

COUNTY OF SAN DIEGO CEQA CONSULTANT LIST SUPPLEMENTAL QUESTIONS

Responses to the following two supplemental questions are required with new consultant applications (not required for renewal applications). Responses should be typed and be a minimum of one page in length and a maximum of two pages.

Question #1:

Describe the experience and knowledge that demonstrates you meet the minimum qualifications of the relevant subject area. Minimum qualifications for each subject area can be found at this [link](#). Provide specific detail on the specialized technical knowledge and expertise that makes you qualified to prepare technical environmental documents. The response should include a discussion of the requirements of relevant codes, regulations, and laws that pertain to the specific subject area.

Question #2:

Describe your approach to ensuring a project stays on schedule and that requests for information and studies are completed in a timely manner. What challenges have you faced on past projects with regard to meeting timelines? Discuss the role of the consultant in ensuring timelines are met. Indicate your availability for meetings with lead agency staff. The response should include an example of how you worked through an issue of meeting timeliness on a previous project to respond to this question.
