The Imperial Valley Desert Museum is actively interpreting the roasting pits found during the recent EcoSubstation archaeology project done in Jacumba. Below you will find several images of the new permanent exhibit we have built using mitigation funds from the Jacumba EcoSubstation project as a sample of the work the Museum is doing.

If you have further questions, please do not hesitate to contact the museum at jvdmuseum@gmail.com or 760-358-7016.
