**Subject:** Ruggd Project

Mr Brown,

What would it take to buy you out of all the purchase options and agreements that Soitec made with all the land owners in the Rugged Solar Project area. I know its all about the buck not whats best for us. In a meeting that you and I had you made the comment that the property your wanting to put Solar on is not the most desirable land. I feel your only building because of the property owners are willing to sell. I know other Solar company reps that have said they don't think Soitec can pull it off. Can you ? We would like to buy the property and give it to someone who cares about us, such as a entity that would turn it into something that would never let industry build here.

Imperial Valley needs you the farmers want you. Valley beef closed its doors. The result is the lose of 118 jobs. They need you. The only thing that Boulevard will get out of this Is that we can pay SDGE for the power you produce. You tell me what you think would make us whole. My bill is about 500 a month as of today. We have to pay you for all the bad things that come from the projects.

I61-1
