Hi Kelly,

There is a link called "list of commenters" right below the link to Chapter 9. Within that, there are links to each of the responses to comments. Here is the direct link: <http://sdcounty.ca.gov/content/sdc/pds/ceqa/Soitec-Solar-EIRcommentletters.html>. From there, click on the Letter # you are looking for.

Please let me know if this addresses your concerns.

Thanks,

Ashley

Hi Mindy and Ashley,

Thank you very much for getting these documents posted. I'm hoping you can help me understand something about the documents. The currently posted FEIR chapter 9 seems to be incomplete: Section 9.3 (comment letters received and responses to individual comments) includes a list of commenters and charts related to water impacts, but otherwise does not respond to individual comments. However, the common responses in Section 9.2 do not appear to include all matters of environmental significance that were commented on. For example, the common response for Biological Resources (9.2.3) only addresses Golden Eagles.

Has the full FEIR chapter 9 been posted online?

Thanks again,

Kelly Fuller

Subject: update on FEIR

Donna/Kelly,

The technical studies took many hours to upload to the website and we had support staff working on it last night and this morning. We also discovered that some parts of the groundwater studies were missing so Ashley is trying to get those from Dudek as soon as possible. At this point, we may not be able to activate the website with the FEIR until Monday morning. I'm sorry for the delay.
