| Yersiniosis C | 15 | 10 | 4 | 6 | 12 |

Note: The case inclusion criteria for this table differ from those in previous years' tables. Annual case counts are now grouped by CDC disease week using the Episode Date, the earliest available date in which a case is identified. CDC disease weeks do not necessarily reflect the calendar year.

‡ Confirmed, Probable, or Suspect cases

AIDS and HIV cases are reported by year of diagnosis.

* 2013 and 2014 AIDS and HIV cases are not reported separately as these numbers are reflected in the combined HIV Disease category revised by the CDC.

¥ Includes the following diseases: Hemolytic Uremic Syndrome, STEC, including O157-HUS, STEC (non-O157-HUS), Shiga toxin only (in feces)-HUS

£ HIV Disease includes those cases with an HIV diagnosis and reported in the given year regardless of progression of disease to include an AIDS diagnosis.

» Unknown Meningitis- includes Unspecified Meningitis

§ Rabies, Animal- Positive laboratory tests are reported to the California Department of Public Health Veterinary Public Health Section and includes animals tested by the Public Health Laboratory & County Veterinarian.

** STEC= Shiga-toxin producing *E. coli*

[^] Includes the following diseases: STEC, including O157, STEC, including O157-HUS, STEC (non-O157), STEC (non-O157-HUS), Shiga toxin only (in feces), Shiga toxin only (in feces)-HUS

[~] West Nile Virus Infection- includes West Nile Virus meningitis, encephalitis, or acute flaccid paralysis
