Adult + Child:**

- a. If there is a single ambulance (air/ground) with both a pediatric trauma center candidate AND an adult trauma center candidate, the ambulance should first deliver the more critical patient to the appropriate facility. If both patients are critical, or if there are other questions, both may be delivered to the designated adult trauma center.
  - b. Field personnel should consider splitting the team using additional ALS transport vehicles, or aeromedical resources to transport the pediatric patient to pediatric trauma facility and the adult to the catchment area trauma facility.
- 2. Bypass/Diversion:** If the designated pediatric trauma center is "on bypass", pediatric trauma candidates should be delivered to UCSD.
- 3. A <15 year old pregnant patient** should be delivered to the UCSD.

---

EMS Medical Director

## BLS/ALS

- A. One person will assume responsibility for all scene medical communication
- B. Only one (1) BH will be contacted during the entire incident.
- C. Prehospital providers will utilize Simple Triage and Rapid Treatment (START) guidelines to determine priorities of treatment and transport
- D. If staffing resources are limited, CPR need not be initiated for arrest victims, however, if CPR has been initiated prior to arrival of ALS personnel or briefly during assessment, discontinue only if one of the following occurs or is present\*:
  - 1) subsequent recognition of obvious death SO
  - 2) BHPO
  - 3) presence of Advance Health Care Directive that specifies DNR status, DNR Form/Order or Medallion SO
  - 4) lack of response to brief efforts in the presence of any other potentially salvageable patient requiring intervention SO
- E. Radio communication for multi-patient incident (MPI) need only include the following on each patient:
  - 1. patient number assignment (i.e., #1, #2 . . .)
  - 2. age
  - 3. sex
  - 4. mechanism
  - 5. chief complaint
  - 6. abnormal findings
  - 7. treatment initiated
  - 8. ETA
  - 9. destination
  - 10. transporting unit number
- F. Radio Communication for mass casualty incident (MCI) or Annex D activation need only include the following on each patient:
  - 1. patient number if assigned (i.e., #1, #2 . . .)
  - 2. triage category (Immediate, Delayed, Minor)
  - 3. destination
  - 4. transporting unit number

\* Reference Policy S-402 Prehospital Determination of Death

Document reviewed: 7/1/2015

EMS Medical Director

**BLS**

**ALS**

- Assess level of pain
- Ice, immobilize and splint when indicated
- Elevation of extremity trauma when indicated

- Continue to monitor and reassess pain using standardized pain score as appropriate
- Document vital signs before and after each administration

**For treatment of pain as needed**

**BP >100 systolic:**

Initial IV Dose

- Morphine 0.1mg/kg IV over 2 minutes SO  
Maximum for ANY IV dose is 10mg

Initial IM Dose

- Morphine 0.1mg/kg IM SO  
Maximum for ANY IM dose is 10mg

Second IV/IM dose, if pain persists

- 5 minutes after IV morphine  
Or 15 minutes after IM morphine
- Administer half of the initial morphine dose SO

Third IV/IM dose, if pain persists

- 5 minutes after IV morphine  
Or 15 minutes after IM morphine
- Administer half of the initial morphine dose BHO

**Treatment of pain if BP <100 systolic BHO**

**Special Considerations Administer Morphine 0.05mg/kg:**

- Cardiac Chest Pain
- Patients older than 70 years of age

**BHPO for:**

- Chronic pain states
- Isolated head injury
- Acute onset severe headache
- Drug/ETOH intoxication
- Multiple trauma with GCS <15
- Suspected active labor

**For nausea or vomiting with morphine administration:**

- Zofran 4mg IV/IM/ODT SO, MR x1 q10" SO

---	---

Note: For combative patient IN or IM Versed is preferred route to decrease risk of injury to patient and personnel.

**Use caution when considering Versed use with ETOH intoxication. Can result in apnea.**

**Consideration for patients presenting with taser barbs:**

- Taser discharge for simple behavioral control is usually benign and does not require transport to BEF for evaluation.
- Patients, who are injured, appear to be under the influence of drugs, present with altered mental status, or symptoms of illness should have a medical evaluation performed by EMS personnel, and transported to a BEF.
- If barbs are impaled in an anatomically sensitive location such as the eye, face, neck, finger/hand or genitalia do not remove the barb, patient should be transported to a BEF.

- Ensure patent airway, O<sub>2</sub> and/or ventilate prn.
- O<sub>2</sub> Saturation
- Spinal stabilization when indicated.
- Secretion problems; position on affected side.
- Do not allow patient to walk.
- Restrain prn.

**Hypoglycemia (suspected) or patient's glucometer results, if available, read <60 mg/dL (Neonate <45 mg/dL):**

- If patient is awake and has gag reflex, give oral glucose paste or 3 tablets (15g). Patient may eat or drink if able.
- If patient is unconscious, NPO

**Seizures:**

- Protect airway, and protect from injury
- Treat associated injuries
- If febrile, remove excess clothing/covering

**Behavioral Emergencies:**

- Restrain only if necessary to prevent injury.
- Avoid unnecessary sirens
- Consider law enforcement support

- IV SO adjust prn
- Monitor EKG /blood glucose prn
- Capnography SO prn

**Symptomatic ?opioid OD (excluding opioid dependent pain management patients):**

- Narcan per drug chart IN/IV/IM SO. MR SO

**Symptomatic ?opioids OD in opioid dependent pain management patients:**

- Narcan titrate per drug chart IV (dilute IV dose per drug chart) or IN/IM per drug chart SO. MR BHO

**Hypoglycemia:**

**Symptomatic patient unresponsive to oral glucose agents:**

- D<sub>10</sub> per drug chart IV SO if BS <60mg/dL (Neonate <45 mg/dL)
- If patient remains symptomatic and BS remains <60 mg/dL (Neonate <45 mg/dL) MR SO
- **If no IV:** Glucagon per drug chart IM SO if BS <60 mg/dL (Neonate <45 mg/dL)

**Seizures:**

For:

- A. Ongoing generalized seizure lasting  $\geq 5''$  (includes seizure time prior to arrival of prehospital provider) SO
- B. Partial seizure with respiratory compromise SO
- C. Recurrent tonic-clonic seizures without lucid interval SO

GIVE:

- Versed per drug chart slow IV, (d/c if seizure stops) SO  
MR x1 in 10" SO

If no IV:

- Versed per drug chart IN/IM SO. MR x1 in 10" SO

Note: Versed not required for simple febrile seizures

- Ensure patent airway
- O<sub>2</sub> Saturation prn
- O<sub>2</sub> and/or ventilate prn
- Carboxyhemoglobin monitor prn, if available

### Ingestions:

- Identify substance

### Skin:

- Remove clothes
- Brush off dry chemicals
- Flush with copious water

### Inhalation of Smoke/Gas/Toxic Substance:

- Move patient to safe environment
- 100% O<sub>2</sub> via mask
- Consider transport to facility with hyperbaric chamber for suspected carbon monoxide poisoning in the unconscious or pregnant patient.

### Symptomatic suspected opioid OD:

- May assist family or friend to medicate with patients own Naloxone

- Monitor EKG
- IV/IO SQ adjust prn

### Ingestions:

- Charcoal per drug chart PO if ingestion within 60 minutes and recommended by Poison Center SQ,
- Assure child has gag reflex and is cooperative.
- In oral hypoglycemic agent ingestion any change in mentation requires blood glucose check or recheck, SQ

### Symptomatic suspected opioid OD (excluding opioid dependent pain management patients):

- Narcan per drug chart IN/IV/IM SQ. MR SQ

### Symptomatic suspected opioid OD in opioid dependent pain management patients:

- Narcan titrate per drug chart IV (dilute per drug chart) or IN/IM SQ. MR BHO

### Symptomatic organophosphate poisoning:

- Atropine per drug chart IV/IM/IO SQ. MR x2 q3-5" SQ. MR q3-5" prn BHO

### Extrapyramidal reactions:

- Benadryl per drug chart slow IV/IM SQ

### Suspected Tricyclic OD with cardiac effects (hypotension, heart block, widened QRS):

- NaHCO<sub>3</sub> per drug chart IV x1 BHO

NOTE: For scene safety, consider HAZMAT activation as needed  
In symptomatic suspected opioids OD (excluding opioid dependent pain management patients) administer Narcan IN/IM prior to IV

## BLS

## ALS

- Ensure patent airway.
- Suction baby's airway if excessive secretions causing increased work of breathing, first mouth, then nose, suction after fully delivered.
- O<sub>2</sub> Saturation prn. Ventilate via BVM room air
- Clamp and cut cord between clamps following delivery (wait 60 seconds after delivery prior to clamping and cutting cord.)
- Keep warm & dry (wrap in warm, dry blanket). Keep head warm.
- APGAR at 1" and 5"
- Document name of person cutting cord, time cut & address of delivery.
- Place identification bands on mother and infant.

### Premature and/or Low Birth Weight Infants:

- If amniotic sac intact, remove infant from sac after delivery.
- STAT transport
- When HR <100bpm, ventilate room air
- If HR <60 bpm after 90 seconds of ventilation, increase to BVM 100% O<sub>2</sub> and start CPR.
- CPR need NOT be initiated if there are no signs of life AND gestational age is <20 weeks.

### Meconium delivery:

- Suction if baby is not vigorous after delivery
- If mechanical suction is used, keep pressure between 80 and 100cm H<sub>2</sub>O, otherwise use bulb syringe.

### Cord wrapped around neck:

- Slip the cord over the head and off the neck; clamp and cut the cord if wrapped too tightly.

### Prolapsed cord:

- Place the mother with her hips elevated on pillows,  
- Insert a gloved hand into the vagina and gently push the presenting part off the cord.
- Transport STAT while retaining this position. Do not remove hand until relieved by hospital personnel.

### Breech Birth:

- Allow infant to deliver to the waist without active assistance (support only);
- When legs and buttocks are delivered, the head can be assisted out. If head does not deliver within 1-2 min insert a gloved hand into the vagina and create an airway for the infant.
- Transport STAT if head undelivered.

- Monitor
- Ventilate via BVM room air if HR <100 bpm

### If HR remains <60 bpm after 90 seconds of ventilation increase to BVM 100% O<sub>2</sub>:

- CPR and BVM, if unable to adequately ventilate via BVM intubate SO
- NG pm SO

### If HR remains <60 bpm after 30 seconds of CPR:

- Epinephrine 1:10,000 per drug chart IV/IO SO. MR x2 q3-5" SO. MR q3-5" BHO

Disposition per BHO.

**TRANSPORT GUIDELINES:**

Routine Disposition-Pediatric patients who meet criteria outlined in T-460 "Identification of the Pediatric Trauma Center Candidate" should be delivered to the Designated Pediatric Trauma Center, EXCEPT in the following situations:

**1. Adult + Child:**

- a. If there is a single ambulance (air/ground) with both a pediatric trauma center candidate AND an adult trauma center candidate, the ambulance should first deliver the more critical patient to the appropriate facility. If both patients are critical, or if there are other questions, both may be delivered to the designated adult trauma center.
- b. Field personnel should consider splitting the team using additional ALS transport vehicles, or aeromedical

- I. **Authority:** Health and Safety Code, Section 1797.208.
- II. **Purpose:** To establish a mechanism for application and approval/reapproval of Paramedic training programs in the County of San Diego..
- III. **Policy:**
- A. All Paramedic training programs must meet requirements as set forth in the California Code of Regulations, Title 22, Division 9, Chapter 4, and County of San Diego Emergency Medical Services (EMS) requirements as listed in the attached training program application.
  - B. All Paramedic training programs must provide a training program consisting of not less than 1090 hours to include:
    - 1. A minimum of 450 hours of didactic and skills lab.
    - 2. A minimum of 480 hours of field internship with a minimum of 40 ALS contacts.
    - 3. A minimum of 160 hours of hospital clinical training.
  - C. All Paramedic Training Programs must have approval of the County of San Diego EMS prior to the program being offered.
  - D. Program approval shall be for four (4) years following the effective date of approval and may be renewed every four (4) years subject to the procedure for program approval.
  - E. All approved Paramedic training programs shall be subject to periodic review by the County of San Diego EMS and may also be reviewed by the State of California EMS Authority. This review may involve periodic review of all program materials, and periodic on-site evaluations.
  - F. All approved training programs shall notify EMS in writing, in advance (when possible, and in all cases within 30 days) of any change in course content, hours of instruction, course director, program medical director, provisions for hospital clinical experience, or field internship.
  - G. Noncompliance with any criterion required for program approval, use of any unqualified teaching personnel, or noncompliance with any other applicable provision of Title 22, Division 9, Chapter 4 of the

**SUBJECT: MOBILE INTENSIVE CARE NURSE – AUTHORIZATION/REAUTHORIZATION**

Date: 7/25/2013

- I. **Authority:** Health and Safety Code, Division 2.5, Sections 1797.56, 1797.213, and 1797.214.
- II. **Purpose:** To define the process of Mobile Intensive Care Nurse (MICN) authorization and reauthorization.
- III. **Policy:** To become authorized as a MICN in San Diego County, the following requirements must be met:
- A. Authorization process:
1. The candidate for initial authorization must:
    - a. Be a Registered Nurse currently licensed in the State of California.
    - b. Possess a current ACLS course completion card.
    - c. Have received instruction in the following subjects pertinent to the MICN role (recommended minimum 30 hours of training).
      - (1) The MICN in the emergency medical service (EMS) system.
      - (2) Field assessment and reporting.
      - (3) Shock.
      - (4) Pharmacology.
      - (5) Respiratory emergencies.
      - (6) Cardiac emergencies.
      - (7) Neurological emergencies.
      - (8) Soft tissue emergencies.
      - (9) Musculoskeletal emergencies.
      - (10) Other medical emergencies.

Approved:

  
Administration

  
Medical Director

SUBJECT: MOBILE INTENSIVE CARE NURSE -- AUTHORIZATION/REAUTHORIZATION

Date: 7/25/2013 \_\_\_\_\_

- (11) Obstetric emergencies.
  - (12) Pediatric emergencies.
  - (13) Geriatric emergencies.
  - (14) Behavioral emergencies.
  - (15) Multiple trauma and triage.
  - (16) San Diego County Policies, Procedures and Protocols.
- d. Complete and submit proof of an internship consisting of:
- (1) A Base Hospital orientation which includes the observation of paramedic functions on a minimum of three Paramedic responses which demonstrate advanced life support (ALS) skills.
  - (2) Observation of medical direction of patient care via direct voice communication with field personnel by a MICN/Base Hospital Physician for a minimum of 10 Paramedic calls under the supervision of the Base Hospital Nurse Coordinator or designee.
- e. Successfully pass the MICN authorization examination, by predetermined standards, approved by the County of San Diego EMS Medical Director. If unsuccessful, the candidate may repeat the exam twice. If unsuccessful after three test sessions, the candidate must complete a remedial course of instruction prior to retest.
- f. Submit an application form containing a statement that the individual is not precluded from authorization for reasons defined in Section

Approved:

  
Administration

  
Medical Director

Date: 7/25/2013 \_\_\_\_\_

1798.200 of the Health and Safety Code, proof of internship, documentation of successful completion of MICN Exam, and the established fee for testing and/or authorization.

2. Authorization periods shall end on either March 31 or September 30 of each year, up to, but not exceeding, 2 full years from the date of issue.

**B. Reauthorization Process:**

1. To be eligible for reauthorization, a currently authorized MICN shall:
  - a. Submit a completed San Diego County EMS application form and pay the established fee.
  - b. Provide documentation of attendance of 24 hours of multi-disciplinary prehospital continuing education, approved by a Base Hospital or the San Diego County EMS Branch, every 2 years. The course objectives for these courses shall be directly related to the MICN role. Course content may include, but is not limited to, case-based presentations, trends in prehospital care, protocol and policy review, and current concepts in prehospital care. Participation in courses with nationally standardized curricula, such as ACLS, PALS, PEPP, TNCC, and online continuing education classes do not qualify for MICN reauthorization credit.
2. Individuals who have let their MICN authorization lapse shall be eligible for reauthorization upon completion of the following:
  - a. For a lapse of less than 90 days, the applicant must meet the requirements of Section III. B.1, a & b of this policy.

SUBJECT: PARAMEDIC ACCREDITATION

Date: 7/01/2010

- I. **Authority:** Health and Safety Code, Division 2.5, Sections 1797.185 and 1797.214.
- II. **Purpose:** To establish a mechanism for a paramedic to become accredited to practice in San Diego County.
- III. **Definition:** Accreditation is authorization by the Medical Director of the County of San Diego Emergency Medical Services (EMS) agency to practice paramedic skills within a specific jurisdiction as required by a specific local EMS agency. Accreditation allows local EMS agencies to ensure that paramedics are trained in the optional skills and oriented to the local system.
- IV. **Policy:** A paramedic must be accredited by the County of San Diego, Health and Human Services Agency, Emergency Medical Services Branch (EMS) in order to practice as a paramedic in San Diego County.
  - A. In order to be eligible for initial accreditation an individual shall:
    1. Possess a current, valid California paramedic license.
    2. Complete and submit an application for accreditation to EMS.
    3. Successfully complete an accreditation workshop as prescribed by EMS. This workshop shall not be less than six (6) hours nor exceed 12 hours in length, and will include:
      - a. Orientation to the local EMS system policies, procedures and protocols, radio communications, hospital/facility destination policies/practices, and other unique system features.
      - b. Training and/or testing in any optional procedures authorized by the County of

San Diego EMS Medical Director, in which the individual has not been trained or tested.

4. Provide documentation of training or testing from another jurisdiction for local optional scope items.
  5. Pay the established accreditation fee to EMS.
  6. Possess a current Advanced Cardiac Life Support (ACLS) course completion card.
- B. Initial accreditation shall be effective for two years, or until the expiration date of the California paramedic license, whichever is earlier.
1. If the paramedic accreditation applicant does not complete accreditation requirements within thirty calendar days, then the applicant must complete a new application and pay a new fee to begin another thirty-day period.
  2. A paramedic may apply for initial accreditation no more than three times in a twelve-month period.
- C. Provisional Accreditation
1. Paramedics who have completed all requirements for initial accreditation other than the orientation requirement (IV.A.3. above) may be accredited on a provisional basis for up to 90 days pending the completion of the San Diego County Accreditation Workshop.
  2. Provisional accreditation may be extended only with special authorization from the County of San Diego EMS Medical Director.
  3. Provisional accreditation status shall be allowed only once for a paramedic.

Document revised 7/1/2010

Approved:

Administration

EMS Medical Director

4. Individuals with provisional accreditation must:
- a. Work solely within the California paramedic Scope of Practice.
  - b. Work as a second paramedic, only with a fully accredited (non-provisional) San Diego County paramedic.
- D. Continued accreditation (re-accreditation)
- Accreditation to practice shall be continuous as long as EMS requirements are met. These requirements are as follows:
1. Possession of a valid California paramedic license, and
  2. Maintenance of current ACLS training (every two years).
- E. Accreditation Lapse
- Individuals who have allowed their paramedic accreditation to lapse for greater than one year shall, in addition to the requirements listed above in Section IV. D, successfully complete the examination portion of the Accreditation Workshop and pay the established accreditation fee to EMS.
- F. EMS shall notify individuals applying for accreditation of the decision to accredit within 30 days of submission of a complete application.
- G. EMS shall submit the names and dates of accreditation of all individuals it accredits to the EMS Authority, within twenty working days of accreditation.
- H. During an interfacility transfer, an individual who is accredited as a paramedic in one jurisdiction may utilize the paramedic scope of practice in another jurisdiction according to the policies and procedures established by the accrediting local EMS agency.

POLICY/PROCEDURE/PROTOCOL

No. S-306  
Page: 1 of 3

SUBJECT: DESIGNATION OF AUTHORIZED EMERGENCY MEDICAL  
SERVICES CONTINUING EDUCATION PROVIDERS

Date: 3/01/2011

**Authority:** Health and Safety Code, Division 2.5, Sections 1797.214, 1797.220, California Code of Regulations, Title 22, Chapter 11.

II. **Purpose:** To establish a mechanism by which providers of continuing education may be designated an "authorized provider" of emergency medical services (EMS) continuing education (CE) in San Diego County.

III. **Definition:**

**(CE)** – Authorized EMS Provider of CE means an individual or organization who meets the requirements of California Code Of regulations (CCR), Title 22, Chapter 11, and is approved to conduct continuing education courses, classes, activities or experiences, and to issue earned continuing education hours to EMS Personnel for the purposes of maintaining certification/licensure or re-establishing lapsed certification or licensure within the state of California.

IV. **Policy:** The County of San Diego, Health and Human Services Agency, Emergency Medical Services Branch (County EMS) will approve, for the purposes of recertification, relicensure, reaccreditation, or reauthorization, those CE activities sponsored by providers who are designated by EMS as authorized providers of CE and who comply with San Diego County policies, procedures, and guidelines for EMS CE providers.

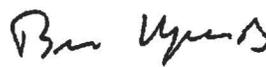

A. In order to become designated as an authorized provider of EMS CE in San Diego County, applicants must:

1. Complete an application form and submit it, with appropriate documentation and fees, to County EMS at least sixty days prior to the date of the first educational activity. San Diego County Base Hospitals are exempt from the fee. The form

Date: 3/01/2011

must indicate whether the applicant is applying for approval to offer courses for basic life support (BLS) personnel and/or advanced life support (ALS) personnel or both.

2. Agree to comply with all guidelines pertaining to authorized EMS CE providers. For all providers, these guidelines are described in the County of San Diego EMS

Provider manual, available at the County EMS office.

3. Provider applicants must designate the certification level(s) of their intended CE participants (ALS or BLS). Approval may be granted for only one certification level (BLS versus ALS/BLS) if the applicant cannot document their ability and resources to provide CE at all levels. This approval level may be adjusted after initial approval provided that the authorized provider can demonstrate that it has the requisite equipment and materials to provide this education in accordance with the guidelines.

B. County EMS shall approve or disapprove the CE request within 60 days of receipt of the completed request.

1. Within fourteen working days of receipt of a request for approval, County EMS will notify the CE provider that the request has been received, and shall specify what information is missing, if any.
2. If the request is approved, County EMS will issue a CE provider number.
3. If the request is denied, County EMS will notify the applicant in accordance with in accordance with applicable provisions of CCR, Title 22, Chapter 11.

Date: 3/01/2011

- C. Designation as an authorized provider shall be for a four-year period, after which each provider must reapply. To maintain continuous approval the renewal application must be submitted at least sixty days prior to the CE provider expiration date.
- D. Authorized providers are subject to periodic reviews of course outlines, attendance records, instructor qualifications, or other material pertaining to courses presented by the provider for CE credit. County EMS staff will conduct these reviews.
- E. Noncompliance with any criterion required for CE provider approval, use of any unqualified teaching personnel, or noncompliance with any other applicable provision of state or local regulations may result in denial, probation, suspension or revocation of CE provider approval by County EMS, in accordance with CCR, Title 22, Chapter 11.

SUBJECT: CONTINUING EDUCATION FOR PREHOSPITAL PERSONNEL

Date: 3/01/2012

- I. **Authority:** Health & Safety Code Section 1797.214, 1797.220.
- II. **Purpose:** To identify the scope and role of the San Diego County emergency medical services (EMS) continuing education (CE) program for prehospital personnel.
- III. **Policy:**
  - A. The CE program for prehospital personnel shall be recognized as an important link in the San Diego County system-wide quality improvement process, and will receive oversight from the EMS Medical Director (or designee).
  - B. The CE program shall be implemented in accordance with Title 22, Division 9, Chapter 11 of the California Code of Regulations.
  - C. Within the requirements of San Diego policies regarding Paramedic accreditation, EMT-B certification, and MICN authorization, the County of San Diego, EMS branch will accept CE activities approved by other California local EMS agencies (or through their approved providers of CE), for recertification/authorization/accreditation purposes or re-establishing lapsed certification or licensure.
  - D. The County of San Diego, EMS Branch shall publish and maintain the Guidelines for  
  
manual and make that manual available to approved providers and potential providers. The manual shall identify the requirements for the provider designation and renewal process, guidelines for qualifications of program personnel, specific guidelines for course approval, and other material specific to designated CE providers.
  - E. EMS shall maintain a list of current approved CE providers, including the contact person for the program, approval issue date and expiration date, and assigned provider number.

**SUBJECT: CONTINUING EDUCATION FOR PREHOSPITAL PERSONNEL**

Date: 3/01/2012

- F. CE activities offered by San Diego EMS approved providers, in accordance with San Diego guidelines, shall be considered to be "approved" by County of San Diego EMS.
- G. In addition to approval for CE activities presented by approved providers, EMS may, at its discretion, award CE credits for other activities not presented by approved providers. These include (but are not limited to) the following:
1. Nationally Recognized Curricula. - Programs offered using nationally recognized curricula, such as the Red Cross/Heart Association CPR-C program, Prehospital Trauma Life Support (PHTLS), or ACLS may be utilized for recertification/licensure purposes regardless of the provider's CE Providership status. It will be the responsibility of the participant to maintain a course completion record and course outline that indicates the total hours of the individual's participation (in activities relevant to the individual's level) for audit purposes.
  2. National Standard Curriculum refers to the curricula developed under the auspices of the United States Department of Transportation, National Highway Traffic Safety Administration for the specified level of training of EMS Personnel.
- H. The EMS Branch will not pre-authorize course outlines from non-approved CE Providers to determine their possible acceptance for recertification purposes. Nationally recognized curricula presented by non-providers may be accepted and approved by the County, but individual courses, conferences, or other activities will not be recognized if they are not sponsored and approved by an authorized provider.
- I. EMTs who have attended courses from non-providers (except in the case of a course using a nationally recognized course curriculum) must submit ALL OF THE FOLLOWING AT THE TIME OF RECERTIFICATION/REACCREDITATION if they

wish recertification credit:

1. Title of course, name of instructor, location, and telephone number of presenter.
2. Date of course, course outline, course learning objectives and a copy of course evaluation form.
3. The number of hours of information/experience relevant to EMT activities.

*The EMT should be informed that there is no guarantee of acceptance of these courses for recertification. EMTs are reminded that extra activities may be required for recertification if the hours from a non-provider are rejected by the EMS Branch.*

- J. EMS will NOT review individual courses offered by non-approved providers for Paramedic CE credit. Paramedics wishing credit for activities sponsored by organizations located in California counties other than San Diego County should contact that county's local EMS agency. Paramedics should contact the California EMS Authority for information on approval for courses offered by providers from out of state.
- K. EMS maintains the authority to approve continuing education activities, which may exceed the scope of the CE Guidelines Manual published by EMS. Any such determination by EMS is solely at its discretion.

SUBJECT: EMERGENCY MEDICAL TECHNICIAN (EMT)  
CERTIFICATION/RECERTIFICATION

Date: 7/01/2010

- I. **Authority:** Health and Safety Code, Sections 1797.170, 1797.175 and 1797.210.
- II. **Purpose:** To establish the requirements for EMT certification/recertification in the County of San Diego.
- III. **Policy:**
  - A. To be eligible for certification as an EMT in San Diego County, the candidate must meet the following criteria:
    1. Initial Certification:
      - a. Must be 18 years of age or older.
      - b. Must hold a valid EMT Course Completion Record from an approved EMT course.
      - c. Must hold a current EMT National Registry Card.
      - d. Must possess a current CPR Card (Health Care Provider/Professional Rescuer or equivalent).
      - e. Must submit to a California Department of Justice Live scan and Federal Bureau of Investigation criminal background check (separate from any agency requirement).
      - f. Application for certification must be made within two (2) years of being issued an EMT Course Completion record.
    2. Recertification:
      - a. Hold a Current EMT Certificate in the State of California.
      - b. Successfully complete an approved refresher course within the two (2) years prior to application for recertification, or

Date: 7/01/2010

- c. Complete 24 hours of approved continuing education (CE) within two (2) years prior to application for recertification.
  - d. Present a current CPR Card (Health Care Provider/Professional Rescuer or equivalent).
  - e. Submit to a California Department of Justice Live scan and Federal Bureau of Investigation criminal background check if not yet completed for County of San Diego EMS.
  - f. Submit a complete skills competency verification form.
3. Lapse in Certification:
- a. For a lapse within six months, the individual shall comply with the original requirements for re-certification.
  - b. For a lapse of six months or more, but less than twelve months, the individual shall comply with the original requirements for recertification and complete an additional twelve hours of continuing education for a total of 36 hours of training.
  - c. For a lapse of twelve months or more, but less than 24 months, the individual shall comply with the original requirements for recertification and complete an additional twenty-four hours of continuing education, for a total of 48 hours of training, and present a current National Registry Card.
  - d. For a lapse of greater than twenty-four months the individual shall complete an entire EMT course and comply with the original requirements for initial certification.

B. Notification responsibilities:

SUBJECT: ADVANCED EMT TRAINING PROGRAMS

Date: 7/01/10

**Authority:** Health and Safety Code, Division 2.5, Sections 1797.107, 1797.171, 1797.200, 1797.208, 1797.218 and 1798.

II. **Purpose:** To establish a mechanism for application and approval of Advanced Emergency Medical Technician (AEMT) training programs in San Diego County.

III. **Policy:**

- A. AEMT training programs must meet the requirements of the California Code of Regulations, Title 22, Division 9, Chapter 3, pertaining to AEMT training program approval, and the County of San Diego, Emergency Medical Services (EMS) requirements listed in the attached training program application.
- B. Students accepted into AEMT training will already have a year's experience as an EMT, preferably with 911 responses, as a minimum requirement for enrollment in AEMT course.
- C. AEMT training programs must have approval of EMS prior to the program being offered. To receive program approval, requesting training agencies must apply for approval to EMS and submit all materials listed on the "Advanced Emergency Medical Technician (AEMT) Training Program Application".
- D. Program approval or disapproval shall be made in writing by EMS to the requesting training program within a reasonable period of time after receipt of all required documentation. This period of time shall not exceed three (3) months.
- E. EMS shall establish the effective date of program approval, in writing, upon the satisfactory documentation of compliance with all program requirements.
- F. Program approval shall be for four (4) years following the effective date of

Document revised 7/1/2010

Approved:

Administration

Medical Director

SUBJECT: ADVANCED EMT TRAINING PROGRAMS

Date: 7/01/10

approval and may be renewed every four (4) years, subject to the procedure for program approval specified in Section C above.

G. Approved AEMT training programs shall be subject to periodic review including, but not limited to:

1. Periodic review of all program materials.
2. Periodic on-site evaluation by EMS.

H Approved training programs shall notify EMS, in writing, in advance, when possible, and in all cases, within thirty (30) days of any change in course content, hours of instruction, course director, and program director or program clinical coordinator.

Approved training programs shall report, in writing, the name and address of each person receiving a course completion record and the date of course completion to EMS within fifteen (15) days of course completion.

J. Noncompliance with any criterion required for program approval, use of any unqualified teaching personnel, or noncompliance with any other applicable provision of the above may result in withdrawal, suspension or revocation of program approval by EMS subject to the provision that an approved AEMT training program shall have a reasonable opportunity to comply with these regulations, but in no case shall the time exceed sixty (60) days from date of written notice to withdraw program approval.

**SUBJECT: EMERGENCY MEDICAL TECHNICIAN (EMT)  
CERTIFICATION/RECERTIFICATION**

Date: 7/01/2010

The EMT shall be responsible for notifying County of San Diego EMS of her/his proper and current mailing and residential address and shall notify County of San Diego EMS in writing within thirty (30) calendar days of any and all changes of the mailing and residential address, giving both the old and the new address, and California Emergency Medical Services Authority (EMSA) EMT central registry number.

- C. An application for certification or recertification shall be denied without prejudice and does not require an administrative hearing, when an applicant does not meet the requirements for certification or recertification, including but not limited to:
1. Failure to pass certification or recertification examination.
  2. Lack of sufficient continuing education or documentation of a completed refresher course.
  3. Failure to furnish additional information or documents requested by the certifying entity.
  4. Failure to pay any required fees.
- D. The denial shall be in effect until all requirements for certification or recertification are met. If a certificate expires before recertification requirements are met, the certificate shall be deemed a lapsed certificate and subject to the provision pertaining to lapsed certificates. An individual who is a member of the reserves and is deployed for active duty with a branch of the Armed Forces of the United States, whose California EMT certificate expires during the time the individual is on active duty or less than six (6) months from the date the individual is deactivated/released from active duty, may be given an extension of the expiration date of the individual's EMT certificate for up to six

(6) months from the date of the individual's EMT certificate upon compliance with the following provisions:

1. Provide documentation from the respective branch of the Armed Forces of the United States verifying the individual's dates of activation and deactivation/release from duty.
2. If there is no lapse in certification, meet the requirements for recertification. If there is a lapse, meet the requirements of a lapsed certification.
3. Provide documentation showing that the CE activities submitted for the certification renewal period were taken not earlier than thirty (30) calendar days prior to the effective date of the individual's EMT certificate that was valid when the individual was activated for duty and not later than six (6) months from the date of deactivation/release from duty.
4. For an individual whose active duty requires the use of EMT skills, credit may be given for documented training that meets the requirements of Chapter 11, EMS CE Regulations (Division 9, Title 22, California Code of Regulations) while the individual was on active duty. The documentation shall include verification from the individual's Commanding Officer attesting to the classes attended.

AEMT Course Completion record.

- i. For out-of-county applicants, AEMTs will successfully complete an accreditation workshop as prescribed by County of San Diego EMS. This workshop shall not be less than six (6) hours nor exceed 12 hours in length, and will include:

- (1) Orientation to the local EMS system policies, procedures and protocols, radio communications, hospital/facility destination policies/practices, and other unique system features.
- (2) Training and/or testing in any AEMT-specific procedures authorized by the County of San Diego EMS Medical Director, in which the individual has not been trained or tested.

2. **Recertification:**

- a. Hold a current AEMT certificate in the State of California.
- b. Successfully complete an approved refresher course within the two (2) years prior to application for recertification, or
- c. Complete 36 hours of approved continuing education (CE) within two (2) years prior to application for recertification.
- d. Present a current CPR Card (Health Care Provider/Professional Rescuer or equivalent).
- e. Submit to a Live-scan from the California Department of Justice and FBI criminal background check if not yet completed for County of San Diego EMS.
- f. Submit a complete skills competency verification form.

3. **Lapse in Certification:**

Document revised 7/1/2010

SUBJECT: MANAGEMENT OF CONTROLLED SUBSTANCES  
FOR ALS AGENCIES

Date: 9/1/2010

- I. **Authority:** California State Board of Pharmacy Business and Professions Code, Section 4119 and 4126.5, California Code of Regulations, Title 22, Division 2.5, Chapter 3, Section 1797.172, and Chapter 5, Section 1798 through 1798.6, and Title 21, Chapter II of the Code of Federal Regulations, Sections 1301.11; 1301.12; 1301.75; 1301.76; 1301.91; 1301.92; 1304.03; 1304.04; 1304.11; 1304.21; 1304.22; 1307.02; 1307.21; 1305.05
- II. **Purpose:** To ensure accountability for all controlled substances and devices issued to advanced life support (ALS) units.
- III. **Policy:** All Advanced Life Support (ALS) Agencies in the County of San Diego will have a physician registrant to purchase controlled substances with a Drug Enforcement Administration (DEA) Form 222 from a pharmacy, or pharmaceutical supply agency, thereby retaining ownership, accountability and responsibility of those controlled substances. ALS Agencies which do not have a Medical Director may use the County of San Diego EMS Medical Director to assist with the purchase of controlled substances (per Policy S-416) if said agency signs a Memorandum of Agreement with the County of San Diego, for the purchase of Dangerous Drugs and Devices. All ALS agencies will develop policies compliant with Title 21 CFR regulations concerning the procurement, receipt, distribution and waste management of controlled substances managed under their DEA registration number.
- IV **Definitions:**  
**Controlled Substances:** Pharmaceutical drugs categorized as Schedule II, III or IV by the DEA.  
**ALS Units** – Ambulances or other emergency vehicles (e.g. engines, trucks etc.) upon

Document revised 9/1/2010

Approved:

EMS Medical Director

SUBJECT: MANAGEMENT OF CONTROLLED SUBSTANCES  
FOR ALS AGENCIES

Date: 9/1/2010

which paramedics are placed to render ALS care.

**V Procedure:**

**A. Initial Stocking and resupply of ALS Units:**

1. Controlled substances will be ordered by the agency physician registrant and assigned to its ALS Units according to Drug Enforcement regulations.
2. All controlled substances will be issued in tamper evident containers and must be kept under double lock and key system.
3. All ALS agencies will maintain a stock supply of controlled substances at a central location at which all that agency's ALS units must resupply.
4. If any ALS agency wishes to have more than one location from which to stock ALS units, each location will have a separate DEA registration.
5. All locations in an ALS agency shall be under the control of the agency person who is designated to manage the narcotics program at the agency for the Medical Director.
6. All ALS agencies will maintain a secure, double locked location in which to keep the stock supply of the controlled substances. Access to this supply will be strictly limited.
7. All ALS agencies will be subject to at least yearly inspection of the location of the controlled substances and the logs in the storage location, by the physician registrant or designee.

**B. Controlled Substance Record keeping by ALS Agency registrants:**

1. All ALS agencies will keep a controlled substance log in the secure location that will

Document revised 9/1/2010

Approved:

EMS Medical Director

**SUBJECT: MANAGEMENT OF CONTROLLED SUBSTANCES  
FOR ALS AGENCIES**

Date: 9/1/2010

document:

- a. Receiving of the controlled substances.
  - b. Distribution of controlled substances to the units for restock
  - c. Daily count of controlled substances
2. All registered agencies shall maintain the following logs on site for DEA review at any time (n. b. inventory records must be kept separately from the logs):
- a. Initial inventory (documented at the initial registration of the agency)
    - (1) A physical count of all controlled substances in stock, to include on the vehicles is to be taken.
    - (2) Enter this count on an inventory record.
  - b. A biennial inventory is then taken each two years beginning within two years of the initial stocking date.
3. All original controlled substance purchase invoices and executed DEA-222 forms must be kept separately from the daily and maintenance logs.
4. The following logs must be maintained at the agency for a period of not less than 2 years.
- a. Controlled Drug Usage Record
  - b. Controlled Drug Inventory Record
  - c. Records for Schedule II narcotics (Morphine Sulfate, and Morphine Immediate Release Oral Liquid) must be maintained separately from Schedule IV drugs (Midazolam).

C Record-keeping on ALS Units:

Document revised 9/1/2010

Approved:

EMS Medical Director

**COUNTY OF SAN DIEGO EMERGENCY MEDICAL SERVICES  
POLICY/PROCEDURE/PROTOCOL**

No.: S-400  
Page: 4 of 5

**SUBJECT: MANAGEMENT OF CONTROLLED SUBSTANCES  
FOR ALS AGENCIES**

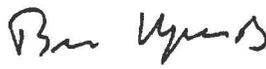

Date: 9/1/2010

1. Each ALS Unit shall maintain a standardized written record of controlled drug inventory. That record shall be available to the physician registrant for routine inspection, and shall be maintained by the agency for a period of three (3) years in compliance with the State Board of Pharmacy.
2. Drugs shall be inventoried by the ALS Personnel at the beginning and at the conclusion of each shift, and documentation shall include the signatures of the person(s) performing the inventory and noted on the controlled drug inventory.
3. Any time a controlled substance is administered, the name of the drug, the dose administered, the date of administration, the patient name, the name of the licensed person who is administering the medication, the receiving facility and the QCS run number, if available, shall be documented on the controlled drug inventory.
4. Any medication that has not been completely used must be disposed of in the presence of two medical personnel.
5. Agency personnel must document any disposed narcotic on the appropriate agency form. This form must document:
  - a. The amount of the medication given to the patient
  - b. The amount of the medication disposed
  - c. The signatures of the two medical personnel who witnessed the disposal.

**D Management of Inventory Discrepancies**

1. Any discrepancy between the written ALS Unit controlled drug inventory and the count of on board or stock supply drugs shall be noted on the controlled drug inventory sheet and shall be signed by the ALS Team first noting the discrepancy.

Document revised 9/1/2010  
Approved:

  
EMS Medical Director

**COUNTY OF SAN DIEGO EMERGENCY MEDICAL SERVICES  
POLICY/PROCEDURE/PROTOCOL**

No.: S-400  
Page: 5 of 5

**SUBJECT: MANAGEMENT OF CONTROLLED SUBSTANCES  
FOR ALS AGENCIES**

Date: 9/1/2010

That discrepancy shall be verbally reported immediately to the agency person responsible for the narcotics at the agency.

2. Any discrepancy between the inventory and the actual amounts of the narcotics in the stock supply must be reported immediately to the physician registrant, followed by written report to the EMS Branch within 24 hours.
3. Any discrepancy between the inventory and the actual amounts of the narcotics in the stock supply must be reported to the DEA immediately using form P-106 on the DEA Diversion website ([www.deadiversion.usdoj.gov](http://www.deadiversion.usdoj.gov)).
4. Any agency personnel having knowledge of drug diversion must report this situation to the DEA.

**E. Controlled Drug Inspection/Audit of ALS Units:**

1. Periodic unannounced inspections or audits of controlled drugs and/or controlled drug inventory shall be conducted no less than once each year by the physician registrant or designee.
2. The EMS Medical Director or designee may perform announced or unannounced periodic inspections to document compliance with this policy at any time.

Document revised 9/1/2010  
Approved:

  
EMS Medical Director

**SUBJECT:** Scope of Practice of EMT-Paramedic in San Diego County

**Date:** 07/01/2014

- I. **Authority:** Health and Safety Code, Division 2.5, Sections 1797.172 and 1798.
- II. **Purpose:** To identify the scope of practice of Paramedics in San Diego County.
- III. **Policy:**
  - A. A Paramedic may perform any activity identified in the scope of practice of an EMT- 1 in Chapter 2 of the California Code of Regulations, Division 9, Title 22.
  - B. A Paramedic student, or a currently licensed Paramedic affiliated with an approved Paramedic service provider, while caring for patients in a hospital as part of his/her training or continuing education, under the direct supervision of a physician, registered nurse, or physician's assistant, or while at the scene of a medical emergency or during transport, or during interfacility transfer, may, in accordance with the County of San Diego Emergency Medical Services Branch (EMS) Policies, Procedures and Protocols, perform the following procedures and administer the following medications:
    1. Utilize electrocardiographic devices and monitor electrocardiograms, including 12-lead electrocardiograms (ECG).
    2. Perform defibrillation, synchronized cardioversion and external cardiac pacing.
    3. Visualize the airway by use of the laryngoscope and remove foreign body(ies) with forceps.
    4. Perform pulmonary ventilation by use of the lower airway multi-lumen adjuncts (esophageal tracheal airway device [ETAD]),perilaryngeal airways, stomal intubations and oral endotracheal intubation (adult and pediatric\*).
    5. Utilize mechanical ventilation devices for continuous positive airway pressure (CPAP).
    6. Institute intravenous (IV) catheters, needles or other cannulae (IV lines) in

17. Perform any prehospital emergency medical care treatment procedure(s) or administer any medication(s) on a trial basis when approved by the medical director of the local EMS agency. Study procedure shall be as defined in Title 22, Division 9, Chapter 4 of the California Code of Regulations.

Approved:

  
EMS Medical Director

**SUBJECT: PREHOSPITAL DETERMINATION OF DEATH**

**Date: 07/01/2014**

**I. Authority:** Health and Safety Code, Division 2.5, Section 1798.

**II. Procedure:**

A. When the patient is determined to be obviously dead no basic or advanced life support shall be initiated or continued.

1. The obviously dead are victims who, in addition to absence of respiration and cardiac activity, have suffered one or more of the following:

- a. Decapitation
- b. Evisceration of heart or brain
- c. Incineration
- d. Rigor Mortis
- e. Decomposition

2. Adult blunt traumatic cardiac arrest, with ALL of the following:

- a. No visible signs of life (no spontaneous movement, apneic, pulseless.)
- b. Cardiac rhythm of asystole
- c. Mechanism of injury consistent with injuries

3. Prehospital personnel shall describe the incident and victim's condition on the Prehospital Patient Record, clearly stating the reasons that life support measures were not initiated or were discontinued.

B. All patients with absent vital signs, shall be treated with resuscitative measures, unless they are obviously dead (A.1.) or adult with blunt trauma arrest (A.2.). The Base Hospital Physician may make pronouncement of death by radio communication.

C. In multi-patient incidents, where staffing resources are limited, CPR need not be initiated for arrest victims, however, if CPR has been initiated prior to the arrival of ALS personnel or briefly during assessment, discontinue only if one of the following occurs or is present:

**Document revised 7/1/2014**

**Approved:**

**EMS Medical Director**

**SUBJECT: PREHOSPITAL DETERMINATION OF DEATH**

**Date: 07/01/2014**

- 1) Subsequent recognition of obvious death
  - 2) Per BHPO
  - 3) Presence of valid DNR Form/Order, Medallion/Advanced Health Care Directive or Physician Orders for Life-Sustaining Treatment (POLST) form indicating " Do Not Resuscitate."
  - 4) Lack of response to brief efforts in the presence of any other potentially salvageable patient requiring intervention.
- D. Except for signs of obvious death, if CPR has been initiated, BLS should be continued while contact is established with the Base Hospital.
1. Once the patient has been pronounced by the Base Hospital Physician, prehospital personnel shall discontinue resuscitative efforts and she/he may contact the Medical Examiner.
  2. Prehospital personnel shall describe the incident and the patient's condition on the Prehospital Patient Record, clearly stating the circumstances under which resuscitative efforts were terminated, to include the name of the Base Hospital Physician who pronounced the patient, and all available EKG monitoring documentation.
  3. Patients placed in an ambulance or undergoing ambulance transport in CPR status may be pronounced by a Base Hospital Physician Order (BHPO). Criteria to pronounce may include:
    - a. Medical futility;
    - b. Latent discovery of a valid DNR;
    - c. Development of obvious signs of death;
    - d. Social concerns on scene such as large gatherings, unattended children, highly visible public settings, sensitive family contacts or crew safety or inclement weather, which may require transport of a patient who would otherwise be pronounced on scene.
  4. Disposition of patients pronounced in an ambulance:
    - a. Deliver the deceased to the closest appropriate BEF and have the deceased logged in as an

**Document revised 7/1/2014**

**Approved:**

**Date: 07/01/2014**

ED patient.

- b. Turn over will be given to the ED staff. The Prehospital Patient Record (PPR) and all personal belongings will be left with the deceased.
  - c. The receiving facility will assume responsibility for the deceased and contact the Medical Examiner and Life Sharing Community Organ Donation, if appropriate, and provide any necessary social services for the family.
- E. For patients with written, Physician Orders for Life-Sustaining Treatment (POLST) that documents do not resuscitate or signed "Do Not Resuscitate" orders, follow procedures as established in San Diego County Division of EMS Policy S-414.
- F. Special Considerations
1. In cases of obvious death, a monitor need not be used to determine death.
  2. If a monitor is used, a patient with a rhythm other than asystole requires a Base Hospital Physician Order for determination of death.
  3. If victims of hypothermia, electrocution, lightning strikes and drowning do not meet obvious death criteria, determination of death requires a Base Hospital Physician Order.
  4. In any situation where there may be doubt as to the clinical findings of the patient, basic life support (BLS/CPR) must be initiated.
- G. Aeromedical Considerations
1. It is not the responsibility of aeromedical prehospital personnel to pronounce the death of a patient in the prehospital care setting. However, there may be situations where the flight nurse is called upon to determine death on scene.
    - a. If despite resuscitation efforts, the patient remains pulseless and apneic, the flight nurse may determine death on scene.

Document revised 7/1/2014

Approved:

EMS Medical Director

**SUBJECT: PREHOSPITAL DETERMINATION OF DEATH**

**Date: 07/01/2014**

2. When a death has been determined, no basic or advanced life support shall be initiated or continued.
  - a. The flight nurse is authorized to discontinue CPR or advanced life support (ALS) care initiated at the scene.
  - b. The appropriate law enforcement agency must be notified.
  - c. In situations where no other emergency medical services (EMS) personnel or authorized personnel are available, the flight crew will remain on scene until released by law enforcement.
  - d. The flight crew will document on the prehospital patient record and the flight record the patient's name, if known, the criteria for determination of death, the time the death was determined and resuscitative efforts discontinued.

POLICY/PROCEDURE/PROTOCOL**

**SUBJECT: PHYSICIAN ON SCENE**

- I. **Authority:** Health and Safety Code, Division 2.5, Sections 1798 and 1798.6.
- II. **Purpose:** To establish a mechanism for prehospital patient care when a Physician on scene offers assistance to the paramedic.

III. **Policy:**

The paramedic may only follow orders from a Base Hospital Physician or authorized RN (MICN).

IV. **Procedure:**

- A. Paramedics to facilitate immediate consultation with Base Hospital Physician by providing radio or phone contact.
- B. Base Hospital Physician shall relay information of Attachment A to Physician on scene.
- C. If Physician on scene chooses to take total responsibility for the patient:
  - 1. Base Hospital Physician shall request proof of State of California licensure to be shown to paramedics.
  - 2. Base Hospital Physician must approve or deny a Physician on scene's request to take total responsibility for patient.
  - 3. The paramedic may assist the Physician on scene within their scope of practice under the direction of the Base Hospital Physician.
  - 4. Drugs and equipment may be made available for the Physician's on scene use.
- D. The paramedic/MICN shall obtain State of California licensure and document Physician on scene's involvement on the patient care record:

**SUBJECT: PHYSICIAN ON SCENE**

1. Physician's Name
  2. State of California Physician and Surgeon's License or type of license
  3. License number
  4. License expiration date
- E A physician with an existing patient physician relationship:
1. Physician may care for their patient.
  2. Paramedics may use skills within their scope of practice to assist physicians accompanying their own patients; those skills and medications not in the paramedic scope of practice (P-401) will be administered by the physician. Any concerns about scope of practice or others issues shall be referred to the Base Hospital Physician.
- F. All other independent practitioners must have Base Hospital Physician approval.
- G. In the event that any conflict arises regarding the delivery of patient care, EMS personnel shall contact the Base Hospital Physician immediately. The Base Hospital Physician has final authority over medical care to be provided by EMS personnel.

**Revised 7/1/2014  
Approved:**

  
**Medical Director**

## ATTACHMENT A

## NOTE TO PHYSICIAN ON INVOLVEMENT WITH EMT-PARAMEDICS

An ALS support team (EMT-Paramedic) operates under standard policies and procedures developed by the local EMS agency and approved by their Medical Director under the authority of Division 2.5 of the California Health and Safety Code. The drugs they carry and procedures they can do are restricted by law and local policy.

If s/he wants to assist, this can only be done through one of the alternatives listed. These alternatives have been endorsed by CMA, State EMS Authority, CCLHO and BMQA.

Assistance rendered in the endorsed fashion, without compensation, is covered by the protection of the "Good Samaritan Code" (see Business and Professions Code, Sections 2144, 2395-2398 and Health and Safety Code, Section 1799.104).

## ENDORSED ALTERNATIVES FOR PHYSICIAN INVOLVEMENT

After identifying yourself to the paramedic by name as a physician licensed in the State of California, and consulting with the Base Hospital physician showing proof of identity, you may choose to do one of the following:

1. Offer your assistance with another pair of eyes, hands, or suggestions, but let the life support team remain under base hospital control; or,
2. Take total responsibility for the care given by the life support team and physically accompany the patient until the patient arrives at a hospital and responsibility is assumed by the receiving physician. In addition, you must sign for all instructions given in accordance with local policy and procedure. (Whenever possible, remain in contact with the base station physician.)

The California Health and Safety Code, Division 2.5, Chapter 5, Section 1798.6 (a) states as follows:

Authority for patient health care management in an emergency shall be vested in that licensed or certified health care professional, that may include any paramedic or other prehospital emergency personnel, at the scene of the emergency who is most medically qualified specific to the provision of rendering emergency medical care. If no licensed or certified health care professional is available, the authority shall be vested in the most appropriate medically qualified representative of public safety agencies who may have responded to the scene of the emergency.

A key phrase in this is "...who is most medically qualified specific to the provision of rendering emergency care." The most medically qualified person certainly ought to be the base hospital physician, who is familiar with the county EMS system and paramedic procedures and protocols, and consequently, by extension, the base hospital nurse on the radio. The paramedic on scene is viewed as an extension of the base hospital physician, acting as his eyes and ears, and functions under his/her directions and orders.

Almost always, physicians on scene would be less qualified **specific to the provision of rendering emergency care**, and the paramedic/base hospital nurse/base hospital physician would be legally in charge of the scene.

It is certainly in everyone's best interest to have a smoothly operating team at the scene, and it is imperative that any physician on scene, expressing in whatever manner that he/she wants to be in command medically, be immediately put in radio contact with the base hospital physician.

ATTACHMENT A (continued)

The following is some suggested dialogue for the base hospital physician...

"Doctor, my name is ..... I am the base hospital physician at .....Hospital and we are in medical control of the paramedic unit at your scene.

"Generally, the medics can most efficiently get the patient under treatment and into the emergency care system under our radio direction, and if that is alright with you, I can give them that direction by radio. Would that be alright with you?

"If so, let me speak to the medics on the radio and I will get things under way with them. Perhaps, if you wish, you could stand by to lend an extra pair of eyes and hands but remember that the paramedics are closely limited by state law and county policies on what specific procedures they can do, and state law allows them to take orders only from the base hospital.

#### IF THE PHYSICIAN INSISTS ON TAKING MEDICAL CONTROL

"Doctor, I understand that you wish to take total responsibility for the care given by the life support team. To do so, requires that you are licensed in the state of California and can show your license to the medics on scene. You must also accompany the patient until he arrives at the hospital and responsibility is assumed by the receiving physician. In addition, you must sign for all instructions given in accordance with local policy and procedure. Is that your wish and intention?

"If so, I would ask that you state your name for the radio record and show the paramedics your California license. Could you also briefly tell me if you are on the staff of any local hospitals and what your training or specialty is, particularly with reference to the care of this patient.

"Please be advised again, that the state law does not allow the paramedics to take orders from anyone other than the base hospital physician, but they can assist you within their scope of practice.

...(It is the base hospital physician's option to make the equipment and drugs available to the on scene physician if he approves of his scene control.)

"Doctor, based on the information you have given me on the radio record, I am turning over medical control of the scene to you. You may request medications and drugs from the paramedics and they will assist you within their scope of practice. I will be standing by on the radio in case a problem arises and you need to discuss something further with me. If you would put the medics back on the radio, I will so advise them. Thank you.

....

If you cannot establish the competence of the on scene physician to your satisfaction, you should not turn over medical control. You may reference the previous information in a manner such as...

"California Health and Safety Code section 1798.6 specifically states that authority for patient health care management in an emergency shall be vested in that licensed ... professional...who is most medically qualified specific to the provision of rendering emergency medical care. In this case, while I want to thank you for your offer of assistance, I'm afraid I do not feel that I can reasonably turn over the scene management to you and I must request that you allow the paramedics to proceed with the emergency care of the patient. If you wish to discuss this with me or my base hospital medical director, Dr ....., you may phone us later at our hospital at phone number ..... Could you please put the medics back on the radio so I may give them the orders necessary for the patient's care. Again, we would appreciate any cooperation you could give the medics.

SUBJECT: COMMUNICATIONS FAILURE

Date: 7/01/2010

**Authority:** Health and Safety Code, Division 2.5, Section 1798 and 1798.2; California Code of Regulations, Division 9, Title 22, Section 100145.

**Purpose:** To document the procedure for Paramedic activity during and reporting of communications failure.

III. **Policy:**

- A. In the event that an Paramedic at the scene of an emergency attempts direct voice contact with a physician or mobile intensive care nurse (MICN) but cannot establish or maintain that contact and reasonably determines that a delay in treatment may jeopardize the patient, the Paramedic may initiate any Paramedic activity authorized by the EMS Medical Director in accordance with the County of San Diego Treatment Protocols, "Standing Orders for Communications Failure", until such direct communication may be established and maintained or until the patient is brought to a general acute care hospital. Direct voice communication with the base hospital shall be attempted at the scene or en route.
- B. In each instance where advanced life support procedures are initiated in accordance with Section A of this Policy, immediately upon ability to make voice contact, the Paramedic who has initiated such procedures shall make a verbal report to the contacted Base Hospital Physician or MICN. A "Report of ALS Services Provided Without Base Hospital Contact" form (Attachment A) shall be completed and filed with the contacted Base Hospital Physician, when possible, immediately upon delivery of

**SUBJECT: REPORTING OF ISSUES IN PATIENT CARE MANAGEMENT**

**Date: 01/01/05**

---

**Authority:** Health and Safety Code, Division 2.5, Section 1797.220 and 1798.102.

**Purpose:** To establish the primary responsibilities of all participants in the San Diego County's Emergency Medical Services System for reporting to the Medical Director of the County of San Diego Emergency Medical Services (EMS), issues of patient care management.

**III. Policy:**

- A. The County of San Diego, Health & Human Services Agency, Emergency Medical Services Branch (EMS) shall maintain agreements with Base Hospitals and EMS provider agencies requiring:
1. Reporting issues in medical management of patients to the EMS Medical Director, including, but not limited to:
    - a. Actions outside of the scope of practice of prehospital personnel
    - b. Actions or errors that actually or potentially result in untoward patient outcomes, such as errors in administration of medications, invasive procedures, defibrillation/cardioversion, or other patient treatments.
  2. Reporting actions or behaviors that endanger the welfare of patients or adversely affect the public regard for prehospital emergency services.
  3. Reporting EMS personnel or EMS provider agency trends indicating on-going frequency of errors or non-compliance with established policies, protocols or standards of patient care.
- B. EMS shall establish a Quality Improvement program in compliance with Policy S-004.
- C. Base Hospitals will implement their own Quality Improvement program in compliance with Policy S-004. Patient care issues will be reported to the County of San Diego EMS through the Prehospital Audit Committee process.
- D. Each EMS provider agency will implement its own Quality Improvement program in compliance with Policy S-004. Patient care issues will be reported to the agency's designated Base Hospital or the County of San Diego, EMS Medical Director.

EMS prehospital personnel are expected to report significant issues in medical management of a patient to their agency, Base Hospital and/or County of San Diego EMS Medical Director.

- III. **Policy:**
  - A. This policy applies only to those currently certified Paramedics formally appointed and assigned by an approved Paramedic service provider agency which has been designated by the County of San Diego, Emergency Medical Services (EMS) Branch to provide personnel for special assignments or missions exclusively at the request of security/law enforcement/other services approved by the EMS Medical Director.
  - B. This policy is operative only for the duration of a specific special assignment or mission of the agencies specified in "A" above.
  - C. Paramedics on special assignment will not be required to make Base Hospital contact to treat patients due to the operational requirements of the special assignment/mission that prohibit the practical employment or presence of telemetry communications equipment.
    1. The Paramedics will experience communications failure by default due to the nature of a special assignment/mission.
    2. Paramedics shall establish base hospital radio contact at the earliest opportunity afforded by the circumstances of the special assignment/mission should it become necessary to engage in ALS level treatment.

EMS Medical Director

SUBJECT: SAN DIEGO COUNTY SPECIAL ASSIGNMENT- PARAMEDIC

Date: 7/01/2010

- D. Paramedics engaged in a special assignment or mission may, as the mission dictates, treat patients in accordance with the following:
1. Paramedic Treatment Protocol P-110 ALS Adult Standing Orders and P-111 Adult Standing Orders for Communications Failure.
  2. Paramedic Treatment Protocol P-405 Communications Failure.
  3. A report must be filed as specified in Policy P-405 Attachment "A" should any patient receive ALS treatment in connection with a special assignment/mission when communication failure occurs.
- E. Paramedics engaged in a special assignment/mission will be permitted to operate and engage in patient care without a second Paramedic partner or authorized Mobile Intensive Care Unit (MICU) as the logistics of the special assignment/mission dictate.
- F. Paramedics are responsible to maintain sufficient equipment and medical supplies necessary to treat a victim that meets the requirements of this special assignment protocol.
- G. The transport of victim(s) to receiving hospitals shall at all times be consistent with existing state and county policy except as security and other considerations require with respect to special assignments for the U.S. Secret Service and U.S. State Department exclusively.

**SUBJECT: REPORTING OF SUSPECTED CHILD, DEPENDENT ADULT, OR  
ELDER ABUSE/NEGLECT**

Date: 4/01/2011

I. **Authority:** Health and Safety Code, Division 2.5, Section 1798 and; Child Abuse: California Penal Code, Article 2.5; and, Elder Abuse: Welfare and Institutions Code Chapter II, Part 3, Division 9.

**Purpose:** To establish a policy for identification and reporting of incidents of suspected child, dependent adult or elder abuse/neglect.

III. **Policy:** All prehospital care personnel are required to report incidents of suspected neglect of, or abusive behavior toward children, dependent adults or elders.

IV. **Reporting Procedure:**

A. Child Abuse/Neglect:

1. Suspicion of Child Abuse/Neglect is to be reported by prehospital personnel by telephone to the Child Abuse Hotline, (858) 560-2191, immediately or as soon as possible. Be prepared to give the following information:
  - a. Name of person making report;
  - b. Name of child;
  - c. Present location of the child;
  - d. Nature and extent of the abuse/neglect;
  - e. Information that led reporting person to suspect child abuse/neglect;
  - f. Location where incident occurred, if known; and
  - g. Other information as requested.
2. Phone report must be followed within thirty-six (36) hours by a written report on "Suspected Child Abuse Report" form #SS8572. The mailing address for this report is: Health and Human Services Agency (HHS),

ELDER ABUSE/NEGLECT

Date: 4/01/2011

Children's Services Child Abuse Hotline, P.O. Box 711341, San Diego, CA 92111. Fax of this report may be transmitted to (858) 694-5240 or (858) 694-5241 between the hours of 8:00am and 5:00pm.

3. Copies of form SS8572 can be accessed on the County of San Diego, Emergency Medical Services website: [www.sandlegocountyems.com](http://www.sandlegocountyems.com).
4. The identity of all persons who report under this article shall be confidential and disclosed only between child protective agencies, or to counsel representing a child protective agency, or to the district attorney in a criminal prosecution or by court order.

B. Dependent Adult and Elder Abuse/Neglect:

1. Suspicion of Dependent Adult and Elder Abuse/Neglect should be reported as soon as possible by telephone to the Adult Protective Services at HHS Aging and Independent Services (800) 510-2020. Be prepared to give the following information:
  - a. Name of person making report;
  - b. Name, address, and age of the dependent adult or elder;
  - c. Nature and extent of person's condition; and,
  - d. Other information, including information that led the person to suspect abuse/neglect.
2. Telephone report must be followed by a written report within thirty-six (36) hours of the telephone report using "Report of Suspected Dependent Adult/Elder Abuse" form SOC 341. The mailing address for this report is:

POLICY/PROCEDURE/PROTOCOL**

**SUBJECT: REPORTING OF SUSPECTED CHILD, DEPENDENT ADULT, OR  
ELDER ABUSE/NEGLECT**

Adult Protective Services, 5560 Overland Avenue, San Diego, CA 92123

The report may be faxed to (858) 495-5247.

3. Copies of form SOC 341 can be accessed on the County of San Diego, Emergency Medical Services website: [www.sandiegocountymems.com](http://www.sandiegocountymems.com).
  4. The identity of all persons who report shall be confidential and disclosed only by court order or between elder protective agencies.
- C. When two or more persons who are required to report are present at scene, and jointly have knowledge of a suspected instance of child, dependent adult, or elder abuse/neglect, and when there is agreement among them, the telephone report may be made by a member of the team selected by mutual agreement and a single report may be made and signed by such selected member of the reporting team. Any member who has knowledge that the member designated to report has failed to do so, shall thereafter make such report.
- D. The reporting duties are individual, and no supervisor or administrator may impede or inhibit such reporting duties and no person making such report shall be subject to any sanction for making such report. However, internal procedures to facilitate reporting and apprise supervisors and administrators of reports may be established provided they are consistent with the provisions in this article.

Document revised 4/01/2011

EMS Medical Director

SUBJECT: PREHOSPITAL TREATMENT AND TRANSPORTATION OF ADULTS - REFUSAL OF CARE OR SUGGESTED DESTINATION, RELEASE Date: 7/01/2010

- I. **Authority:** Health and Safety Code, Division 2.5, Section 1798.
- II. **Purpose:** To establish a procedure for a patient or designated decision maker (DDM) to refuse care (assessment, treatment, or transport) or request an alternate disposition by EMS personnel.
- III. **Definitions:**
  - A. AMA - The refusal of treatment or transport, by an emergency patient or his/her designated decision maker, against the advice of the medical personnel on scene or of the base hospital.
  - B. Designated decision maker (DDM) - An individual to whom a person has legally given the authority to make medical decisions concerning the person's health care (i.e., through a Durable Power of Attorney for Health Care).
  - C. Emergency Patient - Any person for whom the 9-1-1/EMS system has been activated and who meets the following criteria:
    1. Has a chief complaint or suspected illness or injury; or
    2. Is not oriented to person, place, time, or event; or
    3. Requires or requests field treatment or transport; or
    4. Is under the age of 18 and is not accompanied by a parent or legal guardian.
  - D. Release - A call outcome that occurs when the patient and the EMS personnel (including the base hospital if a base was contacted) agree that the illness/injury does not require immediate treatment/transport via emergency/9-1-1 services and the patient does not require the services of the prehospital system.

Document revised 7/1/2010  
Approved:

  
EMS Medical Director

SUBJECT: PREHOSPITAL TREATMENT AND TRANSPORTATION OF ADULTS - REFUSAL OF CARE OR SUGGESTED DESTINATION, RELEASE Date: 7/01/2010

IV. Policy:

- A. All emergency patients will be offered treatment and/or transport following a complete assessment.
- B. Against Medical Advice (AMAs)
  1. Adults have the right to accept or refuse any and all prehospital care and transportation, provided that the decision to accept or refuse these treatments and transportation is made on an informed basis and provided that these adults have the mental capacity to make and understand the implications of such a decision.
  2. The decisions of a Designated Decision Maker (DDM) shall be treated as though the patient was making these decisions for him/herself.
  3. For those emergency patients who meet base hospital contact criteria (S-415) and wish to sign AMA, prehospital personnel shall use their best efforts to make base hospital contact prior to the patient leaving the scene and prior to the responding unit leaving the scene. In the event that the patient leaves the scene prior to base hospital contact, field personnel shall still contact the base hospital for quality improvement and trending purposes only.
  4. The EMT, AEMT or paramedic should contact the base hospital and involve the MICN and/or base hospital physician in any situation in which the treatment or transport refusal is deemed life threatening or "high risk" by the EMT, AEMT or paramedic.
  5. Field personnel shall document, if possible, the following for all patients released AMA:
    - a. Who activated 9-1-1 and the reason for the call.

Document revised 7/1/2010  
Approved:

  
EMS Medical Director

SUBJECT: PREHOSPITAL TREATMENT AND TRANSPORTATION OF ADULTS - REFUSAL OF CARE OR SUGGESTED DESTINATION, RELEASE Date: 7/01/2010

- b. All circumstances pertaining to consent issues during a patient encounter.
- c. The presence or absence of any impairment of the patient/DDM such as by alcohol or drugs.
- d. The ability of the patient/DDM to comprehend and demonstrate an understanding of his/her illness or injury.
- e. The patient/DDM has had the risks and potential outcome of non-treatment or non-transport explained fully by the EMT, AEMT or Paramedic, such that the patient/DDM can verbalize understanding of this information.
- f. The reasons for the AMA, the alternate plan, if any, of the patient/DDM and the presence of any on-scene support system (family, neighbor, or friend [state which]).
- g. That the patient/DDM has been informed that they may re-access 9-1-1 if necessary.
- h. The signature of the patient/DDM on the AMA form, or, if the prehospital personnel are unable to have an AMA form signed, the reason why a signed form was not obtained.
- i. Consideration should be given to having patient/family recite information listed in sections IV.B.5. d-g above, to the MICN/BHP over the radio or telephone.

**C. Patient Refusal of Transport to Recommended Facility**

Should the situation arise wherein a patient refuses transport to what is determined by the base hospital to be the most accessible emergency facility equipped, staffed and prepared to administer care appropriate to the needs of the patient, but the patient requests transport to

Document revised 7/1/2010  
Approved:

  
EMS Medical Director

SUBJECT: PREHOSPITAL TREATMENT AND TRANSPORTATION OF ADULTS - REFUSAL OF CARE OR SUGGESTED DESTINATION, RELEASE Date: 7/01/2010

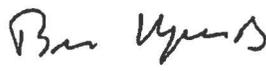

an alternate facility:

1. Field personnel should discuss with the base hospital the patient's or DDM's rationale for their choice of that alternate facility.
2. Inform the patient or DDM of base hospital's rationale for its selected destination.
3. If the patient still refuses transport to the selected destination, follow procedures for the patient to refuse treatment and/or transport "against medical advice" (AMA). However, if, in the judgment of the base hospital, the patient's refusal of transport would create a life-threatening or high-risk situation, and the patient continues to refuse the recommended destination, document the AMA and transport the patient to the requested facility if possible.
4. Arrange for alternate means of transportation to the facility of choice if appropriate.

D. Downgrade

1. Following a complete paramedic assessment and base hospital report (as required per County of San Diego EMS Policy S-415), the base hospital may authorize a downgrade in the transportation and treatment needs of an ALS-dispatched patient from advanced life support (i.e., paramedic treatment and transport) level of prehospital care to BLS (EMT treatment and transport) level of care and that unit can continue to transport the patient to any destination. All downgrades shall be reviewed by the agency's internal Quality Improvement program.
2. If the patient's condition deteriorates during the transport, the paramedic shall contact the base hospital authorizing the downgrade, initiate appropriate ALS treatment

Document revised 7/1/2010  
Approved:

  
EMS Medical Director

SUBJECT: PREHOSPITAL TREATMENT AND TRANSPORTATION OF ADULTS - REFUSAL OF CARE OR SUGGESTED DESTINATION, RELEASE Date: 7/01/2010

protocols, and deliver the patient to the most appropriate facility at the direction of the base hospital. The Base Hospital shall generate a report to the Prehospital Audit Committee documenting the incident.

3. If the paramedics have transferred care to a BLS service provider and the patient's condition deteriorates during the BLS transport, the EMT shall contact a base hospital, inform the base hospital that the patient had been downgraded from ALS to BLS, and deliver the patient to the most appropriate facility at the direction of the base hospital. The Base Hospital shall generate a report to the Prehospital Audit Committee documenting the incident.

E. Release

If the patient and EMS personnel (including the base hospital if a base was contacted) agree that the illness/injury does not require immediate treatment/transport via emergency/9-1-1 services, and the patient does not require the services of the prehospital system, the patient may be released at scene. For those patients who meet base hospital contact criteria (S-415), field personnel shall attempt to contact the base prior to the patient leaving the scene.

EMS Medical Director

**SUBJECT: RESUSCITATION**

**Date: 7/1/2012**

**Authority:** Health and Safety Code, Division 2.5, Sections 1797.220 and 1798.  
Probate Code, Sections 4000-4026, 4600-4643 and 4780-4786.

**Purpose:** To establish guidelines for Emergency Medical Technicians (EMTs)  
(all levels) in San Diego County to determine appropriateness of either:

- A. Discontinuing or withholding resuscitative measures, or,
- B. Obtaining a Base Hospital Physician Order for pronouncement of patients in cardiac arrest while in the prehospital setting.

**III. Definitions:**

- A. "Attorney-in-fact" or health care agent means a person granted authority to act for the patient as governed by the Health Care Decisions Law pursuant to section 4670 of the Probate Code.
- B. Do not Resuscitate (DNR) means for a patient in cardiopulmonary arrest, no chest compressions, no defibrillation, no assisted ventilation, no endotracheal intubation, and no cardiotoxic drugs. The patient is to receive full treatment other than resuscitative measures (e.g., for airway obstruction, pain, dyspnea, major hemorrhage, etc.).
- C. Absent vital signs: absence of respirations and absence of a carotid pulse.
- D. DNR Medallion: metal or permanently imprinted insignia, belonging to the patient that is imprinted with the words "Do Not Resuscitate, EMS."
- E. DNR Form: Any completed "Do Not Resuscitate Form."
- F. Advance Health Care Directive: An individual health care instruction or a power of attorney for health care executed pursuant to the Health Care Decisions Law.

Page: 2 of 3

SUBJECT: RESUSCITATION

Date: 7/1/2012

- G. POLST form: Physician Orders for Life-Sustaining Treatment, pursuant to Probate Code sections 4780-4786.

**IV Procedure:**

- A. All patients with absent vital signs who are not "obviously dead" or are adults suffering from a blunt traumatic arrest (refer to Policy S-402), shall be treated with resuscitative measures, unless the following circumstances apply:
- An EMT may withhold or discontinue CPR if presented with one of the following:
1. DNR Medallion.
  2. A completed DNR Form stating, "Do not resuscitate," "No code," or "No CPR."
  3. A written, signed order in the patient's medical record, including the electronic medical record.
  4. An Advance Health Care Directive specifying "Do not resuscitate."
  5. Upon receipt of a Base Hospital Physician Order.
  6. DNR request communicated by a patient's attorney-in-fact or healthcare agent.
  7. A completed POLST form specifying "Do not attempt resuscitation/DNR" in Section A, Cardiopulmonary Resuscitation.
- B. Documentation
- Reason for withholding or terminating CPR shall be documented in the patient care record. DNR orders shall include the name of the physician or designee (e.g. Physician Assistant, Nurse Practitioner), and the date of the order. If patient transport is initiated, the DNR Form (original or copy), DNR Medallion, or

**Date: 7/1/2012**

a copy of the valid DNR Order from the patient's medical record shall accompany the patient. If no printed copy available, note physician's name and presence of signature.

**C Considerations**

1. In the event any patient expires in an ambulance either before or during transport, the following should be considered:
  - a. Unless specifically requested, the patient should not be returned to a private residence or skilled nursing facility, continue to the destination hospital or hospice.
  - b. If between hospitals, return to the originating hospital if time is not excessive. If transport time would be excessive, divert to the closest hospital with a basic emergency facility (BEF).
  - c. In rural areas in cases where the Medical Examiner has not waived the case, the transporting agency and the Medical Examiner shall arrange for a mutually acceptable rendezvous location where the patient may be taken and left in the custody of law enforcement, so that the transporting unit may return to service.
2. Patient may appear quite ill, but that should not affect destination.

- D. For any concerns regarding resuscitation, prehospital staff should contact their assigned Base Hospital.

**Document revised 7/1/2012  
Approved:**

**EMS Medical Director**

**SUBJECT: BASE HOSPITAL CONTACT, PATIENT TRANSPORTATION**

- I. **Authority:** Health & Safety Code, Division 2.5, Section 1797.88; 1798. Title XXII, Section 100170, Civil Section 25.8.
- II. **Purpose:** To identify conditions under which EMT, AEMTs and paramedics shall, when encountering an emergency patient, contact a base hospital for notification, medical direction, or to give report; or (for EMTs) contact a receiving hospital to verify appropriate transport destination and give report.
- III. **Definitions:**
  - A. **Aid Unnecessary** - Calls in which the person for whom 9-1-1 was called does not meet the definition of "emergency patient," and has agreed to make alternate transportation arrangements if necessary.
  - B. **Call Canceled** - Calls to which EMS personnel were responding but the response was canceled prior to encountering an emergency patient or potential patient.
  - C. **Complete Patient Report** - A problem-oriented verbal communication which includes:
    1. Acuity.
    2. Age.
    3. Gender.
    4. Chief complaint(s).
    5. Vital signs (including O<sub>2</sub> saturation when possible).
    6. Pertinent history, allergies, medications.
    7. Pertinent findings of the primary and secondary survey.
    8. Field treatment and response:
    9. Anticipated destination facility.

Document revised 7/1/2010  
Approved:

  
EMS Medical Director

**SUBJECT: BASE HOSPITAL CONTACT, PATIENT TRANSPORTATION**

10. Estimated time of arrival.

- D. Initial Notification- A brief communication by the field personnel to provide the acuity, age, gender, and chief complaint of the patient to the base hospital to assist in determining appropriate patient destination. This communication is intended to verify resource capability and availability of the facility that will receive the patient.
- E. Release - A call outcome that occurs when the patient and the EMS personnel (including the base hospital if a base was contacted) agree that the illness/injury does not require immediate treatment/transport via emergency/9-1-1 services and the patient does not require the services of the prehospital system.
- F. Emergency Patient - Any person for whom the 9-1-1/EMS system has been activated and who meets the following criteria:
1. Has a chief complaint or suspected illness or injury; or
  2. Is not oriented to person, place, time, or event; or
  3. Requires or requests field treatment or transport; or
  4. Is a minor who is not accompanied by a parent or legal guardian and is ill or injured or appears to be ill or injured
- G. Elopement - The departure from the scene of a patient, in which the patient has refused to comply with established procedures for refusing care or transportation.
- H. Minor - A person under the age of 18 and who is not emancipated
- I. Designated decision maker (DDM) - An individual to whom a person has legally given the authority to make medical decisions concerning the person's health care (i.e., a parent, legal guardian, an "attorney in fact" through a Durable Power of Attorney for Health Care, or an

Document revised 7/1/2010

Approved:

  
EMS Medical Director

**SUBJECT: BASE HOSPITAL CONTACT, PATIENT TRANSPORTATION  
AND REPORT - EMERGENCY PATIENTS**

"agent" through an Advance Health Care Directive).

**IV. Policy:**

- A. EMT, AEMTs - Hospital contact is required for all patients who are transported to the Emergency Department of a hospital.
  - 1. EMT, AEMTs shall contact the intended facility as soon as possible to verify their destination and to provide a complete patient report.
  - 2. EMT, AEMTs shall call:
    - a. A base hospital if they have a question regarding the appropriate treatment or disposition of any patient.
    - b. A designated trauma center for those patients who meet trauma center criteria (T-460).
    - c. UCSD base for those patients meeting Burn Center criteria (S-124).
- B. Paramedics - Base hospital contact is required by paramedics in the following situations (except in cases of elopement - see III. D.):
  - 1. Any emergency patient transport by paramedics, including transports by paramedic ambulance to a BLS destination following downgrade to BLS.
  - 2. Any emergency patient treatment involving ALS medications or skills (except EKG monitoring)
  - 3. Any emergency patient assessment involving abnormal vital signs, or an altered level of consciousness.
  - 4. Any suspicion that the emergency patient (or designated decision maker [DDM]) is impaired by alcohol or drugs.

Document revised 7/1/2010  
Approved:

  
EMS Medical Director

**SUBJECT: BASE HOSPITAL CONTACT, PATIENT TRANSPORTATION**

5. The emergency patient/DDM is unable to comprehend or demonstrate an understanding of his/her illness or injury.
  6. The emergency patient meets criteria as a trauma center candidate (T-460).
  7. The emergency patient is > 65 years of age and has experienced an altered/decreased level of consciousness, significant mechanism of injury, or any fall.
  8. An emergency patient who is a minor is ill or injured or is suspected to be ill or injured.
  9. Whenever paramedics have a question regarding appropriate treatment or disposition of the patient.
- C. Any other communications between the patient, DDM, family member or care giver and prehospital personnel regarding refusal of care or care that is in variance with San Diego County prehospital treatment protocols or the San Diego County Resuscitation policy (S-414) (such as an Advance Health Care Directive, Living Will, Comfort Care communication, verbal notification from family member or care giver, DPAHC without attorney-in-fact present, etc.), shall be immediately referred to the base hospital for evaluation. The base hospital shall evaluate this information and determine the plan of treatment and transport for the patient.
- D. Treatment and transport decisions for emergency patients in involuntary or protective custody (i.e., under arrest by law enforcement, placed on a "5150" hold, or serving a prison term) are to be made by the authority under which they are being held.
- E. Paramedics shall contact a base hospital as soon as possible to verify destination. Paramedics will first attempt to call their regularly assigned base hospital unless the

Document revised 7/1/2010  
Approved:

  
EMS Medical Director

emergency patient meets one of the following criteria:

1. Adult Trauma: For all adult emergency patients who appear to meet trauma center candidate criteria in T-460, paramedics shall first attempt to call the trauma base in the catchment area of the incident.
  2. Pediatric Trauma: Paramedics shall first attempt to contact the designated pediatric trauma base for pediatric trauma center candidates (T-460).
  3. Burns: Paramedics shall first attempt to contact the UCSD base for all emergency patients that meet burn center disposition criteria (S-124).
- F. A complete patient report is required as soon as reasonably possible for all emergency patients transported. However, an initial notification may be made to a base hospital prior to the complete patient report without interfering with the paramedic's ability to implement standing orders. Standing orders for medications may not be implemented following the initiation of a complete patient report.
- G. MICNs shall relay patient information received from the patient report to the appropriate receiving facility personnel.
- H. Treatment and/or Transport of a Minor:
1. Treatment or transport of a conscious minor who is ill or injured or suspected to be ill or injured shall be with the verbal consent of the natural parent, legal guardian, or any adult authorized in writing by the legal guardian pursuant to Section 25.8 of the Civil Code (Attachment A).
  2. Treatment or transport of a conscious minor who is ill or injured or suspected to be ill or injured, where the natural parents, legal guardian, or authorized persons are not

present, will be under the direction of the Base Hospital. Transport shall be to the most accessible appropriate receiving or specialty care center.

3. Treatment or transport of a minor who is unconscious or suffering from a life threatening disease, illness, or injury in the absence of a natural parent, legal guardian or authorized person (Attachment A) may be initiated without parental consent.
- I. Base Hospital contact is NOT REQUIRED on individuals who meet the following criteria:
  1. Obvious death (S-402).
  2. Discontinuation of CPR with a Prehospital DNR order or DPAHC on scene (S-414).
  3. Release of a minor on scene who is neither ill nor injured, nor suspected to be ill or injured, may be permissible without Base Hospital contact if:
    - a. Parent or legal guardian so requests
    - OR
    - b. A responsible adult other than parent or legal guardian (i.e. school nurse, law enforcement, or person of similar standing) so requests.
    - c. The field EMT, AEMT or Paramedic shall document the circumstances and identification of the person accepting responsibility for the minor.
  4. Patients who wish to be released and do not meet base hospital contact criteria.
  5. Dispatched as a BLS call where ALS treatment or intervention is not anticipated nor required.

SUBJECT: SUPPLY AND RESUPPLY OF DESIGNATED  
EMS AGENCIES AND VEHICLES

Date: 7/1/07

**Authority:** California Health and Safety Code, Division 2.5, Chapter 4, Section 1797.202 and California Business and Professions Code, Division 2, Chapter 9, California Pharmacy Law, Section 4000, et seq.

**Purpose:** To provide a policy for agencies to procure, store and distribute medical supplies and pharmaceuticals identified in the Inventory.

III. **Definition:** Dangerous Drugs and Devices: Any drug or device unsafe for self-use (e.g. IV solutions and medications carried on the MICU Inventory). Drugs and devices bearing the legend, "Caution, federal law prohibits dispensing without prescriptions" or words of similar import.

IV. **Policy:**

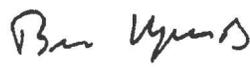

A. Each agency shall have a mechanism to procure, store and distribute its own medical supplies and pharmaceuticals under the license and supervision of an appropriate physician. An appropriate physician is considered to be one of the following:

1. The Medical Director of the agency.
2. The County of San Diego Emergency Medical Services (EMS) Medical Director.
3. The Medical Director of a contracted base hospital.

B. Mechanisms of procurement may include the following:

1. Procurement of pharmaceuticals and medical supplies through a legally authorized source such as a pharmaceutical distributor or wholesaler.

Procurement of pharmaceuticals and medical supplies from a hospital that determines it has the legal authority to resell pharmaceuticals and supplies to an agency.

- C. Each agency shall have procedures in place for the procurement, transport, storage and distribution of Dangerous Drugs and Devices.
- D. If agency requests the County of San Diego, EMS Medical Director to assume responsibility for providing medical authorization for procuring Dangerous Drugs and Devices, these policies shall be reviewed and approved by the County of San Diego, EMS Medical Director and shall include the following:
  - 1. Identification (by title) of individuals responsible for procurement and distribution.
  - 2. A determination of reasonable quantities of supplies and pharmaceuticals that must be maintained to resupply agencies.
  - 3. Maintenance of copies of all drug orders, invoices, and logs associated with Dangerous Drugs and Devices for a minimum of three years.
  - 4. Procedures for completing a monthly inventory of Dangerous Drugs and Devices, which includes:
    - a. Ensuring medications are stored in original packaging.
    - b. Checking medications for expiration dates, rotating supplies for use prior to expiration, and exchanging for current medications.
    - c. Properly disposing of expired medications that cannot be exchanged.
    - d. Distributing to agencies.

EMS Medical Director

SUBJECT: **SUPPLY AND RESUPPLY OF DESIGNATED  
EMS AGENCIES AND VEHICLE:**

Date: 7/1/07

- e. Returning medications to pharmaceutical distributor if notified of a recall.
- 5. Storage of drugs (other than those carried on a vehicle) that complies with the following:
  - a. Drugs must be stored in a locked cabinet or storage area.
  - b. Drugs may not be stored on the floor. (Storage of drugs on pallets is acceptable.)
  - c. Antiseptics and disinfectants must be stored separately from internal and injectable medications.
  - d. Flammable substances (e.g., alcohol) must be stored in a metal cabinet, in accordance with local fire codes.
  - e. Storage area is maintained within a temperature range that will maintain the integrity, stability and effectiveness of drugs.
- 6. Agencies shall develop, implement and maintain a quality assurance and improvement program that includes a written plan describing the program objectives, organization, scope, and mechanisms for overseeing the procurement, transport, storage, distribution and administration of Dangerous Drugs and Devices.
- E. Agencies under the license and supervision of the County of San Diego, EMS Medical Director shall have a written agreement with the County of San Diego, Emergency Medical Services that is specific to the procurement, transport, storage, distribution and administration of Dangerous Drugs and Devices.

**SUBJECT: TRANSFER OF SPECIFIC PATIENT CARE INFORMATION  
BETWEEN FIRST RESPONDERS UTILIZING DEFIBRILLATION  
EQUIPMENT AND TRANSPORT PERSONNEL**

**DATE: 07/01/03**

- I. **Authority:** Health and Safety Code, Division 2.5, Section 1798 and 1798.6.
- II. **Purpose:** To assure effective transfer of patient care information between first responders utilizing defibrillation equipment, and transport personnel at the scene of an emergency.
- III. **Policy:** Patient care information shall be communicated between first responders and transport personnel at the time of transfer.
- IV. **Procedure:**
  - A. Transfer shall be to an equal or higher level of care only.
  - B. Prior to actual transfer of patient care responsibilities, the first responder will provide a verbal report to the transport personnel containing the following information:
    1. Patient age.
    2. Witnessed/unwitnessed arrest.
    3. Approximate time from collapse.
    4. Initiation of CPR prior to first responder arrival.
    5. Initial monitored rhythm. (shockable vs non-shockable rhythm)
    6. Number of defibrillatory shocks delivered and joules of each shock.
    7. Response to treatment.
  - B. Once verbal report has been completed, the first responder shall assist the transport personnel in the transfer process as needed.

POLICY/PROCEDURE/PROTOCOL

SUBJECT: APPLICATION OF PATIENT RESTRAINTS

- I. **Authority:** Health & Safety Code, Division 2.5, Section 1798; California Code of Regulations, Title 22, Sections 100063 and 100169.
- II. **Purpose:** To establish criteria for the use of restraints in the field or during transport.
- III. **Policy:**
  - A. When field personnel apply restraints, the safety of the patient, community, and responding personnel shall be of paramount concern.
  - B. Whenever patient restraints have been applied in the field, prehospital personnel shall document in the Prehospital Patient Record the following:
    1. The reason the restraints were needed (including previous attempts to control patient prior to restraint use), and;
    2. the type of restraint used, the extremity(ies) restrained, the time the restraints were applied, and
    3. which agency applied the restraints, and;
    4. information and data regarding the monitoring of circulation to the restrained extremities, and;
    5. information regarding the monitoring of the patient's respiratory status while restrained.
  - C. Restraints should be used only when less restrictive techniques are unsuccessful, impractical, or likely to endanger the patient or others. Attempts to enlist the patient's cooperation should be made prior to restraint application.

If the patient is actively spitting, a surgical mask or oxygen mask (with a minimum 6L/O<sub>2</sub> for simple oxygen masks and 10-15L/O<sub>2</sub> for non-rebreather masks) may be

**SUBJECT: APPLICATION OF PATIENT RESTRAINTS**

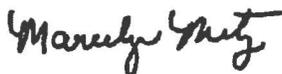

placed over the patient's mouth to protect EMS personnel and others. If this method fails, a light weight, sheer, protective mesh hood may be used. When placed over the patient's head their mouth and/or nose shall never be obstructed. The mesh hood may never be tightened in any manner to secure it around the patient's neck.

Constant observation by prehospital personnel is required. Use and justification of the mesh hood must be documented in detail.

- D. Prehospital personnel must consider that aggressive or violent behavior may be a symptom of a medical condition.
- E. The method of restraint used shall allow for adequate monitoring of vital signs and shall not restrict the ability to protect the patient's airway or compromise the neurological or circulatory status of the restrained extremity(ies).
- F. If the patient has been restrained by a law enforcement officer (such as handcuffs, plastic ties, or "hobble" restraints, the following criteria must be met:
  - 1. Restraints must provide sufficient slack in the restraint device to allow the patient to straighten the abdomen and chest and to take full tidal volume breaths.
  - 2. Restraints applied by law enforcement require the officer's continued presence to ensure patient and scene management safety. The officer shall accompany the patient in the ambulance. In the unusual event that this is not possible, the officer should follow by driving in tandem with the ambulance on a pre-determined route. Prior to leaving the scene, prehospital personnel shall attempt to discuss an appropriate method to alert the officer of any problems that may develop during the transport requiring the officer's immediate presence.

Document revised 7/1/2012

Approved:

Administration

EMS Medical Director

**COUNTY OF SAN DIEGO EMERGENCY MEDICAL SERVICES  
POLICY/PROCEDURE/PROTOCOL**

**SUBJECT: APPLICATION OF PATIENT RESTRAINTS**

3. Law enforcement personnel shall attempt, when possible, to modify their restraints to a medically accepted standard prior to transport.

This policy is not intended to negate the use by law enforcement personnel of appropriate restraint equipment that is approved by their respective agencies to establish scene management control.

- G. Restraints or protective devices that have been applied by medical personnel prior to transport may be continued during the transport per instructions from those medical personnel.

**IV. Procedure:**

- A. Restraint equipment applied by prehospital personnel must be either padded leather restraints or soft restraints (i.e, vest, velcro or seatbelt type). The method of restraint must provide for quick release.
- B. The following forms of restraint shall not be applied by EMS prehospital care personnel:
  1. Any restraint device requiring a key to remove.
  2. Backboard, stretcher or flat used as a "sandwich" restraint.
  3. Devices that restrain a patient's hand(s) and feet behind the patient
  4. Methods or materials applied in a manner that could cause vascular or neurological damage to the patient.
  5. Hard plastic ties ("flex-cuffs"). Aeromedical personnel (only) may use hard plastic restraints provided that appropriate provider agency policies regarding the application and monitoring of the extremities restrained, and the use of alternate

restraint methods (such as pharmaceutical restraints) are in place.

- C. Avoid the prone position whenever possible. As soon as possible after the patient is restrained they will be repositioned onto their side or supine. If necessary, one arm may be placed above the head and the other arm to the side. The patient's legs should be restrained at the ankles in the extended position. Prehospital personnel should ensure that the patient's position does not compromise the patient's airway or compromise the neurological or circulatory system, or does not preclude any necessary medical intervention to protect the patient's airway should vomiting occur.
- D. Restrained extremities shall be evaluated for pulse, movement, sensation and color at least every 15 minutes. The results of each evaluation shall be documented in the Prehospital Patient Record.

EMS Medical Director

SUBJECT: SAN DIEGO COUNTY SPECIAL ASSIGNMENT – FIRELINE  
PARAMEDIC

Date: 7/1/2013

**Authority:** California Health and Safety Code, Division 2.5, Section 1797.204 and 1797.220. California Code of Regulations, Title 22, Division 9, Chapter 4, Sections 100165, 100167. California Fire Service and Rescue Emergency Mutual Aid System, Mutual Aid Plan, (2-2012).

- II. **Purpose:** To establish procedures for Fireline paramedic response from and to agencies within or outside of San Diego County when requested through the statewide Fire and Rescue Mutual Aid System, and to respond to and provide Advanced Life Support (ALS) care on the fireline at wildland fires and on large-scale incidents.

III. **Definitions:**

**FIRESCOPE:** "Firefighting REsources of Southern California Organized for Potential Emergencies". The organization/program of the Cal EMA Advisory Board and the organization/program of FIRESCOPE are to deal with mutual aid, cooperative agreements, and fire/rescue regional policy issues and to advise the Secretary of Cal EMA in matters of statewide importance.

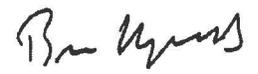

**Fireline Paramedic:** A paramedic who meets all pre-requisites established by FIRESCOPE and is authorized by their department to provide ALS treatment on the fireline.

IV. **Principles:**

- A. When authorized by the Incident Commander or designee at an incident a paramedic may utilize the scope of practice established and approved by the County of San Diego, Emergency Medical Services Branch (County EMS).
- B. These guidelines are not intended to replace existing regional EMS policies or circumvent the established response of EMS in the local County.

EMS Medical Director

SUBJECT: SAN DIEGO COUNTY SPECIAL ASSIGNMENT – FIRELINE  
PARAMEDIC

Date: 7/1/2013

- C. Upon initial request by an agency for the Fireline paramedic support, the sending provider agency shall notify County EMS with the following information: First and last name of the paramedic, the State paramedic number, local accreditation number, and the name and location of the incident where they are being sent. Upon assignment completion, the provider agency shall also notify County EMS of the paramedic's return.
- D. Upon arrival on scene, the Fireline Paramedic is expected to check in and obtain a briefing from the Logistics Section Chief, or the Medical Unit Leader or Incident Commander.

V. **Policy:**

- A. Under the authority of State regulations, a paramedic may render ALS care during emergency operations as long as the following conditions are met:
  - 1. The paramedic is currently licensed by the State of California and is accredited by a EMS Agency within California.
  - 2. The paramedic is currently employed with an ALS provider and possesses the requisite wildland fireline skills and equipment.
  - 3. The paramedic does not exceed the scope of practice or medical control policies as established by their county of origin.
- B. The San Diego County Fireline paramedic shall function within the County EMS Policies, Procedures and Protocols. Paramedics shall follow the current communication failure policy, P-405.
- C. Continuous quality assurance and improvement activities shall be in accordance with current County EMS policies.

- D. Documentation of patient care shall be in accordance with policy S-601, and records will be submitted to County EMS upon completion of assigned duty. All ALS contacts require documentation via an approved method and documentation of all ALS contacts shall be reviewed through the agency's approved QA process.
- E. Any Quality Assurance issues identified in the review process require notification of the County EMS for resolution. It shall be the decision of County EMS if the situation warrants notification of the host local EMS agency (LEMSA).
- F. Minimum ALS inventory required is listed in Part IV. This inventory shall be provided by the paramedic's home agency.
- G. All Controlled medications shall be obtained, secured and inventoried as referenced in S-400.

**VI. Required Fireline Paramedic Inventory**

The following is a list of required equipment for ALS packs.

Hand Held Nebulizer	2
10 Fr Suction catheter	
Manual or portable suction device	
Laryngoscope handle with Miller/McIntosh blades – adult size	
Adult Magill forceps	1
Water soluble lubricant	5 packets
Tube introducer	1
ET tubes, cuffed 6.0, 7.5	1 each

SUBJECT: UTILIZATION OF ATROPINE, DIAZEPAM, MIDAZOLAM &  
2-PAM CL FOR TREATMENT OF NERVE AGENT EXPOSURE

Date: 10/01/08

**Authority:** Health & Safety Code, Division 2.5, Section 1798; California Code of Regulations, Title 22, Division 9, Section 100145 (2); and County of San Diego Multi-casualty Plan, Annex B & Annex D

ii. **Purpose:** To identify the procedure for administration of Atropine, 2-PAM Cl (Pralidoxime), Diazepam and Midazolam for treatment of nerve agent exposure in a suspected terrorist event.

**Definitions:** Chempack Cache – a strategically placed supply of medications used in the treatment of nerve gas exposure.

Metropolitan Medical Response System (MMRS) - systematic medical response to nuclear, biological or chemical acts of terrorism.

Metropolitan Medical Strike Team (MMST) - a designated team specially trained and equipped to manage incident scenes of nuclear, biological or chemical acts of terrorism.

Nerve Agent - a chemical that has biological effects by inhibiting the enzyme acetyl cholinesterase, thus allowing the neurotransmitter acetylcholine to accumulate and over-stimulate organs and the nervous system causing sudden loss of consciousness, seizures, apnea and death. Nerve agents include Tabun (GA), Sarin (GB), Soman (GD) and VX.

Terrorism - the unlawful use of force or violence against persons or property or to coerce a government or civilian population in the furtherance of political or social objectives.

Weapons of Mass Destruction (WMD) - devices specially designed and

Approved:

EMS Medical Director

SUBJECT: UTILIZATION OF ATROPINE, DIAZEPAM, MIDAZOLAM &  
2-PAM CL FOR TREATMENT OF NERVE AGENT EXPOSURE

Date: 10/01/08

utilized by terrorists to cause mass illness, injury, death and hysteria on a population.

IV. Policy:

- A. In a suspected or confirmed terrorist event in response to a release of Nerve Agent when signs and symptoms are exhibited, an autoinjector or injection device of Atropine, 2-PamCl, Diazepam (if available) and Midazolam may be administered. Diazepam autoinjector use requires MMST physician prescription.
- B. The primary use of predeployed medication will be for treatment or self-treatment of public safety personnel. Secondary use will be for treatment of patients.
- C. Atropine and 2-PamCl will be stored and available for use on designated first responder vehicles, hazmat units and deployable cache stockpiles per the MMRS plan.
- D. Only prehospital personnel who have completed County of San Diego approved training specific to use of the Atropine, 2-PamCl and Diazepam autoinjectors are authorized to utilize the Autoinjectors.
- E. If medications are used, and this is in response to a wide-spread incident consider activation of MMST through the EMS Duty Officer and Station M.
- F. All uses of the medication and activation of the MMRS plan will be reviewed by the MMST Program Management Team with summary reports to the Medical Director and County EMS Prehospital Audit Committee.

SUBJECT: EMERGENCY MEDICAL TECHNICIAN SCOPE OF PRACTICE

Date: 9/01/2010

---

- I. **Authority:** Health and Safety Code, Division 2.5, Sections 1797.170 and 1798, 1797.202 and 1797.214.
- II. **Purpose:** To identify the scope of practice of an EMT in San Diego County.
- III. **Policy:**
  - A. During training, while at the scene of an emergency, and during transport of the sick or injured, or during interfacility transfer, a supervised EMT student or certified EMT is authorized to do any of the following:
    1. Evaluate the ill and injured.
    2. Render basic life support, rescue and first aid to patients.
    3. Obtain diagnostic signs, including but not limited to, temperature, blood pressure, pulse, respiratory rate, level of consciousness and pupil status.
    4. Perform cardiopulmonary resuscitation; including the use of mechanical adjuncts to basic cardiopulmonary resuscitation (e.g. use of chest compression devices).
    5. Use the following adjunctive airway breathing aids:
      - a. Oropharyngeal airway.
      - b. Nasopharyngeal airway.
      - c. Suction devices.
      - d. Basic oxygen delivery devices, manual and mechanical ventilating devices designed for prehospital use.
      - e. Perilaryngeal Airway Adjuncts if authorized by the local EMS Agency.
    6. Use various types of stretchers and body immobilization devices.
    7. Provide initial prehospital emergency care for patients with trauma.

8. Administer or assist patient to administer oral glucose or sugar solutions.
  9. Assist patient to take his or her own prescribed Nitroglycerine.
  10. Extricate entrapped persons.
  11. Perform basic field triage.
  12. Transport patients.
  13. Assist paramedics to set up for advanced life support procedures excluding any medications except Normal Saline.
  14. Manage patients within their scope of practice.
- B. A supervised EMT student or certified EMT may monitor and transport patients with peripheral lines delivering IV fluids under the following circumstances:
1. The patient's condition is not critical and is deemed stable by the transferring physician or base hospital physician.
  2. The fluid infusing is a glucose solution or isotonic balanced salt solution, including Ringer's Lactate.
  3. The IV is infusing at a pre-set rate of flow; turn off device only with base hospital direction.
  4. No other advanced life support equipment is attached to the patient that will require monitoring that is outside the scope of practice of the EMT.
  5. The patient has not received additional treatment by paramedics that are outside the scope of practice of the EMT if in the prehospital setting.
- C. A supervised EMT student or certified EMT may monitor and transport patients, as described in B.1. above, with nasogastric (N.G.) tubes, gastrostomy tubes, heparin

SUBJECT: IDENTIFICATION AND TRANSPORTATION  
OF THE TRAUMA CENTER CANDIDATE

Date: 7/1/08

- I. **Authority:** Division 2.5, Health and Safety Code, Sections 1798, 1798.102 and 1798.163.
- II. **Purpose:** To establish criteria for identification of trauma center candidates to be transported to a designated trauma center.
- III. **Definitions:**
  - A. **Adult** – Any trauma candidate known or appearing to be 15 years of age or older.
  - B. **Pediatric** – Any trauma candidate known or appearing to be 14 years of age or less.
- IV. **Policy:**
  - A. The base hospital physician/MICN shall use the following criteria to identify a trauma center candidate and the most appropriate destination for transport (see Trauma Decision Tree Algorithm attachment T-460(a)-01):
    1. **Physiologic Criteria:** Glasgow Coma Score (GCS) < 14, Abnormal Vital Signs, Appearance, Work of Breathing and/or Circulation.
    2. **Anatomic Criteria:** Patients with significant anatomic injury.
    3. **Mechanism of Injury:** Patients sustaining a significant mechanism of injury, which may be indicative of severe underlying injury.
  - B. **Transportation:**
    1. The adult patient who is identified as a trauma candidate will be transported to the most appropriate designated adult trauma center.
    2. The pediatric patient who is identified as a trauma candidate will be

Approved:

  
EMS Medical Director

**SUBJECT: IDENTIFICATION AND TRANSPORTATION  
OF THE TRAUMA CENTER CANDIDATE**

Date: 7/1/08

- transported to the designated pediatric trauma center (Children's).
3. If there is a single ambulance (air/ground) with both a pediatric trauma center candidate AND an adult trauma center candidate, the ambulance should deliver the more critical patient to the appropriate facility. If both patients are critical, or if there are questions, both may be delivered to the designated adult trauma center. Field personnel should consider splitting the team using additional ALS transport vehicles, or air medical resources to transport the pediatric patient to a pediatric designated trauma facility and the adult to the catchment area trauma facility.
  4. If the designated pediatric trauma center is "on bypass", pediatric trauma candidates should be delivered to the Level 1 adult designated trauma facility (UCSD).
- C. The Trauma Decision Tree Algorithm (attached) is an educational guideline to assist in identification of the trauma candidate and does not exclude a patient from identification and transportation to a designated trauma center if in the judgment of the base hospital, it is in the patient's best interest.
- D. All Prehospital Personnel will be trained in trauma triage as part of standard agency/facility orientation curriculum and upon any changes in trauma triage criteria.

SUBJECT: DESTINATION OF ACUTE STROKE PATIENT

Date: 4/01/2011

- I. **Authority:** Health and Safety Code, Sections 1798. and 1798.170.
- II. **Purpose:**  
To identify hospitals that may receive 9-1-1 patients with symptoms of acute stroke.
- III. **Policy:**
  - A. Patients with a documented onset of acute stroke symptoms within the previous 4 hours shall be taken to a hospital with a basic emergency facility that has the following qualifications:
    1. Identification of an individual to coordinate stroke care activities, with appropriate neurology input.
    2. A team to respond to acute stroke patients. A protocol for the use of intravenous thrombolytic medication, including a demonstrated ability to administer.
    3. Ability to obtain and read a CT scan of the head promptly (goal within 45 minutes of order).
    4. Written care protocols for evaluation and care of the acute stroke patient.
    5. Care pathways for stroke patients including, e.g., cardiac rhythm monitoring and blood pressure monitoring and treatment.
    6. In-house rehabilitation services or transfer plan for rehabilitation.
    7. A registry or other method for tracking acute stroke patients as defined above.
    8. Performance measures for stroke care, and a quality improvement system for stroke care.
  - B. Identified hospitals shall note on the prehospital Quality Assurance Network Collector

**SUBJECT: AIR MEDICAL SUPPORT UTILIZATION**

**DATE: 7/01/2011**

- I. **Authority:** Health and Safety Code, Section 1797.204, 1797.206, 1797.218. County of San Diego, Ambulance Ordinance, No 8787
- II. **Purpose:** To establish guidelines for the use of air medical resources within the County of San Diego EMS system.
- III. **Policy:** The County of San Diego EMS system shall include the utilization of authorized air medical resources.
  - A. Any public safety agency on scene or a Base Hospital may call for air medical support.

Considerations for utilization of air medical transport include:

    1. A delay in ground transport could pose an immediate threat to the patient's health and safety,
    2. The difference between ground vs. air transport time and patient condition,
    3. Length of extrication time,
    4. The skill level of the transporting ground unit personnel,
    5. Any specific operational problems precluding effective use of surface transport such as:
      - a. weather
      - b. traffic
      - c. access/egress routes
      - d. local resource capabilities during time unit will be out of service
      - e. multi-casualty incidents.
    6. Utilization of Air Ambulance
      - a. For a patient whose condition warrants rapid transport to medical facility.
      - b. For a patient whose condition requires advanced skills, not available on a paramedic unit.

c. For multiple patient incidents when ground transport resources are inadequate.

7. Utilization of ALS rescue aircraft

a. Utilize for rescue/rendezvous purposes primarily. Patient care shall be transferred after rescue efforts to the provider on scene with the most appropriate level of care required by patient condition.

b. ALS Rescue Aircraft shall only transport patients in coordination and conjunction with Air Ambulance agencies.

8. Utilization of Auxiliary Rescue Aircraft

a. Utilize for rescue/rendezvous purposes only and shall not be for transportation to a medical facility.

b. Patient care shall be transferred after rescue efforts to the provider on scene with the most appropriate level of care required by patient condition.

c. ALS or BLS ground transport providers shall not transport the patient via Auxiliary rescue aircraft to a medical facility.

B. It is solely the requesting party's responsibility to cancel EMS air medical resources.

EMS Medical Director

**SUBJECT: DOCUMENTATION AND TRANSFERRAL OF PREHOSPITAL  
PATIENT CARE INFORMATION**

Date: 3/1/2012

- I. **Authority:** Health & Safety Code, Division 2.5 Section 1797.202, 1797.204, 1798.
- II. **Purpose:** To identify minimum patient documentation standards for transferal of prehospital patient information, to meet legal patient documentation requirements, enhance the continuum of care, and provide for EMS system oversight and management.
- III. **Definitions:**
  - A. Prehospital Patient Record (PPR): That document approved and required by the County and completed either electronically or on paper, that officially records prehospital patient information.
  - B. Patient Response: A response to an individual who meets any of the following criteria:
    1. Is an emergency patient (refer to S-412 for definition) or a patient for whom base hospital contact was made.
    2. Meets obviously dead criteria or who has a DNR or equivalent documentation.
    3. Transported by a Basic Life Support (BLS) or Critical Care Transport (CCT) unit.
- IV. **Policy:**
  - A. A PPR shall be completed for every patient response:
    1. Each agency making patient contact shall complete a PPR which includes personnel from that agency who participated in that patient's care (assessment, treatment, advice, transport). If an agency responds more than one vehicle, the agency may combine information onto a single PPR listing patient care personnel, or submit individual PPRs for each vehicle responding.

PATIENT CARE INFORMATION**

**Date: 3/1/2012**

2. In addition to the above, agencies may submit PPR's for all non-patient responses for statistical analysis by the EMS Branch.
  3. In all incidents involving more than one patient one form will be completed for each patient except when the County's mass casualty plan (Annex D) is activated (See Policy S-140).
- B. The PPR shall be completed in accordance with instructions provided in the County's Prehospital Patient Record Instruction Manual.
- C. When patient care is transferred, field personnel shall give a verbal patient care report to the receiving caregiver. This verbal report will relay pertinent history, vital signs, intervention, and response to treatment such that care may be transferred.
- V. **Data Collection and Evaluation:**
- Data collected by the Emergency Medical Services Branch from the Prehospital Patient Records and base hospital reports shall be stored by the County of San Diego, EMS Branch and used for overall system evaluation.

**SUBJECT: PARAMEDIC BASE HOSPITAL DESIGNATION**

Date: 3/01/2011

**Authority:** Health and Safety Code, Sections 1797.204, 1797.220, 1798.2, 1798.100, 1798.102, and 1798.104.

**II Purpose:** To establish a mechanism for designation of an acute care hospital as a Paramedic Base Hospital.

**III Policy:**

A. To be designated as a Paramedic Base Hospital in San Diego County, the requesting institution must:

1. Comply with California Code of Regulations, Title 22, Division 9, Chapter 4.
2. Enter into a contract with the County of San Diego, Health and Human Services Agency, Emergency Medical Services Branch (County EMS) to perform as a Base Hospital.
3. Comply with the County of San Diego's Base Hospital Contract.

B. County EMS shall review the Contract with each Paramedic Base Hospital every three years. The Base Hospital Contract may be changed, renewed, canceled, or otherwise modified when necessary according to provisions for such in the Contract.

C. County EMS may deny, suspend, or revoke the approval of a Paramedic Base Hospital for failure to comply with applicable policies, procedures, protocols, or regulations in accordance with provisions for such in the Contract.

D. Additional Paramedic Base Hospitals may be added to the Emergency Medical Services System on the basis of demonstrated local need.

Document revised 3/1/2011  
Approved:

Administration

EMS Medical Director

SUBJECT: PARAMEDIC BASE HOSPITAL DESIGNATION

Date: 3/01/2011

1. Demonstrated local need shall include, but not be limited to an assessment of:
  - a. Base Hospital call volumes.
  - b. Base Hospital ALS unit and prehospital personnel assignments.
  - c. Current system effectiveness.
2. County EMS, shall review the need for supplemental Base Hospitals annually.
3. Changes in the EMS System as it relates to the number of Base Hospitals shall be forwarded to the Board of Supervisors for approval.

**IV Procedure:**

- A. County EMS develops a Request for Proposal (RFP) for Base Hospital Designation based on previously identified need and established Base Hospital criteria for submittal to Board of Supervisors for approval.
- B. County EMS evaluates proposals, including independent review process and on-site evaluation.
- C. County EMS recommends to the Board of Supervisors the addition of Base Hospital in accordance with established County Policies and State Regulations.
- D. County EMS shall approve the newly designated Base Hospital's implementation plan. The implementation plan shall include, but is not limited to, the following:
  1. Evidence of a continuous quality improvement process that can incorporate into the Local and State EMS Plans, inclusive of policies, procedures and protocols.

SUBJECT: DESIGNATION OF A PARAMEDIC BASE HOSPITAL

Date: 07/01/05

- I. **Authority:** Division 2.5, Health and Safety Code, Section 1798.100 through 105.
- II. **Purpose:** To establish a mechanism for termination of Paramedic Base Hospital designation.
- III **Policy:**
  - A. Termination for Cause:
    1. County of San Diego, Health and Human Services Agency Emergency Medical Services Branch (EMS Branch) may immediately terminate the Base Hospital Contract if a Base Hospital's license to operate as a general acute care hospital is revoked or suspended.
    2. County of San Diego may immediately suspend its Contract upon written notice if a Base Hospital is in gross default of material obligation under its agreement, which default adversely affects patient care.
    3. For any other material breach of its agreement, County of San Diego may terminate a Base Hospital Contract for cause, if the cause is not cured within 15 days after a written notice specifying the cause is delivered. Such cause shall include, but not be limited to:
      - a. Failure to comply with material terms and conditions of the Base Hospital Contract, after notice of the failure has been given.
      - b. Failure to make available sufficient personnel as required by the Contract.
      - c. Gross misrepresentation or fraud.
      - d. Substantial failure to cooperate with the County's monitoring of Base Hospital

se vices.

- e. Substantial failure or refusal to cooperate with quality assurance and audit
- f. findings and recommendations within a reasonable time.

4. If, within the fifteen (15) days after delivery of the written notice of cause, the material breach has not been cured to the reasonable satisfaction of the County's representative, then the County may terminate the Base Hospital Contract effective as of a date specified in a written notice of termination delivered thereafter.

5. If, after notice of termination of the Base Hospital contract for cause, which is not voluntarily withdrawn as stated above, it is determined for any reason that the Base Hospital was not in default under the provisions of this clause, or that the default was excusable under the provisions of this clause, the rights and obligations of the parties shall be the same as if the notice of termination had been issued pursuant to the termination for convenience agreement.

**B. Termination for Convenience:**

Either the County or the Base Hospital may terminate the Base Hospital contract, upon thirty (30) days written notice to the other party, as a termination for convenience.

**C. Upon the de-designation of a Base Hospital, the local EMS Agency shall be responsible for system redesign decisions.**

COUNTY OF SAN DIEGO EMERGENCY MEDICAL SERVICES  
POLICY/PROCEDURE/PROTOCOL

No. T-703  
Page: 1 of 3

SUBJECT: TRAUMA CARE FUND

Date: 7/01/2008

**Authority:** Health & Safety Code, Division 2.5, Chapter 2.5, Section 1797.198, 1797.199

**Purpose:** To establish a process for the administration and disbursement of fiscal resources in the Trauma Care Fund to trauma centers based upon submission of trauma registry data.

III. **Definitions:**

A. **Trauma Care Fund Inclusion Criteria**

1. ICD-9 code ranging between 800 to 959.9, and
2. Trauma center admission to the hospital, and
3. Evaluated by a trauma or burn surgeon in the emergency department or resuscitation area, or
4. Trauma related death and ICD-9 code ranging between 800 to 959.9, or
5. Interfacility transfer in/out for a higher level of trauma care and ICD-9 code ranging between 800 to 959.9

B. **Trauma Care Fund Exclusion Criteria:**

1. Had isolated burn without penetrating or blunt injury, or
2. Were discharged from the Emergency Department or Trauma resuscitation area, or
3. Trauma consult patients who were not admitted to the trauma service.

IV. **Policy**

- A. The Trauma Care Fund has been established as a means to administer and distribute monies from the State Treasury Trauma Care Fund which have distributed to the Local Emergency Medical Services Agency based upon trauma registry data.
- B. The County shall distribute all monies received into the trauma care fund to eligible trauma centers, except for 1% that will be allocated to the County for administrative costs.
- C. The County will use specified methodology or a competitive grant based system for distribution of the funds based on established criteria.
- D. If additional State Treasury Trauma Fund monies are available after the initial distribution, the County shall submit a request to the EMS Authority

**Approved:**

Administrator

Medical Director

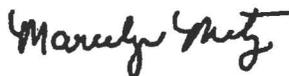

SUBJECT: TRAUMA CARE FUND

Date: 7/01/2008

for additional funding. The County will develop a methodology for distribution of any additional monies received into the Trauma Care Fund. The Trauma Administrators Committee will function as an advisory committee to the County on distribution of the Trauma Care Fund.

- E. An application will be made to the EMS Authority for any additional trauma centers, which are designated within the County after July 1 and before January 1 of any fiscal year in which funds are distributed.
- F. If a designated trauma center de-designates prior to June 30 during a fiscal year in which it has received Trauma Care Funds, the trauma center will pay back to the County a pro rata portion of the funds it has received. The returned monies will then be distributed to the remaining trauma centers. If no designated trauma centers remain within the County, the County will return the monies to the EMS Authority.
- G. A contract will be completed for each designated trauma center receiving monies from the Trauma Care Fund. The contract will include:
  - 1. Trauma registry data transmission to the County for the purposes of Trauma Care Fund distribution.
  - 2. Invoice mechanism will be used for the distribution of allocated trauma care funds..
  - 3. Distribution methodology for any remaining monies in the Trauma Care Fund.
  - 4. Report to the County on how the funds were used to support trauma services.
  - 5. The trauma center shall demonstrate that it is appropriately submitting data to the trauma registry, and participate in audit process by EMS on annual basis.
  - 6. The funds shall not be used to supplant existing funds designated for trauma services, including medical staff coverage or training ordinarily provided by the trauma hospital.
- H. The County will conduct an annual audit of the Trauma Care Fund Contract within two years of a distribution. The audit will include monitoring for compliance with:
  - 1. Data submission requirements

SYSTEM

TRAUMA

Date: 7/1/2007

- I. **Authority:** Health and Safety Code, Division 2.5, Sections 1797.200 and 1798.163
- II. **Purpose:** To define the coordination of trauma care within the San Diego County Emergency Medical Services (EMS) System, and with neighboring jurisdictions.

III. **Policy**

The Health & Human Services Agency, Emergency Medical Services Branch is required to assure coordination of trauma care services and trauma system compliance with state and local regulations. This shall be accomplished through the following System design that assures:

- A Adequate numbers of trauma centers to meet the needs of the population and incidents of trauma in the county.
- B A coordinated response for the provision of advanced life support (ALS) and trauma care services within and around San Diego County through ALS inter-county agreements with neighboring and remote EMS jurisdictions.
- C Active duty military personnel and their dependants involved in traumatic incidents are integrated into the San Diego County Trauma System.
- D. System oversight to assure that patients needing trauma services receive such services, including:
1. Transportation of trauma patients to designated trauma facilities.
  2. Required personnel and resources to provide the appropriate level of service are available at designated trauma facilities.
  - 3 Trauma team activation criteria are defined and provided at designated trauma facilities.
  - 4 The trauma registry is maintained for the purpose of monitoring system operations.
  - 5 A quality monitoring system that assures compliance with all applicable state laws, regulations and local policies, procedures and contractual arrangements.
  6. Public awareness and education on injury prevention.

  - A. The need  
the Health & Human Services Agency, Emergency Medical Services Branch.  
An additional Trauma Center may be added to the Trauma Care System on the basis of demonstrated local need, which shall include, but not be limited to an assessment of:
    1. Prehospital response times
    2. Population shifts/increases
    3. Current system effectiveness
    4. Available prehospital/hospital resources
  - B. The Board of Supervisors shall approve recommendations as to the number of Trauma Centers.
  - C. The designation of an additional trauma center will occur via a competitive bid process.
  - D. Upon designation, each trauma center will pay an initial and thereafter annual fee of \$40,000.00 per year to the County of San Diego, Emergency Medical Services Branch.

**Approved:**

Administrator

Medical Director

**SUBJECT: DESIGNATION OF A TRAUMA CENTER**

Date: 7/1/2008

- E. The designation of a trauma center for purposes of the Emergency Medical Services System of the County of San Diego confers upon the facility, the recognition that it has the commitment, personnel and resources necessary to provide optimum medical care for the trauma patient.
- F. Each trauma center shall meet the criteria set forth in the trauma center agreement and demonstrate a continuous ability and commitment to comply with policies, protocols and procedures developed by the Emergency Medical Services Branch.
- G. Each trauma center shall undergo an annual performance evaluation based upon the trauma center agreement. Results of the evaluation shall be made available to the facility.
- H. All designated trauma centers shall participate in the quality improvement process per the Quality Assurance Manual.

**V Procedure:**

- A. Health & Human Services Agency, Emergency Medical Services Branch develops and distributes a Request for Proposal (RFP) for Trauma Center Designation.
- B. Health & Human Services Agency, Emergency Medical Services Branch evaluates the proposals, including independent review process and on-site evaluation and makes recommendations to the Board of Supervisors.

**Approved:**

SUBJECT: DE-DESIGNATION OF A TRAUMA CENTER

Date: 7/1/2008

- I. **Authority:** Division 2.5, Health and Safety Code, Section 1798.163.
- II. **Purpose:** To establish a policy and procedure for de-designation of a trauma center.

III. **Policy**

A. Termination for Cause:

1. County may immediately terminate its Trauma Center Agreement if a trauma center's license to operate as a general acute care hospital is revoked or suspended.
2. County may immediately suspend its Agreement upon written notice if a trauma center is in gross default of material obligation under its Agreement, which default could adversely affect patient care provided by Contractor.
3. For any other material breach of its agreement, County may terminate a trauma center contract for cause, per the language of the Agreement. Such cause shall include, but not be limited to:
  - a. Failure to comply with material terms and conditions of the trauma center contract, after notice of the failure has been given.
  - b. Failure to make available sufficient, qualified personnel and hospital resources to provide immediate care for trauma patients as required by Section C of the contract.
  - c. Failure to provide timely surgical coverage for trauma patients as required by Section C of the contract.

SUBJECT: DE-DESIGNATION OF A TRAUMA CENTER

Date: 7/1/2008

- d. Failure to provide physicians, surgeons, and other medical, nursing and ancillary staff who possess that degree of skill and learning ordinarily possessed by reputable medical personnel in like or similar localities and under similar circumstances for the provision of trauma center medical services.
- e. Gross misrepresentation or fraud.
- f. Substantial failure to cooperate with the County's monitoring of trauma center services and base hospital services.
- g. Substantial failure or refusal to cooperate with quality assurance and audit findings and recommendations within a reasonable time.

B. Termination for Convenience:

Either the County or the Trauma Center may terminate the trauma center contract, as a termination for convenience per the language of the Agreement.

- C. Upon the de-designation of a trauma center, the local EMS Agency shall be responsible for system redesign decisions.

Approved

Director

SUBJECT: TRAUMA CENTER BYPASS

Date: 7/1/2008

- I. **Authority:** Division 2.5, Health and Safety Code, Section 1798.163.
- II. **Purpose:** To establish criteria for trauma center bypass.
- III. **Policy:**
  - A. The in-house trauma surgeon is responsible for determining bypass status of his/her Trauma Center and will utilize the following criteria for making this determination. The Trauma Center may go on bypass status if one of the following criteria is met:
    - 1 Time (30 minutes) is needed to obtain a backup trauma surgeon, neurosurgeon or anesthesiologist because the primary physician is occupied with another trauma patient.
    - 2 Time (1 hour) is needed to identify a second operating room because the primary room is being utilized and another is not readily available.
    3. Two or more trauma patients with major injuries are being resuscitated in the trauma room (1 hour).
    4. The hospital is closed due to internal disaster
    5. The trauma center is activated during an external disaster (Annex D)
    6. Time (1 hour) the CT scanner is being serviced or is broken. The trauma center can accept penetrating injuries excluding head or neck.
  - B. When a trauma center is on bypass, the patient should be redirected to another trauma center, taking into consideration transport time, the patient's medical needs and the institution's available resources.
  - C. Trauma center personnel will immediately enter both the initiation and reasons/conditions for bypass into the San Diego County Quality Assurance Network Collector system (QCS). At the time of change in condition of trauma center bypass status, trauma center personnel shall update the QCS.
  - D. The trauma center will provide reviews of variations from this policy to the Medical Audit Committee via the EMS Branch as requested for purposes of trauma system quality assurance.
  - E. A trauma center should use its best efforts to limit bypass to less than 5% of the total available hours on a monthly basis.

**Approved:**

Administrator

Medical Director

SUBJECT: RESOURCES FOR TRAUMA TEAM RESPONSE

Date: 7/1/2008

- I. **Authority:** Health & Safety Code, Division 2.5, Section 1798.163
- II. **Purpose:** To identify the trauma center resources, which must be available for trauma team activation

III. **Definitions:**

Immediately Available – means unencumbered by conflicting duties or responsibilities; responding when notified without delay; and being within the specified resuscitation area of the trauma center when the patient is delivered.

Promptly Available – means responding without delay when notified and requested to respond to the hospital; and being physically available to the specified area of the trauma center within a period of time that is medically prudent (within 30 minutes, 24 hours per day, 7 days per week).

IV. **Policy**

- A. The following resources shall be available for trauma center candidates requiring full trauma team activation:

1. Immediately Available:

- a. Qualified Trauma Surgeon
- b. Emergency Department Physician
- c. Trauma Resuscitation Nurse responsible for the supervision of nursing care during the resuscitation phase
- d. Registered Nurse currently trained in trauma patient care to perform care duties, scribe, etc
- e. Respiratory Therapy

Approved:

**SUBJECT: RESOURCES FOR TRAUMA TEAM RESPONSE**

Date: 7/1/2008

- f. Radiology
- g. Laboratory
- h. Operating Room
- i. Pharmacy

2. Promptly Available:

Trauma Consultants as requested by the Trauma Surgeon

**B.** Trauma center candidates not requiring full trauma team activation require, at a minimum, the following resources with a physical evaluation by the Trauma Surgeon:

- 1. Qualified Trauma Surgeon
- 2. Emergency Department Physician
- 3. Registered Nurse currently trained in trauma patient care.

**C.** The use of a tiered trauma response is encouraged in an effort to conserve resources and reduce the cost of trauma care.

**D.** All departments involved in the delivery of trauma care must have equipment and supplies for all ages of patients as approved by the Medical Director of the Service in collaboration with the Trauma Medical Director.

Medical Director

SUBJECT: TRAUMA SERVICE CONSULTATION FOR THE COMMUNITY Date: 12/01/2007

**Authority:** Health & Safety Code, Division 2.5, Health and Safety Code, Section 1798.163.

**Purpose:** To establish the criteria for trauma consultation with community physicians.

III **Policy**

A San Diego County Trauma Center shall provide:

- A. Medical consults with community physicians and providers regarding the immediate management of trauma patients.
- B. Trauma care information, education and follow-up to other medical care providers in their service area on a routine basis. The Trauma Program Medical Director or designee shall meet with satellite hospital personnel for this purpose when necessary.

SUBJECT: TRANSFER OF STABLE TRAUMA SERVICE  
HEALTH PLAN MEMBERS

Date: 12/01/2007

**Authority:** Health and Safety Code, Division 2.5, Sections 1798.163 and  
1798.172

**Purpose:** To establish guidelines for transfer of stable trauma patients to their  
health plan's facility.

**Policy**

- A. It is the intent of the trauma system to transfer stable trauma patients to their health plan provider's facility when requested, as long as such transfer is medically prudent and in the best interest of the patient. All requests/discussions concerning transfer status of the patients will be made physician to physician. Transfer agreement will be based on patient condition and appropriateness of receiving facility resources.
- B. Unless otherwise decided by the trauma surgeon of record, no patient requiring acute care admission will be transferred to a hospital that is not a designated trauma center in less than twenty-four hours.
- C. The decision as to transfer of post-operative, intensive care or other acute care patients lies solely with the trauma surgeon of record.
- D. Hospitals which have accepted transfer of a trauma patient from a designated trauma center shall:
  - 1. Provide the information required to complete the trauma registry on that patient to the transferring trauma center.
  - 2. Participate in system and trauma center quality improvement activities for that patient who has been transferred.

SUBJECT: TRAUMA CENTER INJURY PREVENTION ACTIVITIES

Date: 7/1/2007

- I. **Authority:** Health & Safety Code, Division 2.5 Chapter 6 Section 1798.163
- II. **Purpose:** To establish minimum standards for County of San Diego Trauma System's injury prevention activities/programs.

III. **Policy:**

The Health & Human Services, Emergency Medical Services (EMS) Branch will provide epidemiological injury information in support of efforts by trauma centers, injury prevention coalitions and public health initiatives to implement targeted injury prevention goals. The County of San Diego's Trauma System injury prevention program includes:

- A. Each designated trauma center will participate in injury prevention activities.
- B. Prevention activities may be autonomous or collaborative with existing organizations/agencies and/or other designated trauma centers (individually or as a system).
- C. Injury prevention topics will be based upon
1. Identification of injury trends through utilization of the trauma registry
  2. Community mortality data provided by the Medical Examiners Office.
  3. Community identified injury risks (may be seasonal).
- D. Prevention activities/programs will be based upon identified need and includes objective goals and outcome evaluation.
- E. EMS will develop and publish epidemiological data on an annual basis, providing injury information and the etiology of injury based on trauma registry and other data sources.

SUBJECT: DOCUMENTATION AND TRANSFERRAL OF PREHOSPITAL  
PATIENT CARE INFORMATION

Date: 3/1/2012

- I. **Authority:** Health & Safety Code, Division 2.5 Section 1797.202, 1797.204, 1798.
- II. **Purpose:** To identify minimum patient documentation standards for transferal of prehospital patient information, to meet legal patient documentation requirements, enhance the continuum of care, and provide for EMS system oversight and management.
- III. **Definitions:**
  - A. Prehospital Patient Record (PPR): That document approved and required by the County and completed either electronically or on paper, that officially records prehospital patient information.
  - B. Patient Response: A response to an individual who meets any of the following criteria:
    1. Is an emergency patient (refer to S-412 for definition) or a patient for whom base hospital contact was made.
    2. Meets obviously dead criteria or who has a DNR or equivalent documentation.
    3. Transported by a Basic Life Support (BLS) or Critical Care Transport (CCT) unit.
- IV. **Policy:**
  - A. A PPR shall be completed for every patient response:
    1. Each agency making patient contact shall complete a PPR which includes personnel from that agency who participated in that patient's care (assessment, treatment, advice, transport). If an agency responds more than one vehicle, the agency may combine information onto a single PPR listing patient care personnel, or submit individual PPRs for each vehicle responding.

REUSABLE EQUIPMENT

Date: 7/1/07

- I. **Authority:** Health and Safety Code, Division 2.5, Section 1797.204.
- II. **Purpose:** To secure and return reusable equipment to the prehospital care provider.
- III. **Policy:**
  - A. All participants in the EMS system shall facilitate the return of properly labeled equipment to the owner agency.
  - B. All agencies in the EMS system agree to buy and stock enough equipment so as not to be dependent upon another agency for immediate item replacement/exchange when faced with normal average workloads.
- IV. **Procedure:**
  - A. Prehospital Agency Responsibilities:
    1. Agencies shall permanently label all reusable equipment in the following manner:
      - a. Agency name and telephone number.
      - b. "Return to Emergency Department." (optional)
    2. Agencies shall make their best effort to recover equipment within seven (7) days.
    3. Prehospital personnel shall log equipment as required by their agency.
  - B. Hospital Responsibilities:
    1. Hospitals shall provide a logbook or similar mechanism to assist in keeping track of equipment left in the hospital.
    2. Hospitals shall be responsible for security on reusable prehospital equipment left in the hospital for up to seven (7) days, when the provider agency has clearly labeled equipment with agency name and telephone number.
    3. Hospitals shall not release equipment to any agency but the owner agency, unless

SUBJECT: ALTERNATE PARAMEDIC SERVICE PROVIDER  
APPLICATION/DESIGNATION

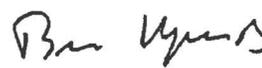

Date: 7/01/2010

**Authority:** Health and Safety Code, Division 2.5, Sections 1797.201, 1797.204, 1797.218, and 1797.224.

- II. **Purpose:** To encourage the establishment of new advanced life support (ALS) services in low population density areas that have demonstrated hardship in establishing services at the community standard of care.
- III. **Definitions:**
- A. Alternate Advanced Life Support (ALS): ALS provided in low population density areas utilizing a Paramedic staffing option other than the current community standard in San Diego County.
  - B. Community Standard: two (2) -paramedics on each advanced life support unit with twenty-four (24) hour per day coverage and a response time of ten (10) minutes or less (urban) and fifteen (15) minutes or less (rural) 90% of the time.
  - C. Low population density area: service area wherein a population does not exceed 750 residents per square mile and is not less than 100 residents per square mile, or where sufficient non-resident or other usage can be demonstrated to justify the service.
  - D. Hardship is one or more of the following situations:
    - 1. Financial hardship such that service at the community standard of care is impossible.
    - 2. A local system or organizational hardship such that:
      - a. Service cannot be made generally available throughout the service area within

established response time guidelines utilizing a community standard service configuration; or

- b. Service cannot be made available through eligible provider at the community standard without compromising other public safety mission requirements; or
- c. No new provider can or will enter the service area and provide service at the community standard.

**IV. Procedure:**

A. Application Process:

1. Submit a letter of intent to establish ALS services, in writing, to the County of San Diego Health and Human Services Agency, EMS Branch.
2. Conduct a competitive bid process pursuant to Health and Safety Code, Division 2.5, Section 1797.224, and in accordance with local policies.
3. Following a competitive bid process, submit to the EMS Branch:
  - a. Copy of all proposals or responses received.
  - b. Statement of need of ALS services in defined area.
  - c. Data which supports a claim of hardship in establishing ALS services in accordance with established current community standards.
  - d. Description of alternate ALS model proposed.
  - e. Description of financial viability for alternate program.
  - f. Other special issues unique to the community which may directly or indirectly

impact the ability to provide ALS services at the community standard of care.

4. Within 90 days of receipt of above documents, the EMS Branch will:
  - a. Review all documents.
  - b. Conduct a community survey (on an as needed basis).
  - c. Make a determination of the need for alternate ALS to the specified community.
  - d. Notify the applicant(s) of the final decision and any recommendations or suggestions for implementation.

B. Designation Process:

1. To be designated as an alternate Paramedic service provider in San Diego County, a local jurisdiction (a local jurisdiction is the County, a city, water district, fire protection district, or county service area), which has been approved by the County of San Diego to provide alternate ALS services must:
  - a. Comply with California Code of Regulations, Title 22, Division 9, Chapter 4.
  - b. Enter into an Agreement with the County of San Diego, Health and Human Services Agency, Emergency Medical Services to perform as an alternate Paramedic service provider agency.
  - c. Comply with all responsibilities of the contractor as outlined in Exhibit A.
2. The County of San Diego, Department of Health, EMS Branch shall review the Agreement with the alternate Paramedic service provider every two (2) years. The

## EXHIBIT A

### RESPONSIBILITIES OF THE CONTRACTOR

1. To provide Paramedic Services within the boundaries of its local jurisdiction, and within adjoining areas as specified by Agreements with adjoining Paramedic Service Providers.
2. To participate in the Advanced Life Support (ALS) Program in accordance with Title 22 of the California Code of Regulations, Division 9, Chapter 4.
3. To develop and operate Paramedic Services in accordance with California Code of Regulations, Title 22, Division 9, Chapter 4. The **CONTRACTOR** may subcontract all or a portion of these services. However, the **CONTRACTOR** is responsible for insuring that any and all subcontractors provide services in accordance with California Code of Regulations, Title 22, Division 9, Chapter 4.
4. To maintain and operate at least one fully equipped, supplied and staffed Paramedic Unit seven days a week, twenty-four (24) hours a day, in accordance with the Policies, Procedures and Protocols established by San Diego County.
5. To staff each unit with at least one (1) Paramedic at all times. For the purpose of this Agreement, a Paramedic is an individual certified in the State of California as a Paramedic, and accredited by the County of San Diego Emergency Medical Services Medical Director to operate as a Paramedic in San Diego County, pursuant to Section 1797 et seq. of the Health and Safety Code.
6. To staff each unit with at least one (1) EMT at all times. For the purpose of this Agreement, an EMT is an individual certified in the State of California to operate as an EMT, pursuant to Section 1797 et seq. of the Health and Safety Code.

7. To provide the citizens of the local jurisdiction with information on the 9-1-1 system and where and how to obtain Cardiopulmonary Resuscitation (CPR) training.
8. To ensure that all Paramedic personnel comply with the continuous accreditation requirements of the **COUNTY**.
9. To provide suitable facilities for housing the Paramedic unit(s).
10. To cooperate with the approved Paramedic training programs in providing field internship locations for paramedic interns.
11. To develop mutual aid and/or call-up plans for providing Paramedic Service in an area in the event the ambulance assigned to the area is not operable, or is away from the area for other reasons. Automatic response plans may be developed by the local jurisdiction with concurrence of adjoining Paramedic services.
12. To notify the Chief, Division of Emergency Medical Services, or designee, immediately whenever any condition exists which adversely affects the local jurisdiction's ability to meet the conditions of this Agreement.
13. To appoint an Agency Paramedic Coordinator, to serve as liaison between the Agency, the County, base hospitals, receiving hospitals, BLS provider agencies and public safety agencies operating within the service area.
14. To provide orientation for first responder agencies to advanced life support functions and role.
15. To provide for a planned maximum response time of no more than fifteen (15) minutes in rural areas and no more than ten (10) minutes in urban areas.
16. To participate in local Emergency Medical Service planning activities, including disaster management.

17. To comply with all applicable State statutes and regulations and County standards, policies, procedures and protocols, including a mechanism to assure compliance.
18. To implement and maintain a Quality Assurance program.
19. To take immediate corrective action where there is a failure to meet "Responsibilities of the **CONTRACTOR**".

COUNTY OF SAN DIEGO EMERGENCY MEDICAL SERVICES  
POLICY/PROCEDURE/PROTOCOL

No. P-805  
Page: 1 of 3

SUBJECT: ADVANCED LIFE SUPPORT FIRST RESPONDER UNIT

Date: 7/01/2010

- I. **Authority:** Health and Safety Code, Division 2.5, Sections 1797.204, 1797.218, and 1797.220.
- II. **Purpose:** To offer a mechanism for designated paramedic service agencies in San Diego County to provide advanced life support (ALS) assessment and initial treatment to patients by paramedics prior to the arrival of a transporting unit.

**Definitions:**

- A. An ALS first responder unit is defined as a non-transporting emergency response vehicle utilized by a designated paramedic service provider which is staffed by at least one (1) paramedic and one (1) EMT, and which complies with the operational criteria outlined in this policy.
- B. An ALS transporting unit is defined as an emergency response vehicle utilized for patient transport which is staffed with at least one (1) paramedic and one (1) EMT and which complies with the operational criteria as outlined in County of San Diego Emergency Medical Services (EMS) policy P-801.
- C. A BLS transporting unit is defined as a response vehicle utilized for emergent or non-emergent patient transport which is staffed with two (2) EMTs and which complies with the operational criteria as outlined in County of San Diego EMS policy B-833.

**IV Policy:**

- A. Staffing for an ALS first responder unit in San Diego County shall include at a minimum one (1) paramedic and one (1) EMT. ALS first responder units shall be equipped with standardized inventory as specified in County of San Diego EMS policy P-806.
- B. The closest/most appropriate, available ALS transporting unit shall be dispatched simultaneously with the ALS first responder unit if the response meets established

criteria for dispatch of an ALS unit.

- C. If ALS care is initiated and an ALS transporting unit remains unavailable, the ALS first responder unit paramedic shall accompany the patient to the hospital in a BLS transporting unit.
- D. Each ALS first responder unit will be assigned to a Base Hospital for medical control, by the local EMS agency.
- E. Approved service provider agencies shall have a current ALS service provider agreement with the County of San Diego EMS.

**V Procedure:**

**A. Application/Approval Process:**

Application for use of ALS first responder unit(s) shall be submitted in writing to the Medical Director, County of San Diego EMS and shall include:

1. Identification, location, and average response times of the transporting ALS unit assigned to the geographical area.
2. Identification, location, and average response times of the proposed ALS first responder unit(s).
3. Description of the proposed ALS first responder unit staffing, to include level(s) of training.
4. A statement indicating what optional equipment (if any) will be included in the inventory of the ALS first responder unit.

**B. Operational Requirements:**

When the ALS first responder unit arrives on scene prior to the transporting ALS unit, the ALS First Responder paramedic shall:

SUBJECT ADVANCED EMT SERVICE PROVIDER DESIGNATION

Date: 7/01/10

- I. **Authority:** Health and Safety Code, Division 2.5, Sections 1797.204, 1797.218, 1797.220 and 1798.
- II. **Purpose:** To approve Advanced Emergency Medical Technician (AEMT) service agencies in the San Diego County.
- III **Definitions:**
  - A. An AEMT unit is defined as an AEMT emergency response vehicle utilized by a designated AEMT service provider which is staffed by at least one (1) A-EMT.
- IV **Policy:**
  - A. AEMT units shall be equipped with standardized EMT service provider inventory as specified in the County of San Diego EMS policies. Units shall also be equipped with approved AEMT equipment and supplies.
  - B. The closest/most appropriate, available ALS transporting unit shall be dispatched simultaneously with the AEMT unit if the response meets established criteria for dispatch of an ALS unit.
  - C. If (AEMT) care is initiated and there is a delay in response of an ALS transporting unit, the AEMT shall proceed with transport of the patient to the hospital if it is medically in the best interest of the patient
  - D. Each AEMT unit will be assigned to a Base Hospital for medical control, by the local EMS agency.
  - E. Approved AEMT service provider agencies shall have a current service provider agreement with the County of San Diego EMS Branch.

SUBJECT: AMBULANCE PROVIDER'S PERMIT APPLICANT PROCESS

Date: 07/01/15

- I. **Authority:** California Vehicle Code, Section 2512(c); Health and Safety Code, Division 2 5, Section 1797.204.
- II. **Purpose:** To establish the process by which agencies desiring to provide ambulance service in San Diego County would obtain an Ambulance Provider's Permit.
- III. **Procedure:**
  - A. **Application Process, Privately Owned Companies:**
    1. Submit a completed application, which contains the following information:
      - a. Applicant's name and business address.
      - b. The name(s) under which the applicant has engaged, does, or proposes to engage in ambulance service.
      - c. The names and addresses of the applicant, registered owner(s), partner(s), officer(s), director(s) and shareholders who hold or control 10% or more of the stock of the applicant.
      - d. A statement of fact and good faith (one from principal owner and one from designated physician medical director if CCT service is provided).
      - e. A copy of the designated physician medical director's State of California physician's Surgeon's License (only from CCT Provider).
      - f. A statement of legal history, one each from the applicant, all registered owner(s), officer(s), director(s), and controlling shareholder(s), including criminal convictions and civil judgments.
      - g. An application for a criminal history report, one from the applicant, all registered owner(s), officer(s), and controlling shareholder(s).
      - h. A resume specifying the education, training, and experience of the applicant in the care and transportation of patients.
      - i. A description of the applicant's training and orientation programs for ambulance attendants, dispatchers, ambulance drivers, and maintenance staff.
      - j. Evidence of insurance coverage as required by sections 610.706, 610.707.
      - k. A list of the full names and California physician and surgeon license numbers of all other physicians employed by provider.
      - l. A list of the full names and California Registered Nurse license numbers including expiration dates of all registered nurses employed by the provider.

Approved:

SUBJECT: AMBULANCE PROVIDER'S PERMIT APPLICANT PROCESS

Date: 07/01/15

- 
- m. A description of the locations from which ambulance services will be offered, noting the hours of operation.
  - n. A description of the applicant's program for maintenance of the vehicles.
  - o. A description of each ambulance including: the make, model, year of manufacture, mileage and vehicle identification number.
  - p. A list of the full names of all ambulance drivers and attendants which identifies each persons' EMT certification number or paramedic license number and issuing jurisdiction, CPR Certification, California Driver's License, and Ambulance Driver's Certificate, and expiration date of each.
  - q. For applicants that are privately owned ground ambulance companies, an affirmation that the applicant possesses and maintains currently valid California Highway Patrol Inspection Reports for each vehicle listed in the application, and a copy of the license issued by the Commissioner of the California Highway Patrol (in accordance with Section 2501 of the California Vehicle Code).
  - r. The applicant may be required to submit such other information, as the Permit Officer deems necessary for determination of compliance with the Division.
  - s. Proof of financial viability with ability to operate for a minimum of 6 months with profit-loss information provided and proof of current tax payment status.
- 2. Agency and inspection fees shall be submitted to the Permit Officer/EMS Chief at the time of application.
  - 3. Within thirty (30) days of receipt of an application, the Permit Officer/EMS Chief shall review all materials submitted and make a determination regarding the issuance of the applied for permit, pending required inspections.
- B. Application Process. Not for Profit/Volunteer
- 1. Submit a completed application as identified in Section A.1 above.
  - 2. Not for profit/volunteer agencies are exempted from the fee requirements identified in Section A.2 above.
- C. Application Process. Governmental Agencies
- Governmental agencies which operate an ambulance twenty-four (24) hours per day with full time paid employees are exempted from the application and fee requirements identified in this policy.
- D. Application Process. Renewal. Privately Owned Companies and Not for Profit/Volunteer

EMS Medical Director

**SUBJECT: AMBULANCE PROVIDER'S PERMIT APPLICANT PROCESS**

Date: 07/01/15

1. Submit a completed application, which verifies the information identified in Section A.1 (a-n).
2. Submit appropriate, required fees.
3. Upon approval of the renewal application, the Permit Officer EMS Chief shall schedule an inspection of all agency service units.

**E. Denial Revocation of Permit and Appeal Process**

1. Any false or misleading statements made by the principals, in the application, reports or other documents filed with the Permit Officer EMS Chief.
2. The applicant is not the legal owner or operator of the service.
3. The applicant was previously the holder of a permit that has been suspended.
4. The applicant acted in the capacity of a permitted person or firm under this Division without having a valid permit
5. The applicant pled guilty, or was found guilty of a felony or crime involving moral turpitude.
6. The applicant violated any provisions of this ordinance.

**Appeal Process**

- a. The Permit Officer EMS Chief shall notify the applicant in writing of the denial within 30 days of the receipt of the completed application.
- b. The denial shall be written and sent to the last known address of the applicant, or hand delivered to the applicant, and shall set forth the reasons for the denial or revocation.
- c. The applicant may request a hearing from the Permit Officer EMS Chief by:
  - 1) The request will be in writing
  - 2) The request must be filed with the Permit Officer EMS Chief within ten (10) days of the hand delivery of the denial, or fifteen (15) days of mail delivery
- d. The Permit Officer EMS Chief must schedule the hearing no later than twenty (20) days after the receipt of the request from the agency.
- e. The decision of the Permit Officer EMS Chief is final.

---

Approved:

  
Administration

  
EMS Medical Director

SUBJECT: PERMIT APPEAL PROCESS

Date: 7/1/15

---

- I. **Authority:** San Diego County Code of regulatory Ordinances, Division 10 chapter 4.
- II. **Purpose:** To establish the procedure for the resolution of appeals regarding either the denial of issuance of an ambulance permit, or the suspension/revocation of an existing ambulance Permit.

III. **Procedure:**

A. **Denial of Issuance of Permit:**

Whenever the Permit Officer denies an application for a Permit, the applicant may request a hearing on the denial.

1. All requests for a hearing shall be submitted in writing to the Permit Officer within ten (10) days of personal delivery of notice of denial of application. If the notice of denial is mailed, applicant has an additional five (5) days to file a hearing request.
2. A hearing shall be held not more than twenty (20) days from the date of receipt of the applicant's written request for a hearing.
3. The applicant shall have the burden of proof during the hearing.
4. Once the application is denied, re-application will not be considered until after a minimum of twelve (12) months or three hundred and sixty five days after the date of the initial denial.
5. The applicant shall be notified in writing of the decision.
6. The applicant may appeal the denial after the hearing with the Permit Officer.

B. **Suspension/Revocation of Permit:**

Whenever the Permit Officer suspends or revokes a current permit, the permittee may request a hearing on the suspension or revocation.

---

Approved:

Administration

Medical Director

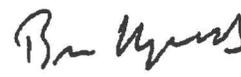

**SUBJECT: PERMIT APPEAL PROCESS**

**Date: 7/1/15**

1. All requests for an appeal hearing shall be submitted to the Clerk of the Board of Supervisors in writing within ten (10) days of notification of suspension or revocation.
2. The Clerk of the board of Supervisors shall assign the appeal to a Hearing Officer selected by the Clerk of the Board of Supervisors on a rotating basis from a list of qualified Hearing Officers approved by the Board of Supervisors.
3. A Hearing Officer shall schedule a date for the hearing within ten (10) days after the date of assignment of the appeal by the Clerk of the Board of Supervisors.
4. The hearing shall be held no more than thirty (30) days from the time of assignment by the Clerk of the board of Supervisors to the Hearing Officer.
5. The hearing Officer is authorized to issue subpoenas, to administer oaths and to conduct the hearing on the appeal.
6. The Permit Officer and the appellant may present evidence relevant to the denial, suspension, revocation, or other decision of the Permit Officer.
7. The Hearing Officer shall receive evidence and shall rule on the admissibility of evidence and on questions of law.
8. At the hearing any person may present evidence in opposition to, or in support of appellant's case.
9. The Hearing Officer shall issue a decision on all appeals at the close of the hearing.
10. The Hearing Officer shall within five (5) days of the announcement of a decision file with the clerk of the Board of Supervisors written findings of fact and conclusion of law and the decision.
11. The decision of the Hearing Officer is final when filed with the Clerk of the Board of Supervisors.

Approved:

  
Administration

  
Medical Director

SUBJECT: PERMIT APPEAL PROCESS

Date: 7/1/15

---

12. The effect of a decision to suspend or revoke a permit shall be stayed while an appeal to the Board of Supervisors is pending or until the time for filing such appeal has expired.

C. Exception to Hearing Procedure:

When in the opinion of the Permit Officer, there is a clear and immediate threat to the Safety and protection of the public; the Permit Officer may suspend a permit without a hearing.

1. The Permit Officer shall prepare a written notice of suspension.
2. The notice of suspension shall be either sent by certified mail or be personally delivered.
3. The Permittee may request a hearing from the Permit Officer within five (5) days of receipt of the notice.
4. The hearing shall be held not more than fifteen (15) days from the date of receipt of the request.
5. Following the hearing, the Permittee affected may appeal the decision in the manner indicated in Section III. B., (1-11) above.
6. The decision shall not be stayed during pendency of such hearing or appeal.

Approved:

Administration

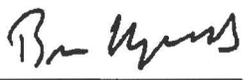

Medical Director

- I. **Authority:** California Vehicle Code, Section 2512(c); Health and Safety Code, Division 2.5, Section 1797.204.
- II. **Purpose:** To define the minimum requirements for ambulance vehicles in San Diego County in the areas of vehicle design, safety equipment, and emergency equipment and supplies.
- III. **Policy:** Every ambulance intended for operation in San Diego County shall meet the following minimum requirements:
  - A. All ambulances permitted for use in San Diego County shall conform to Federal Specification KKK-A-1822-C as promulgated by the U.S. General Services Administration with the following exceptions:
    1. Critical Care Units and Specialty Vehicles may be exempt from Section 3.4.11 "Vehicle Physical Dimension Requirements", and Section 3.5 "Vehicle Weight Ratings and Payload" and Section 3.10.8 "Doors", provided that it can be demonstrated to the Permit Officer that such exemption does not compromise safety.
    2. Emergency Lighting.  
Ambulances permitted for use in San Diego County are exempted from Section 3 8 2 1 "Emergency Lighting Configuration" and Section 3 8 2 3 "Switching Arrangements" They will, however comply with minimum requirements of the California Vehicle Code (CVC) and Regulations promulgated by the State of California and administered by the California Highway Patrol (CHP).
    3. Color, Paint and Finish.  
Ambulances permitted to operate in San Diego County are exempt from Section 3.16 2 "Color, Paint and Finish" and Section 3 16 2 1 'Color Standards and Tolerances"

Document revised 7/1/2015

Approved:

  
Administration

  
EMS Medical Director

provided, however, they must comply with California law.

**4. Emblems and Markings.**

Ambulances permitted to operate in San Diego County are exempt from Section 3.16.4 "Emblems and Markings", provided, however, they comply with California law and regulations.

**5. Standard Equipment.**

Ambulances permitted to operate in San Diego County are exempt from Section 3.15.2 "Standard Mandatory Miscellaneous Equipment", Section 3.15.3 "Optional Equipment", and Section 3.15.4 "Medical Surgical, and Biomedical Equipment", provided they comply with California regulation and local policy.

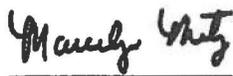

**6. Exemptions.**

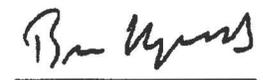

The Permit Officer is authorized to grant additional exemptions from Federal KKK-A-1822-C specifications in the following situations

- a Declared disaster and disaster recovery periods**
- b Ambulances in service prior to the effective date of this policy will be granted an exemption for the service life of the ambulance upon submission of documentation that the manufacturer of the ambulance carries at least \$1,000,000 product liability insurance.**
- c Specialty Vehicles such as neonatal transfer units, multiple casualty units and special terrain vehicles may be exempted from specific Sections KKK-A-1822-C provided that the exemptions are shown to be in the interest of patient care and do not unnecessarily compromise safety Such vehicles may not be placed in service**

**Document revised 7/1/2015**

**Approved:**

  
**Administration**

  
**EMS Medical Director**

until a permit is issued.

**B. Required Documentation:**

1. A current and valid San Diego County ambulance permit (or copy) in the driver compartment.
2. A current and valid San Diego County ambulance permit decal affixed to the lower portion right rear of the ambulance.
3. Proof of passage of the annual inspection performed by the CHP within the preceding twelve (12) months.
4. Vehicle registration and proof of insurance as required by law.

**C. Emergency Care Equipment and Supplies.**

The following items shall be carried on all Ground ambulances as a minimum:

1. Essential equipment and supplies as required by the California Code of Regulations, Title 13, Section 1103.2(a) 1-19 (Attachment A) and County of San Diego EMS Policy S-103..
2. Equipment necessary to comply with California Occupational Safety and Health Administration (CAL-OSHA) standards for exposure to blood borne pathogens and aerosol transmissible diseases

EMS Medical Director

COUNTY OF SAN DIEGO EMERGENCY MEDICAL SERVICES  
POLICY/PROCEDURE/PROTOCOL

No. : S-835  
Page: 1 of 3

SUBJECT: REQUIREMENTS FOR GROUND CRITICAL CARE  
TRANSPORT SERVICES

Date: 07/01/07

I. **Authority:** Health and Safety Code, Sections 1797.220, 1797.222, 1798.172, San Diego County Code of Regulatory Ordinances, Division 10, Chapter 6.

II. **Purpose:** To identify minimum staffing and equipment requirements for ground critical care transport (CCT) services in San Diego County.

III. **Definitions:**

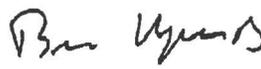

- A. CCT Service Provider: Any agency that routinely provides for hire the ambulance, personnel and/or equipment utilized to provide CCT services.
- B. CCT Service: The provision of non 9-1-1 ambulance services utilizing personnel, equipment, medications that provide a higher level of care than that of an ambulance staffed by emergency medical technicians (EMT-B or EMT-P) alone.
- C. Ground CCT vehicle – ground ambulance providing non 9-1-1 patient care and transport service that is staffed by a registered nurse or physician in addition to EMT-B's.

IV. **Procedure:**

- A. Ground CCT ambulances shall comply with all requirements established for BLS ambulances.
- B. Each CCT provider agency shall designate a medical director.
  - 1. The medical director shall maintain a valid license as a physician in California.
  - 2. The medical director shall be responsible for all medical protocols and procedures followed by the CCT provider agency's staff.

Approved:

  
Administrator

  
EMS Medical Director

COUNTY OF SAN DIEGO EMERGENCY MEDICAL SERVICES  
POLICY/PROCEDURE/PROTOCOL

No. : S-836  
Page: 2 of 3

SUBJECT: REQUIREMENTS FOR GROUND CRITICAL CARE  
TRANSPORT SERVICES

Date: 07/01/07

3. The medical director for the CCT service shall ensure that a comprehensive, written quality assurance (QA)/quality improvement (QI) program is in place to evaluate the medical/nursing care provided to all patients. This QA/QI program shall integrate with the countywide prehospital QA/QI program. Any incidents that result in a negative patient outcome shall be reported to the San Diego County EMS Medical Director within 10 working days.
  4. The CCT provider agency medical director shall ensure that all nursing/medical staff on a CCT collectively possess the skills and knowledge to provide a level of care commensurate with the specific and anticipated needs of the patient. The CCT provider agency medical director shall be accountable for all medical procedures performed on board the CCT by agency staff.
- C. Staffing – CCT providers agencies shall adopt policies requiring the following:
1. All nursing/medical personnel shall maintain current appropriate licensure/certification.
  2. CCT provider agencies shall routinely staff all CCT vehicles with at least one (1) registered nurse or physician and two (2) certified or licensed patient care attendants. Two medical personnel shall remain with the patient during the transport.
  3. The nurse shall meet the following qualifications:
    - a. Possess a current California R.N. license.

POLICY/PROCEDURE/PROTOCOL

No. : S-836  
Page: 3 of 3

SUBJECT: REQUIREMENTS FOR GROUND CRITICAL CARE  
TRANSPORT SERVICES

Date: 07/01/07

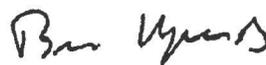

- b. Demonstrate clinical competence in resuscitation skills appropriate for age of transported patients (e.g. ACLS, PALS, PEPP, ENPC, NRP).
  - c. Possess two (2) years recent experience in critical care setting (ICU/CCU/ED/CCT).
  - d. Complete a formal orientation program to the CCT provider agency's policies, equipment, medical protocols.
4. A CCT provider agency shall provide service that is available 24 hours a day/7 days a week.
5. Nothing in this policy is intended to limit a CCT provider agency from utilizing or maintaining additional staff on board the CCT.

D. Equipment/Medication

- 1. All CCT ambulances providing service shall carry, as a minimum, the equipment/medication items listed in S-836.
- 2. Agencies which provide pediatric and/or neonatal transport shall carry the pediatric inventory listed in S-836 (denoted by italics).
- 3. CCT providers shall ensure that transport personnel are thoroughly trained in the safe operation of all patient care equipment utilized on board the CCT.
- 4. Nothing in this policy is intended to limit a CCT provider agency from utilizing or maintaining additional equipment or medications on board the CCT, as long as patient care personnel are fully trained on the safe and effective use of that equipment or medication.

SUBJECT: **NON-EMERGENCY MEDICAL TRANSPORT WHEELCHAIR/GURNEY  
VAN PROVIDER'S PERMIT APPLICATION PROCESS**

Date: 7/01/2015

- 
- I. **Authority:** San Diego County Code of Regulatory Ordinances, Division 10, Chapter 3.
- II. **Purpose:** To establish the process by which agencies desiring to provide non-emergency medical transport wheelchair/gurney van services in San Diego County would obtain a Non-Emergency Medical Transport Service Provider's Permit.
- III. **Policy:** Any agency desiring to provide non-emergency medical transport service in San Diego County shall obtain a San Diego County Non-Emergency Medical Transport Provider's Permit as outline in the San Diego County Ambulance Ordinance #10274.
- A. Agencies who presently operate non-emergency medical transport services which are currently permitted by the Metropolitan Transit System (MTS), North County Transit District (NCTD), or any other municipality and are in compliance with the requirements of these agencies will be issued a San Diego County Non-Emergency Medical Transport Provider's Permit without further investigation or fee upon submission of a copy of a current certificate of compliance.
- B. Social service agencies who contract with any organization or entity that is permitted by entities defined in Section III A. shall be issued a San Diego County Non-Emergency Transport Provider's Permit without further investigation or fee.
- IV. **Procedure:**
- Application Process. Non-Exempted Agencies By Endorsement of the MTDB Permit**
- A. Submit a completed application which contains the following information:
1. Copy of completed and approved MTS paratransit application.
  2. Applicants name and business address.

- I. **Authority:** San Diego County Code of Regulatory Ordinances, Division 10, and Section 610.702.
- II. **Purpose:** To define the minimum requirements for non-emergency medical transport wheel chair/gurney van service in San Diego County in the areas of vehicle design, safety equipment and supplies.
- III. **Policy:** Every non-emergency medical transport service vehicle intended for operation by an approved provider in San Diego County shall meet the following minimum requirements:
  - A. All non-emergency medical transport service vehicles, shall at all times:
    1. Comply with all applicable federal, state, and local licensing requirements.
    2. Be configured, licensed, and maintained pursuant to all federal and state laws, and local policies.
    3. Have an exterior color scheme and company name/logo sufficiently distinctive so as to not cause confusion with vehicles from other agencies or medical transport services, as determined by the Permit Officer.
  - B. Required documentation:
    1. A current and valid San Diego County Non-Emergency Medical Transportation Service license decal affixed to the lower portion right rear of the vehicle
    2. Proof of passage of the mechanical inspection performed by the County specified approved provider within the preceding six (6) months. Agencies currently permitted by regulatory entities identified in the San Diego County Code of Regulatory Ordinances, Division 10, Chapter 3, Section 610.301 (a.b.c.) shall present proof of passage of a mechanical inspection within the preceding twelve (12) months.

**SUBJECT: PREHOSPITAL EMS AIRCRAFT CLASSIFICATION**

Date: 11/01/2010

**Authority:** Health and Safety Code Sections 1797.201 and 1797.206; California Code of Regulations, Title 22, Division 9, Chapter 8.

- II. **Purpose:** To establish criteria for classification of prehospital EMS aircraft service providers operating within the emergency medical services (EMS) system of the County of San Diego.
- III. **Policy:** All prehospital EMS aircraft operating within San Diego County shall be classified by the County of San Diego Emergency Medical Services (EMS) prior to operation. Reclassification shall occur if there is a transfer of ownership or a change in the aircraft's category. Classifications shall be as follows:
- A. Air ambulance - any aircraft specially constructed, modified or equipped, and used for primary purpose of responding to emergency calls and transporting critically ill or injured patients whose medical flight crew has a minimum of two (2) attendants certified or licensed in advanced life support (ALS), one of whom is an RN.
  - B. Rescue aircraft - an aircraft whose usual function is not prehospital emergency patient transport, but which may be utilized for prehospital emergency patient transport when use of an air or ground ambulance is inappropriate or unavailable.
    - 1. ALS rescue aircraft - a rescue aircraft whose medical flight crew has at a minimum one (1) attendant certified or licensed in ALS.
    - 2. BLS rescue aircraft - a rescue aircraft whose medical flight crew has at a minimum one (1) attendant certified as an EMT with at least eight (8) hours of aeromedical patient transport training.

**SUBJECT: AIR AMBULANCE DISPATCH CENTER DESIGNATION/DISPATCH OF AIR AMBULANCE**

- I. **Authority:** Health and Safety Code, Sections 1797.204, 1797.206, and 1797.218.
- II. **Purpose:** To provide for the coordination of EMS aircraft response within San Diego County.
- III. **Definitions:**

**Air Ambulance:** any rotor aircraft specially constructed, modified or equipped, and used for the primary purposes of responding to emergency calls and transporting critically ill or injured patients whose ambulance flight crew has at a minimum of two (2) attendants certified or licensed in advanced life support, one of whom is an RN.

**Alert** - condition wherein a requesting agency has requested that an air ambulance be placed on standby in anticipation of a response.

**Estimated Time of Arrival (ETA)** - the estimated sum of scramble, pre-flight, launch, and in-flight response time to a scene.

**Launch** - condition wherein a requesting agency has requested that an air ambulance respond to an incident.

**Responding** - condition wherein the air ambulance flight crew is leaving quarters, preparing the helicopter for flight and flying to the incident scene.

**Response Time** - the actual sum of scramble, preflight, launch, and in-flight response time to a scene.

- IV. **Policy:** All EMS air ambulance service providers operating within San Diego County shall be dispatched by a center designated by the Division of EMS. The County of San Diego, Division of EMS shall select a provider using the customary procurement process.

- A. To be designated as an air ambulance dispatch center, the dispatch agency shall:
1. Be staffed 24 hours a day, 7 days a week.
  2. Possess radio capabilities allowing for constant communication with aircraft.
  3. Maintain a toll free dedicated telephone line to allow access by all requesting agencies.

4. Answer the phone " Air Ambulance Service".
5. Provide, upon request, tapes needed for quality assurance purposes, within thirty (30) days of incident.
6. Possess communication capabilities with all receiving hospitals.
7. Maintain a flight log to include, at a minimum:
  - a. time of request
  - b. requesting agency
  - c. location of incident
  - d. time dispatched
  - e. crew on board
  - f. time of lift off
  - g. time arrived on scene
  - h. time of lift off from scene
  - i. time arrived at receiving hospital
  - j. reason for aborted flight.

8. Comply with the Division of Emergency Medical Services in the quality assurance process.

B. The County of San Diego may revoke or suspend authorization of an EMS aircraft designated dispatch center for failure to comply with applicable policies, procedures, protocols and regulations.

**V. Procedure:**

A. Dispatch centers requesting air ambulance dispatch designation must submit a written request to the County of San Diego, Division of EMS with the following minimum information:

1. Communication capabilities with all hospitals, all public safety agencies, BLS and ALS ground units, and air ambulance units.

**Approved:**

**Administration**

  
**Medical Director**

**SAN DIEGO COUNTY DIVISION OF EMERGENCY AMBULANCE SERVICE  
POLICY/PROCEDURE/PROTOCOL**

No. A-876  
Page: 3 of 6  
Date: 07/01/2004

**SUBJECT: AIR AMBULANCE DISPATCH CENTER DESIGNATION/DISPATCH OF AIR AMBULANCE**

2. Documentation of compliance with applicable Federal and State Air Regulations.
- B. County of San Diego, Division of EMS may revoke/suspend designation of dispatch center for failure to comply with applicable policies, procedures, protocols and regulations.

**VI. Responsibilities of Agency:**

- A. The designated air ambulance dispatch agency provides the following services:
1. Establishes the identity of the caller, confirms the location of the incident, the contact person's name, ground contact, radio frequency and other pertinent information.
  2. Determines the closest most appropriate available air ambulance.
  3. Informs the requesting agency of the ETA of the air ambulance.
  4. Requests launch or standby as appropriate from the closest most appropriate provider.
  5. Maintains an updated list of all landing pads in the county.
  6. Maintains a system status plan approved by the Division of EMS and adheres to the dispatch procedure established in Section V of this policy.
  7. Provides the Division of EMS and participating air ambulance providers with system reports for each month.
  8. These system reports shall illustrate the dispatch times, response times and other patient service times captured by the air ambulance dispatch center.

**VII. Dispatch Procedure:**

- A. Air ambulance services request:
1. Requesting agencies contact the air ambulance dispatch center on the designated phone line to request an air ambulance launch or standby providing incident address, Thomas Bros. map page, or GPS coordinates and nature of incident, landing zone, ground contact unit, and coordination radio frequency.

**Approved:**

**Administration**

  
**Medical Director**

**SAN DIEGO COUNTY DIVISION OF EMERGENCY AMBULANCE SERVICE  
POLICY/PROCEDURE/PROTOCOL**

No. A-876  
Page: 4 of 6  
Date: 07/01/2004

**SUBJECT: AIR AMBULANCE DISPATCH CENTER DESIGNATION/DISPATCH OF AIR AMBULANCE**

2. The air ambulance dispatch center selects the closest most appropriate unit and advises the requesting agency of the air ambulance agency, unit number, response location and pertinent hospital receiving information.
  3. The air ambulance dispatch center provides information to the selected air ambulance provider and obtains an ETA.
  4. The air ambulance dispatch center tracks helicopter status as (ALERTED) when a standby is requested and (RESPONDING) when a launch is initiated.
  5. The air ambulance dispatch center tracks disposition of the response as (CANCELLED) or (TRANSPORT) as advised by the air ambulance provider at the close of each response.
- B. Air ambulance unit selection for responses:
1. The air ambulance provider contacts the air ambulance dispatch center with each "on and off duty" status of helicopter units, providing unit numbers, hours and location.
  2. The air ambulance provider contacts the designated air ambulance dispatch provider with units "out of service" status or post-to-post moves within the County for various reasons including fueling, maintenance, special events, etc.
  3. The air ambulance dispatch center selects the closest, most appropriate air ambulance provider based on proximity to the incident. In the instance where multiple providers are at the same post, the air ambulance provider not having handled the last response will be selected.
- C. Other communications:
1. Pre-launch communication "requests for service" will be made to the air ambulance dispatch center, which then turns the request over to the dispatch center of the selected provider.

Approved:

Administration

  
Medical Director

POLICY/PROCEDURE/PROTOCOL**

No. A-876  
Page: 5 of 6  
Date: 07/01/2004

**SUBJECT: AIR AMBULANCE DISPATCH CENTER DESIGNATION/DISPATCH OF AIR AMBULANCE**

2. Post-launch communications pertaining to a response in progress should be made directly between the responding air ambulance agency and the requesting agency.

**D. Posting locations:**

1. Air ambulance provider will contact the air ambulance dispatch center with each "on and off duty" status of helicopter units, providing unit numbers, hours and location.
2. "Move up" locations may also be used at the discretion of the provider for periods of six hours or less provided that they are at a licensed helipad or airport and that appropriate indoor rests and toilet facilities are provided for flight crews. Itinerant units will not be allowed.

**E. Disputes:**

1. Selection made by the air ambulance dispatch center at the time of service shall be final.
2. Air ambulance providers who believe that a dispatch error has occurred shall present their complaints in writing to the Division of EMS Ambulance Permit Officer or designee, within two weeks of the incident.
3. The Ambulance Permit Officer or designee shall investigate disputed calls within two weeks of receipt and may at his/her discretion compensate an appealing air ambulance provider agency with an "extra turn or turns" in rotation. No other compensation shall be made and the decision of the Permit Officer is final.

**VIII. Fees:**

**A. Dispatch Fee:**

1. A dispatch fee shall be assessed for each dispatch resulting in a transport. Air ambulance providers shall be billed monthly. The amount of the dispatch fee shall be determined by the Board of Supervisors and shall reasonably cover the cost of providing the dispatch service.
