- We just saw these papers to respond!! (After your deadline)
- We own 2 beautiful home directly across the street from this project - 50 feet away - at (1) 880 Tierra del Sol and (2) 686 Tierra del Sol (brown wood fence) (white fence)

• We are directly, negatively impacted and we are not receiving this critically important information.

(4) How can the county approve projects like this
in residential areas?

This will create electricity to send to the city.
We don't want it. They are ugly to look at;
create too much heat, lower our precious
ground water, and will ruin and destroy our
property values. Put these in the city where the

(When add below pages as needed)
electricity is used - on rooftops,
on top of parking structures,
on buildings.
