All of our comments and letters opposing this disastrous project obviously means nothing to these pissants who know nothing of back country lifestyle here in the north county of San Diego. This is once again big money running the show at the county level. Shame on the staff and those forcing their hand for betraying our community which will have only dangerous and negative impact as a result of this. Why did they waste our time pretending that public opinion mattered? Back when this project snuck it's way onto the original working map after zoning had already been decided, Accretive was exposed and so was Bill Horn as cheaters and tragically it was allowed to creep back with BS as its cover.

Subject: Staff report on Lilac Hills Project

After reading the staff report document for Lilac hills I am sick at heart

and convinced that you who have done this work, seeing the scope of this devastating project and still recommend it to the supervisors is nothing short of selling out our beautiful San Diego back country to the greedy bastards (who don't live anywhere near here) whose only goal is obtaining entitlements to pass along profits to their investors. Just watch and see how the promises made by Accretive disappear. Shame on you!! The current residents of Valley Center will be forced to suffer as a result of your playing into the corruption.

Sincerely disappointed,
Ann Howard
