PROJECT NAME: CLARIFICATION OF TULE WIND PROJECT MAJOR USE PERMIT; RECORD ID: PDS2009-3300-09-019; APN: NUMEROUS; TRUST ACCOUNT NO.: 12-D-05-0061030

Dear Ms. McDonald:

Planning and Development Services (PDS) has received your request to clarify the scope of the approvals granted to the Tule Wind Project with respect to the generation tie line from the proposed on-site collector substation to the proposed rebuilt Boulevard Substation.

On August 8, 2012, the County Board of Supervisors granted Major Use Permit (MUP) (PDS2009-3300-09-019) for the Tule Wind Project, made findings, and imposed requirements and conditions as described in the MUP decision. The granting paragraph of the MUP decision provides a general description of the approved project and indicates that the MUP approval consists of 28 sheets including plot plans and elevations dated April 17, 2012 (and revised August 15, 2012 to reflect the Board of Supervisors' action).

Therefore, the MUP approval includes the improvements shown on the approved plot plans and elevations dated April 17, 2012 (and revised August 15, 2012 to reflect the Board of Supervisors' action).

If any projects propose to rely on or use any of the facilities granted by the MUP, an explanation of the facilities will need to be provided in the proposed project description and discussed in the environmental document.

If you have any questions, please contact Mark Slovick at (858) 495-5172 or by e-mail at Mark.Slovick@sdcounty.ca.gov.

Sincerely,

Mark Slovick, Project Manager
Project Planning Division
