Subject: Lilac Hills Project

As a resident of Bonsall on West Lilac Road I would like to voice my opposition to this project. I feel the impact of the increased traffic alone on West Lilac Road is reason enough to deny approval of the project. I feel many cars that would be west bound toward highway 76 would be traveling along West Lilac Road all the way to highway 76. This will impact about 6 miles of winding country road that was not designed for that kind of traffic. PLEASE DO NOT APPROVE THIS PROJECT!!!!
ALAN MILLER

I61-1

I61-1 The County acknowledges this comment and the commenter's opposition to the project. The project will be required to improve West Lilac Road to accommodate anticipated traffic prior to recordation of the Final Map associated with the 929th EDU of the Lilac Hills Ranch Specific Plan. West Lilac Road Improvements between Old Highway 395 and Main Street would be required to meet the General Plan Mobility Element classification of 2.2C, subject to exceptions as approved by the County (M-TR-4). Refer to subchapter 2.3 and Appendix E of the FEIR for details on the analysis of impacts and proposed improvements along West Lilac Road. The analysis demonstrates that project impacts to West Lilac Road would be fully mitigated to below a level of significance. The comment will be included as part of the record and made available to the decision makers prior to a final decision on the proposed project.
