

Valley Center Community Trails and Pathways Plan

Trails: The Community Connection

The Community Trails Master Plan will be utilized to develop a system of interconnected regional and community trails and pathways. These trails and pathways are intended to address an established public need for recreation and transportation, but will also provide health and quality of life benefits associated with hiking, biking, and horseback riding throughout the County’s biologically diverse environments.

Community trails serve a different function than regional trails, which are focused on the provision of long linear distances. Instead, community trails are “local public facilities” in close proximity to residents that provide transportation, recreation, access, infrastructure, linkages and safe routes throughout a community. The Community Trails Master Plan (CTMP) involves both trail development and management on public, semi-public and private lands. The CTMP has established two forms of non-motorized facilities called “Trails” and “Pathways” that provide passive recreational and alternative modes of transportation.

Trails are typically away from vehicular roads that are primarily recreational in nature but can also serve as an alternative mode of transportation. They are soft-surface facilities for single or multiple uses by pedestrians, equestrians, and mountain bicyclists.

Pathways are a non-motorized transportation facility located within a parkway or road right of way. A riding and hiking trail located in the road right of way is considered a pathway. They are soft-surfaced facilities intended to serve both circulation and recreation purposes. Pathways help make critical connections and are an integral part of a functional trail system.

COMMUNITY TRAIL STATEMENT

A primary goal of the community is to establish a comprehensive community trail and pathway system for non-motorized, multi-modal travel and recreation within the Valley Center Community Planning Area that provides connectivity to the Village Core, to public facilities such as schools and

parks, to adjacent communities, and to regional trails.

Within Hellhole Canyon Open Space Preserve, there are approximately fourteen miles of trails currently in use. Hellhole Canyon is not in the Valley Center Community Park and Recreation District boundaries. Outside of Hellhole Canyon, there are no existing trails in Valley Center; however, there are numerous offers of dedication and I.O.D.s (Irrevocable Offers of Dedication) for trail easements at various locations throughout the planning area. These IODs are not connected and are short pieces of trail dedications all over Valley Center with no continuity and are generally not useable

The Valley Center Trails Association (VCTA) is an independent non-profit organization that works in coordination with the Valley Center Parks and Recreation District (VCPRD) to promote the provision of trails in the planning area. In May 2000, the Valley Center Community Planning Group approved a draft trail plan, based on public rights-of-way that are intended to be incorporated into the Community Trails Master Plan. Refer to the Valley Center Community Trails map for specific details.

Current plans for Valley Center trails include:

- Valley Center Road improvement Phases I and II will include pathways, including a 2.5-mile “Heritage Trail” from Woods Valley Road to Cole

Grade Road. A one-mile stretch from Old Road to Miller Road will be “enhanced” to a “Type D Special” pathway, with an eight-foot wide, four-inch decomposed granite base and lodge pole pine railings on both sides. In some places the pathway will meander away from the road, including a portion through the Parks and Recreation District’s 9 1/2-acre parcel at the corner of Valley Center and Lilac Roads. There it will meander through a beautiful Oak and boulder grove. The construction of this trail is underway and scheduled to be completed in November 2008.

- An important aspect of the Community trail plan is developing a connection to Daley Ranch in the City of Escondido.
- A branch off the Heritage Trail generally following Keyes Creek, through Keyes Creek Canyon to provide a real “trail” experience and connect the village centers with the trails proposed for the Lilac Ranch Project.
- Another branch off the Heritage Trail northeasterly through the proposed project at the northeast corner of Valley Center and Miller Roads generally following the swale through that proposed project and the “shopping enter” site to Cole Grade Road; with a potential branch off that northerly behind the Community Church project to connect to proposed trails at the Library and again out to Cole Grade Road.

THE NEED FOR TRAILS

The community trail needs are based on an equation established by the Trails System Assessment (TSA) in 2001, which identified a minimum baseline level of service for each community by population. The Baseline Level of Service or Trail Need is 0.8 miles of trail per 1,000 people.

The “Trail Need” is the minimum length of trail miles (baseline level of service) for each Community and Subregional Plan Area. The TSA calculations for community trail needs are as follows:

- **Trail Need** = (Community Population /1,000 residents x 0.8 miles of trails)
- **2000 Trail Need** = (2000 population /1,000 residents x 0.8 miles of trails)
- **2020 Trail Need** = (2020 population /1,000 residents x 0.8 miles of trails)

Population statistics from the 2000 U.S. Census were used to determine the current trail needs in Valley Center. Based on the census, the population of the Valley Center Community Plan Area is 15,653 and there is a current need for 13 miles of community trails. In the year 2020, the population is projected to increase to 40,680 and there would be a future need for 33 miles of community trails.

For additional information about the baseline level of service and trail needs, please refer to the discussion under “**The**

Need for Trails” and **Tables NT-1 and NT-2** in the CTMP.

COUNTYWIDE TRAIL GOALS AND POLICIES

The “**Countywide Goals and Policies**” contained in the CTMP apply to all community and sub-regional plan areas. Community-specific goals and policies are intended to accommodate specific needs and they will be implemented when feasible.

The Valley Center Community Planning Group developed Community Specific Goals and Policies for their community trails plan. The abbreviations are as follows:

SG = Community Specific Goal
SP = Community Specific Policy

Goal: SG 1

The establishment of a comprehensive community trail and pathway system for non-motorized, multi-modal travel and recreation within the Valley Center Community Planning Area that provides connectivity to the Village Core, to public facilities such as schools and parks, to adjacent communities, and to regional trails.

Goal: SG 2

Pathways may form the backbone of the community trail system, and should be coordinated with local trails in order to provide connectivity.

Goal: SG 3

Pathways should be considered when critical staging areas or trails systems cannot use a conventional trail, and should be located along important local roads where feasible.

Goal: SG 4

For new road construction, all Valley Center pathways shall be Type D Special as per the Valley Center Design Guidelines and will be constructed on one side of the road. The non-pathway side right-of-way may be reduced to accommodate the minimum 15 feet of pathway right-of-way required.

Policy: SP 1

On existing roads, new priority 1 pathways will have fencing or barriers between the traveled portion of the road and the pathway in cases where parkway widths are 15 feet or greater.

Policy: SP 2

For new road construction, all Valley Center pathways shall be Type D Special as per the Valley Center Design Guidelines and will be constructed on one side of the road. The non-pathway side right-of-way may be reduced to accommodate the minimum 15 feet of pathway right-of-way required.

Where Community-specific goals and policies are not addressed, the “**Countywide Goals and Policies**” contained in CTMP shall apply.

DESIGN AND CONSTRUCTION GUIDELINES

Countywide trail guidelines in the Community Trails Master Plan apply to all community and sub-regional plan areas. Community-specific guidelines are intended to accommodate specific community needs and they will be implemented when feasible. Where Community specific guidelines are not addressed, the Countywide “**Design and Construction Guidelines**” contained in the CTMP shall apply.

VALLEY CENTER COMMUNITY TRAIL IMPLEMENTATION INFORMATION

The Valley Center Community Services District currently operates various park facilities within the Valley Center Community. The district has expressed an interest in partnering with the County, through future written agreements, for the construction and maintenance of community trails and pathways. This partnership could also facilitate grant applications and trail easement dedications.

The Valley Center Community Planning Group developed implementation strategies for their community trails plan. The abbreviation is as follows:

SIS = Community Specific
Implementation Strategies

Implementation Strategy: SIS 1

Community will encourage funding mechanisms to supplement County resources for the acquisition, construction, maintenance, and operation of community trails and **Type D Special** pathways".

Implementation Strategy: SIS 2

Establish funding mechanisms for the acquisition, construction, maintenance, and operation of community trails and pathways.

Implementation Strategy: SIS 3

Community will encourage and support school districts and other public entities to obtain additional funding sources in order to acquire and construct trails and pathways.

Implementation Strategy: SIS 4

Community will support the active participation of trail advocacy groups and other volunteer organizations in fundraising for trails acquisition, construction, maintenance and operations.

Implementation Strategy: SIS 5

Encourage a partnership between San Diego County and the Valley Center Parks and Recreation District in order to facilitate grant applications and trail easement dedications.

Implementation Strategy: SIS 6

Coordinate with land trusts, open space preserve organizations, and private developers

in order to acquire sufficient land to meet the county's community trails goal.

Implementation Strategy: SIS 7

Support the County in minimizing public right-of-way infringements.

VALLEY CENTER COMMUNITY TRAILS MAP SUMMARY

As a result of the community trails outreach process for development of the CTMP, the Valley Center Community Planning Group completed several tasks, and prioritized community trails and pathways as well as their special features. Each trail and pathway was labeled and recorded producing a community trails map and index.

Proposed trails shown on trails maps contained in the Community Trail Master Plan depict corridors of general alignments. The term "general alignment" is used to describe the general location of a future trail within a designated corridor so that the specific alignment can be determined during the review and approval process when a discretionary application is submitted for a development permit for land that includes a trail corridor. The designated corridor is approximately one-quarter mile wide. A general alignment is useful because it allows the trail to be located to avoid extreme topographical conditions, sensitive habitat or other site-specific constraints.

VALLEY CENTER COMMUNITY TRAILS MAP INDEX

The following community trails map index was completed by the Valley Center Community Planning Group and will be used as a reference tool. Neighboring communities are italicized and where trail or pathway connections exist, the community trail name and number are noted.

STAGING AREAS

- Valley Center Community Center, Lilac Road and Valley Center Road
- Keyes Creek, Canyon Road and Valley Center Road
- Aerie Park, off Betsworth Road
- Lilac Ranch, Running Creek Road and Lilac Road
- Sundance Ranch, Rabbitt Run off Coyote Run
- Segal Ranch, off Cole Grade Lane
- Emerald City, Yellow Brick Road and Callejo Feliz Drive
- Bell Gardens, on Cole Grade Road
- Martin Gang Elementary School, Cole Grade Road and Fruitvale Road
- Valley Center High School, on Willow Glen Road
- Valley Center Middle School, on North Lake Wohlford Road

COUNTY TRAILS PROGRAM
COMMUNITY TRAILS MASTER PLAN

- Lilac School, on Lilac Road
- Mirar de Valle, near Frace Lane
- Lancaster Mountain, West Lilac Road and Lancaster Mountain Road
- Circle R, Old Highway 395 and Circle R Road
- San Pasqual, on Canal Road at east border of San Pasqual Reservation
- North Canal Road, at junction with South Canal Road and Canal Road on San Pasqual Reservation
- Paradise Mountain Road east of South Canal Road
