

Comment Letter O7

San Diego County Archaeological Society, Inc.

Environmental Review Committee

17 May 2015

To: Ms. Ashley Gungle
 Department of Planning and Development Services
 County of San Diego
 5510 Overland Avenue, Suite 310
 San Diego, California 92123

Subject: Draft Environmental Impact Report
 Jacumba Solar Major Use Permit
 PDS 2014-MUP-14-041, PDS2014-ER-14-22-001

Dear Ms. Gungle:

I have reviewed the cultural resources aspects of the subject DEIR on behalf of this committee of the San Diego County Archaeological Society.

Based on the information contained the DEIR and its cultural resources appendix, we have the following comments:

1. Mitigation Measure M-CR-2 appropriately calls for installation of temporary fencing. The excavations involved in the fence installation should be monitored by archaeological and Native American monitors, to ensure the fence protects all subsurface resources.
2. Other than the above, we agree with the mitigation measures as proposed.

SDCAS appreciates the opportunity to participate in the public review of this DEIR.

Sincerely,

James W. Royle, Jr.
 James W. Royle, Jr., Chairperson
 Environmental Review Committee

Response to Comment Letter O7

San Diego County Archaeological Society, Inc.

James W. Royle, Jr., Chairperson

May 17, 2015

O7-1

The County acknowledges receipt of the San Diego County Archaeological Society's input and appreciates their comments regarding the potential impacts to cultural resources associated with implementation of the project. The commenter requests that during the installation of the temporary fencing for the protection of cultural resources that an archaeological and Native American be present. The environmental document (Mitigation Measure M-CR-2) has been revised to include both an Archaeological and Kumeyaay Native American monitor during the installation of temporary fencing for the protection of cultural resources.
