**Subject:** Soitec Solar Opposition

These comments are for the Soitec Solar FEIR hearings.

The open spaces of San Diego County are quickly disappearing due to development. The Boulevard area is a beautiful region that should not be destroyed by the approval of Soitec Solar's poorly sited, unnecessary projects. I want to go on the record in strong opposition to Soitec Solar's proposed Boulevard projects. I endorse the justified and well researched opposition to Soitec's projects by the Boulevard Planning Group and Backcountry Against Dumps. I support point of use rooftop solar as a better alternative.
