About This Handbook

The School Entry Health Examination Handbook was developed by the California Department of Health Care Services and updated by the local Child Health and Disability Prevention (CHDP) Program at the County of San Diego Health & Human Services Agency.

The handbook is designed to provide information about the School Entry Health Examination (also referred to as the School Entry Health Checkup) requirement to school staff. This handbook and the forms referenced are available online at the County of San Diego CHDP website at: www.chdpsd.org.

For any questions regarding the health examination requirement, ordering forms, reporting, or assisting a child in receiving free or low-cost dental or medical care, please call the CHDP Program at (619) 692-8692.

Child Health & Disability Prevention Program Background

The Child Health and Disability Prevention (CHDP) Program began in 1967 when an amendment to the federal Medicaid law authorized a program for Early, Periodic, Screening, Diagnosis, and Treatment (EPSDT) services for children eligible for Medicaid. The CHDP program includes a mandate that all children entering first grade provide documentation of a comprehensive health examination completed within **18 months prior to or 90 days following** the first day of school or have a waiver of this requirement on file. This health examination is required for all children regardless of income.

In 2003, the California Department of Health Care Services established the CHDP Gateway Program to ensure more children receiving CHDP services have the opportunity to receive comprehensive health coverage at no-cost through Medi-Cal. Through the CHDP Gateway Program, children receiving CHDP health exams are electronically screened for Medi-Cal eligibility and, if eligible, leave the provider’s office with temporary Medi-Cal health insurance coverage. Families then need to complete the Medi-Cal application to continue their insurance coverage.

What Is Considered A Comprehensive Health Examination?

A comprehensive health examination includes **ALL** of the following:

- Health and developmental history
- Physical exam
- Immunizations
- Oral health screening
- Nutrition assessment
- Behavioral health assessment
- Vision screening
- Hearing screening
- Health information
- Lab tests for anemia, blood lead, Tuberculosis screening, and other tests, as needed

CHDP First Grade School Entry Health Examination Requirement

All children who enter first grade in a California public, private, or charter school are required by California state law to have a comprehensive health examination (also referred to as the School Health Entry Checkup) completed within **18 months prior to or 90 days after** the first day of first grade, or submit a signed parental waiver of the health examination. The intent of this requirement is to:

- Ensure all school children receive a health examination to promote success in school,
- Increase the number of children who receive a health examination, resulting in fewer untreated health problems, less illness, and improved attendance at school,
- Facilitate school staffs ability to collect mandated forms in a timely manner,
- Simplify school entry health requirements by having the California School Immunization Record and School Entry Health Examination due at the same time, and
• Ensure school compliance with California state law (refer to Appendix A).

Schools are responsible for: 1) informing their students of the school entry health examination requirement, 2) assisting them in getting the examination, and 3) maintaining the School Entry Health Checkup Requirement form or the Waiver of Medical Examination in student’s files to be reported when students enter the first grade. Please read below for acceptable and not acceptable documentation for the school entry health examination requirement.

Acceptable Documentation

• A parent’s copy of the CHDP Confidential Screening/Billing Report (PM 160) form completed by a physician or nurse practitioner (refer to Appendix B),
• The State-approved health or waiver form* (refer to Appendix C and D),
• School Entry Health Checkup Requirement (green) form completed by a physician or nurse practitioner (refer to Appendix E), or
• Other complete physical screening forms from a physician’s office that include the same comprehensive screening tests as the School Entry Health Checkup Requirement form.

*Waiver

The waiver is primarily intended for reasons of deeply held personal beliefs, not as a matter of convenience. According to California law (Health and Safety Code, Section 124085) if the waiver indicates that the parent or guardian was unable to obtain the services for the child, the waiver is to include the reason(s) why.

If a parent/guardian does not wish to obtain a health examination for their child based on personal beliefs, the parent/guardian must sign the waiver portion at the bottom of the School Entry Health Checkup Requirement form. However, parents/guardians should be encouraged to obtain a health examination for their child. The signing of the waiver should not be used by parents/guardians to avoid the important responsibility of obtaining a health exam for their child. If the reason for not obtaining the examination is because the parent/guardian cannot afford it, every effort should be made to help the family find resources to enable them to get the examination.

Who provides the Health Examination and Signs the Form?

A licensed physician, certified pediatric nurse practitioner, or certified family nurse practitioner performs, or supervises, the appropriate health examination screening procedures and completes the School Entry Health Checkup Requirement form (or other acceptable documentation) to document that the child received the appropriate health screening procedures.

The school entry health examination is provided by the family’s usual source of medical care, including, but not limited to: private doctors, community clinics, health department clinics, prepaid health plans, military facilities, and some school districts. The health care provider should give an explanation and copy of the results of the health examination to the parent/guardian. If the child needs a referral for follow-up on medical or
dental care, assistance in finding needed services should also be provided.

Families of children who do not have a usual source of medical care should contact the CHDP program for a referral to a CHDP provider at 1-619-692-8808.

What About Immunizations?

Immunizations are included in the CHDP examination. Please contact the County of San Diego Immunization Department at 1-866-358-2966, visit their website at www.sdiz.org, or refer to the new edition of the California Immunization Handbook for further information.

Unacceptable Documentation

Verbal confirmation by a parent/guardian is unacceptable documentation.

Schools must also inform parents/guardians that no-cost health examinations are available to eligible children through the CHDP program. The CHDP program assists families to meet the first grade health entry examination requirements by linking families to local CHDP providers for these services (refer to Appendix F).

Health Entry Exam Policies

Is the School Entry Requirement Different for Children Who Attend a Year-Round School, a Charter School, or Home School?

There is no difference. The requirement of 18 months prior to first grade entry and 90 days after first grade entry applies, regardless of what time of year or age the child enters first grade.

Although it is no longer required, schools and districts are still strongly encouraged to submit health examination annual reports to their local CHDP program to allow the County of San Diego and community agencies to identify how many local children still lack access to health care and to develop strategies to ensure that all children receive the health care they need.

What if Parents/Guardians Cannot Afford the Health Examination?

In the interest of the child’s own health and school performance, school personnel should make every effort to advocate for the child to obtain a physical examination and refer families to services. Children from low-income families may be eligible for a health examination at no-cost to the family. To qualify for CHDP program services at no-cost to the family, the child must live in California and have Medi-Cal insurance, or be younger than 19 years of age, and from a family with income at or below 266% of the Federal Income Guidelines. The CHDP program can assist families in finding a health care provider that participates in the CHDP program. Families can reach CHDP at 1-619-692-8808 for more information.

Can Schools/Districts Exclude Children From Attending School for Failure to Submit the Health Examination Report or Waiver?
California law recognizes the importance of health to learning and the important role of schools in ensuring the health of students by requiring that students have documentation of a health examination before the end of first grade. The law does not require exclusion for failure to submit the health examination report or waiver, but a school board may establish a more stringent policy in accordance with Section 124105 of the Health and Safety Code.

If a child has no documentation of a health examination or a signed waiver on file by the 90th day after school entry, the governing board of the school or district may exclude the child from school for no more than five days beginning the 91st calendar day following entrance into first grade. Public schools should contact their district office to determine what their specific district policy is regarding exclusions and exemptions from exclusion.

**Grade Retentions**

**A Child Repeats Kindergarten**

If a School Entry Health Checkup Requirement form has been submitted, the child does not need to repeat the examination. Retain the form in the student’s health record or cumulative file as evidence of the child’s health examination. This will count as proof of the SEHE requirement and be reported at the time of entry into first grade. If the School Entry Health Checkup Requirement form is not on file and the child will be 6 years old (the age of first grade entry), before September 1st of the school year, the form must be submitted within 90 days of the start of the school year.

**A Child Repeats First Grade**

A School Entry Health Checkup Requirement form should be on file. If the form has been submitted, the child does not need to repeat the examination. If the report is not on file, a report must be submitted within 90 days of the commencement of the current school term. Retain the form in the student’s health record or cumulative file as evidence of the child’s health examination for the current school year.

**Transfers**

**A Child Has Had a Health Examination in Head Start or State Pre-School?**

If the examination was given within the 18 months period prior to first grade entry, it will meet the school entry requirements. If it was given more than 18 months prior to first grade entry, the health examination must be repeated.

**A Child Transfers from Another District or State?**

A “grace period” of 30 days is allowed for the transfer of the child’s record. If the School Entry Health Checkup Requirement form is included in the child’s record when the school receives it, there is no need to repeat the examination. However, if there is no record or the record is not within 18 months before first grade, then the child must meet California school entry requirements. The child must complete a health examination within 90 days of the date of entry into first grade in California.
Data Collection and Tracking

The School Entry Health Checkup Requirement form should be distributed at the beginning of the school year in registration packets. Schools are responsible for informing their students of the school entry health examination requirement, and maintaining the necessary documentation in students’ files.

School Data Entry Options

School Entry Health Examination Tracker by Student
Schools may use the School Entry Health Examination Tracker by Student (a Microsoft Excel file) to track each student’s forms. This file allows staff to individually track health examination forms, waivers, or no responses of each first grade student in the school. The advantage of using this file is that staff may individually track each student (including what he/she submitted, waiver reason, etc.) and follow-up with students. In addition, staff will not have to manually count and record summary numbers because the Excel file has a feature in which any data entered is automatically counted and summed in a separate tab.

When the Excel file is opened, staff will see two tabs (worksheets), one named ‘Student Entry’ and the other ‘Summary.’ To begin data entry, type in the names or IDs of all kindergarten and eligible first grade students and the grade in which he/she belongs in the ‘Student Entry’ worksheet. Upon receiving a School Entry Health Checkup Requirement form from a student, type in the student’s name or school ID and enter the student’s information from the form. Select the appropriate option from the drop-down box. An example of data entry of a student is found below (for a more detailed graphic, please see Appendix G):

![School Entry Health Examination Tracker by Student](image_url)
Data Reporting

**Annual District Summary Report** *(Appendix H)*
The CHDP Health Examination Report contains the following information:
- The name of the school,
- The number of children enrolled in first grade,
- The number of children who submitted documentation of a completed health examination,
- The number of children who submitted a health examination waiver and the corresponding reason, and
- The number of children who did not submit either documentation of a completed health examination or a health examination waiver.

**School Entry Health Examination Summary Report (SEHE)**
The Annual School Report – CHDP Health Examination form is a one-page file to be completed for each school by the designated school nurse at the end of each school year. This form may be typed into electronically or written over and contain all fields of information that must be submitted to the school district. This form is different from the Excel file in that the school nurse has to manually count and record the summary numbers from students’ records. All public school districts and private schools with first grade enrollment are encouraged to submit a SEHE Summary Report for the school entry health examination to their local CHDP program by **January 15th** of each year.

- Public schools should submit their School Entry Health Examination Summary Report to their district by **December 15th** of each year. The District Office then prepares the Annual District Summary Report for all school’s entry health examinations *(refer to Appendix G)* based on data sent by schools and submits the information to the CHDP Program by **January 15th**.
- Private schools will submit their school entry health examination Annual District Summary Report directly to the CHDP Program by **January 15th**. For schools with ungraded and/or special education students, only children who are 6 years of age on or before September 1st of the current year need to be included in the annual report.

**Data Collection for School Districts**
School districts are expected to compile all data from each public and/or charter school in their district. Data should be reported for each school, not a sum of all students in the district. The Annual District Report should be submitted to the CHDP Program by **January 15th** *(Appendix I)*.

There are two ways for a district to collect and submit each school’s health examination data to the CHDP program: 1) submit individual school reports in one packet, or 2) fill out and submit the Annual District Report – CHDP Health Examination (Microsoft Excel file). To fill out the Excel form, type in the appropriate summary number for each school from the school reports submitted. District reports may be mailed, faxed, or emailed to the CHDP Program.
Other School Entry Health Requirements

Also important to a child’s health and success in school are these additional school entry health requirements:

- **Oral Health Assessment**: California law states that a child must have a dental check-up by May 31st of his/her first year in public or charter school. Refer to Appendix J, K, L and M for helpful timelines and checklists for the health examination and oral health assessment. For additional information on this requirement, visit www.sharethecaredental.org for the Oral Health Assessment toolkit.

- **Immunizations**: Visit San Diego Immunization Program at www.sdiz.org for immunization requirements for school entry, related materials and resources, or for answers to frequently asked questions. You can also reach the department by phone at 1-866-358-2966.

For any questions regarding the School Entry Health Examination requirement please contact:

Appendix A. California Health and Safety Codes

124025. The Legislature finds and declares that many physical and mental disabilities can be prevented, or their impact on an individual lessened, when they are identified and treated before they become chronic and irreversible damage occurs. The Legislature finds and declares that a community-based program of early identification and referral for treatment of potential handicapping conditions will be effective in reducing the incidence of the conditions and will benefit the health and welfare of the citizens of this state.

It is the intent of the Legislature in enacting this article and Section 120475 to establish child health and disability prevention programs, that shall be financed and have standards established at the state level and that shall be operated at the local level, for the purpose of providing early and periodic assessments of the health status of children. It is further intended that child health and disability prevention programs shall make maximum use of existing health care resources and shall utilize, as the first source of screening, the child's usual source of health care so that health screening programs are fully integrated with existing health services, that health care professionals be appropriately represented and utilized in these programs, that outreach programs be developed to stimulate the use of preventive health services, and that services offered pursuant to this article be efficiently provided and be of the highest quality.

124085. On and after July 1, 1976, each child eligible for services under this article shall, within 90 days after entrance into the first grade, provide a certificate approved by the department to the school where the child is to enroll documenting that within the prior 18 months the child has received the appropriate health screening and evaluation services specified in Section 124040.

A waiver signed by the child's parents or guardian indicating that they do not want or are unable to obtain the health screening and evaluation services for their children shall be accepted by the school in lieu of the certificate. If the waiver indicates that the parent or guardian was unable to obtain the services for the child, then the reasons why should be included in the waiver.

124105. (a) This section shall be known and may be cited as the "Hughes Children's Health Enforcement Act."

(b) The Legislature recognizes the importance of health to learning and to a successful academic career. The Legislature also recognizes the important role of schools in ensuring the health of pupils through health education and the maintenance of minimal health standards among the pupil population. Therefore, it is the intent of the Legislature that schools ensure that pupils receive a health screening before the end of the first grade.

(c) The governing board of each school district shall exclude from school, for not more than five days, any first grade pupil who has not provided either a certificate or a waiver, as
specified in Section 124085, on or before the 90th day after the pupil's entrance into the first grade. The exclusion shall commence with the 91st calendar day after the pupil's entrance into the first grade, unless school is not in session that day, then the exclusion shall commence on the next succeeding school day. A child shall not be excluded under this section if the pupil's parent or guardian provides to the district either a certificate or a waiver as specified in Section 124085.

(d) The governing board of a school district may exempt any pupil from the exclusion described in subdivision (c) if, at least twice between the first day and the 90th day after the pupil's entrance into the first grade, the district has contacted the pupil's parent or guardian and the parent or guardian refuses to provide either a certificate or a waiver as specified in Section 124085. The number of exemptions from exclusion granted by a school district pursuant to this subdivision may not exceed 5 percent of a school district's first grade enrollment. It is the intent of the Legislature that exemptions from exclusion be used in extraordinary circumstances, including, but not limited to, family situations of great dysfunction or disruption, including substance abuse by parents or guardians, child abuse, or child neglect.

(e) It is the intent of the Legislature that, upon a pupil's enrollment in kindergarten or first grade, the governing board of the school district notify the pupil's parent or guardian of the obligation to comply with Section 124085 and of the availability for low-income children of free health screening for up to 18 months prior to entry into first grade through the Child Health Disabilities Prevention Program.

(f) It is the intent of the Legislature that school districts provide information to parents regarding the requirements of Section 124085 within the notification of immunization requirements. Moreover, the Legislature intends that the information sent to parents encourage parents to obtain health screenings simultaneously with immunizations.

**INFORME DEL EXAMEN DE SALUD PARA EL INGRESO A LA ESCUELA**

Para proteger la salud de los niños, la ley de California exige que antes de ingresar a la escuela todos los niños tengan un examen médico de salud. Por favor, pídele al examinador de salud que lleve este informe y entregáelo a la escuela—este informe será archivado por la escuela en forma confidencial.

**PARENT OR GUARDIAN:**

Please fill out this form if you want to excuse your child from the health examination required by California law for school entry. **SIGN AND RETURN THIS FORM TO THE SCHOOL** where it will be maintained as confidential information.

**NOTE:** SIGNING THIS WAIVER **DOES NOT** EXCUSE YOUR CHILD FROM RECEIVING THE IMMUNIZATIONS REQUIRED BY CALIFORNIA LAW FOR CHILDREN IN SCHOOL. ALSO, SIGNING THIS WAIVER WILL NOT DENY YOUR CHILD THE VISION AND HEARING TESTS DONE BY THE SCHOOL.

I have been informed about the health examination recommended by health professionals and required by state law. I have been informed about where my child can receive a health examination and about the income levels for receiving it at no cost to me.

Please check one of the following:

- [ ] I choose not to have my child receive a health examination as part of the school entry requirement.
- [ ] I would like my child to receive a health examination, but I am unable to obtain it.

Reason (see Health and Safety Code, Section 124085):

Appendix E. School Entry Health Checkup Form

School Entry Health Checkup Requirement

Early and regular health checkups can find, prevent, and treat many health problems before they become serious. That is why California has a law that says all children must have a health checkup within 18 months before first grade or up to 90 days after starting first grade. Your child must also have certain immunizations, or shots, for school. Your doctor will be able to check your child’s immunization record and see what shots are needed during the health checkup. Your doctor will complete this form and you need to return it to your child’s school.

If you are not able to pay for this checkup, please call Maternal Child and Family Health services to find out if your child is eligible for a health checkup at no cost and for ongoing medical and dental insurance.

Appendix E. School Entry Health Checkup Form (Spanish)

Requisitos para Exámenes de Salud para Ingresar a la Escuela

Al recibir exámenes de salud regularmente se pueden prevenir, detectar, y tratar muchos problemas de salud antes de que sean serios. Por esta razón California tiene una ley que requiere que todos los niños deben recibir un examen de salud 18 meses antes de ingresar al primer año o hasta 90 días después de haber iniciado el primer año. Su niño debe tener ciertas vacunas para ingresar a la escuela. Su médico podrá revisar la tarjeta amarilla de vacunación y ver que vacunas necesita durante el examen de salud. Su médico llenará esta forma y usted deberá entregarla a la escuela de su niño. Si su niño recibió el examen de salud al ingresar al jardín de niños (kindergarten) y la escuela todavía no tiene el reporte del examen, usted necesita pedírselo a su médico o clínica y llevarlo a la escuela.

Si a Ud. no le es posible pagar el examen, por favor llame al Programa de Salud para la Prevención de Discapacidades en Niños y Jóvenes (CHDP) para saber si su niño califica para un examen físico gratuito y también para un seguro de cuidado continuo médico y dental al:

Appendix F. CHDP and School Entry Health Check-Up Requirements
School Entry Health Check-Ups
(Kindergarten/First Grade)

You want your child to be healthy to get the most out of school. Early and regular health check-ups can find, prevent, and treat health problems before they become serious. That is why California has a law that says all children must have a health check-up before they enter first grade.

The health check-up must be completed a **year and a half (18 months) prior to or 90 days after** your child begins first grade to meet the school entry requirement.

**A health check-up includes:**
- A health history and physical exam
- Dental screening
- Vision and hearing tests
- Nutritional assessment
- Development assessment
- Immunizations, as necessary
- Urine, blood, and tuberculosis (TB) risk assessment
- Other tests, as necessary

**Before first grade begins:**
If your child had a health check-up at kindergarten and a report is not already in school, you need to get a report from your child’s doctor/clinic and take it to the school where your child will be going.

If you are not able to pay for this check-up, please call Maternal Child and Family Health Services to find out if your child is eligible for a no-cost health check-up through the Child Health and Disability Prevention* (CHDP) program and for on-going complete medical and dental care at a price you can afford.

Please call today (English and Spanish spoken)

1-619-692-8808

*CHDP is a state program that pays for health check-ups and immunizations for children from families with low-incomes and children on Medi-Cal.

**Bring to your doctor or clinic:**
1. The School Entry Health Checkup Requirement form for School Entry (Green) form. Please complete the top part of the form and fill in all of information requested from the parent/guardian.
2. Your child’s California Immunization Record (Yellow form). If you do not have this card, ask for one where your child had his/her last immunization.
3. Benefits Identification Card (BIC) if your child has Medi-Cal.

**After the health check-up:**
1. Give the School Entry Health Checkup Requirement form for School Entry to the school.
2. Show the Immunization Card to the school then take the card home and keep it in a safe place. You will need proof of immunizations other times in your child’s life.

**Note:** If health check-ups or immunizations are against your personal beliefs, you **must** sign a form at the school’s office. If your child cannot receive immunizations because of a medical problem, bring a doctor’s note to the school.

If there is a disease outbreak at the school and your child is not immunized against the disease, your child cannot attend school until the outbreak is over.

Appendix G. School Entry Health Examination Tracker by Student (Excel File)

Below you will find instructions on how to successfully complete the School Entry Health Examination Tracker by Student (Excel File). The Excel Tracker contains one completely editable field (Student ID), and three locked fields (Documentation Provided?, Waiver Reason, and Select if NO Health Exam Documentation OR Waiver). The locked fields require the user to select an option from the drop down menu, or to type the selection exactly as written.*

<table>
<thead>
<tr>
<th>Student ID</th>
<th>Documentation Provided?</th>
<th>Waiver Reason</th>
<th>Select if NO Health Exam Documentation OR Waiver</th>
</tr>
</thead>
<tbody>
<tr>
<td>3818</td>
<td>Health Exam</td>
<td>N/A</td>
<td></td>
</tr>
<tr>
<td>4454</td>
<td>Waiver</td>
<td>Unable to obtain</td>
<td></td>
</tr>
<tr>
<td>4525</td>
<td>None Provided</td>
<td>N/A</td>
<td>x</td>
</tr>
<tr>
<td>4146</td>
<td>Waiver</td>
<td>No reason provided</td>
<td></td>
</tr>
</tbody>
</table>

*If a user chooses to manually type the selection, but fails to do so exactly as written, an error dialogue box (like the one pictured to the right), will appear. This can be resolved by clicking retry and using the dropdown or typing the selection exactly as written.
Appendix H. Annual District Report – CHDP Health Examination

I certify that the numbers reported above are true numbers and that the parents or guardians of these children were informed of the availability of no or low cost health exams.

Print Name: ___________________________________________ Signature: __________________________ Date: __/__/___

Please keep a copy of this form for your records. Submit this form to your district office by December 15th of the current school year. Thank you.
Appendix I. Annual School Report – CHDP Health Examination

School Name: ___________________________ School District: ___________________________
School Address: __________________________
School Year: _______ Name of Person Completing Report: ___________________________
Phone Number: ___________________________ Email Address: ___________________________

Instructions: This form is to be completed by the school nurse. Please count the total number of first grade students from your school and fill in the appropriate field. If you have any questions, please call the Child Health and Disability Prevention (CHDP) Health Promotion Program at (619) 692-8692.

1. Total number of students enrolled in first grade

2. Total number of students who submitted documentation of completed health exam

3. Students who submitted a health examination waiver
   a. Total number checked ‘Parent does not want the exam’ in waiver section
   b. Total number checked ‘Parent unable to obtain exam’ in waiver section
   c. Total number submitted waiver but did not provide reason

4. Total number of students who did not submit documentation of completed health or waiver of health exam

I certify that the numbers reported above are true numbers and that the parents or guardians of these children were informed of the availability of no or low cost health exams.

Print Name ___________________________ Signature ___________________________ Date ___/___/___

Please keep a copy of this form for your records. Submit this form to your district office by December 15th of the current school year. Thank you.

Appendix K. Oral Health Assessment and Health Examination Checklist

The Oral Health Assessment and School Entry Health Examination are two different requirements but can work together. The following timeline can the process of when to distribute forms and collect data.

<table>
<thead>
<tr>
<th>Date</th>
<th>Task Description</th>
</tr>
</thead>
</table>
| **February** | ☐ Begin distribution of Oral Health Assessment forms in kindergarten registration packets  
|            | ☐ Begin distribution of School Entry Health Examination forms in kindergarten and first grade registration packs |
| **August - May** | ☐ Collect submitted Oral Health Assessment forms |
| **August – November** | ☐ Collected submitted School Entry Health Examination forms  
|            | ☐ All School Entry Health Examination forms must be submitted to the school by the 91st day of first grade |
| **May 31** | ☐ All Oral Health Assessment forms must be submitted to the school |
| **June** | ☐ Compile Oral Health Assessment data and submit to district office |
| **December** | ☐ Compile School Entry Health Examination data and submit to district office  
|            | ☐ District Office must submit Oral Health Assessment District Report from previous school year to the San Diego County Office of Education |
| **January 15** | ☐ District Office or Private School must submit School Entry Health Examination Annual Report to the Child Health and Disability Prevention Program |
Appendix L. School Entry Health Exam and Oral Health Assessment Timeline for Schools and School Districts

Example: School Year 2014-2015

**ORAL HEALTH ASSESSMENT**
- **December 31, 2014** Last day for School District to submit Oral Health Assessment Summary Reports to the San Diego County Office of Education (SDCOE) for previous school year (SY 2013-2014)
- **May 31, 2015**— Last day for school to collect Oral Health Assessment forms from students
- **End of current school year (June 2015)** District has until December 31, 2015 of the following school year to submit their Oral Health Assessment Summary Reports to the San Diego County Office of Education (SDCOE)

**OHA FORM COLLECTION**
- Ongoing from start of school year through May 31, 2015

**SEHE FORM COLLECTION**
- Ongoing from start of school year through 91st day of first grade

**SCHOOL HEALTH ENTRY EXAM**
- **Within one month of first day of school** (i.e. August through October 2014)
  - Distribute School Entry Health Exam forms to students
- **91st day of first grade (November 2014)**— Last day for school to collect School Entry Health Exam forms from students
- **December 15, 2014** Schools must submit their School Entry Health Exam Summary Report to their district

**January 15, 2015**
- District has from December 15, 2014 through January 15, 2015 to submit their School Entry Health Exam Summary Reports to CHDP Health Promotion (County HHSA-MCFHS)
