	<b>Comment</b>	<b>Response to Comment</b>
<b>G -1</b>	Living in the San Diego Mountains is a privilege I greatly respect. I have lived here for 23 years and each day I am grateful to be part of this beautiful landscape. I am a native southern Californian, but as we know California has grown so much my hometown of Yorba Linda is unrecognizable from my childhood memories. These mountains are a “land stand” for natural Southern Calif. A precious jewel. Please keep them this way. Please support all low density issues.	The County acknowledges this comment, which supports the placement of low densities under this GPA. County staff is recommending the placement of low-density, rural lands designations in remote areas. However, staff is also recommending semi-rural, village and commercial designations in some areas based on the community development model in the General Plan. The County Board of Supervisors has the approval authority for the proposed project and will consider all information in the Final EIR and related documents before making a decision on the project.
