San Diego, CA 92127

**\*\* Extension \*\***

A Determination was issued by the Federal Aviation Administration (FAA) concerning:

Structure:	Solar Panel Soitec Solar Project and Gen-tie Line
Location:	Boulevard, CA
Latitude:	32-36-41.26N NAD 83
Longitude:	116-17-06.65W
Heights:	3580 feet site elevation (SE) 150 feet above ground level (AGL) 3730 feet above mean sea level (AMSL)

In response to your request for an extension of the effective period of the determination, the FAA has reviewed the aeronautical study in light of current aeronautical operations in the area of the structure and finds that no significant aeronautical changes have occurred which would alter the determination issued for this structure.

Accordingly, pursuant to the authority delegated to me, the effective period of the determination issued under the above cited aeronautical study number is hereby extended and will expire on 10/09/2016 unless otherwise extended, revised, or terminated by this office. You must adhere to all conditions identified in the original determination.

This extension issued in accordance with 49 U.S.C., Section 44718 and, if applicable, Title 14 of the Code of Federal Regulations, part 77, concerns the effect of the structure on the safe and efficient use of navigable airspace by aircraft and does not relieve the sponsor of compliance responsibilities relating to any law, ordinance, or regulation of any Federal, State, or local government body.

If we can be of further assistance, please contact our office at (310) 725-6557. On any future correspondence concerning this matter, please refer to Aeronautical Study Number 2013-AWP-4951-OE.

**Additional information for ASN 2013-AWP-4951-OE**

ALL REQUIREMENTS AND CONDITIONS ON ORIGINAL AIRSPACE DETERMINATION REMAIN IN EFFECT.

## **Case Description for ASN 2013-AWP-4951-OE**

The project is four CPV solar farms (7,409 solar trackers). Trackers would not exceed 30 feet above grade. The overhead gen-tie alignment (6 miles total, 4.5 miles are overhead) would consist of 30-40 steel poles not to exceed 150 feet high. Cable span length would range from 500 ft to 1,400 ft.
