---

Dear planning commission,

I am writing in favor for the Lilac Hills Ranch project. My husband and I have a young family and hope to raise our boys in a great community that is built around a town center and has safe sidewalks and trails. It is difficult to find a community as well thought out and planned as this one, and I really desire to one day live in this place. We seek a neighborhood that supports our needs as well as our kids needs. We are unable to attend the meeting but hope that you will consider the view of young families looking for new, safe housing options that are local and do not force us to seek permanent residence elsewhere.
