Introduction

The *Community Features Atlas Series* is a comprehensive collection of maps displaying key information about San Diego County. It is designed to be used by local communities, organizations, and individuals seeking place-based information specific to geographic areas within the County. The atlas series provides a look into the various resources, services, and demographics of the County. Importantly, the information presented in these atlases can be used in the assessment of factors involved in community health, as well as the planning of resource allocations.

Data from various sources were compiled and are presented in this atlas, including the American Community Survey (ACS), San Diego Association of Governments (SANDAG), San Diego Geographic Information Source (SanGIS), California State Departments, and the County of San Diego's Community Health Statistics Unit. Together, the data provides a detailed look into various assets and liabilities of a community. More information on the data sources used in these maps can be found in the *Data Guide*, located at the end of this document.

Together, the Community Features Atlas Series is composed of a *Community Resources Atlas*, *FITNESSGRAM® Physical Fitness Test Atlas*, a *Health Resource Atlas*, *Food Retailer Atlas*, *Retail Food Environment Index (RFEI) Atlas*, a *Youth Attractors Atlas*, and a *Community Demographics Atlas*.

Data are displayed using geographic areas such as street-level, census area, sub-regional area, or region. Additionally, included in each atlas is a brief summary, as well as an outline of the spatial data presented.

For additional local health and demographic data, please visit www.SDHealthStatistics.com.

FITNESSGRAM[®] Physical Fitness Test Atlas, School Year 2008/09 Grade 5, Body Composition

This atlas is one of a series of 6 which present data on the physical fitness of students in the public school system in San Diego County. By law, all public school districts in California are required to administer the Physical Fitness Test (PFT) annually to all students in the 5th, 7th and 9th grades. These atlases show data for two fitness areas: aerobic capacity and body composition. There are separate atlases for each test standard, and for each grade tested.

The desired outcome for each test is that the student achieves the “Healthy Fitness Zone” (HFZ). Those students whose performance exceeds the goals (or fall below the HFZ for scores such as Body Composition) are also classed in the HFZ. A student who does not achieve the HFZ is “Not in the HFZ”.

Results for the 2008/09 school year are presented by the percentage of students not within the HFZ for each performance standard by school. At the sub-regional (SRA) level, data are presented as the average percent of students not within the HFZ within each SRA. Data are not shown for schools with fewer than 5 students participating in the FITNESSGRAM[®]. For more information see the California Department of Education at <http://www.cde.ca.gov/ta/tg/pf/>.

For reference, median income by census tract data (2008 estimates) is included. **See the Data Guide at the end of the atlas for more information.**

Available Atlases

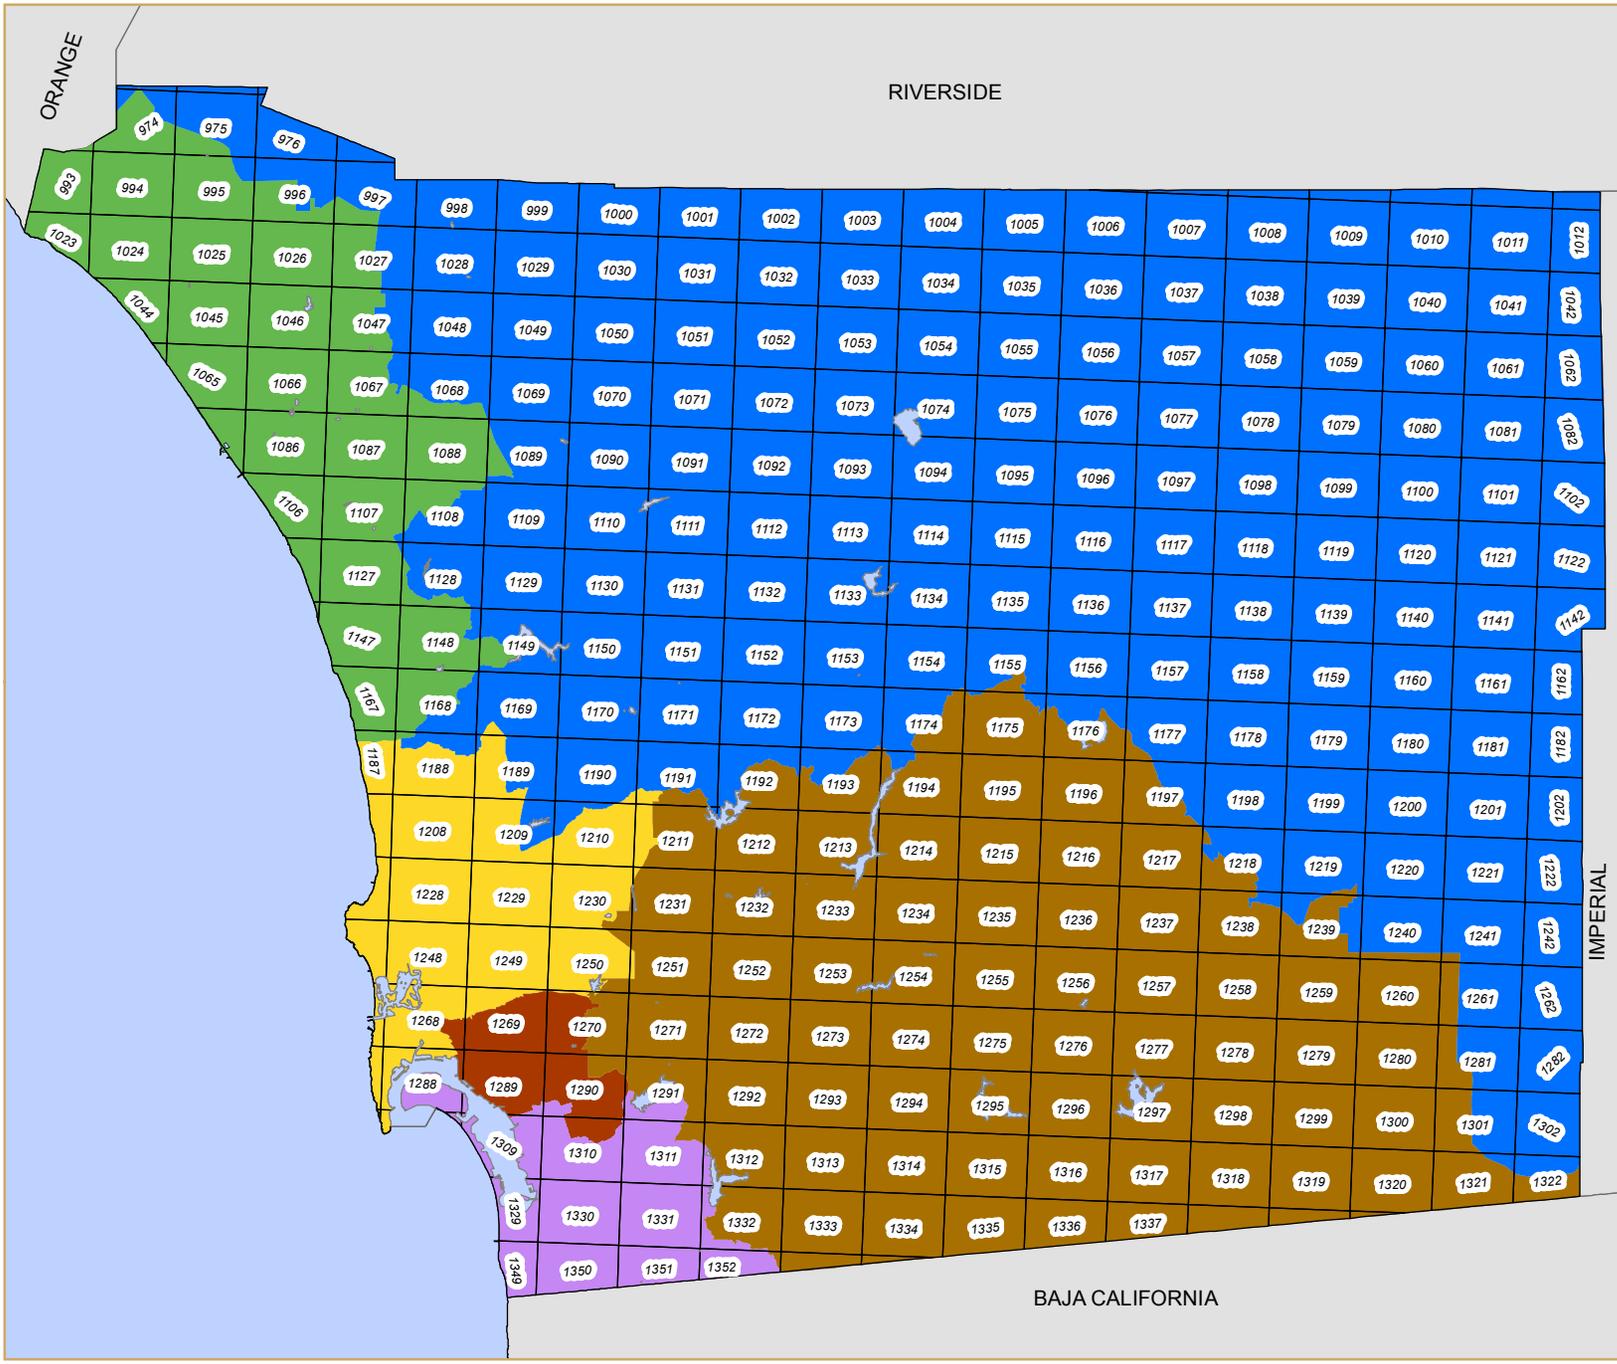

School Level Results:

- Grade 5, Aerobic Capacity, 2008/09 by School
- Grade 7, Aerobic Capacity, 2008/09 by School
- Grade 9, Aerobic Capacity, 2008/09 by School

- Grade 5, Body Composition, 2008/09 by School
- Grade 7, Body Composition, 2008/09 by School
- Grade 9, Body Composition, 2008/09 by School

*The FITNESSGRAM Physical Fitness Test (PFT) is given annually to all public school students in grades five, seven, and nine. The maps show results for 2 PFT standards administered during the 2008/9 school year: aerobic capacity and body composition. Data are shown by school, % of students not within the Healthy Fitness Zone (HFZ) and by SRA (average % of students not within the HFZ). Note: Students whose performance exceeds the standard, including those of lower than standard body composition, are considered to be within the HFZ. Data are not shown for schools with fewer than 5 students. From: California Department of Education, <http://www.cdc.ca.gov/ta/g/pf/>.

*The FITNESSGRAM Physical Fitness Test (PFT) is given annually to all public school students in grades five, seven, and nine. The maps show results for 2 PFT standards administered during the 2008/9 school year: aerobic capacity and body composition. Data are shown by school, % of students not within the Healthy Fitness Zone (HFZ) and by SRA (average % of students not within the HFZ). Note: Students whose performance exceeds the standard, including those of lower than standard body composition, are considered to be within the HFZ. Data are not shown for schools with fewer than 5 students. From: California Department of Education, <http://www.cdc.ca.gov/ta/g/pf/>.

*The FITNESSGRAM Physical Fitness Test (PFT) is given annually to all public school students in grades five, seven, and nine. The maps show results for 2 PFT standards administered during the 2008/9 school year: aerobic capacity and body composition. Data are shown by school, % of students not within the Healthy Fitness Zone (HFZ) and by SRA (average % of students not within the HFZ). Note: Students whose performance exceeds the standard, including those of lower than standard body composition, are considered to be within the HFZ. Data are not shown for schools with fewer than 5 students. From: California Department of Education, <http://www.cdc.ca.gov/ta/g/p/f/>.

*The FITNESSGRAM Physical Fitness Test (PFT) is given annually to all public school students in grades five, seven, and nine. The maps show results for 2 PFT standards administered during the 2008/9 school year: aerobic capacity and body composition. Data are shown by school, % of students not within the Healthy Fitness Zone (HFZ) and by SRA (average % of students not within the HFZ). Note: Students whose performance exceeds the standard, including those of lower than standard body composition, are considered to be within the HFZ. Data are not shown for schools with fewer than 5 students. From: California Department of Education, <http://www.cdc.ca.gov/ta/g/pf/>.

*The FITNESSGRAM Physical Fitness Test (PFT) is given annually to all public school students in grades five, seven, and nine. The maps show results for 2 PFT standards administered during the 2008/9 school year: aerobic capacity and body composition. Data are shown by school, % of students not within the Healthy Fitness Zone (HFZ) and by SRA (average % of students not within the HFZ). Note: Students whose performance exceeds the standard, including those of lower than standard body composition, are considered to be within the HFZ. Data are not shown for schools with fewer than 5 students. From: California Department of Education, <http://www.cdc.ca.gov/ta/g/pf/>.

*The FITNESSGRAM Physical Fitness Test (PFT) is given annually to all public school students in grades five, seven, and nine. The maps show results for 2 PFT standards administered during the 2008/9 school year: aerobic capacity and body composition. Data are shown by school, % of students not within the Healthy Fitness Zone (HFZ) and by SRA (average % of students not within the HFZ). Note: Students whose performance exceeds the standard, including those of lower than standard body composition, are considered to be within the HFZ. Data are not shown for schools with fewer than 5 students. From: California Department of Education, <http://www.cdc.ca.gov/ta/g/pf/>.

*The FITNESSGRAM Physical Fitness Test (PFT) is given annually to all public school students in grades five, seven, and nine. The maps show results for 2 PFT standards administered during the 2008/9 school year: aerobic capacity and body composition. Data are shown by school, % of students not within the Healthy Fitness Zone (HFZ) and by SRA (average % of students not within the HFZ). Note: Students whose performance exceeds the standard, including those of lower than standard body composition, are considered to be within the HFZ. Data are not shown for schools with fewer than 5 students. From: California Department of Education, <http://www.cde.ca.gov/ta/tg/p/f/>.

*The FITNESSGRAM Physical Fitness Test (PFT) is given annually to all public school students in grades five, seven, and nine. The maps show results for 2 PFT standards administered during the 2008/9 school year: aerobic capacity and body composition. Data are shown by school, % of students not within the Healthy Fitness Zone (HFZ) and by SRA (average % of students not within the HFZ). Note: Students whose performance exceeds the standard, including those of lower than standard body composition, are considered to be within the HFZ. Data are not shown for schools with fewer than 5 students. From: California Department of Education, <http://www.cdc.ca.gov/ta/tg/pf/>.

*The FITNESSGRAM Physical Fitness Test (PFT) is given annually to all public school students in grades five, seven, and nine. The maps show results for 2 PFT standards administered during the 2008/9 school year: aerobic capacity and body composition. Data are shown by school, % of students not within the Healthy Fitness Zone (HFZ) and by SRA (average % of students not within the HFZ). Note: Students whose performance exceeds the standard, including those of lower than standard body composition, are considered to be within the HFZ. Data are not shown for schools with fewer than 5 students. From: California Department of Education, <http://www.cdc.ca.gov/ta/tg/pf/>.

*The FITNESSGRAM Physical Fitness Test (PFT) is given annually to all public school students in grades five, seven, and nine. The maps show results for 2 PFT standards administered during the 2008/9 school year: aerobic capacity and body composition. Data are shown by school, % of students not within the Healthy Fitness Zone (HFZ) and by SRA (average % of students not within the HFZ). Note: Students whose performance exceeds the standard, including those of lower than standard body composition, are considered to be within the HFZ. Data are not shown for schools with fewer than 5 students. From: California Department of Education, <http://www.cdc.ca.gov/ta/g/pf/>.

*The FITNESSGRAM Physical Fitness Test (PFT) is given annually to all public school students in grades five, seven, and nine. The maps show results for 2 PFT standards administered during the 2008/9 school year: aerobic capacity and body composition. Data are shown by school, % of students not within the Healthy Fitness Zone (HFZ) and by SRA (average % of students not within the HFZ). Note: Students whose performance exceeds the standard, including those of lower than standard body composition, are considered to be within the HFZ. Data are not shown for schools with fewer than 5 students. From: California Department of Education, <http://www.cdc.ca.gov/ta/tg/pf/>.

FITNESSGRAM Physical Fitness Test Performance (School Year 2008/9)

Grade 5, Body Composition

% not in std, by school

In 2008/9, for San Diego County an Average of 29.3% of 5th Grade Students Were Not in the HFZ for Body Composition

*The FITNESSGRAM Physical Fitness Test (PFT) is given annually to all public school students in grades five, seven, and nine. The maps show results for 2 PFT standards administered during the 2008/9 school year: aerobic capacity and body composition. Data are shown by school, % of students not within the Healthy Fitness Zone (HFZ) and by SRA (average % of students not within the HFZ). Note: Students whose performance exceeds the standard, including those of lower than standard body composition, are considered to be within the HFZ. Data are not shown for schools with fewer than 5 students. From: California Department of Education, <http://www.cdc.ca.gov/ta/g/pf/>.

Demographics by census tract

Total Population: Total number of persons (residents) in an area, Source: San Diego Association of Governments (SANDAG), 2010 estimates,
<http://sandag.org/index.asp?fuseaction=home.home>.

Age Distribution, under 20y; 6y and older: Total number of persons (residents) in an area by age group, Source: San Diego Association of Governments (SANDAG), 2010 Estimates. <http://sandag.org/index.asp?fuseaction=home.home>.

Median Age: Divides the age distribution into two equal parts; half of all persons are older than the median and half are younger, 2008 estimates. Source: American Comm;unity Survey 2005-9 summary results, <http://www.census.gov/acs/www/>.

Family, Family with Children: Householder and one or more other people living in the same household who are related to the householder by birth, marriage, or adoption., “with or children” indicates children at home who are under the age of 18y. Source: American Comm;unity Survey 2005-9 summary results, <http://www.census.gov/acs/www/>.

Federal Poverty Level: Minimum annual income below which is considered poverty, 2000. Source: American Comm;unity Survey 2005-9 summary results, <http://www.census.gov/acs/www/>.

Income Percent of Poverty Level: The percentage of the Federal Poverty Level threshold that is met by the individual or family’s household income, according to family size and composition, 2000. Source: American Comm;unity Survey 2005-9 summary results, <http://www.census.gov/acs/www/>.

Median income: Divides income distribution into two equal parts; half of all persons are earn more than the median and half earn less than the median. San Diego Association of Governments (SANDAG), 2010 Estimates.
<http://sandag.org/index.asp?fuseaction=home.home>.

Dental Clinic, Low income

Clinics that provide low cost dental care as part of Oral Health Initiative & Share the Care program (2010). Source: County of San Diego Health and Human Services Agency, Share the Care, http://www.sharethecaredental.org/website/contact_us/index.html.

Family Resource Center

Family Resource Centers (2009), which provide access to self-sufficiency programs including Cash Assistance, CalWORKs, Food Stamps, Medi-Cal and General Relief to

citizens in need. Source: San Diego Geographic Information Source (SanGIS), http://www.sangis.org/Contact_Us.htm.

Farm Market

Farm markets that have been certified by the County of San Diego Farm Bureau (2010). Source: San Diego County Farm Bureau, <http://www.sdfarmbureau.org/index.php>.

Farm Stand

Farm stands and U-pick farms and orchards. Source: San Diego County Farm Bureau,(2011) <http://www.sdfarmbureau.org/index.php>.

Fire Station

Incorporated and unincorporated fire stations (2010). Source: San Diego Geographic Information Source (SanGIS), http://www.sangis.org/Contact_Us.htm.

FITNESSGRAM[®] Physical Fitness Test

By law (California *Education Code* Section 60800), all public school districts in California are required to administer the Physical Fitness Test (PFT) annually to all students in the 5th, 7th and 9th grades. The state-designated PFT is the FITNESSGRAM[®] developed by The Cooper Institute to evaluate health-related fitness.

The FITNESSGRAM[®] is composed of six fitness areas: aerobic capacity, body composition, abdominal strength/endurance, trunk extensor strength/flexibility, upper body strength/endurance, and flexibility, are assessed using objective fitness tests using criteria that have been shown to offer some protection against diseases associated with a lack of physical activity. These maps show data for two of the six areas, aerobic capacity and body composition.

The aerobic capacity fitness area refers to the maximum rate that oxygen can be taken into and used by the body during exercise. Body composition tests are used to estimate the level of body fat. The desired outcome for each test is that the student achieves the “Healthy Fitness Zone” (HFZ). Those students whose performance exceeds the goals (or fall below the HFZ for scores such as Body Composition) are also classed in the HFZ. A student who does not achieve the HFZ is “Not in the HFZ”. Source: California Department of Education at <http://www.cde.ca.gov/ta/tg/pf/>.

Results for the 2008/9 school year are presented by the percentage of students not within the standard of performance for each school. Data are not shown for schools with fewer than 5 students participating in the FITNESSGRAM[®]. At the sub-regional (SRA) level, data are presented as the average percent of students not within the HFZ.

Food Retailers

Categorized food retailers including grocery, warehouse, and produce stores, fast food, pizza, sandwich and convenience stores, restaurants and other vendors (2010). Source: California Department of Public Health, California Nutrition Network, <http://gis.cdph.ca.gov/cnn/viewer.aspx>.

Retail Food Environmental Index (RFEI)

The Retail Food Environment Index (RFEI) is a ratio comparing different types of food retailers in a community; it provides one measure of the access to healthy food choices in an area. A selected list of retail types from the Food Retailers and Farm Market spatial layers described above were used for the RFEI analysis. These selected retailers were chosen as the places most likely to be used regularly by residents to buy food (regardless of nutritional quality), such as markets and restaurants. The RFEI was calculated by dividing the sum of fast food, convenience, and other retailers with limited options for fruit, vegetable and other nutritious foods, by the sum of grocery, market/produce, warehouse stores, and sit-down restaurants likely to have a variety of nutritious food options.

The higher the RFEI, the more likely consumers will find more retailers with limited food options than retailers with abundant nutritious food options. Sources: Community-supported agriculture farms, farm, markets, and farm stand data from San Diego County Farm Bureau (2011), <http://www.sdfarmbureau.org/index.php>. Community garden data (2010) from San Diego Master Gardener Association, <http://www.mastergardenerssandiego.org/community/index.php>.
