Subject: 2810 Ribbonwood rd lake

This was my lake 3 years ago. I have been told that all the kids used to swim in my lake as far back as 20 years. It's empty and has been for at least 3 years. Where's the water. Are we in a drought? Hope my wells are not next that is if the Soitec Rugged project is approved. Who will re-drill my wells? San Diego county or will it be Soitec?

I23-1

Wayne

I23-1

Based on the environmental evaluation, it has been determined that the Proposed Project would not have significant adverse effects related to groundwater. These issues were discussed in Section 3.1.5.3, Groundwater Resources, of the Draft Program Environmental Impact Report (DPEIR); see also common response WR1 and WR2. The information in this comment will be provided in the Final Program Environmental Impact Report for review and consideration by the decision makers.
